

INDEX

- Acetanilide, hydroxylation of, effect on, of ascorbic acid, 176
- Acetylcholine, and K ion transfer, reversal by anesthetics, 1
- effects of, on mechanical and electrical properties of rabbit auricle, 475
- increase in brain after DFP, 169
- inotropic response of frog heart to, influence of pentobarbital on, 161
- Acridone, 10-(2-dimethylaminopropyl)-9-acridone, convulsant properties and distribution, 210
- Adenosine, analogs, action of, on intestine and uterus, 335
- Adrenergic blockade, see Dibenzamine
- Adrenergic blocking agents, fate of Dibenzylamine, 21
- Aglycones, cardiac, pharmacology of a number of, 365
- Albumin, serum, interaction of barbiturates with, 197
- Alexander, J. T., see Nastuk, W. L., 302
- N-Allylnormorphine, see Nalorphine
- Aminoindoles, as antimetabolites to serotonin, 43
- Andromedotoxin, action, hypotensive, 454
- stimulation by, of carotid sinus mechanism, 454
- Anesthetic agents, action of, on auricular permeability to K ion, 1
- Anesthetics, general, ether, analgesia by, and description of first stage of anesthesia in man, 343
- local, action of hydroxylicocaine, 224
- Aniline, hydroxylation of, effect on, of ascorbic acid, 176
- Anoxia, effect of, on rabbit heart, 255
- Anticholinesterase action, relation to anticurare action, 30
- Anticonvulsants, determination and metabolism of Milontin, 413
- SKF 525-A on potency, duration of action, toxicity of, 54
- Anticurare action, of hydroxyphenyltri-alkylammoniums, 30
- Antimetabolites, see Indoles
- Antipyrine, hydroxylation of, effect on, of ascorbic acid, 176
- Aronow, L., see Brodie, B. B., 21
- Artane, see Trihexyphenidyl
- Arterenol, isopropyl-, optical isomers of, pharmacologic activity of, 469
- Artusio, J. F., Jr. Di-ethyl ether analgesia, a detailed description of the first stage of ether anesthesia in man, 343
- Asami, T., see Mannering, G. J., 142
- Ascorbic acid, effect of, on hydroxylation of compounds, 176
- Autonomic blockade, by quaternary ammonium derivatives of phenothiazine, 395
- Axelrod, J., Udenfriend, S., and Brodie, B. B. Ascorbic acid in aromatic hydroxylation. III. Effect of ascorbic acid on hydroxylation of acetanilide, aniline and antipyrine *in vivo*, 176
- , see Brodie, B. B., 21
- Bain, J. A., see Mayer, S. E., 210
- Baker, E. M., see Mannering, G. J., 142
- Baker, W. W. Influence of pentobarbital on the inotropic responses of the isolated frog heart to epinephrine and acetylcholine, 161
- Barbiturates, actions of, on voluntary muscle, 120
- interaction of, with serum albumin, 197
- phenobarbital, elimination, accumulation, tolerance, and method for determination, 425
- potentiation of hexobarbital action by SKF 525-A, 131
- secobarbital, effect on, of nalorphine, 409
- see Pentobarbital
- Belford, J., see Vivante, A., 436
- Benemid, see Probenecid
- Benzothiazole, 6-methyl-2-amino-, action of, on brain stem, 293
- Beyer, K. H., see Tillson, E. K., 385
- Bovet, D., see Longo, V. G., 349
- Brain activity, electrical, action on, of Parsidol, Artane, Panparnit, Largactil, 349
- Brain stem, action on, of interneuron depressants, 293
- Brodie, B. B. Fate of dibenzylamine in the body and the role of fat in its duration of action, 21
- , see Axelrod, J., 176
- Butler, T. C., Mahaffee, C., and Waddell, W. J. Phenobarbital: studies of elimina-

- tion, accumulation, tolerance, and dosage schedules, 425
- Cardiac pharmacology, action of enzyme inhibitors on rabbit auricle, 255
- cardiovascular responses to serotonin, species differences in, 84
- digitalis-like action of extracts of *ornithogalum umbellatum*, 147
- effects of acetylcholine on mechanical and electrical properties of rabbit auricle, 475
- K ion loss, relation of choline esters and anesthetics, 1
- 64 glycosides and aglycones, 365
- Carey, M. M., see Vollmer, E. P., 114
- Carotid sinus, effect on, of veratridine, 459
- stimulation of, by andromedotoxin, 454
- Chen, K. K., and Henderson, F. G. Pharmacology of sixty-four cardiac glycosides and aglycones, 365
- Chinn, H. I., see Handford, S. W., 447
- Chloral hydrate, evaluation of, as hypnotic, 9
- Chlorpromazine, action of, on EEG patterns, 349
- Choline esters, and K ion loss in auricles, 1
- Cholinesterase, facilitation of ganglionic transmission following inhibition of, 241
- importance of, in anticholinergic action, 30
- Clarke, D. A., see Mihich, E., 335
- Cochin, J., Haggart, J., Woods, L. A., and Seevers, M. H. Plasma levels, urinary and fecal excretion of morphine in non-tolerant and tolerant dogs, 74

- Cook, L., Toner, J. J., and Fellows, E. J. Effect of β -diethylaminoethyl-diphenyl-propylacetate hydrochloride (SKF No. 525-A) on hexobarbital, 131
- Cyanide, effect of, on rabbit heart, 255
- Decamethonium, action of, on lumbrical of rabbit, 229
- DFP, facilitation of ganglionic transmission following inhibition of cholinesterase by, 241
- increase in acetylcholine in brain after, 169
- Dibenamine, blockade of contractile responses of aortic strips by, 265
- differentiation of receptors in aortic strips with, 265
- Dibenzylamine, fate of, and role of fat in, 21
- Diethylbutanediol, convulsant action of, 182
- Diethylpropanediol, and butanediol homologue, 182
- Dill, W. A., see Glazko, A. J., 413
- Dinitrophenol, effect of, on rabbit heart, 255
- Diphenhydramine, effect of, on motion sickness, 447
- Diphenylhydantoin, SKF 525-A and, 54
- Diuretics, action of isocytosines, 285
- Dixon, A. C., see Mannering, G. J., 142
- Dormison, see Methylparafynol
- Dresel, P. E., see Slater, I. H., 182
- Emesis, produced by morphine, site of action, 329
- Epinephrine, inotropic response of frog heart to, influence of pentobarbital on, 161
