

INDEX

- Absorption of drugs from the stomach, 528, 540
- Acetanilide, gastric absorption of, 528
- Acetylcholine, auricular fibrillation by, 38
- derivatives, effect on cholinesterases of chick embryo, 285
- effect of pH and atropine on tissue response to, 408
- effect on cardiac ventricular conductions, 137
- effect on cholinesterases of chick embryo, 285
- potentiation by endrophonium, 215
- potentiation by neostigmine, 215
- potentiation by pyridostigmin, 215
- Acetylcholinesterase, inhibition of, at selective cellular sites *in vivo*, 488
- Acetyl- β -methylcholine, effect on cholinesterase content, 285
- Acetylsalicylic acid, gastric absorption of, in rats, 528
- Acids, organic, gastric absorption of, 528, 540
- Adenine and K transport in red cells, 9
- Adler, T. K., Elliott, H. W., and George, R. Some factors affecting the biological disposition of small doses of morphine in rats, 475
- Adrenal cortical hormones, effect on experimental polyarthritis, relation to aurothiomalate, 349
- Adrenal-pituitary activating agents, effect of CNS depressants on, 261
- Amethopterin, fluorometric determination of, 1
- Aminopyrine, gastric absorption of, in man, 540
- Amphetamine, effect on EEG, 160
- effect on pulmonary circulation, 512
- d*-Amphetamine, effects on judgment, 33
- Analgesics, screening method for, based on differential bar-pressing rates, 388
- Andromedotoxin, effect upon cardiac ventricular conduction, 137
- Anileridine, absorption and metabolism of, 447
- analgesic action and concentration in brain of, 447
- Aniline, gastric absorption of, 528
- Antagonism of tubocurarine, edrophonium, 215
- neostigmine, 215
- pyridostigmin, 215
- Anticholinergic agents, structure-activity relationship of, 46
- Anticholinesterase, action at selective cellular sites *in vivo*, 488
- treatment of poisoning by, 276
- Antipyrene, gastric absorption of, 528, 540
- Antiveratrinic response, 63
- Apnea, after succinylcholine, 203
- logarithmic distribution, 203
- Apomorphine-induced emesis, effect of phenothiazine derivatives on, 375
- Arthritis, experimental, effect of adrenal corticoids and aurothiomalate on, 349
- Aspirin, and pituitary-adrenal activation, 261
- Atropine, effect of on tissue response to serotonin and acetylcholine, 408
- Auricles, effect of metabolic inhibitors on frequency-force relationships in, 324
- frequency-force relationships in, 324
- Auricular fibrillation, after glucose and acetylcholine, 38
- after insulin and acetylcholine, 38
- Aurothioglucose, gold distribution and obesity after, 84
- Aviado, Domingo M., Jr., and Schmidt, Carl F. Effects of sympathomimetic drugs on pulmonary circulation: with special reference to a new pulmonary vasodilator, 512
- Avoidance behavior, and chlorpromazine, 379
- Azo dyes, enzymatic reduction of, 291
- Azo reductase, 291
- Baker, W. P., and Woods, L. A. Study in the dog of the renal clearance of morphine and the effect of morphine on *p*-aminohippurate clearance, 371
- Barbiturate oxidation, in various tissues, 75
- Barbiturates, effect on chemoreflexes, 399
- enzymatic oxidation of, 75
- gastric absorption of, in man, 540
- gastric absorption of, in rats, 528
- tolerance to, 469
- Bases, organic gastric absorption of, 528, 540
- Belleville, R. E., and Fraser, H. F. Tolerance to some effects of barbiturates, 469
- see Hill, H. E., 388

- Benforado, J. M. Studies on veratrum alkaloids XXVI. Comparison of the cardiac action of various tertiary amine ester alkaloids, 412
- Benzoylcholine, effect on cholinesterase content, 285
- Bioassay, for cardioactive principles based on staircase phenomenon, 90
- Bisquaternary hypotensive agents, 438
- Blood platelets, release of serotonin from, by reserpine, 334
- Bogdanski, D. F., see Mitoma, C., 188
see Udenfriend, S., 255
- BOL, effects of, on potentiated hexobarbital hypnosis, 20
- Borreson, R. E., see Ford, R. V., 247
- Brain, comparative distribution of morphine and nalorphine in dog, 58
- Brodie, B. B., see Carlsson, A., 334
see Cooper, J. R., 75
see Fouts, J. R., 291

- Busulfan, S³⁵-labeled, see Myleran, S³⁵-labeled
- Butyrylcholine, effect on cholinesterase content, 285
- Caffeine, gastric absorption of, 528
- Calcium, antagonism of, to curariform action of streptomycin, 452
- Cardiac active principle, bioassay of, 90
isolation of, from mammalian tissue, 99
- Carlsson, A., Shore, P. A., and Brodie, B. B. Release of serotonin from blood platelets by reserpine *in vitro*, 334
- Cations, effect upon cardiac ventricular conduction, 137
- Cations, transport in erythrocytes, 9
- Central nervous system, effects of ganglionic blocking agents, 147
- Cerletti, A., see Taeschler, M., 179
- Cevadine, cardiac action of, 412
- Chemoreflexes, effect of morphinan analogues on, 399
- Chick embryo, cholinesterase as affected by acetylcholine analogs, 285
- Chlorpromazine, antiemetic action of, 375
effect on avoidance behavior, 379
effect on pituitary-adrenal activation, 261
- Cholinesterase, and action of succinylcholine, 203
as affected by substrates, 285
human serum, 203
inhibition of, at selective cellular sites *in vivo*, 488
of chick embryo intestine, 285
- Cholinesterase inhibition, time course of action of neostigmine, pyridostigmin, and edrophonium, 215
- Cholinesterase inhibitors, treatment of poisoning by, 276
- Cholinolytic agents, structure-activity relationship of, 46
- CNS depressants, effect of, on pituitary-adrenal activating agents, 261
- Codeine, respiratory chemoreflex activity, 399
