

CONTENTS

NUMBER 1, OCTOBER, 1916

- I. How Rapidly Does the Intact Thyroid Gland Elaborate its Specific Iodin Containing Hormone? By David Marine and J. M. Rogoff..... 1
- II. The Antagonism Between Atropin and Certain Central Emetics. By Cary Eggleston..... 11
- III. The Elimination of Strychnin by the Kidneys. By Robert A. Hatcher and Maurice I. Smith..... 27
- IV. A Contribution to the Pharmacology of *Aconitum heterophylloides*, *A. nagearum* and *A. napellus*. By Thomas R. Fraser..... 43
- V. Effect on Tadpoles of Feeding Thyroid Products Obtained by Alkaline Hydrolysis. By J. M. Rogoff and David Marine..... 57

NUMBER 2, NOVEMBER, 1916

- VI. On the Secretion of Lymph. By H. Yanagawa..... 75
- VII. Trichlor-tertiarybutyl Alcohol Anesthesia. By L. W. Rowe..... 107
- VIII. The Pharmacology of the Seminal Vesicles. By J. A. Waddell..... 113
- IX. Action of Opium Alkaloids on the Ducts of the Testis. By David I. Macht..... 121

NUMBER 3, DECEMBER, 1916

- X. The Rôle of the Liver in Acute Polycythaemia. IV. Further Observations on the Effect of Shutting off the Arterial Blood Supply to the Liver, the Reaction of the Normal Animal to Epinephrin and Removal of the Liver from the Circulation. By Paul D. Lamson..... 129
- XI. Can Adenine Acquire Antineuritic Properties. By Carl Voegtlin and George F. White..... 155
- XII. The Action of Strychnine on Certain Invertebrates. By A. R. Moore 167
- XIII. The Pharmacology of the Uterus Masculinus. By J. A. Waddell.... 171
- XIV. The Pharmacology of the Prostate. By J. A. Waddell..... 179
- XV. Observations of the Effects of Drugs on the Ileo-Colic Sphincter. By Mikizo Kuroda..... 187
- XVI. On the Pharmacology of the Ureter. III. Action of the Opium Alkaloids. By David I. Macht..... 197

NUMBER 4, JANUARY, 1917

- XVII. The Salicylates. IV. Salicylate in the Blood and Joint Fluid of Individuals Receiving Full Therapeutic Doses of the Drug. By R. W. Scott, T. W. Thoburn and P. J. Hanzlik..... 217
- XVIII. A New Time Marker. By C. C. Lieb..... 227

- XIX. A Contribution to the Pharmacology of Stovaine. By Maurice I. Smith and Robert A. Hatcher..... 231
- XX. The Elimination of Hexamethylenetetramine (Urotropin) as an Index of Renal Function. By K. George Falk and Kanematsu Sugiura..... 241

NUMBER 5, FEBRUARY, 1917

- XXI. The Salicylates. V. Excretion of Salicyl in the Urines of Rheumatic and Non-rheumatic Individuals. By P. J. Hanzlik, R. W. Scott and T. W. Thoburn..... 247
- XXII. The Fate of Iodin, Iodids, and Iodates in the Body. By Torald Sollmann..... 269

NUMBER 6, MARCH, 1917

- XXIII. The Effects of Strychnine, Cocaine and Quinine on the Vas Deferens. By J. A. Waddell..... 279
- XXIV. On the Pharmacology of the Ureter. IV. Action of Hydrastin, Hydrastinin Cotarnin, Emetin and Some Pyridin Derivatives, with a Further Analysis of the Opium Action. By David I. Macht..... 287
- XXV. A Device for Overcoming Clotting During Direct Blood Pressure Experiments. By W. H. MacCraken and I. Werness..... 305
- XXVI. Endermic Reactions. I. By Torald Sollmann and J. D. Pilcher.. 309
- XXVII. Scientific Proceedings of the American Society for Pharmacology and Experimental Therapeutics. Eighth Annual Meeting..... 341

NUMBER 7, APRIL, 1917

- XXVIII. The Action of Strychnine in Certain Types of Cardiac Irregularities. By Maurice I. Smith..... 365
- XXIX. Endermic Reactions. II. Urticaria by Amins and Aromatic and Urea Derivatives. By Torald Sollmann..... 391
- XXX. The Proportion in Which Adrenalin Distributes Itself Between Corpuscles and Serum in Relation to the Technique of Testing for Epinephrin in Blood. By G. N. Stewart and J. M. Rogoff..... 393
- XXXI. The Pharmacology of the Vagina. By J. A. Waddell..... 411

