

INDEX TO VOLUME XXII

Abel, John J., and Geiling, E. M. K. A preliminary therapeutic study of the active principle of the infundibular portion of the pituitary gland in four cases of diabetes insipidus. Paper 2.....	317
— Rouiller, Chas. A., and Geiling, E. M. K. Further investigations on the oxytocic-pressor-diuretic principle of the infundibular portion of the pituitary gland. Paper 1.....	239
Absorption of drugs through the eye, ear, teeth and esophagus.....	123
Acids, bile, Relation between the chemical structure of, and their phyto-pharmacological and zoopharmacological reactions.....	433
Alcohols, A pharmacological comparison of six, singly and in admixture, on Paramecium.....	49
Alpers, B. J., Grabfield, G. P., and Prentiss, A. M. The effect of iodides on nitrogen metabolism.....	393
Amoebic dysentery, The experimental therapy of.....	467
Apothesine, novocain, neocain and procain, The comparative toxicity of....	375
Atropin, A pharmacodynamic analysis of the cerebral effects of, homatropin, scopolamin and related drugs.....	35
Bile acids, Relation between the chemical structure of, and their phyto-pharmacological and zoopharmacological reaction.....	433
— salts, The behavior of rats after injections of urea, creatin and creatinin.	117
Bills, Charles E. A. A pharmacological comparison of six alcohols, singly and in admixture, on Paramecium.....	49
Blood sugar concentration, Comparative study of the, in the liver vein, the leg vein during insulin action.....	355
Bone marrow, red, and spleen extracts, Leukocytic reactions to.....	109
— marrow, red, The erythropoietic action of, and splenic extracts.....	75
Boothby, Walter M., and Rowntree, Leonard G. Drugs and basal metabolism.....	99
Broom, W. A., and Clark, A. J. The standardization of ergot preparations..	59
Capillaries, The permeability of, as influenced by various drugs.....	195
Carbon tetrachloride, The pharmacology and toxicology of.....	215
Cerebral effects of atropin, homatropin, scopolamin and related drugs, A pharmacodynamic analysis of the.....	35
Clark, A. J., and Broom, W. A. The standardization of ergot preparations..	59
Cori, Carl F., Cori, Gerty T., and Goltz, Hilda L. Comparative study of the blood sugar concentration in the liver vein, the leg artery and the leg vein during insulin action.....	355
Cori, Gerty T., Cori, Carl F., and Goltz, Hilda L. Comparative study of the blood sugar concentration in the liver vein, the leg artery and leg vein during insulin action.....	355

- Crawford, J. Hamilton. The influence of the vagus on the heart rate. 1
- Creatin, The behavior of rats after injections of bile salts, urea, and creatinin. 117
- Creatinin, The behavior of rats after injections of bile salts, urea, creatin and. 117
- Desiccated red bone marrow and spleen in normal humans, The hematopoietic effects of. 401
- Diabetes insipidus, A preliminary therapeutic study of the active principle of the infundibular portion of the pituitary gland in four cases of. 317
- Drugs, Absorption of, through the eye, ear, teeth and esophagus. 123
- and basal metabolism. 99
- , A pharmacodynamic analysis of the cerebral effects of atropin, homatropin, scopolamin and related. 35
- , The permeability of capillaries as influenced by various. 195
- Dysentery, amoebic, The experimental therapy of. 467
- Ear, Absorption of drugs through the eye, teeth, and esophagus. 123
- Epstein, Joseph, and Underhill, Frank P. The permeability of capillaries as influenced by various drugs. 195
- Ergot preparations, The standardization of. 59
- Erythropoietic action of red bone marrow and splenic extracts, The. 75
- Esophagus, Absorption of drugs through the eye, ear, teeth and. 123
- Experimental therapy, The, of amoebic dysentery. 467
- Extracts, spleen, Leukocytic reactions to red bone marrow and. 109
- splenic, The erythropoietic action of red bone marrow and. 75
- Eye, Absorption of drugs through the ear, teeth and esophagus. 123
- Frazer, Emmett B., and Meeker, William R. The comparative toxicity of novocain, neocain, procain and apothesine. The effect of intravascular injections. 375
- Gardner, George H., Lamson, Paul D., Gustafson, R. K., Maire, E. D., McLean, A. J., and Wells, H. S. The pharmacology and toxicology of carbon tetrachloride. 215
- Geiling, E. M. K., and Abel, John J. A preliminary therapeutic study of the active principle of the infundibular portion of the pituitary gland in four cases of diabetes insipidus. Paper 2. 317
- Abel, John J., and Rouiller, Chas. A. Further investigations on the oxytocic-pressor-diuretic principle of the infundibular portion of the pituitary gland. Paper 1. 289
- Gland pituitary, A preliminary therapeutic study of the active principle of the infundibular portion of the, in four cases of diabetes insipidus. 317
- pituitary, Further investigations on the oxytocic-pressor-diuretic principle of the infundibular portion of the. 289
- Goltz, Hilda L., Cori, Carl F., and Cori, Gerty T. Comparative study of the blood sugar concentration in the liver vein, the leg artery and the leg vein during insulin action. 355
- Grabfield, G. P., Alpers, B. J., and Prentiss, A. M. The effect of iodides on nitrogen metabolism. 393

