

INDEX

Volume 200, January-March 1977

- Accelerated ventricular escapes, induced in intact dog by barium, strontium and calcium, 373
- Acetylcholine, brain, gas chromatographic evaluation of deanol as suggested precursor of, 545
effects on release of dopamine from striatal dopaminergic terminals in rat, 535
- Actinomycin-D, model for kinetics of distribution in beagle dog of, 469
- Adenosine triphosphatase, renal, inhibition by cadmium, 623
- Adenylate cyclase, cardiac, interaction of histamine and guanylnucleotides with and relationship to cardiac contractility, 174
- Adrenal gland, medulla, induction of tyrosine hydroxylase elicited by stimulation of central cholinergic receptors in, 523
- Adrenergic neurotransmission, in cutaneous veins of dog, differential effects of isomers of tetramisole, 127
- Agonistic activity, in oxymorphone series, orientation of oxygen atom at C-6 as determinant of, 496
- Akera, T.
see Ku. D. D., 363
see Weaver, L. C., 141, 638
- Alprenolol
effects on lipolysis in human adipose tissue, 598
hepatic extraction ratio predicted from intrinsic clearance, 420
- Amine uptake, into synaptosomes of fetal and neonatal rat brain, effects of maternal ethanol ingestion, 292
- γ -Aminobutyric acid, turnover rate in rat brain nuclei estimated by application of principles of steady-state kinetics, 277
- p*-Aminohippurate, transport, *in vitro* inhibition by halogenated anesthetics, 75
- Amitriptyline, reinforcing properties in rhesus monkeys, 516
- Analgesic, non-narcotic, flunixin meglumine, 501
- Analgesic effect, of morphine in offspring of rats treated prenatally with levorphanol or dextrorphan, 255
- Anesthetics, halogenated, *in vitro* inhibition of *p*-aminohippurate transport by, 75
- Angiotensin renin system in canine endotoxemia, prostaglandins and, 614
- Anion(s)
organic, influence of extrahepatic biliary obstruction on hepatic uptake of, 425
organic, renal transport capacity, relationship with glutathione S-transferases, 65
- Antiarrhythmic properties, of MJ 9067 in acute animal models, 147
- Anticonvulsant activity, of phenobarbital and phenytoin in combination, 570
- Anti-inflammatory agents, nonsteroid, effect on phagocytosis by and lysosomal enzyme secretion from, 647
- Antipyrine, hepatic extraction ratio predicted from intrinsic clearance, 420
- Apomorphine-induced changes in cyclic 3':5'-guanosine monophosphate content of rat cerebellar cortex, 207
- Arachidonic acid, prostaglandin precursor, influence in dog vascular bed perfused without a pump, 606
- Arrhythmias, effect of MJ 9067 in acute animal models, 147
- Ary, M., Cox, B. and Lomax, P.: Dopaminergic mechanisms in precipitated withdrawal in morphine-dependent rats, 271
- Azathioprine, interaction with glutathione in rat liver, 479
- Ballard, B. E., see Ueda, C. T., 459
- Barium-induced accelerated ventricular escapes in intact dog, 373
- Barka, T., see Gresik, E. W., 101
- Bastron, R. D., Perkins, F. M. and Kaloyanides, G. J.: *In vitro* inhibition of *p*-aminohippurate transport by halogenated anesthetics, 75
- Batzinger, R. and Bueding, E.: Mutagenic activities *in vitro* and *in vivo* of five antischistosomal compounds, 1
- Bauer, J., see Gerber, N., 487
- Behavior
effects of morphine, methadone, nalorphine and naloxone on responding under schedules of electric shock titration in squirrel monkeys, 508
reinforcing properties of perphenazine, haloperidol and amitriptyline in rhesus monkeys, 516
- Bellhorn, R. W., see Kern, H. L., 10
- Bertilsson, L., Mao, C.-C., and Costa, E.: Application of principles of steady-state kinetics to the estimation of γ -aminobutyric acid turnover rate in the nuclei of rat brain, 277
- Besson, M. J., see Giorguieff, M. F., 535
- Beyer, K. H., Jr., see Fanelli, G. M., Jr., 402
