

INDEX

Volume 220, January–March, 1982

- Abernethy, D R., *see* Greenblatt, D. J., 120
- Acetaminophen
-induced hepatotoxicity, effects of insulin-deficient diabetes on (rats), 504
toxicity, effects of propylthiouracil-induced hyperthyroidism and triiodo-L-thyronine-induced hyperthyroidism (rats), 427
- N-Acetylation
p-aminobenzoic acid and isoniazid, genetic covariation in liver (rabbits), 1
polymorphism, pharmacogenetic expression (hamsters), 8
- Acetylcholine
in brain, effects of phosphatidylcholine on (rats), 322
receptor and channel, inhibition by *d*-tubocurarine (frogs), 172
receptors, in isolated atria, effects of isoproterenol (rats), 411
release in striatum, potassium-evoked, antagonism of neuroleptic agents of dopamine-induced inhibition of (rats), 197
turnover in brain, effects of γ -aminobutyric acid receptor agonists on (rats), 689
- l*- α -Acetylmethadol (LAAM)-maintained subjects, electroencephalographic and behavioral cross-tolerance to morphine and methadone in (rats), 561
- N-Acetyltransferase
activities, monomorphic and polymorphic, evidence for coexistence on protein in liver (rabbits), 1
liver, genetic variation (hamsters), 8
- Adamski, S. Wor, *see* Prasad, C. M., 293
- Adenosine, analogs, behavioral effects (mice, rats), 70
- Na-K-Adenosine triphosphatase inhibition by vanadate (rats), 540
stimulation and inhibition by ouabain (guinea pigs, rabbits, cats), 145
- Adrenergic blockade, *alpha* and combined *alpha* and *beta*, effects on renal and splanchnic blood flows during nicotine infusion (dogs), 375
- Adrenergic receptors, *alpha*-1, *alpha*-2 and *beta*, competition by *L*- α -methyl dopa metabolites for (rats), 552
- Adrenoceptors (*see also* Adrenergic receptors)
alpha, antagonist, potency of amitriptyline (rats), 299
alpha-2, inhibition of intestinal secretion (rats), 637
beta, selective antagonism by prenalterol (guinea pigs, dogs), 77
beta, irreversible blockade and recovery in heart and lung (rats), 247
- Agonists, dopamine, effect on striatal acetylcholine transmission (rats), 197
- Agonists-antagonists, opioid, effects on body temperature (mice), 468
- Aguayo, L. G., *see* Shaker, N., 172
- D-Ala-Met-enkephalinamide-induced antinociception, effect of β -funtaltrexamine on (mice), 494
- Albuquerque, E. X., *see* Shaker, N., 172
- Allison, M. E. M., *see* Stier, C. T., Jr., 366
- N-Allylnormetazocine, effect on body temperature (mice), 468
- Alm-CO-CH₂Br, regeneration of *beta* adrenoceptors in heart and lung by (rats), 247
- p*-Aminobenzoic acid
N-acetylation in liver (rabbits), 1
N-acetylation in liver (hamsters), 8
- γ -Aminobutyric acid (GABA)
mediation in benzodiazepine inhibition of Met⁵-enkephalin (rats), 616
metabolism, effect of valproic acid (mice), 654
- γ -Aminobutyric acid agonists, antinociceptive effect (mice), 482
- γ -Aminobutyric acid receptor agonists
brain, anticonvulsant action, kinetic and metabolic properties and neuropharmacological profiles (mice, rats, cats), 660
effects on acetylcholine turnover in brain (rats), 689
effect on γ -aminobutyric acid receptors in brain (rats, rabbits, mice), 672
effects on metabolism and brain turnover of norepinephrine, dopamine and 5-hydroxytryptamine (rats, cats), 678
- 2-Aminofluorene, N-acetylation in liver (hamsters), 8
- Aminoglycosides
inhibition of renal phosphatidylinositol phospholipase C by (rats), 287
-induced phospholipidosis in renal cortex (rats), 514
-induced renal failure, role of renin-angiotensin system in (rats), 433
ultrafiltration *in vivo* (rats), 604
- Aminopyrine, uptake, by parietal cells (dogs), 371
- p*-Aminosalicylic acid, N-acetylation in liver (hamsters), 8
