INDEX

Aboud, L. G., and Gerard, R. W. New group of cytochrome oxidase inhibitors, 261
Acetate, fluoro- and chloro-, actions of, on papillary muscle of cat, 393
Acetymethadol, analgesic power, "acute tolerance" to, 158
Adrenergic, effect on, of ouabain, 251
Adrenergic blocking drugs, comparison of, 144
reversal of epinephrine response by, in rabbit, 281
see Regitine
2-Aminobenzothiazoles, effect of, on EEG, 94
Ammonium chloride, potentiation by, of response to mercurial diuretics, bioassay, 481
Amphetamine, tachyphylaxis, cardiovascular responses in, 224
tachyphylaxis, reversal of depressor effects of TEA and DHE in, 233
Analgesic drugs, effects of, in combination, 336
interaction of, with cytochrome enzymes, 354
Analgesics, congeners of salicylamide as, 450
Anderson, H. H., see Way, E. L., 450
Anesthesia, general, with trifluoroethyl vinyl ether, 488
Anesthetics, see trifluoroethyl vinyl ether
Antibiotics, see Aureomycin
Anticholinergic drug, Antrenyl, 292
Anticoagulants, see Tromexan
Anticonvulsants, assay by electroshock and Metrazol, 168
see Mysoline
see Trimethadione
Antihistamines, as inhibitors of cytochrome oxidase, 261
Antihistaminics, in seasickness, evaluation, 69
Antimetabolites, see Antiserotonin
Antiserotonin, active when fed, 87
Antispasmodics, and intestinal motility, 61
Antitussives, evaluation of, method for, 217
Antrenyl, inhibition by, of ulcer formation and gastric acidity, 305
pharmacology of, 292
Arora, R. B. Studies on veratrum alkaloids.
XVII. The antiveratrinic action of the cardine glycosides and of bufotoxin, 26
Arterenol, see Norepinephrine
Arteries, responses to drugs of spiral cut, 129
ATP, and ATPase, actions on, of vasodilators, 385
Atropine, antagonism of, to barium in vivo, 61
Aureomycin, in serum, enhancement of, 442
Aven, M. H., see Foldes, F. F., 330
Bain, J. A., see Langemann, H., 274
see Wang, R. I. H., 349, 354
Banthine, see Methantheline
Barbital, production of, from N-methyl barbitral by demethylation, 474
Barbiturates, metabolic fate of Evipal, nor-evipal, 104
see Barbital, Metharbital, Thiopental, Hexobarbital
Barbituric acid, 5,5-diethyl-1-methyl, demethylation of, 474
Barium, antagonism to in vivo, of atropine, 61
Barrett, W. E., Rutledge, R., Plummer, A. J., and Yonkman, F. F. Inhibition of ulcer formation in the Shay rat and reduction of gastric acidity in dogs by Antrenyl, an anticholinergic agent, 305
see Plummer, A. J., 292
Beecher, H. K. Analgesic power and the question of "acute tolerance" to narcotics in man, 158
Bell, F. K., see Carr, C. J., 385
—, see Krantz, J. C., Jr., 488
Benadryl, see Diphenhydramine
Benodaine, as antagonist to return to sleep after awakening from barbiturate anesthesia, 362
Benson, W. M., and Stefko, P. L. Method for the evaluation of antitussive agents in the unanesthetized dog, 217
Benzazoles, effect on EEG, of 2-amino-benzothiazoles, 94
Benzohydryl ethers, substituted, as sedatives, 201
Beyer, K. H., see McManus, E. C., 384
Bhadrakom, S., see Furchgott, R., 129
Bile salts, see Dehydrocholate
Bioassay, of ammonium chloride and meraluride as diuretics, 481
Bisocoumacetate, ethyl, biotransformation of, 33
Bliss, E. L., see Goodman, L. S., 428
Bochev, J. M., see McManus, E. C., 364
Bradyhouse, M. F., see Carr, C. J., 385
Brodie, B. B., see Burns, J. J., 33
