INDEX

Acid-base, arginine as acid-forming salt, 54
Acetylcholine, responses to, affected by injected ChE, 501
responses to, correlation with esterase activity, 482
Adrenals, effect of aromatic acids on ascorbic acid content of, 172
Adrenergic blocking drugs, action of, on nicotine-induced tremors, 424
anti-ejaculatory effect of, 379
blockade of epinephrine and norepinephrine by Dibenamine congeners, 300
responses to sympathomimetic amines after Dibenamine blockade, 284
Aiman, R., and Riggs, D. S. 1-Arginine monohydrochloride as an acid-forming
salt, 54
Alkane-diamines, actions of, 332
Alles, G. A., Ellis, C. H., and Redemann, M. A. Comparative physiological ac-
tions of some alkane-diamines, 332
Alloxan, effect of, on liver DNA, 478
Ammonium ion, content of brain during convulsions, 197
Analgesic drugs, dithiénylbutenyl- and dithiénylbutylamines as, 385
see Dromoran
Anesthesia, spinal, cardiovascular stimulation and gut depression during, 141
Anesthetics, general, see Thiopental
Anthemlaminic, cyanine dye 715 as, 310, 315
Anticholinesterases, see Pyrophosphor-
amide
Anticonvulsants, assay by psychomotor seizure test and minimal electroshock thresh-
old test, 273
see Benzazoles, Carbinols, Hibicon, Prenderol
Antimalariais, 2,4-diamino-5-p-chlorophenyl-6-ethylpyrimidine, 61, 92
see Daraprim
Arginine, as acid-forming salt, 54
Arterenol, see Norepinephrine
Ascorbic acid, effect of aromatic acids on adrenal content of, 172
Auricular fibrillation, action of tryptamine-strophanthidin in, 225
Axelrod, J., and Reichenthal, J. Fate of caffeine in man and a method for its estimation in biological material, 519
BAL, protection by, of succinic dehydrogenase inhibition by mercurials, 325
Barbiturates, pentobarbital and thiopental, effects on voluntary muscle, 437
see Thiopental
Barclay, R. K., Peacock, W. C., and Karnofsky, D. A. Distribution and excre-	ion of radioactive thallium in the chick embryo, rat and man, 178
Bass, A. D., Diermeier, H. F., Di Stefano, H. S., and Cafuny, E. J. Effect of alloxan on liver desoxyribonucleic acid (DNA), 478
Bavley, A., see Pan, S. Y., 459
Baxter, J. H. Protective effect of thiouracil and Dibenamine against renal injury due to choline deficiency: influence of endocrine and autonomic systems, 394
Belford, J., see Woske, H., 134
Benzazoles, site of action in central nervous system, 356
Benzylcholine, responses to, affected by injected ChE, 501
responses to, correlation with esterase activity, 482
Berger, F. M. Analaptic action of 1-n-butylamino-3-p-toluidino-2-propanol in 
meplenesin paralysis, 250
Bieter, R. N., see O'Dell, T. B., 232
Brooks, C. McC., see Woske, H., 134
Brown, W. C., Schifman, D. O., Swinyard, E. A., and Goodman, L. S. Compara-
tive assay of antiepileptic drugs by “psychomotor” seizure test and mini-
nal electroshock threshold test, 273
Bryant, H., Felton, L. C., and Frieden, E. H. Effects of ovarian extracts upon activity of the guinea pig uterus in situ, 160
Burke, S. C., and Rubin, B. Absorption, distribution and excretion of isoniazid (Nydradiz) in the dog, 219
Butenylamines, dithienyl-, as analgesics, 385
Butylamines, dithienyl-, as analgesics, 385
Caffeine, fate of, in man, 519
method for estimation, 519
Cafuny, E. J., see Bass, A. D., 478
Cahen, R. L., Thomas J. M., and Tvede,
K. M. Nicotinolytic drugs. II. Action of adrenergic blocking agents on nicotine-induced tremors, 424
Carbinols, vinyl ethynyl, pharmacology of, 459
Cardiac glycosides, action of, on refractory period of heart tissues, 24
see Ouabain, Tryptamine strophanthinidin
Cardiac pharmacology, action of glycosides on refractory period of heart tissues, 24
behavior of tryptamine-strophanthinidin in man, 225
cardiovascular stimulation during high spinal anesthesia, 141
effect of procaine amide on excitability, refractoriness and conduction in mammalian heart, 134
Ouabain, seasonal variation in response to, 131
Chen, K. K., Henderson, F. G., and Robbins, E. B. Seasonal variation in response to ouabain, 131
—, see Otto, H. L., 225
Choline deficiency, renal lesions due to, protective effect of thiouracil and Dibenamine, 394
Choline esters, see individually
Cholinesterases, activity of, correlation with responses to choline esters, 482
injection of, effects of, 501
localization of histochemically, in nervous tissue, 37
see also Anticholinesterases
Clark, M. C., see Harned, B. K., 403
Coon, J. M., see DuBois, K. P., 464
Corpus luteum, extracts of, effect on uterine activity, 190
Cunningham, R. W., see Harned, B. K., 403
Curariiform agents, analytical method for, 188
Cyanine dye, 715, as anthelmintic, 310
715, toxicology, pathology, anthelmintic activity of, 315
Daraprim, pharmacology of, 92
Davidow, B., and Radomski, J. L. Isolation of an epoxide metabolite from fat tissues of dogs fed heptachlor, 230
—, and Radomski, J. L. Metabolite of heptachlor, its estimation, storage and toxicity, 266
DeBeer, E. J., see Dews, P. B., 1
Decamethonium, relation of paralyzing dose to frequency of stimulation, 165
Dehydrogenase, succinic, inhibition of, by Mercuhydrin, 325
DEP, site of action on central nervous system, 344
Diamines, alkanes, action of, 332
2,4 - Diamino - 5 - p - chlorophenyl - 6 - ethylpyrimidine, antimalarial, 61, 92
Dibenamine, action of, against nicotine-induced tremors, 424
protective effect in choline deficiency, 394
responses to sympathomimetic amines after, 284
Dibenzylamine, blockade of epinephrine and norepinephrine by, 300
Diermeier, H. F., see Bass, A. D., 478
Digitoxin, action of, on refractory period of heart tissues, 24
Di Stefano, H. S., see Bass, A. D., 478
Dithienylbutyramines, as analgesics, 385
Dithienylbutylamines, as analgesics, 385
Diuretics, mercurial, inhibition by, of succinic dehydrogenase, 325
Domino, E. F., and Minz, B. Effects of epinephrine and norepinephrine on electrically induced seizures, 204
see Funderburk, W. H., 356
Doull, J., see DuBois, K. P., 464
Dromoran, absorption and excretion, 241
derivatives of, actions and addiction liabilities, in man, 524
Eddy, N. B., and Leimbach, D. Synthetic analgesics. II. Dithienylbutyramine- and dithienylbutylamines, 385
Ejaculation, effect on, of sympathomimetic, gangliolytic and spasmytic drugs, 379
Electroshock, minimal threshold test, as assay for anticonvulsants, 273
Ellis, C. H., see Alles, G. A., 332
—, see Dews, P. B., 1
Epinephrine, blockade of, by Dibenzylamine, 300
