

CONTENTS

NUMBER 1, JANUARY, 1935

- I. The Cerebral Circulation. XXXIV. The Action of Narcotic Drugs on the Pial Vessels. By Jacob E. Finesinger and Stanley Cobb. 1
- II. The Respiratory Effects of Morphine, Codeine and Related Substances. III. The Effect of Morphine, Dihydromorphine, Dihydromorphinone (Dilaudid) and Dihydrocodeinone (Dico-did) on the Respiratory Activity of the Rabbit. By Charles I. Wright and Fleming A. Barbour. 34
- III. The Iodin Remission in Experimental "Exophthalmic Goiter" of Guinea Pigs. By Harry B. Friedgood. 46
- IV. Metabolic Activity of Compounds Related to Dinitrophenol. By M. L. Tainter, F. W. Bergstrom and W. C. Cutting. 58
- V. The Chemistry and Toxicity of Mussel Poison. By Hellmut Müller. 67
- VI. A Comparative Study of Cyclopropane and Ethylene with Reference to Body Saturation and Desaturation. By M. H. Seevers, S. F. De Fazio and S. M. Evans. 90
- VII. On the Elimination of Uric Acid from Rats' Liver by the Action of Phenylcinchoninic Acid (Cinchophen) and the Ethylester of Paramethylphenylcinchoninic Acid (Tolysin). By Otto Fürth and Emil Edel. 105
- VIII. Effect of Ergotamine Tartrate on the Cerebral Circulation of Man. By W. G. Lennox, E. L. Gibbs and F. A. Gibbs. 113
- IX. A Comparative Study of the Actions of Morphine and Dilaudid (Dihydromorphinone Hydrochloride) on the Intact Small Intestine of the Dog. By Charles M. Gruber and John T. Brundage. With the Occasional Assistance of Anthony DeNote and Raymond Heiligman. 120
- X. Studies on Barbiturates. Distribution of Barbiturates in the Brain. Remarks on the Publication of the Same Title by Koppanyi, Dille and Krop. By Ed. and Irmg. Keeser. 137

NUMBER 2, FEBRUARY, 1935

- XI. The Effect of Tribrom-ethanol (Avertin) on the Electrical Changes in the Human Heart. By W. R. M. Morton. 139
- XII. The Tension Output of Caffeinized Muscles. By G. Saslow and E. C. Webster. 142
- XIII. Effect of Morphine on the Oxygen Consumption of Brain Tissue in the Rat. By E. G. Gross and I. H. Pierce. 156
- XIV. Mechanism of Action of Strychnine on Respiration. By Janet Travell and Harry Gold. 169

XV. A Method for Testing Addiction, Tolerance and Abstinence in the Rat. Results of Its Application to Several Morphine Alkaloids. By C. K. Himmelsbach, G. H. Gerlach and E. J. Stanton.....	179
XVI. Bicarbonate Elimination Through the Salivary Glands Under Nervous and Chemical Stimulation. By H. H. McClanahan, Jr. and William R. Amberson	189
XVII. Anthelmintic Studies on Alkylhydroxybenzenes. I. Alkylpolyhydroxybenzenes. By P. D. Lamson, H. W. Brown and C. B. Ward.....	198
XVIII. Anthelmintic Studies on Alkylhydroxybenzenes. II. Ortho- and Para-N-Alkylphenols. By P. D. Lamson, H. W. Brown, R. W. Stoughton, P. D. Harwood, R. Baltzly and A. Bass.....	218
XIX. Anthelmintic Studies on Alkylhydroxybenzenes. III. 6-N-Alkyl-meta-cresols. By P. D. Lamson and H. W. Brown.....	227
XX. Anthelmintic Studies on Alkylhydroxybenzenes. IV. Isomerism in Polyalkylphenols. By P. D. Lamson, H. W. Brown, R. W. Stoughton, P. D. Harwood, R. Baltzly and A. Bass.....	234
XXI. Anthelmintic Studies on Alkylhydroxybenzenes. V. Phenols with Other than Normal Alkyl Side Chains. By Paul D. Lamson, Harold W. Brown, Roger W. Stoughton, Paul D. Harwood, Richard Baltzly and Allan D. Bass.....	239
NUMBER 3, MARCH, 1935	
XXII. Ether Anesthesia: Concentrations in the Inspired Air and in the Blood Required for Anesthesia, Loss of Reflexes and Death. By Benjamin H. Robbins.....	251
XXIII. The Oral Toxicity of 6-Alkyl-meta-cresols. By Harold W. Brown and Paul D. Lamson	264
XXIV. Splenic Derivatives and Erythrocytic Fragility. By M. M. Ellis, H. L. Motley and M. D. Ellis	273
XXV. The Cardiac Irregularities Produced by Ephedrine after Digitalis. By M. H. Seevers and W. J. Meek.....	295
XXVI. Comparative Effect of Caffeine per se and a Caffeine Beverage (Coffee) upon the Reaction Time in Normal Young Adults. By Ralph H. Cheney.....	304
XXVII. The Action of Beta- and Gamma-dinitrophenol and of the Mononitrophenols on Yeast Respiration. By John Field, 2nd, A. W. Martin and S. M. Field.....	314
XXVIII. The Intrapulmonic Absorption of Iodine. By Versa V. Cole, Robert H. Dunn and George M. Curtis.....	327
XXIX. Observations on the Effects of Dihydromorphinone-hydrochloride (Dilaudid) on Intestinal Activity of Unanesthetized Dogs. By J. B. Mitchell, Jr., and Ben K. Harned.....	331
XXX. The Quantitative Action of Acetylcholine and Histamine on the Guinea Pig Uterus. By Margaret Dorothy Webster.....	340