Brodie, D. C., see Way, E. L., 450
Brod, T. M., see Langemann, H., 274
Brown, W. C., see Goodman, L. S., 168, 428
Buffalin, antiveratrinic action of, 26
Burns, J. J., Weiner, M., Simson, G., and Brodie, B. B. Biotransformation of ethyl bisoumacetate (Tromexan) in man, rabbit and dog, 33
Bush, M. T., Butler, T. C., and Dickison, H. L. Metabolic fate of hexobarbital (Evipal) and of “nor-evipal”, 104
Butler, T. C. Quantitative studies of the demethylation of N-methyl barbital (Metharbil, Gemoinil), 474
C. Quantitative studies of the demethylation of trimethadione (Tridione), 11
Carbon dioxide, respiratory response to, effects on, of morphine and meperidine, 376
Cardiac glycosides, see Gitalin, 112
Cardiac pharmacology, action of vasodilators on enzymes of coronary arteries, 385
actions of FAC and ClAc on papillary muscle of cat, 393
antiveratrinic action of cardiac glycosides, 26
cardiovascular responses during amphetamine tachyphylaxis, 224
effects of ouabain on slices and mitochondria from heart and brain, 274
effects of sympathomimetic amines on heart contractile force, 177
influence of age on sensitivity of heart to ouabain, 32
see Coronary arteries
see Regitine
Carr, C. J., Bell, F. K., Bradyhouse, M. F., and Krantz, J. C., Jr. Effect of vasodilators upon the dephosphorylating enzymes of dogs’ coronary arteries, 385
—, see Krantz, J. C., Jr., 488
Chinn, H. I., Handford, S. W., Smith, P. K., Cone, T. E., Jr., Redmond, R. F., Maloney, J. V., and Smythe, C. McC. Evaluation of some drugs in seasickness, 60
Chloracetate, methyl, actions of, on cardiac muscle, 393
Citrate, accumulation of, relation to fluoracetate poisoning, 393
Cocaine, effects of chronic ingestion by rats under low oxygen tension, 80
Codeine, as antitussive, 217
Colechicine, effect of, on function of frog sartorius muscle, 186
Cone, T. E., Jr., see Chinn, H. I., 69
Coronary arteries, dilator action on, of two active drugs, 46
Cotton, M. deV., see Goldberg, L. I., 177
Cough, method for evaluating antitussives, 217
Curare-like drugs, see Isoquinolinium compounds, 317
Cytochrome enzymes, interaction with analgesics, 354
Cytochrome oxidase, effect on, in brain and liver, of chronic morphine, 349
inhibitors of, 261
Darby, T. D., see Goldberg, L. I., 177
Darstine, effect of, on gastric secretion, 246
see Mepiperphenidol
Davis, D. L., see Foldes, F. F., 330
Dehydrocholate, sodium, effect of, on oxygen uptake of tissues, 42
Dehydrogenase, malic, effect on, in brain and liver, of chronic morphine, 349
Demethylation, as route of metabolism of trimethadione, 11
Dickison, H. L., see Bush, M. T., 104
Dihydroergotamine, reversal of depressor effects of in amphetamine tachyphylaxis, 233
Dille, J. M., and West, T. C. Reversal of the depressor effects of tetraethylammonium ion and dihydroergotamine in the amphetamine tachyphylactic dog, 223
—, see Horita, A., 224
Diparcel, see Phenothiazine
Diphenhydramine, and related compounds, sedative action of, 201
Diphenylhydantoin, assay of anticonvulsant properties, 168
Diuretics, mercurial, derivatives of 2-methoxy propyleuca, 424
potentiating effect in man of NH$_{3}$.Cl on mercurials, 481
Dornbush, A. C., see Eisner, H. J., 442
Dragstedt, L. R., see McCarthy, J. D., 246
Downs, W. L., see Gosselin, R. E., 117
INDEX