- δ -Aminovaleric acid, effect on acetylcholine turnover in brain (rats), 689
- Amitriptyline, *alpha* adrenoceptor antagonist potency of (rats), 299
- d*-Amphetamine, behavioral effects, comparison with phenylcyclidine, ketamine and morphine (monkeys), 139
- Analgesia
morphine, potentiation by γ -aminobutyric acid agonists (mice), 482
norepinephrine and serotonin, effects of 6-hydroxydopamine and 5,6-dihydroxytryptamine (rats), 311
vasopressin, characterization of (mice, rats), 329
- Analog, of N-dimethylamino, antagonism of prostaglandin F_{2a}-mediated pulmonary and systemic vasoconstriction by (rats), 521
- Anderson, G. F.: Evidence for a prostaglandin link in the purinergic activation of rabbit bladder smooth muscle, 347
- Angiotensin I-converting enzyme, role in renal failure, inhibition by captopril (rats), 433
- Antagonists
alpha adrenoceptor, potency of amitriptyline (rats), 299
calmodulin, effects on contraction of aortic strips (rabbits), 191
opiate, effects on body temperature (mice), 464
prostaglandin, effect on pulmonary and systemic vascular responses (rats), 521
- Anticonvulsant actions, of progabide and SL 75102 (mice, rats, cats), 660
- Anticonvulsant drugs (*see* specific drug)
- Anticonvulsant effects, of valproic acid (mice), 654
- Antigen-induced contraction of isolated pulmonary arteries (guinea pigs), 526
- Anti-inflammatory drugs
cardiovascular effects of ibuprofen (rabbits), 167
nonsteroidal, laxative potential of (hamsters), 236
- Antithrombin III, affinity chromatography, fractionation of heparins by (cows, hogs), 406
- Aorta
angiotensin converting enzyme tissue activity, inhibition by captopril and MK-421 (rats), 63
strips, effects of calmodulin antagonists on contraction of (rabbits), 191
strips, effect of converting enzyme inhibitors on prostaglandin synthesis by (rats), 23
strips, effects of molsidomine (rabbits, man), 183
- Aortic contraction, C5a-induced, effect of an antihistamine and inhibitors of arachidonate metabolism (guinea pigs), 102
- Apomorphine
and stressors, interaction in production of hyperthermia (rabbits), 335
-induced aggression after combination with clonidine (rats), 389
- Apstein, C. S. and Vogel, W. M.: Coronary arterial vasodilator effect of ibuprofen, 167
- Arachidonic acid, effect on prostaglandin production on histamine-stimulated acid secretion in isolated parietal cells (dogs), 371
- Araki, H., Su, C. and Lee, T. J.-F.: Effect of superior cervical ganglionectomy on the sensitivity of rabbit ear artery and cerebral arteries of rabbit and cat to vasoactive agents, 49
- Arbilla, S., *see* Lloyd, K. G., 672
- Aronoff, G. R., *see* Luft, F. C., 433
- Arteries
ear and cerebral, effect of superior cervical ganglionectomy on sensitivity to vasoactive agents (rabbits, cats), 49
isolated mesenteric and coronary, contractile actions of racemic and *d*-propranolol (dogs), 127
pulmonary, isolated, antigen effects on (guinea pigs), 526
- Artery, pulmonary, effects of theophylline on KCl-induced purine release from adrenergic nerves of (rabbits), 152
- Asano, M., Suzuki, Y. and Hidaka, H.: Effects of various calmodulin antagonists on contrac-

- tion of rabbit aortic strips, 191
- ATP, effect on Ca^{++} uptake (rabbits), 347
- Atropine
attenuation of antinociceptive effect of drugs (mice), 482
role in field stimulation-induced contractions (rabbits), 216
- AY-23, 427, disposition, comparison in normal and arthritic subjects (rats), 417
- Backenroth, R., *see* Galler, M., 23
- Baker, S. P. and Pitha, J.: Irreversible blockade of *beta* adrenoreceptors and their recovery in the rat heart and lung *in vivo*, 247