- Biggio, G., Costa, E. and Guidotti, A.: Pharmacologic

- logically induced changes in the 3':5'-cyclic guanosine monophosphate content of rat cerebellar cortex: Difference between apomorphine, haloperidol and harmaline, 207
- Bladder, urinary, toad, effects of carbamazepine, 95
- Blood flow, in dog paw vasculature perfused without a pump, influence of prostaglandin precursors and synthesis inhibitors, 606
- Blood vessels, cat brain, cholinergic action mediated by muscarinic and nicotinic receptors in, 117
- Bloom, A. S., Dewey, W. L., Harris, L. S. and Brosius, K. K.: 9-nor-9 β -Hydroxyhexahydrocannabinol, a cannabinoid with potent antinociceptive activity: Comparisons with morphine, 263
- Bohn, D. L., *see* Fanelli, G. M., Jr., 402, 413
- Botulinium toxin, acute and chronic treatment, effects on receptor number, receptor distribution and tissue sensitivity in rat diaphragm, 343
- Brahmankar, D. M., *see* Chopde, C. T., 314
- Brain
- acetylcholine, gas chromatographic evaluation of deanol as suggested precursor of, 545
 - cerebral cortex, cat, effects of phenobarbital on extracellular potassium activity and oxidative metabolism in, 560
 - cerebellar cortex, rat, apomorphine-, haloperidol- and harmaline-induced changes in cyclic 3':5'-guanosine monophosphate content of, 207
 - fetal and neonatal, rat, effects of maternal ethanol ingestion on amine uptake into synaptosomes of, 292
 - mouse, neurochemical aspects of ethanol dependence and withdrawal reactions in, 314
 - Na⁺,K⁺-adenosine triphosphatase, cat, lack of effect of digitalis toxicity on, 638
 - noradrenergic neurons, delayed activation of tyrosine hydroxylase elicited by stimulation of central cholinergic receptors in, 523
 - nuclei, rat, application of principles of steady-state kinetics to estimation of γ -aminobutyric acid turnover rate in, 277
 - rat, effects of acute and chronic ethanol administration and withdrawal on adenosine 3':5'-monophosphate and guanosine 3':5'-monophosphate levels in, 298
 - rat, effect of narcotics on uptake of serotonin precursors by, 216
 - salsolinol, absence of formation in ethanol-dependent mice, 306
 - vessels, cat, cholinergic action mediated by muscarinic and nicotinic receptors in, 117
- Braunstein, K. M., Sarji, K. E., Kleinfelder, J., Schraubman, H. B., Colwell, J. A. and Eurenus, K.: The effects of dopamine on human platelet aggregation, *in vitro*, 449
- Brodeur, J., *see* Laliberte, R., 44
- Brody, T. M.
see Ku, D. D., 363
- Brody, T. M., *see* Weaver, L. C., 141, 638
- Brosius, K. K., *see* Bloom, A. S., 263
- Brown, J. D. and Brown, M. E.: The effect of tolbutamide on contractility and cyclic adenosine 3':5'-monophosphate concentration in the intact beating rat heart, 166
- Brown, M. E., *see* Brown, J. D., 166
- Bueding, E., *see* Batzinger, R. P., 1
- Byrne, J. E., Gomoll, A. W. and McKinney, G. R.: Antiarrhythmic properties of MJ 9067 in acute animal models, 147
- Bullfrog, stimulus-bound repetitive synaptic firing caused by ethanol in sympathetic ganglion of, 320
- Butoxamine, effects on lipolysis in human adipose tissue, 598
- Cadmium, inhibition of renal adenosine triphosphatase, 623
- Calcium-induced accelerated ventricular escapes in intact dog, 373
- Calvert, D. N., *see* Jesmok, G. J., 187
- Camp, V. M., *see* Faraj, B. A., 384
- Carbamazepine
- effects on toad urinary bladder, 95
 - hepatic extraction ratio predicted from intrinsic clearance, 420
- Carbonic anhydrases, rat liver, inhibition by halides, 434
- Cardiovascular pharmacology, of antibiotic ionophore Ro 2-2985 (X537A), 195
- Cat(s)
- antiarrhythmic properties of MJ 9067 in, 147
 - brain Na⁺,K⁺-adenosine triphosphatase, lack of effect of digitalis toxicity on, 638
 - cerebral cortex, effects of phenobarbital on extracellular potassium activity and oxidative metabolism in, 560
