# KEEPING CURRENT

♦ ♦ ♦ is it important to you?

Two journals that guarantee you'll be told what's happening NOW in pharmacology, physiology, and biochemistry.

## PHARMACOLOGICAL REVIEWS

A Publication of the American Society for Pharmacology and Experimental Therapeutics, Inc.

Editor: James A. Bain, Ph.D., Emory University

**Pharmacological Reviews** is a showcase journal for ideas that would otherwise be buried in the mass of pharmacological literature. Important review papers on the current status of a given topic are allotted plenty of space (from 10 to 40 pages) to exhaustively cover that topic. A fine balance is achieved in these articles, which are written in a clear, simple and concise fashion so as to be intelligible to non-specialists, yet are precise and detailed enough to be of great interest to experts in the field.

At various times, **Pharmacological Reviews** has addressed such subjects as biochemical and cellular pharmacology, drug metabolism and disposition, renal pharmacology, neuropharmacology, behavioral pharmacology, clinical pharmacology, and toxicology. Designed specifically as a medium through which those interested in these topics can communicate directly, **Pharmacological Reviews** serves the entire pharmacological community and is vital reading for physiologists, pharmacologists, and biological chemists.

## THE JOURNAL OF PHARMACOLOGY AND EXPERIMENTAL THERAPEUTICS

A Publication of the American Society for Pharmacology and Experimental Therapeutics, Inc.

Editor: Eva King Killam, PhD, School of Medicine, University of California, Davis

Founded by John J. Abel in 1909,

this is one of the most prestigious journals in scientific research. Publishing original research articles on all aspects of the interactions of chemical and biological systems, **The Journal of Pharmacology and Experimental Therapeutics** is extremely useful for the academic or clinical pharmacologist. In addition, it has broad relevance for pharmaceutical research laboratories and anesthesiologists. Readers will find full coverage of autonomic, behavioral, cardiovascular, cellular, clinical, developmental, gastrointestinal, immuno-, neuro-, pulmonary, and renal pharmacology. Other areas include analgesia, drug abuse, drug metabolism and distribution, chemotherapy, and toxicology. Each issue of this monthly periodical *averages over 200 pages* and presents the best in research being published in pharmacology and therapeutics.