NUMBER 8, MAY, 1917

- XXXII. On the Pharmacology of the Ureter. V. Action of Nitrates and Nitrites. By David I. Macht..... 427
- XXXIII. The Action of Epinephrin and Ergotoxin upon Single, Physiologically Isolated Cells. By R. A. Spaeth and H. G. Barbour..... 431
- XXXIV. Effect of Alcohol on the Respiration and the Gaseous Metabolism in Man. By Harold Higgins..... 441
- XXXV. On the Comparative Effects of the Opium Alkaloids Individually and in Combination with Each Other on the Gall Bladder. By David I. Macht..... 473
- XXXVI. The Vascular Reactions in Experimental Acute Tartrate Nephritis. By Howard T. Karsner..... 483

CONTENTS

v

NUMBER 9, JUNE, 1917

XXXVII. The Action of Sodium Citrate on the Isolated Intestine. By William Salant and E. W. Schwartzze..... 497

XXXVIII. The Action of Succinate and its Hydroxy Derivatives on the Isolated Intestine. By William Salant, C. W. Mitchell and E. W. Schwartzze..... 511

XXXIX. The Production of Renal Changes by Oil of Chenopodium and Fatty Oils, and the Protective Action of Diet on the Kidneys. By William Salant and Robert Bengis..... 529

ILLUSTRATIONS

Times emetic dose of pilocarpin (Chart).....	14
Distended urinary bladder after administration of aconitum heterophylloid (Fig. 1).....	50
After 7 days feeding with iodine-free hyperplastic lamb thyroid, etc. (Fig. 1) ..	61
— 7 days feeding with iodine-free product "A," etc. (Fig. 2).....	61
— 7 days with ox thyroid, etc. (Fig. 3).....	62
— 7 days feeding with ox thyroid product "A," etc. (fig. 4).....	62
— 7 days feeding with sheep thyroid product "A," etc. (Fig. 5).....	63
Control experiment, etc. (Fig. 6).....	66
After 13 days feeding with ox thyroid product "B," etc. (Fig. 7).....	66
— 13 days feeding with sheep thyroid product "B," etc. (Fig. 8).....	67
— 13 days feeding with hyperplastic lamb thyroid product "B," etc. (Fig. 9).....	67
— 13 days feeding with hyperplastic lamb thyroid product "B," etc. (Fig. 10).....	68
— 13 days feeding with hyperplastic thyroid product "B," etc. (Fig. 11)	68
Seminal vesicle of guinea pig, suspended in Tyrode's solution (Fig. 1).....	115
— vesicle of rat, suspended in Ringer's solution (Fig. 2).....	116
— vesicle of guinea pig, suspended in Tyrode's solution (Fig. 3).....	117
— vesicle of guinea pig, suspended in Tyrode's solution (Fig. 4).....	117
— vesicle of guinea pig, suspended in Tyrode's solution (Fig. 5).....	118
— vesicle of rat, suspended in Ringer's solution (Fig. 6).....	118
Rabbit's vas deferens (Fig. 1).....	124
— vas deferens (Fig. 2).....	124
Ejaculatory duct of sheep (Fig. 3).....	124
Seminal vesicle of guinea pig (Fig. 4).....	125
— vesicle of guinea pig (Fig. 5).....	125
In this figure the normal animal, etc. (Fig. 1).....	149
— animal the stomach, intestine, etc. (Fig. 2).....	149
Animal cut in two transversely, etc. (Fig. 3).....	150
— cut transversely, etc. (Fig. 4).....	150
Two conditions in normal animal, etc. (Fig. 5).....	151
— in which the arterial blood supply to the liver has been shut off, etc. (Fig. 6).....	152
— in which the liver has been functionally removed, etc. (Fig. 7).....	152
Uterus masculinus of rabbit, suspended in Tyrode's solution (Fig. 1).....	172
— of rabbit, suspended in Tyrode's solution (Fig. 2).....	173
— of rabbit, suspended in Tyrode's solution (Fig. 3).....	175
— of rabbit, suspended in Tyrode's solution (Fig. 4).....	175
— of rabbit, suspended in Tyrode's solution (Fig. 5).....	176
— of rabbit, suspended in Tyrode's solution (Fig. 6).....	177
— of rabbit, suspended in Tyrode's solution (Fig. 7).....	177

Prostate of rabbit, suspended in Tyrode's solution (Fig. 1).....	182
— of cat, suspended in Tyrode's solution (Fig. 2).....	182
— of rat, suspended in Ringer's solution (Fig. 3).....	183
— of rabbit, suspended in Tyrode's solution (Fig. 4).....	183
— of rabbit, suspended in Tyrode's solution (Fig. 5).....	184
— of rabbit, suspended in Tyrode's solution (Fig. 6).....	184
— of cat, suspended in Tyrode's solution (Fig. 7).....	185
Cat (Fig. 1).....	188