 - cholinergic action on smooth musculature and on sympathetic axons in brain vessels mediated by muscarinic and nicotinic receptors in, 117
 - effects of neomycin on transmitter release and action in, 576
 - enhancement of phrenic nerve activity by digoxin in, 141
- Catecholamine, biosynthesis in transplantable rat pheochromocytoma, regulation of, 588
- Cations, organic, influence of extrahepatic biliary obstruction on hepatic uptake of, 425
- Catlin, D. H.: Pharmacokinetics of morphine by radioimmunoassay: The influence of immunological factors, 224
- Cayen, M. N., Ferdinandi, E. S., Greselin, E., Robinson, W. T. and Dvornik, D.: Clofibrate and clofibric acid: Comparison of the metabolic disposition in rats and dogs, 33
- Centrophoxine, potentiation of cytotoxic action of melphalan and "activated" cyclophosphamide against cultured tumor cells by, 17

- Chakrabarti, S., *see* Laliberte, R., 44
- Chalfie, M. and Perlman, R. L.: Regulation of catecholamine biosynthesis in a transplantable rat pheochromocytoma, 588
- Chick, embryonic, early development, norepinephrine- and isoproterenol-induced changes in cardiac contractility and cyclic adenosine 3':5'-monophosphate during, 630
- Chimpanzee
renal excretion of MK-196 and interaction with pyrazinoate in, 413
saluretic and uricosuric effects of MK-196 in, 402
- Chloride, inhibition of rat liver carbonic anhydrases by, 434
- Chloroindazole analogs, mutagenic activities *in vitro* and *in vivo*, 1
- Chloroquine, effect on phagocytosis by and lysosomal enzyme secretion from guinea-pig neutrophils, 647
- Chlorothiazide, effect on small intestinal lymph flow in dog, 88
- Cholestasis, influence on hepatic uptake of foreign compounds, 425
- Cholinergic receptors (*see* Receptors, cholinergic)
- Cholinergic transmission, effects of neomycin, 576
- Clofibrate, metabolic disposition in rats and dogs, comparison with clofibric acid, 33
- Clofibric acid, metabolic disposition in rats and dogs, comparison with clofibrate, 33
- Chope, C. T., Brahmankar, D. M. and Shripad, V. N.: Neurochemical aspects of ethanol dependence and withdrawal reactions in mice, 314
- Chou, D., *see* Zahniser, N. R., 545
- Christ, D.: Effects of halothane on ganglionic discharges, 336
- Ciofalo, V. B., Latranyi, M. B., Patel, J. B. and Taber, R. I.: Flunixin Meglumine: A non-narcotic analgesic, 501
- Clearance studies, of effects of new indanyloxyacetic acid diuretic on segmental nephron function in rats, 81
- Collier, B., *see* Wright, J. M., 576
- Colwell, J. A., *see* Braunstein, K. M., 449
- Compound 48/80, site of action of mast cell degranulation and histamine release by, 658
- Conradi, S. E., *see* Daniell, H. B., 155
- Contractility
cardiac, during early development of embryonic chick, norepinephrine- and isoproterenol-induced changes, 630
cardiac, interaction of histamine and guanylnucleotides with cardiac adenylate cyclase and relationship to, 174
in intact beating rat heart, effect of tolbutamide, 166
- Cordingley, G., *see* LaManna, J. C., 560
- Costa, E., *see* Bertilsson, L., 277
- Costa, E., *see* Biggio, G., 207
- Cox, B., *see* Ary, M., 271
- Cyclic adenosine 3':5'-monophosphate
concentration in intact beating rat heart, effect of tolbutamide, 166
during early development of embryonic chick, norepinephrine- and isoproterenol-induced changes, 630
levels in rat brain, effects of acute and chronic ethanol administration and withdrawal, 298
response of toad urinary bladder to, effects of carbamazepine, 95
- Cyclic 3':5'-guanosine monophosphate
content in rat cerebellar cortex, changes induced by apomorphine, haloperidol and harmaline, 207
levels in rat brain, effects of acute and chronic ethanol administration and withdrawal, 298
