CONTENTS OF VOLUME 145

NO. 1, JULY 1964

Development and Loss of Tolerance to Morphine in the Rat after Single and Multiple Injections. JOSEPH COCHIN AND CONAN KORNETSKY ........................................... 1

The Importance of Steric Configuration in Certain Morphinemimetic Actions of Synthetic Analgetics. ROBERT M. VEATCH, TERRINE K. ADLER AND E. LEWONG WATSON ........................................... 11

The Influence of Morphine on Glucose Utilization in Cerebral Preparations of Rats. A. E. TAKEMORI ........................................... 20

Comparison of New Analeptics in Barbiturate-Poisoned Animals. ALEXANDER POLAK AND FRED PLUM ........................................... 27

Effects of Diphenylhydantoin on the Duration of Respiratory Activity during Anoxia. JUNE G. NAIMAN AND HARRY L. WILLIAMS ........................................... 34

Actions of Asarone on Behavior, Stress, and Hyperpyrexia, and Its Interaction with Central Stimulants. P. C. DANDIYA AND M. K. MENON ........................................... 42

The Effect of Forced Exercise on Body Temperature and Amphetamine Toxicity. MERVYN G. HARDING AND DONALD I. PETERSON ........................................... 47

Studies of K⁺ Movement between the Blood and the Cerebrospinal Fluid of Cats. FLOYD R. DOMER AND MICHAEL WHITCOMB ........................................... 52

The Effect of Tranquilizers on the Contractile Response of Cerebral Arteries. WILLIAM ROSENBLUM AND BENJAMIN W. ZWEIFACH ........................................... 58

A Proposed Mechanism for the Depressor Effect of Dopamine in the Anesthetized Dog. JOHN NELSON EBLE ........................................... 64

Studies on the Cardiovascular Effects of Synthetic Eledoisin. JIRO NAKANO ........................................... 71

Mechanism of the Positive Inotropic Action of Purine Nucleosides in Isolated Atria. IRA ROSENBLUM AND A. A. STEIN ........................................... 78

The Effects of Adrenergic Blocking Agents and Theophylline on 3',5'-AMP Induced Hyperglycemia. GRETAJO NORTHROP AND R. E. PARKS, JR ........................................... 87

Carbon Tetrachloride Hepatotoxicity: The Direct Action of CCl₄ on the Liver. MURRAY HEIMBERG, MARY LOUISE WATKINS AND ROSLYN TOOKER ........................................... 92

Studies on the Absorption, Metabolism and Excretion of Methyldopa and Other Catechols and Their Influence on Amino Acid Transport in Rats. J. A. YOUNG AND K. D. G. EDWARDS ........................................... 102

Oxidation of Quinine by Rabbit Liver. SYLVAN M. SAX AND HARRY J. LYNCH ........................................... 113

Effects of Thyroidectomy and Thyroxine on the Renal Uptake of PAH and TEA. CARMELO G. NEPOMUCENO AND J. MAXWELL LITTLE ........................................... 130

NO. 2, AUGUST 1964

Studies on Epinephrine and 3',5'-AMP Induced Hyperglycemia Employing the Isolated Perfused Rat Liver Preparation. GRETAJO NORTHROP AND R. E. PARKS, JR ........................................... 135

The Action of Sympathomimetic Amines and Adrenergic Blocking Agents on Tissue Phosphorylase Activity. HANEM I. EL. S. ALI, ABILIO ANTONIO AND NIELS HAGAARD ........................................... 142

The Norepinephrine Stores of Isolated Atria of Guinea Pigs Pretreated with Reserpine. U. TREINDENBORG AND J. R. CROUT ........................................... 151

The Effects of Various Drugs on Calcium Exchange in the Isolated Guinea-Pig Left Auricle. ALBERT GROSSMAN AND ROBERT F. FURCHGOTT ........................................... 162

Similarities in the Ganglionic Actions of Calcium Ions and Atropine. CHIFUYU TAKE-SHIGE AND ROBERT L. VOLLE ........................................... 173

The Renal Vascular Response to Hemorrhage. JOHN C. MCGIFF ........................................... 181