- Balster, R. L., *see* Brady, K. T., 56
- Barry, W. H., *see* Horowitz, J. D., 488
- Bartholini, G., *see* Lloyd, K. G., 672
- Bartholini, G., *see* Scatton, B., 678, 689
- Bartholini, G., *see* Worms, P., 660
- Bashour, F. A., *see* Downey, H. F., 375
- Bass, P., *see* Gullikson, G. W., 236
- Beaumont, K., *see* Lloyd, K. G., 672
- Beek, D., *see* Kenakin, T. P., 77
- Beek, D., *see* Kenakin, T. P., 353
- Behavior
aggression, drug-induced, modulation by central serotonergic mechanisms (rats), 389
anticonvulsant actions of progabide and SL 75102 (mice, rats, cats), 660
anticonvulsant effects of valproic acid (mice), 654
conditioned, comparison of effects of phencyclidine, ketamine, *d*-amphetamine and morphine (monkeys), 139
discriminative stimulus and reinforcing properties of etoxadrol and dexoadrol (monkeys), 56
effects of adenosine analogs (mice, rats), 70
effects of methadone isomers (pigeons), 592
effects of morphine and methadone (rats), 561
self-administration, cigarette smoking (man), 256
stress, effect of apomorphine on (rabbits), 335
- Bend, J. R., *see* Devereux, T. R., 223
- Benzodiazepine
inhibition of Met⁵-enkephalin, γ -aminobutyric acid (GABA) mediation in (rats), 616
oxidizing capacity, age-related changes (man), 120
- Berkowitz, B. A., *see* Hynes, M. D., 499
- Berkowitz, B. A. and Sherman, S.: Characterization of vasopressin analgesia, 329
- Bhargava, H. N. and Kim, H. S.: Structure activity relationship studies with hypothalamic peptide hormones. I. Effect of melanotropin release inhibiting factor and analogs on tolerance to morphine in the rat, 394
- Bianchini, P., Osima, B., Parma, B., Nader, H. B. and Dietrich, C. P.: Pharmacological activities of heparins obtained from different tissues: Enrichment of heparin fractions with high lipoprotein lipase, antihemolytic and anticoagulant activities by molecular sieving and antithrombin III affinity chromatography, 406
- Bigelow, G. E., *see* Griffiths, R. R., 256
- Binding site, of salicylate (man), 648
- Blackburn, P., *see* Tabachnik, N. F., 243
- Bladder, smooth muscle, effect of ATP on synthesis of prostaglandins in (rabbits), 347
- Bladder base, field-stimulated, pharmacology of (rabbits), 216
- Blood, choline in, effects of phosphatidylcholine on (rats), 322
- Blood cells, red, drug-induced hemolysis (hamsters), 236
- Blood flow, renal and splanchnic, during nicotine infusion, effects of *alpha* and of combined *alpha* and *beta* adrenergic blockade (dogs), 375
- Blood pressure
diastolic, effects of prenalterol (guinea pigs, dogs), 77
effects of captopril and MK-421 on (rats), 63
effect of L-5-hydroxytryptophan (rats), 579
effect of 5-methoxy-N,N-dimethyltryptamine (cats), 39
response to vasopressin (mice, rats), 329
- Bochner, F., *see* Cham, B. E., 648
- Borneol inhibition of valproic acid glucuronidation by (rats), 305
- Bothwell, W., Verburg, M., Wynalda, M., Daniels, E. G. and Fitzpatrick, F. A.: A radioimmunoassay for the unstable pulmonary metabolites of prostaglandin E₁ and E₂: An indirect index of their *in vivo* disposition and pharmacokinetics, 229
- Boyd, M. R., *see* Devereux, T. R., 223
- Brady, K. T., Woolverton, W. L. and Balster, R. L.: Discriminative stimulus and reinforcing properties of etoxadrol and dexoadrol in monkeys, 56
- Bradykinin, edema formation, inhibition by methylprednisolone and diphenhydramine (dogs), 293
- Brain (*see also* specific part)
 γ -aminobutyric acid agonists, anticonvulsant actions, kinetic and metabolic properties and neuropharmacological profiles (mice, rats, cats), 660
 γ -aminobutyric acid receptors, specificity of progabide and SL 75102 for (rats, rabbits, mice), 672