CONTENTS

V

- XXXI. The Action of Diuretics Injected into One Kidney of the Agglomerular Toadfish. By Raymond N. Bieter..... 347
- XXXII. Heat Regulation and Water Exchange. XIX. The Reversal of Febrile Liver Hydration with Amidopyrine Antipyresis. By Harry Sherman and Henry G. Barbour..... 350
- XXXIII. A New Experimental Approach to the Study of the Rôle of the Reticulo-endothelial System in the Cure of Trypanosomiasis. By Carl C. Pfeiffer and Arthur L. Tatum..... 358
- XXXIV. The Hyperglycemic Constituent of Posterior Lobe Pituitary Extract. By D. V. Holman and H. C. Ellsworth..... 377

NUMBER 4, APRIL, 1935

- XXXV. The Effect of Caffeine, Coffee and Decaffeinated Coffee upon Blood Pressure, Pulse Rate and Simple Reaction Time of Men of Various Ages. By Kathryn Horst and William L. Jenkins.. 385
- XXXVI. Acetanilid Poisoning. A Clinical and Experimental Study. By Sheldon Payne..... 401
- XXXVII. Comparison of the Effects of Potassium Iodide and of Diiodotyrosin upon Basal Metabolism. By Walter J. Siebert and Clair S. Linton..... 418
- XXXVIII. Studies of Morphine, Codeine and Their Derivatives. VIII. Monoacetyl- and Diacetylmorphine and Their Hydrogenated Derivatives. By Nathan B. Eddy and Homer A. Howes.... 430
- XXXIX. Narcotic Potency of Some Cyclic Acetals. By P. K. Knoefel.... 440
- XL. The Effects of Papaverine Hydrochloride and Dihydromorphinone Hydrochloride (Dilaudid) upon the Non-anesthetized Dog's Intestine Subjected to Different Internal Pressures. By Charles M. Gruber and John T. Brundage..... 445
- XLI. The Action of Local Anaesthetics on the Respiratory Apparatus. By E. Falkner Hill and A. D. MacDonald..... 454
- XLII. The Effect of Caffeine and Theobromine upon Digitalis Toxicity: An Experimental Study. By H. B. Haag and J. D. Woodley.. 465
- XLIII. Index..... 475

ILLUSTRATIONS

Ether and amytal. The constrictor effect on a pial artery in a cat caused by the removal of ether inhalation; the dilator effect of the intraperitoneal injection of amytal in the post-ether cat, and the further dilator effect of a second ether inhalation after the amytal (Chart 1).....	4
Chloroform. The dilator effect on a pial artery caused by the inhalation of chloroform in a post-ether cat (Chart 2).....	10
Small and large doses of morphine in two post-ether cats (Chart 3).....	14
Sodium luminal. The dilator effect on a pial artery caused by the intravenous injection of 70 mgm. of sodium luminal per kilogram in a post-ether cat (Chart 4).....	22
Avertin. The constrictor effect on a pial artery of the intraperitoneal injection of 120 mgm. of avertin per kilogram in a post-ether cat (Chart 5)...	26
Percentage change in the minute volume of the rabbits one hour after the injection (Fig. 1).....	38
— change in the minute volume of the rabbits while inhaling a carbon dioxide mixture one hour after the injection (Fig. 2).....	39
Continuous records of the oxygen consumption, respiratory rate and minute volume after subcutaneous injection of the hydrochloride salts of the drugs (Fig. 3).....	41
Behavior of the basal metabolic rate of guinea pigs injected daily with large and small doses of sodium iodid in addition to anterior pituitary extract (Fig. 1).....	49
Chemistry and toxicity of mussel poison (Fig. 1).....	79
— and toxicity of mussel poison (Fig. 2).....	80
— and toxicity of mussel poison (Fig. 3).....	82
— and toxicity of mussel poison (Fig. 4).....	83
Rates of destruction of mussel poison at 150° (Fig. 5).....	86
Curves of saturation and desaturation of the peritoneal and skin regions of the rabbit with cyclopropane (Fig. 1).....	96
— of saturation and desaturation of peritoneal and skin regions of the rabbit with ethylene (Fig. 2).....	98
— of saturation and desaturation of the peritoneal and skin regions of the dog with cyclopropane (Fig. 3).....	99
Derived saturation curves from figures 1, 2, 3 extended from crossmarks as theoretic saturation curves (Fig. 4).....	100
Effect of cerebral blood flow of intravenous injection of ergotamine tartrate (Fig. 1).....	117
Morphine and dilaudid on small intestine (Fig. 1).....	125
— and dilaudid on small intestine (Fig. 2).....	126
— and dilaudid on small intestine (Fig. 3).....	128
— and dilaudid on small intestine (Fig. 4).....	130

