

REGISTER OF ARTICLES

8833-8852

138:1 Oct 62

8833	The metabolism of inhaled mercury vapor in the rat studied by isotope techniques. A. D. Hayes, A. Rothstein-----	1
8834	Metabolism of Cl ¹⁴ -iproniazid and Cl ¹⁴ -isocarboxazid in man. B. A. Koechlin, M. A. Schwartz, W. E. Oberhaensli-----	11
8835	The metabolic fate of carisoprodol in the dog. J. F. Douglas, B. J. Ludwig, A. Schlosser-----	21
8836	The enzymatic N-methylation of serotonin and other amines. J. Axelrod-----	28
8837	Fate of norepinephrine-H ³ in the isolated perfused rat heart. I. J. Kopin, G. Hertting, E. K. Gordon-----	34
8838	Kinetics of radiocaaffeine uptake and release in frog sartorius. C. P. Bianchi-----	41
8839	The quantitative evaluation of autonomic drugs on the isolated eye. W. T. Beaver, W. F. Riker-----	48
8840	Actions of inorganic ions and veratrine on asynchronous post-ganglionic discharge in sympathetic ganglia treated with di-isopropyl phosphorofluoridate (DFP). A. Komalahiranya, R. L. Volle-----	57
8841	Bimodal response of sympathetic ganglia to acetylcholine following eserine or repetitive preganglionic stimulation. C. Takeshige, R. L. Volle-----	66
8842	Protection against traumatic shock by guanethidine, bretylium and <u>beta</u> -TM 10. B. K. B. Lum, D. N. Calvert-----	74
8843	A pharmacological investigation of an ether of methyl epireserpate. W. E. Barrett, A. J. Plummer, R. A. Rutledge, R. Weiss-----	78
8844	The mechanism of uterine inhibitory action of relaxin-containing ovarian extracts. A. D. Rudzik, J. W. Miller-----	82
8845	The effect of altering the catecholamine content of the uterus on the rate of contractions and the sensitivity of the myometrium to relaxin. A. D. Rudzik, J. W. Miller-----	88
8846	Studies on mercurial diuresis: Renal excretion, acid stability and structure-activity relationships of organic mercurials. I. M. Weiner, R. I. Levy, G. H. Mudge-----	96
8847	Interactions between nalorphine and morphine in the decerebrate cat. W. R. Martin, A. J. Eisenman-----	113
8848	Amphetamine, arousal, and human vestibular nystagmus. W. E. Collins, R. H. Poe-----	120
8849	Cystic tubular nephropathy and decrease in testicular weight in rats following oral methoxychlor treatment. W. W. Tullner, J. H. Edgcomb-----	126
8850	Calcinosis induced by lead acetate. H. Selye, B. Tuchweber, G. Gabbianni-----	131

138:2 Nov 62

8851	The characterization of the hypertensive polypeptide substance A. E. J. Walaszek, R. D. Bunag, C. G. Huggins-----	139
8852	Effects of 5-hydroxytryptamine on the anaerobic metabolism and phosphorylase activity of lamellibranch gill. K. E. Moore, R. E. Gosselin-----	145

REGISTER OF ARTICLES

8853-8871

138:2 Nov 62

- 8853 The reaction of the isolated cat iris to serotonin. W. P. Koella, U. Schaeppi----- 154
- 8854 Action of indole alkylamines and amidines on the inferior mesenteric ganglion of the cat. L. Gyermek, E. Bindler----- 159
- 8855 The mode of secretion of catecholamines from the adrenal medulla. W. R. Burack, P. R. Draskoczy----- 165
- 8856 Modification by reserpine of the action of sympathomimetic amines in spinal cats; a classification of sympathomimetic amines. U. Trendelenburg, A. Muskus, W. W. Fleming, B. Gomez Alonso de la Sierra----- 170
- 8857 Effect of cocaine, denervation and decentralization on the response of the nictitating membrane to various sympathomimetic amines. U. Trendelenburg, A. Muskus, W. W. Fleming, B. Gomez Alonso de la Sierra----- 181
- 8858 On the mechanism of the norepinephrine release produced by alpha-methyl-meta-tyrosine. S. Udenfriend, P. Zaltzman-Nirenberg----- 194
- 8859 Effect of reserpine on body temperature regulation of the rat. R. E. Taylor, Jr., M. J. Fregly----- 200
- 8860 On the mechanism of pituitary-adrenal stimulation by reserpine. E. O. Westermann, R. P. Maickel, B. B. Brodie----- 208
- 8861 Protection against alkylphosphate intoxication by intracerebral injection of 1-methyl-2-formylpyridinium iodide oxime (2-PAM). H. S. Tong, J. L. Way----- 218
- 8862 Anticonvulsant activity of some carbonylureas. E. Soaje-Echague, R. K. S. Lim----- 224
- 8863 Morphine-induced hyperglycemia in the cat. H. L. Borison, B. R. Fishburn, N. K. Bhide, L. E. McCarthy----- 229
- 8864 Sodium salicylate effect on general anesthesia in rats. D. C. Bowman, E. D. Damgaard, D. B. Doemling----- 236
- 8865 Electromyographic changes in skeletal muscle due to tetanus toxin. V. G. Prabhu, Y. T. Oester----- 241
- 8866 The peripheral actions of oxotremorine, a metabolite of tremorine. A. K. Cho, W. L. Haslett, D. J. Jenden----- 249
- 8867 The metabolism of Cl¹⁴ 2-PAM in the isolated perfused rat liver. II. 2-O-conjugate pyridinium ion. J. L. Way----- 258
- 8868 The metabolism of Cl¹⁴ 2-PAM in the isolated perfused rat liver. J. L. Way----- 263
- 8869 The effect of acute and chronic administration of chlorpromazine on the I¹³¹ distribution in normal rats. R. Wiseman, Jr.----- 269
- 8870 Pharmacology of certain antimicrobial N¹, N⁵-substituted biguanides. G. R. Gale, A. M. Welch, J. B. Hynes----- 277