angiotensin converting enzyme tissue activity, inhibition by captopril and MK-421 (rats), 63
anticonvulsant effects of valproic acid in (mice), 654
comparative study of effects of ethanol on cholinergic system in (mice), 203
competition by L- α -methyl dopa metabolites for adrenergic receptors in (rats), 552
effects of phosphatidylcholine on choline and acetylcholine in (rats), 322
effect of progabide on turnover of norepinephrine, dopamine and 5-hydroxytryptamine in (rats, cats), 678
monoamine oxidase, inhibition by molindone (rats), 609
serotonin turnover rate, effect of L-5-hydroxytryptophan (rats), 579
striatum, γ -aminobutyric acid (GABA) mediation in benzodiazepine inhibition of Met⁵-enkephalin in (rats), 616
striatum, effects of γ -aminobutyric acid receptor agonists on acetylcholine turnover in (rats), 689
striatum, effects of morphine on calcium-regulated phosphorylation of synaptosomal cytosolic proteins from (rats), 696
- Brain stem, medullary chemosensitive areas, respiratory and cardiovascular effects of morphine, pentobarbital and naloxine in (cats), 642
- Braselton, W. E., *see* Smith, J. H., 540
- Brewer, J. A. *see* Hein, D. W., 8
- Briley, M., *see* Lloyd, K. G., 672
- Bromocriptine, effects on single nephron and whole-kidney function (rats), 366
- Browner, M., *see* Kendall, D. A., 482
- Buckner, C. K., *see* Hand, J. M., 526
- Buprenorphine
effect on body temperature (mice), 468
effects on plasma luteinizing hormone and prolactin in male heroin addicts (man), 252
- Burimamide, antagonism of histamine H₂-receptors in trachea (rabbits), 353
- Butorphanol, effect on body temperature (mice), 468
- Byrd, L. D.: Comparison of the behavioral effects of phencyclidine, ketamine, *d*-amphetamine and morphine in the squirrel monkey, 139
- Byrne, G., *see* Cham, B. E., 648
- C5a-induced aortic contraction, effect of an antihistamine and inhibitors of arachidonate metabolism (guinea pigs), 102
- Ca⁺⁺
calmodulin, role in phosphorylation of striatal synaptic membrane proteins (rats), 278
effects of carbachol, ATP and prostaglandin E₁ on (rabbits), 347
- Cacini, W.: Comparative accumulation of uric acid and hypoxanthine by slices of avian renal cortex, 86
- Cardiovascular function, in hypovolemic shock, effect of naloxone on (dogs), 621, 625
- Calcium
effect on propranolol-induced contractions on mesenteric and coronary arteries (dogs), 127
ions, inhibition of calcium channels in intestinal smooth muscle by (guinea pigs), 382
-regulated phosphorylation of synaptosomal cytosolic proteins from striatum, effects of morphine on (rats), 696
- Calcium channels, in intestinal smooth muscle, inhibition by calcium ions (guinea pigs), 382
- Calcium conductance, effect of phenytoin (rats), 29
- Calmodulin, antagonists, effects on contraction of aortic strips (rabbits), 191
- Captopril
effect on prostaglandin synthesis (rats), 23
inhibition of angiotensin I-converting enzyme in renal failure (rats), 433
inhibition of angiotensin converting enzyme (rats), 63
- Carbachol, effect on Ca⁺⁺ uptake (rabbits), 347
- Carbamazepine, effects on potassium- and veratridine-stimulated calcium uptake in synaptosomes (rats), 29
- Cardiovascular effects
of ibuprofen (rabbits), 167
of morphine, pentobarbital and naloxone in brain stem (cats), 642
- Catecholamines
content in ear and cerebral arteries after superior cervical ganglionectomy (rabbits, cats), 49
chronotropic effects in isolated atria as influenced by dietary lipid (rats), 340
- Cayen, M. N., *see* Ferdinandi, E. S., 417
- Cells
heart, cultured, lack of interac-

- tion between digoxin and quinidine in (chicks), 488