- Cyclic nucleotides, levels in rat brain, effects of acute and chronic ethanol administration and withdrawal, 298
- Cyclophosphamide, "activated," cytotoxic action against cultured tumor cells, potentiated by centrophenoxine, 17
- Cytotoxic action, of melphalan and "activated" cyclophosphamide against cultured tumor cells, potentiation by centrophenoxine, 17
- Daniell, H. B., Privitera, P. J., Conradi, S. E. and Gaffney, T. E.: Effects of perhexiline on survival time and infarct size in experimental myocardial infarction, 155
- Dayton, P. G., *see* Faraj, B. A., 384
- Deanol (2-dimethylaminoethanol), as suggested precursor of brain acetylcholine, gas chromatographic evaluation, 545
- Dedrick, R. L., *see* Lutz, R. J., 469
- Dewey, W. L., *see* Bloom, A. S., 263
- Dun, N. and Karczmar, A. G.: The presynaptic site of action of norepinephrine in the superior cervical ganglion of guinea pig, 328
- Dexamisole, effects on adrenergic neurotransmission in cutaneous veins of dog, 127
- Dextrophan, analgesic effect of morphine in offspring of rats treated prenatally with, 255
- Diaphragm, rat, effects of acute and chronic botulinum toxin treatment on receptor number, receptor distribution and tissue sensitivity in, 343
- 6,7-Dichloro-2-methyl-1-oxo-2-phenyl-5-indanyl-oxyacetic acid (*see* MK-196)
- Digitalis, toxicity, lack of effect on cat brain Na⁺,K⁺-adenosine triphosphatase, 638
- Dihomo- γ -linolenic acid, prostaglandin precursor, influence in dog vascular bed perfused without a pump, 606
- α -Dihydrograyanotoxin II, effects of guinea-pig myocardium, 363
- 2-Dimethylaminoethanol (*see* Deanol)
- Diuretic(s)
effect on small intestinal lymph flow in dog, 88
-induced uricosuria, interaction with pyrazinoate

- transport in man, 58
 new indanyloxyacetic acid, effects on segmental nephron function in rats studied by clearance and micropuncture techniques, 81
- Dog(s)
 antiarrhythmic properties of MJ 9067 in, 147
 beagle, model for kinetics of distribution of actinomycin-D in, 469
 beagle, sodium cyanate-induced ocular lesions in, 10
 cardiovascular pharmacology of antibiotic ionophore Ro 2-2985 in, 195
 comparison of metabolic disposition of clofibrate and clofibric acid in, 33
 cutaneous veins, differential effects of isomers of tetramisole on adrenergic neurotransmission in, 127
 effect of diuretics on small intestine lymph flow in, 88
 effect of monoamine oxidase inhibition, portafemoral shunt and coronary artery ligation on kinetics of tyramine in, 384
 effect of perhexiline on survival time and infarct size in experimental myocardial infarction in, 155
 endotoxemia, prostaglandins and renin-angiotensin system in, 614
 inhibition of renal adenosine triphosphatase by cadmium in, 623
 intact, accelerated ventricular escapes induced by barium, strontium and calcium in, 373
 paw vasculature perfused without a pump, influence of prostaglandin precursors and synthesis inhibitors, 606
- Dopamine
 accumulation in mouse brain, effects of 9-nor-9 β -hydroxyhexahydrocannabinol on, 263
 effects on human platelet aggregation *in vitro*, 439
 role in withdrawal in morphine-dependent mice, 271
 spontaneous release from striatal dopaminergic terminals in rat, involvement of cholinergic presynaptic receptors of nicotinic and muscarinic types in, 535
- Dopaminergic mechanisms, in precipitated withdrawal in morphine-dependent rats, 271
- Dopaminergic terminals, striatal, rat, involvement of cholinergic presynaptic receptors of nicotinic and muscarinic types in control of spontaneous dopamine release from, 535
- Drug interactions
 anticonvulsant activity of phenobarbital and phenytoin in combination, 570
 azathioprine and glutathione in rat liver, 479
 MK-196 and pyrazinoate in chimpanzee, 413
 Dvornik, D., *see* Cayen, M. N., 33
