

INDEX

- Acetylcholine, modification of effects of, by intravenously injected true cholinesterase, 103
 receptors of visceral organs sensitive to, molecular structure favorable for stimulation or blockade of, 219
- Acheson, G. H., and Brown, B. B. Influence of procaine and some related compounds upon experimental auricular flutter in the dog, 200
- Acid-base equilibrium, effect of cyclopropane on, 62
 effect of ether on, 62
- Adrenergic blocking agents, effect of, on peripheral vascular system (topically applied), 50
- Alpen, E. L., Mandel, H. G., Rodwell, V. W., and Smith, P. K. Metabolism of C¹⁴ carboxyl salicylic acid in the dog and in man, 150
- Andem, M., and Haley, T. J. Effect of topically applied adrenergic blocking agents upon the peripheral vascular system, 50
- Anesthetics, general, effect of ether and cyclopropane on acid-base equilibrium, 62
 general, thiopental, acute tolerance to, 215
- Anticoagulants, comparison of Treburon with heparin, 156
- Antihistamines, action of, on cilia of trachea, 132
 action of, on histamine-induced phagocytosis by endothelial cells of skin capillaries, 237
 evaluation of, for use in auricular fibrillation, 250
- Artane, action of, on nicotine-induced tremors, 22
- Atchison, G. J., Spencer, H. J., McCollister, D. D., and Beamer, W. H. Absorption, distribution and elimination of radioactive carbon tetrachloride by monkeys upon exposure to low vapor concentrations, 112
- ATPase, effect of nitrites and nitrates on, 16
- Auricle, fibrillation of, produced by propylene glycol derivatives, 79
- Aurin tricarboxylic acid, protection against beryllium poisoning by, 88
- Baily, J., Smith, P. K., Tabor, C. W., and Freeman, M. V. Studies on the metabolism of para-aminobenzoic acid, 98
- Barbital, penetration into brain after physostigmine, 1
- Barbiturates, pentobarbital, inhibition by, of hyperglycemic response to methadone and morphine, 269
 physiological performance following hypnotic dose of, 55
 thiopental, acute tolerance to, 215
- Barnes, B. A., Bunker, J. P., Beecher, H. K., Briggs, B. D., and Brewster, W. R. Metabolic effects of anesthesia. II. A comparison of acid-base equilibrium in man and in dogs during ether and during cyclopropane anesthesia, 62
- Beamer, W. H., Atchison, G. J., Spencer, H. C., and McCollister, D. D. Absorption, distribution and elimination of radioactive carbon tetrachloride by monkeys upon exposure to low vapor concentrations, 112
- Beecher, H. K., Brazier, M. A. B., Mosteller, F., Tagiuri, R., and Goodnow, R. E. Physiological performance following a hypnotic dose of a barbiturate, 55
 —, Briggs, B. D., Brewster, W. R., Barnes, B. A., and Bunker, J. P. Metabolic effects of anesthesia. II. A comparison of acid-base equilibrium in man and in dogs during ether and during cyclopropane anesthesia, 62
- Benemid, toxicity of, 208
- Bennett, D. R., Chenoweth, M. B., Kandel, A., and Johnson, L. B. Factors influencing fluoroacetate poisoning. Practical treatment with glycerol monoacetate, 31
- Berlin, I., Rovenstine, E. A., Brodie, B. B., Mark, L. C., Kayden, H. J., Steele, J. M., and Cooper, J. R. Physiological disposition and cardiac effects of procaine amide, 5
- Bernstein, E., Papper, E. M., Brodie, B. B., Mark, L. C., and Lief, P. A. Acute tolerance to thiopental, 215

- Beryllium, poisoning, protection against, by aurin tricarboxylic acid, 88
studies on the mechanism of acute toxicity of, 165
- Beutner, R., Calesnick, B., and Smith, N. H. Combined action of cardiotoxic drugs: A study on the acute toxicity of combined quinidine, meperidine, pentobarbital, procaine and procaine amide, 138
- Beyer, K. H., McKinney, S. E., Peck, H. M., Bochey, J. M., Byham, B. B., and Schuchardt, G. S. Benemid, p-(di-n-propylsulfamyl)-benzoic acid: Toxicologic properties, 208
- Bezold effect, after 3-hydroxy-2-phenyl cinchoninic acid, 71
- Bochey, J. M., Byham, B. B., Schuchardt, G. S., Beyer, K. H., McKinney, S. E., and Peck, H. M. Benemid, p-(di-n-propylsulfamyl)-benzoic acid: Toxicologic properties, 208
- Bovet, D., and Longo, V. G. Action on nicotine-induced tremors of substances effective in Parkinsonism, 22
- Brain, alteration of permeability of, to anesthetics, 1
- Brazier, M. A. B., Mosteller, F., Tagiuri, R., Goodnow, R. E., and Beecher, H. K. Physiological performance following a hypnotic dose of a barbiturate, 55
- Brewster, W. R., Barnes, B. A., Bunker, J. P., Beecher, H. K., and Briggs, B. D. Metabolic effects of anesthesia. II. A comparison of acid-base equilibrium in man and in dogs during ether and during cyclopropane anesthesia, 62
- Briggs, B. D., Brewster, W. R., Barnes, B. A., Bunker, J. P., and Beecher, H. K. Metabolic effects of anesthesia. II. A comparison of acid-base equilibrium in man and in dogs during ether and during cyclopropane anesthesia, 62
- Brodie, B. B., Mark, L. C., Kayden, H. J., Steele, J. M., Cooper, J. R., Berlin, I., and Rovenstine, E. A. Physiological disposition and cardiac effects of procaine amide, 5

- Brown, B. B., and Acheson, G. H. Influence of procaine and some related compounds upon experimental auricular flutter in the dog, 200
- Bryant, H. H., Krantz, J. C., Jr., and Carr, C. J. Effect of nitrites and nitrates on arterial adenosine triphosphatase, 16
- Bunker, J. P., Beecher, H. K., Briggs, B. D., Brewster, W. R., and Barnes, B. A. Metabolic effects of anesthesia. II. A comparison of acid-base equilibrium in man and in dogs during ether and during cyclopropane anesthesia, 62
- Byham, B. B., Schuchardt, G. S., Beyer, K. H., McKinney, S. E., Peck, H. M., and Bochey, J. M. Benemid, p-(di-n-propylsulfamyl)-benzoic acid: Toxicologic properties, 208
- Calesnick, B., Smith, N. H., and Beutner, R. Combined action of cardiotoxic drugs: A study on the acute toxicity of combined quinidine, meperidine, pentobarbital, procaine and procaine amide, 138
- Carbon tetrachloride, absorption, distribution and elimination by monkeys exposed to low vapor concentration, 112
effect of administration of, on certain reactions of the liver in vitro, 94
radioactive, absorption, distribution and elimination of, 112
- Cardiac pharmacology, action of mercurial diuretics on effective refractory period, electrical excitability and conduction velocity in mammalian heart, 125
fibrillation, auricular, evaluation of anti-histamines for use in, 250
fibrillation, auricular, produced by propylene glycol derivatives, 79
influence of coronary flow on heart contraction, 145
influence of procaine and related compounds upon experimental auricular flutter, 200
procaine amide, 5
- Carr, C. J., Bryant, H. H., and Krantz, J. C., Jr. Effect of nitrites and nitrates on arterial adenosine triphosphatase, 16