- hippocampal pyramidal, effects of QX-314 on (guinea pigs), 476
- nonciliated bronchiolar epithelial (Clara) and alveolar type II, isolated from lung, metabolic activation of 4-ipomeanol in (rabbits), 223
- renal tubular, toxic effects of organohalide on (rats), 597
- spinothalamic tract, inhibition produced by stimulation in nucleus raphe magnus or periaqueductal gray, effects of serotonergic antagonists on (monkeys), 266
- Cerami, A., *see* Tabachnik, N. F., 243
- Cham, B. E., Bochner, F., Imhoff, D. M., Byrne, G. and Gunsberg, M.: *In vivo* and *in vitro* studies on the binding of salicylate to human plasma proteins: Evidence for one type of binding site, 648
- 2-Chloroadenosine, behavioral and physiological effects (mice, rats), 70
- Chlorpheniramine, inhibition of histamine H₁ receptors by (rabbits), 353
- Cho, A. K., *see* Fischer, J. B., 115
- Cho, C., *see* Raheja, K. L., 427
- Choleresis, by valproic acid, effect of inducers and inhibitors of glucuronidation on (rats), 305
- Choline, in blood and brain, effects of phosphatidylcholine on (rats), 322
- Choline acetyltransferase, from striatum and hippocampus, comparative study on effects of ethanol on (mice), 203
- Christ, D., Curry, J. and Zitaglio, T.: Potentiation of the ganglionic blocking action of norepinephrine by cocaine, 97
- Cigarette smoking, manipulation of number of puffs per bout, interbout interval and nicotine dose (man), 256
- Cimetidine, antagonism of histamine H₂-receptors in trachea (rabbits), 353
- Cinanserin, antagonistic effect on inhibition of phrenic nerve activity by 5-methoxy-N,N-dimethyltryptamine (cats), 39
- Clearance, of antipyrine, age-related changes (man), 120
- Clearance rate, metabolic, of circulating dopamine- β -hydroxylase, effect of diabetes (rats), 108
- Clonidine
effect on prostaglandin E₁-augmented cyclic AMP levels in jejunum (rats), 637
enhancement of apomorphine-induced aggression (rats), 389
- Clouet, D. H., *see* Williams, N., 278
- Cobalt, ion, influence on inhibitory effects of calcium ion (guinea pigs), 382
- Cocaine, effect of ganglionic blocking by norepinephrine in presence of (hamsters), 97
- Cochin, J., *see* Rosow, C. E., 464, 468
- Cohen, M. L. and Kurz, K. D.: Angiotensin converting enzyme inhibition in tissues from spontaneously hypertensive rats after treatment with captopril or MK-421, 63
- Commissaris, R. L., Semejn, D. R. and Rech, R. H.: Disposition without functional tolerance to the hypothermic effects of pentobarbital in the rat, 536
- Connors, B. A., *see* Luft, F. C., 433
- Connors, B. W. and Prince, D. A.: Effects of local anesthetic QX-314 on the membrane properties of hippocampal pyramidal neurons, 476
- Constantinidis, J., *see* Scatton, B., 678
- Contractile force, of isolated atria and right ventricular papillary muscles, effects of ouabain on (guinea pigs, rabbits, cats), 145
- Contractions
of aortic strips, effects of calmodulin antagonists (rabbits), 191
field stimulation-induced, effects of phenoxybenzamine, guanethidine, phentolamine and atropine (rabbits), 216
- Cook, C. E., Seltzman, T. P., Tal-ent, C. R. and Wooten, J. D. III: Immunoassay of racemic drugs: A problem of enantioselective antisera and a solution, 568
- Cooper, S. E., *see* Kluwe, W. M., 597
- Corey, E. J., *see* Stinger, R. B., 521
- Costa, E., *see* Harsing, L. G., Jr., 616
- Covalent binding, of diethylstilbestrol (rats), 358
- Cowden, E. A., *see* Stier, C. T., Jr., 366
- Crystal, G. J., *see* Downey, H. F., 375
- Cubeddu, L. X., *see* Hoffman, I. S., 16
- Curry, J., *see* Christ, D., 97
- Cyclazocine, effect on body temperature (mice), 468
- Cyclic AMP, dibutyryl-, -induced intestinal secretion, α -2 adrenergic inhibition of (rats), 637