138:3 Dec 62

- 8871 Effect of epinephrine on cardiac rhythm in the miniature pig before and after coronary occlusion. M. M. Winbury, L. M. Hausler, N. A. Prioli, L. Zitowitz----- 287

REGISTER OF ARTICLES

8872-8889

138:3 Dec 62

- 8872 Studies on veratrum alkaloids. XXXV. The effect of veratramine on responses of spontaneously beating guinea-pig atrium preparations to epinephrine. D. F. Hawkins.----- 292
- 8873 Effect of pretreatment with reserpine and reserpine analogs on the response of isolated guinea-pig atria to tyramine. A. J. Muskus.----- 296
- 8874 The adrenergic nature of neurohumoral transmission in the cat nictitating membrane following treatment with reserpine. B. L. Mirkin, P. Cervoni.----- 301
- 8875 The effect of hydralazine on ganglionic transmission. S. B. Gertner, A. Romano.----- 309
- 8876 Curare-like activity of polypropylene glycol adducts. L. P. McCarty, M. B. Chenoweth.----- 315
- 8877 Effects of 2-PAM and succinylcholine on neuromuscular transmission in the frog. C. Edwards, K. Ikeda.----- 322
- 8878 Respiratory effects of diethyl ether in the cat. R. L. Katz, S. H. Ngai.----- 329
- 8879 Effect of brief restraint on the convulsive threshold of mice. E. A. Swinyard, N. Radhakrishnan, L. S. Goodman.----- 337
- 8880 Differentiation between the diuretic effect of pyrogen (piromen) and a preparation obtained from human urine. J. M. Little, E. A. Angell.----- 343
- 8881 Renal tubular excretion of dl-epinephrine-2-C¹⁴ in the chicken. B. Rennick, N. Yoss.----- 347
- 8882 Metabolism of norepinephrine-H³ released by tyramine and reserpine. I. J. Kopin, E. K. Gordon.----- 351
- 8883 A study of the factors affecting the aluminum oxide-trihydroxy-indole procedure for the analysis of catecholamines. A. H. Anton, D. F. Sayre.----- 360
- 8884 Radioautographic localization of norepinephrine-H³ in the tissues of mice. B. H. Marks, T. Samorajski, E. J. Webster.--- 376
- 8885 The competitive inhibition of the N-demethylation of butyamine by 2,4-dichloro-6-phenylphenoxyethylamine (DPEA). R. E. McMahon.----- 382
- 8886 The effect of phenothiazine derivatives on the disappearance of sulfobromophthalein from mouse plasma. E. T. Eckhardt, G. L. Plaa.----- 387
- 8887 Absorption, excretion and fate of prodilidine. J. H. Weikel, Jr., J. A. LaBudde.----- 392
- 8888 issue distribution studies of ionic and chelated ZN⁶⁵ in mice. F. Stand, B. Rosoff, G. L. Williams, H. Spencer.----- 399
- 8889 Anti-inflammatory, antipyretic and antinociceptive properties of N-(2,3-xylyl)anthranilic acid (mefenamic acid). C. V. Winder, J. Wax, L. Scotti, R. A. Scherrer, E. M. Jones, F. W. Short.----- 405

INDEX (8833-8889) Volume 138. October-December 1962.