Morphine and dilaudid on small intestine (Fig. 5).....	134
Human electrocardiogram. Lead II (Fig. 1).....	140
Record of an experiment in which the matched muscles were treated identically (Fig. 1).....	146
— of experiment 54 (see table 2) (Fig. 2).....	146
Effect of morphine added to hashed rat brain tissue on the extra oxygen uptake due to added glucose (Fig. 1).....	159
— of morphine given subcutaneously to non-tolerant rats on the extra oxygen uptake due to added glucose (Fig. 2).....	160
— of morphine given subcutaneously to non-tolerant rats on the extra oxygen uptake due to added glucose (Fig. 3).....	161
— of morphine given subcutaneously to tolerant rats on the extra oxygen uptake due to added glucose (Fig. 4).....	163
Respiratory paralysis induced by vagal stimulation in a normal cat after 50 per cent M.L.D. of strychnine (Fig. 1).....	174
Group median responses (struggles per minute) of rats during the daily administration of morphine alkaloids and after permanent withdrawal (Fig. 1).....	183
Relation between salivary and arterial bicarbonate concentrations under chorda tympani and pilocarpine stimulation (Fig. 1).....	191
Anthelmintic studies on alkylhydroxybenzenes (Fig. 1).....	208
— studies on alkylhydroxybenzenes (Fig. 1).....	245
Diagram of apparatus for preparation of ether mixture (Fig. 1).....	252
Anesthetic and fatal concentrations of ether (Fig. 2).....	260
Toxicity of 6-alkyl-meta-cresols to white rats (Fig. 1).....	267
Amounts of 6-alkyl-meta-cresols fatal to 50 per cent of the rats (Fig. 2).....	267
Cubic centimeters of 6-hexyl-meta-cresol per kilogram of animal (Fig. 3).....	268
Effect of caffeine on reaction time (Fig. 1).....	310
— of caffeine on reaction time (Fig. 2).....	311
Graph showing rate of onset of stimulation or inhibition of yeast respiration by beta-DNP (Fig. 1).....	319
— showing the reversibility of the inhibition of yeast respiration by beta-DNP (Fig. 2).....	320
Dilaudid on intestinal activity (Fig. 1).....	335
Effects of initial injection of 1 mgm. of dilaudid per kilogram (Fig. 2).....	335
Continuation of figure 2 (one hour and twenty-five minutes later) (Fig. 3).....	336
Lowering of jejunal tone simultaneously with elevation of colonic tone (Fig. 4).....	336
Dilaudid on intestinal activity (Fig. 5).....	336
Composite diagram of the reaction of guinea pig uterus to different concentrations of histamine (Fig. 1).....	341
Logarithm of the histamine concentration plotted against the logarithm of the latent period (Fig. 2).....	342
Composite diagram of the reaction of the guinea pig uterus to acetylcholine (Fig. 3).....	343
Logarithm of the acetylcholine concentration plotted against the logarithm of the height of contraction for given times (Fig. 4).....	344
Typical charts of urine flow from toadfish receiving intravenous injections, as indicated, into a left parietal vein leading directly into the renal portal system of the left kidney (Fig. 1).....	348

Changes in body temperature and liver solids after Shiga vaccine and amidopyrine (Fig. 1)	353
“Disappearance time” and infectivity (<i>T. equiperdum</i> in rats) (Fig. 1)	361
Cure of trypanosomiasis (Fig. 2)	370
Hyperglycemia and pituitary extract (Fig. 1)	381
— and pituitary extract (Fig. 2)	382
Systolic and diastolic blood pressures and the pulse rate of men of various ages (Fig. 1)	398
Oxygen dissociation curves (Fig. 1)	410
Basal metabolism curves comparing effects of KI and diiodotyrosin (Figs. 1-5)	425
15-kgm. dog with Thiry-Vella loop of the jejunum (Fig. 1)	448
Effects of hydrochloride on intestine (Fig. 2)	449
— of hydrochloride on intestine (Fig. 3)	449
— of hydrochloride on intestine (Fig. 4)	452
Local anaesthetics on respiratory apparatus (Fig. 1)	458
Local anaesthetics on respiratory apparatus (Fig. 2)	459
Local anaesthetics on respiratory apparatus (Fig. 3)	461