- Gustafson, R. K., Lamson, Paul D., Gardner, George H., Maire, E. D., McLean, A. J., and Wells, H. S. The pharmacology and toxicology of carbon tetrachloride..... 215
- Hatcher, Robert A., and Weiss, Soma. Studies on vomiting..... 139
- Heart rate, The influence of the vagus on the..... 1
- Hematopoietic effects, The, of desiccated red bone marrow and spleen in normal humans..... 401
- Histologic detection of iodids, The..... 89
- Homatropin, A pharmacodynamic analysis of the cerebral effects of atropin, scopolamin and related drugs..... 35
- Hyndman, Olan R., and Macht, David I. Relation between the chemical structure of bile acids and their phytopharmacological and zoopharmacological reactions..... 483
- Infundibular portion of the pituitary gland, A preliminary therapeutic study of the active principle of the, in four cases of diabetes insipidus..... 317
- portion of the pituitary gland, Further investigations on the oxytocic-pressor-diuretic principle of the..... 289
- Injections of bile salts, urea, creatin and creatinin, The behavior of rats after..... 117
- of quinin and quinidin sulphates, The effect of light on the behavior of rats after..... 21
- Insulin action, Comparative study of the blood sugar concentration in the liver vein, the leg artery and the leg vein during..... 355
- Iodides, The effect of, on nitrogen metabolism..... 393
- Iodids, The histologic detection of..... 89
- Lamson, Paul D., Gardner, George H., Gustafson, R. K., Maire, E. D., McLean, A. J., and Wells, H. S. The pharmacology and toxicology of carbon tetrachloride..... 215
- Leake, Chauncey D. Leukocytic reactions to red bone marrow and spleen extracts..... 109
- The hematopoietic effects of desiccated red bone marrow and spleen in normal humans..... 401
- and Leake, Elizabeth W. The erythropoietic action of red bone marrow and splenic extracts..... 75
- Leake, Elizabeth W., and Leake, Chauncey D. The erythropoietic action of red bone marrow and splenic extracts..... 75
- Leg artery, liver vein and the leg vein during insulin action, Comparative study of the blood sugar concentration in the..... 355
- vein, liver vein and the leg artery during insulin action, Comparative study of the blood sugar concentration in the..... 355
- Leukocytic reactions to red bone marrow and spleen extracts..... 109
- Light, The effect of, on the behavior of rats after injections of quinin and quinidin sulphates..... 21
- Liver vein, the leg artery and the leg vein during insulin action, Comparative study of the blood sugar concentration in the..... 355
- Lubin, Dorothy S., and Macht, David I. A phytopharmacological study of menstrual toxin..... 413