- Cyclic guanosine 3':5'-monophosphate, in platelets, effects of methemoglobin (rabbits, man), 183
- Cyclohexyladenosine, behavioral and physiological effects (mice, rats), 70
- Cystic fibrosis, role of N-2-mercaptoethyl-1,3-diaminopropane in treatment of (rabbits, man), 243
- Cytochrome P-450
-dependent drug metabolism, age-related changes (rats), 574
role in metabolic activation of 4-ipomeanol in nonciliated bronchiolar epithelial (Clara) and alveolar type II cells isolated from lung (rabbits), 223
- Daniels, E. G., *see* Bothwell, W., 229
- Daniels-McQueen, S., *see* Ferrendelli, J. A., 29
- Dantrolene sodium, effects on electrophysiological properties of cardiac Purkinje fibers (dogs), 157
- Dedek, J., *see* Scatton, B., 678
- N-Demethylation, ethylmorphine, in isolated hepatocytes, kinetics of (rats), 35
- De Montis, G., *see* Lloyd, K. G., 672
- Denervation, sympathetic, effect on sensitivity of ear and cerebral arteries to vasoactive agents (rabbits, cats), 49
- Depoortere, H., *see* Worms, P., 660
- Devereux, T. R., Jones, K. G., Bend, J. R., Fouts, J. R., Statham, C. N. and Boyd, M. R.: *In vitro* metabolic activation of the pulmonary toxin, 4-ipomeanol, in nonciliated bronchiolar epithelial (Clara) and alveolar type II cells isolated from rabbit lung, 223
- Dexoadrol, discriminative stimulus and reinforcing properties (monkeys), 56
- Diabetes, insulin-deficient, effects on acetaminophen-induced hepatotoxicity and metabolism (rats), 504
- Diarrhea, drug-induced (hamsters), 236
- Diazepam
effect on apomorphine-induced hyperthermia (rabbits), 335
effects on potassium- and veratridine-stimulated calcium uptake in synaptosomes (rats), 29
- Dibenzofuranacetic acid, disposition, comparison in normal and arthritic subjects (rats), 417
- 1,2-Dibromo-3-chloropropane, relationship of tissue nonprotein sulfhydryls to toxic effects of (rats), 399
- Dietary lipid, influence on changes in accumulation of norepinephrine and chronotropic effects of catecholamines in isolated atria (rats), 340
- Diethyl maleate, effects on glutathione depletion, potentiation of 1,2-dibromo-3-chloropropane toxicity (rats), 399
- Diethylstilbestrol, distribution during pregnancy (rats), 358
- Dietrich, C. P., *see* Bianchini, P., 406
- Digoxin, lack of interaction with quinidine in heart cells (chicks), 488
- [³H]Dihydroalprenolol, binding in heart and lung, inhibition by Alm-CO-CH₂Br (rats), 247
- [³H]Dihydroalprenolol, specific binding to cardiac homogenates, effect of isoproterenol (rats), 411
- 3,4-Dihydroxyphenylacetic acid, striatal, effects of molindone (rats), 609
- 5,6-Dihydroxytryptamine, effect on depletion of spinal cord norepinephrine or serotonin content (rats), 311
- Diphenhydramine
effect on C5a-induced aortic contraction (guinea pigs), 102
inhibition of potentiation of bradykinin edema formation by (dogs), 293
- Diprenorphine, effect on body temperature (mice), 468
- Disposition
myocardial, of verapamil (dogs), 91
of etodolac, prodolic acid, AY-23,427, furobufen and dibenzofuranacetic acid in normal and arthritic subjects (rats), 417
of pulmonary metabolites of prostaglandin E₁ and E₂ (rabbits, man, dogs), 229
- Distribution, fetal, of diethylstilbestrol (rats), 358
- Divoll, M., *see* Greenblatt, D. J., 120
- Dopamine
in brain, effect of tryptophan (rats), 579
neurons, brain, effects of molindone on (rats), 609
release and metabolism, in neostriatum, presynaptic effects of tetrahydropapaveroline (rabbits), 16
turnover in brain and metabolism, effect of progabide (rats, cats), 678
- Dopamine- β -hydroxylase, serum, effect of diabetes (rats), 108