Studies on the Rate of Runout of N-Methyl nicotinamide from Dog Renal Slices. A. PARAH AND M. FRAZER ........................................... 187
Hemolysis by Holothurin A, Digitonin, and Quillaia Saponin: Estimates of the Required Cellular Lysin Uptakes and Free Lysin Concentrations. C. D. Thron ................................................. 194
The Metabolism of Digoxin in Normal Subjects. Frank I. Marcus, Govind J. Kapadia and Geeta G. Kapadia .............................................................. 203
Intracellular Distribution of Digoxin-H in the Hearts of Rats and Dogs Demonstrated by Autoradiography and Its Relationship to Changes in Myocardial Contractile Force. Loyal L. Conrad and Donald J. Baxter .................................................. 210
The Uptake of Thallium by Rabbit Erythrocytes. P. J. Gehring and P. B. Hammond .......................................................... 215
The Relative Activity of Lathyrogenic Agents Examined in Organ Cultures of Embryonic Chick Tibiotarsi: Example of an Assay Using Paired Organs in an Incomplete Block Design. J. D. Biggers and H. F. Schryver ........................................... 222
The Metabolism of Chlorphenesin Carbamate. Donald R. Buhler ............................................................. 229
Metabolic Fate of β-(3,4,5-Trimethoxyphenyl)-Ethylamine (Mescaline) in Humans: Isolation and Identification of 3,4,5-Trimethoxyphenylacetic Acid. K. D. Charleslampous, Antonio Obengo, K. E. Walker and John Kinross-Wright ........................................... 242
A Sensitive Fluorometric Assay for Morphine in Plasma and Brain. Harvey Kupperberg, Alan Burkhalter and E. Leong Way ................................................................. 247
The Penetration of 2-PAM-C into Brain and the Effect of Cholinesterase Inhibitors on Its Transport. H. Firemark, C. F. Barlow and L. J. Roth ............................................................. 252

No. 3, September 1964

The Action of Sodium Pentobarbital on the S-A Nodal Activity of the Mammalian Heart. Hansjurg Schaefer ................................................................. 267
The Action of Nethalide upon Experimentally Induced Cardiac Arrhythmias. Benedict R. Lucchesi ................................................................. 286
The Mechanism of the Vasodepressor Response to Tyramine in Dogs. D. R. VanDeripe and J. B. Kain, Jr. ................................................................. 292
Dose-Dependent Differences in Catecholamine Action on Heart and Periphery. H. H. Bendixen, P. F. Osgood, K. V. Hall and M. B. Laver ................................................................. 299
Interaction between Norepinephrine and Dichloroisoproterenol during Adrenergic Blockade of the Isolated Perfused Rat Heart. Betty J. Williams and Steven E. Mayer ................................................................. 307
Nicotine and Renal Hypertension in the Rat. Duane G. Wenzel, Atonn T. Watpanfongshi and Donald Vedra ................................................................. 315
Effects of Tetraethylammonium Chloride on Electrical Activities of Frog Sympathetic Ganglion Cells. W. K. Riker ................................................................. 317
The Distribution of Dopamine and Dopa in Various Animals and a Method for Their Determination in Diverse Biological Material. Aaron H. Anton and David F. Sayre ................................................................. 326
Effects of Chlorpromazine on the Metabolism of dl-2-C4-Dopa in the Rat. K. F. Gey and A. Pletscher ................................................................. 337
Chlorinated Arylalkylamines Affecting the Cerebral Metabolism of 5-Hydroxytryptamine. A. Pletscher, G. Bartholini, H. Bruderer, W. P. Burkard and K. F. Gey ................................................................. 344
Distribution in Plasma, Uptake by the Heart and Excretion of Ouabain-H in Human Subjects. B. H. Marks, S. Dutta, J. Gauthier and D. Elliott ................................................................. 351
Quantification of Normal and Adrenal Steroid Affected Calcium Metabolism in the Young Dog. Edward R. Garrett, Richard L. Johnston and Elliott J. Collins ................................................................. 357
Behavioral Effects of a Cholinergic Stimulant in Combination with Various Psychotherapeutic Agents. M. E. Goldberg and H. E. Johnson ................................................................. 367
The Influence of Chlorpromazine on Physical and Chemical Mechanisms of Temperature Regulation in the Rat. James Kollas and Robert W. Bullard ................................................................. 373
Pentaborane: Relationship between Inhaled Lethal and Incapacitating Dosages in
Animals. Maurice H. Weeks, David G. Burke, Emery E. Basset, Joseph R. Johnson and Milton K. Christensen

The Effect of 2,2'-Phosphinicodilactic Acid on the Absorption of Tetracyclines with Notes on Pharmacology and Toxicity. G. Tonelli, L. Alfano and E. Takesue

Evaluation in Man of the Effects of an Anticholinergic Agent on Gastric Emptying by a Quantitative X-Ray Method. G. Sacchetti, F. B. Nicolai and L. Roncoroni

Index, Volume 145, July–September, 1964