McLean, A. J., Lamson, Paul D., Gardner, George H., Gustafson, R. K., Maire, E. D., and Wells, H. S. The pharmacology and toxicology of carbon tetrachloride.....	215
Macht, David I. Absorption of drugs through the eye, ear, teeth and esophagus.....	123
— A pharmacodynamic analysis of the cerebral effects of atropin, homatropin, scopolamin and related drugs.....	35
— The behavior of rats after injections of bile salts, urea, creatin and creatinin.....	117
— and Hyndman, Olan R. Relation between the chemical structure of bile acids and their phytopharmacological and zoopharmacological reactions.....	483
—, and Lubin, Dorothy S. A phytopharmacological study and menstrual toxin.....	413
—, and Teagraden, Elmer J., Jr. The effect of light on the behavior of rats after injections of quinin and quinidin sulphates.....	21
—, and Young, Hugh H. A contribution to the physiology and pharmacology of the trigonum vesicae.....	329
Marie, E. D., Lamson, Paul D., Gardner, George H., Gustafson, R. K., McLean, A. J., and Wells, H. S. The pharmacology and toxicology of carbon tetrachloride.....	215
Marrow, desiccated red bone, The hematopoietic effects of, and spleen in normal humans.....	401
—, red bone, and spleen extracts, Leukocytic reactions to.....	109
—, red bone, The erythropoietic action of, and splenic extracts.....	75
Meeker, William R., and Frazer, Emmett B. The comparative toxicity of novocain, neocain, procain and apotesine, The effect of intravascular injections.....	375
Menstrual toxin, A phytopharmacological study of.....	413
Metabolism, basal, Drugs and.....	99
—, nitrogen, The effect of iodides on.....	313
Neocain, novocain, procain and apotesine, The comparative toxicity of....	375
Nitrogen metabolism, The effect of iodides on.....	393
Novocain, neocain, procain and apotesine, The comparative toxicity of....	375
Oxytocic-pressor-diuretic principle of the infundibular portion of the pituitary gland, Further investigations on the.....	289
Paramecium, A pharmacological comparison of six alcohols, singly and in admixture, on.....	49
Permeability of capillaries, The, as influenced by various drugs.....	195
Pharmacodynamic analysis, A, of the cerebral effects of atropin, homatropin, scopolamin and related drugs.....	35
Pharmacological comparison, A, of six alcohols, singly and in admixture, on Paramecium.....	49
Pharmacology and toxicology of carbon tetrachloride, The.....	215
— of the trigonum vesicae, A contribution to the physiology and.....	329

- Physiology and pharmacology of the trigonum vesicae, A contribution to the. 329
- Phytopharmacological and zoopharmacological reaction, Relation between the chemical structure of bile acids and their. 483
- study, A, of menstrual toxin. 413
- Pituitary gland, A preliminary therapeutic study of the active principle of the infundibular portion of the, in four cases of diabetes insipidus. 317
- gland, Further investigations on the oxytocic-pressor-diuretic principle of the infundibular portion of the. 289
- Prentiss, A. M., Grabfield, G. P., and Alpers, B. J. The effect of iodides on nitrogen metabolism. 393
- Procain, novocain, neocain, and apothesine, The comparative toxicity of. . . 375
- Quinidin sulphates, The effect of light on the behavior of rats after injections of quinin and. 21
- Quinin, The effect of light on the behavior of rats after injections of, and quinidin sulphates. 21
- Rate, heart, The influence of the vagus on the. 1
- Rats, The behavior of, after injections of bile salts, urea, creatin and creatinin. 117

- Tetrachloride, carbon, The pharmacology and toxicology of. 215

Therapeutic study, A preliminary, of the active principle of the infundibular portion of the pituitary gland in four cases of diabetes insipidus.....	317
Therapy of amoebic dysentery, The experimental.....	467
Toxicity, The comparative, of novocain, neocain, procain and apothesine....	375
Toxicology, The pharmacology and, of carbon tetrachloride.....	215
Toxin, menstrual, A phytopharmacological study of.....	413
Trigonum vesicae, A contribution to the physiology and pharmacology of the.	329
Underhill, Frank P., and Epstein, Joseph. The permeability of capillaries as influenced by various drugs.....	195
Urea, The behavior of rats after injections of bile salts, creatin and creatinin.	117
Vagus, The influence of the, on the heart rate.....	1
Vomiting, Studies on.....	139
Weiss, Soma, and Hatcher, Robert A. Studies on vomiting.....	139
Wells, H. S., Lamson, Paul D., Gardner, George H., Gustafson, R. K., Maire, E. D., and McLean, A. J. The pharmacology and toxicology of carbon tetrachloride.....	215
Young, Hugh H., and Macht, David I. A contribution to the physiology and pharmacology of the trigonum vesicae.....	329
Zoopharmacological reactions, Relation between the chemical structure of bile acids and their phytopharmacological and.....	483
