

INDEX

- Acetone, formation of, during metabolism of isopropyl alcohol, 427
- Acetylcholine, on clam heart, quaternary ammonium compounds as antagonists to, 232
- Acetylmethadol, alpha, actions and addiction liabilities in man, 458
isomers, analgesic activity and toxic effects in man, 210
- ACTH, effect of, on responses to general anesthetics, 358
- Addiction, alpha-acetylmethadols and, 458
to morphine, experiments with addicts and non-addicts, 498
- Adenosine nucleotides, determination in heart muscle, 178
- Adenosine triphosphate, determination in heart muscle, and importance of, 178
- Adrenal cortex, effect of anticonvulsants on weight of, 46
- Adrenergic blockade, produced by Regitine, 466
- Adrenocortical steroids, cortisone, effect of, on electroshock seizure threshold, 37
effect of, on responses to general anesthetics, 358
- Adrenocorticotrophic hormone, effect on brain excitability, and antagonism to cortisone, 27
- Alcohol, isopropyl, metabolism of, 427
- Alcohols, inactivation of luciferase by, 371
- Aluminum hydroxide gel, effect of, on intensity and duration of action of anticholinergic drugs, 96
- Amphetamine, isomers, on maze performance of white rats, comparison with other amines, 343
- Analgesia, evaluation of, in man, 109
- Anesthetics, general, effects of, on sympathetic ganglionic transmission, 400
general, isopropyl vinyl ether, 1
general, responses to, effect on, of cortisone, desoxycorticosterone, ACTH and diphenhydramine, 358
general, thiopental, role of body fat in limiting duration of action of, 421
local, see Procaine
- Angelica lactones, action of, on toxicity of digitoxin and barium, 203
- Antibiotics, effect on oxidation of aromatic amino acids by *Pseudomonas*, 246
- Anticholinergic drugs, effect of Amphojel on intensity and duration of action of, 96
- Anticholinesterases, comparative study of organic phosphate, 156
- Anticonvulsants, effect of several on brain excitability, 46
mephensin isomers as, 450
paramethadione and trimethadione, effects on anticonvulsant activity of, produced by liver injury and nephrectomy, 365
see Phenobarbital, Diphenylhydantoin
- Antihistamines, see Thephorin
- Arterenol, see Norepinephrine, 139
- Atropine, comparison with homatropine methylbromide, 166
effect of Amphojel on intensity and duration of action of, 96
- Aureomycin, effect on oxidation of aromatic amino acids by *Pseudomonas*, 246
- Aven, M. H., and Foldes, F. F. Hydrolysis of procaine and 2-chloroprocaine in spinal fluid, 259
—, and Foldes, F. F. Inhibition of the hydrolysis of procaine and 2-chloroprocaine in plasma by neostigmine and dimethyl carbamate of (2-hydroxy-5-phenylbenzyl) trimethylammonium bromide, 253
- Azide, influence of, on action of epinephrine on frog heart, 381
- Barbiturates, pentobarbital, action of, on carbohydrate metabolism of rat diaphragm, 74
see Pentobarbital
see Phenobarbital
see Thiopental
- Beck, I. T., and Boulding, J. E. Action of angelica lactones on the toxicity of digitoxin and on the cardiac irregularities produced by digitoxin and barium, 203
