

# The Journal of PHARMACOLOGY AND EXPERIMENTAL THERAPEUTICS

VOLUME 227  
NOVEMBER 1983  
NUMBER 2

## CONTENTS

<b>Conjugates of Catecholamines. IV. <i>In Vitro</i> and <i>In Vivo</i> Pharmacological Activity of Monodisperse Oligopeptide Conjugates.</b> R. P. Rosenkranz, K. A. Jacobson, M. S. Verlander, L. Klevans, M. O'Donnell, M. Goodman and K. L. Melmon	267
<b>Fetal Anticonvulsant Syndrome in Rats: Dose- and Period-Response Relationships of Prenatal Diphenylhydantoin, Trimethadione and Phenobarbital Exposure on the Structural and Functional Development of the Offspring.</b> Charles V. Vorhees	274
<b>Potential of the Antithrombotic Effect of Prostacyclin by Simultaneous Administration of Aminophylline in a Canine Model of Coronary Artery Thrombosis.</b> Joseph L. Romson, Bruce G. Hook and Benedict R. Lucchesi	288
<b>Effect of Experimental Renal Failure on the Disposition Kinetics of <i>l</i>-Propranolol in Rats.</b> Norikazu Terao and Danny D. Shen	295
<b>An Analysis of Nicotinic and Opioid Processes in the Medulla Oblongata and Nucleus Ambiguus of the Dog.</b> K. M. Wu and W. R. Martin	302
<b>Comparative Effects of Clindamycin and Lincomycin on End-Plate Currents and Quantal Content at the Neuromuscular Junction.</b> J. F. Fiekers, F. Henderson, I. G. Marshall and R. L. Parsons	308
<b>Ligand Selectivity of Dog Coronary Adenosine Receptor Resembles That of Adenylate Cyclase Stimulatory (<math>R_A</math>) Receptors.</b> Shozo Kusachi, Robert D. Thompson and R. A. Olsson	316
<b>Effect of Hydralazine on Tension and Membrane Potential in the Rat Caudal Artery.</b> Kent Hermsmeyer, Angelo Trapani, Peter W. Abel and Manuel Worcel	322
<b>LY53857, a Selective and Potent Serotonergic (<math>5\text{-HT}_2</math>) Receptor Antagonist, Does Not Lower Blood Pressure in the Spontaneously Hypertensive Rat.</b> Marlene L. Cohen, Ray W. Fuller and Ken D. Kurz	327
<b>Role of <math>\beta_1</math> Adrenergic Receptors in the Control of the Heterogeneity of <math>O_2</math> Saturation in Small Myocardial Veins.</b> Harvey R. Weiss	333
<b>Heterogeneity of Acetylcholine Receptors: Different Forms of Receptor Distinguished by <math>\alpha</math>-Bungarotoxin Kinetics and by Antibody Binding Properties.</b> Tobias Massa and Thomas W. Mittag	340
<b>Methanol Toxicity in the Monkey: Effects of Nitrous Oxide and Methionine.</b> J. T. Eells, K. A. Black, C. E. Tedford and T. R. Tephly	349
<b>Altered Behavioral Response to a D2 Agonist, LY141865, in Spontaneously Hypertensive Rats Exhibiting Biochemical and Endocrine Responses Similar to Those in Normotensive Rats.</b> Ray W. Fuller, Susan K. Henrick-Luecke, David T. Wong, Donovan Pearson, Penny G. Threlkeld and Martin D. Hynes III	354
<b>Stereoselective Increase in Propranolol Bioavailability during Chronic Dosing in the Dog.</b> Stephen A. Bai, Michael J. Wilson, U. Kristina Walle and Thomas Walle	360
<b>Release of Substance P from the Enteric Nervous System: Direct Quantitation and Characterization.</b> Sheri A. Baron, Bernard M. Jaffe and Alan R. Gintzler	365
<b>Alterations in Serum Protein Binding and Pharmacokinetics of <i>l</i>-Propranolol in the Rat Elicited by the Presence of an Indwelling Venous Catheter.</b> Norikazu Terao and Danny D. Shen	369
<b>Relationship of Dose to Morphine Tolerance in the Chick Embryo.</b> M. B. Schmidt and Stata Norton	376
<b>Dopaminergic and Serotonergic Mechanisms of Thermoregulation: Mediation of Thermal Effects of Apomorphine and Dopamine.</b> Shigeto Yamawaki, Henry Lai and Akira Horita	383
<b>Lipid Solubility is Correlated with Hypnotic and Hypothermic Responses of Long-Sleep (LS) and Short-Sleep (SS) Mice to Various Depressant Drugs.</b> Thomas C. Howerton, Michael F. O'Connor and Allan C. Collins	389
<b>Opioid Peptides with Differential Affinity for <math>\mu</math> and <math>\Delta</math> Receptors Decrease Sensory Neuron Calcium-Dependent Action Potentials.</b> Mary Ann Werz and Robert L. Macdonald	394

Contents Continued on *iv*

<b>Potent Morphiceptin Analogs: Structure Activity Relationships and Morphine-Like Activities.</b> K.-J. Chang, E. T. Wei, A. Killian and J.-K. Chang .....	403
<b>Nephrotoxicity of 1-(2-Chloroethyl)-3-(Trans-4-Methylcyclohexyl)-1-Nitrosourea (MeCCNU) in the Fischer F344 Rat.</b> R. A. Kramer and M. R. Boyd .....	409
<b>Impairment of Membrane Phosphoinositide Metabolism by Aminoglycoside Antibiotics: Streptomycin, Amikacin, Kanamycin, Dibekacin, Gentamicin and Neomycin.</b> Pierre Marche, Sophie Koutouzov and Arlette Girard .....	415
<b>Sleeping Times Evoked by <i>Alpha</i> Adrenoceptor Agonists in Two-Day-Old Chicks: An Experimental Model to Evaluate Full and Partial Agonists at Central <i>Alpha</i>-2 Adrenoceptors.</b> Alan G. Roach, John C. Doxey, Diane A. Strachan and Icilio Cavero .....	421
<b>Temperature-Dependent 5-Hydroxytryptamine (5-HT)-Sensitive [<sup>3</sup>H]Spiperone Binding to Rat Cortical Membranes: Regulation by Guanine Nucleotide and Antidepressant Treatment.</b> David A. Kendall and Stefan R. Nahorski .....	429
<b>Modulation of Cortical Acetylcholine and <math>\gamma</math>-Aminobutyric Acid Release in Freely Moving Guinea Pigs: Effects of Clonidine and Other Adrenergic Drugs.</b> F. Moroni, S. Tanganelli, T. Antonelli, V. Carlà, C. Bianchi and L. Beani .....	435
<b>Placental Transfer and Renal Elimination of Cimetidine in Maternal and Fetal Sheep.</b> George W. Mihaly, D. Brian Jones, Denis J. Morgan, Michael S. Ching, Lorraine K. Webster, Richard A. Smallwood and Ken J. Hardy .....	441
<b>Amphetamine Inhibits the Electrically Evoked Release of [<sup>3</sup>H]Dopamine from Slices of the Rabbit Caudate.</b> L. A. Kamal, S. Arbilla, A.-M. Galzin and S. Z. Langer .....	446
<b>Correlation between the <i>in Vivo</i> Metabolism of Hexobarbital and Antipyrine in Rats.</b> M. van der Graaff, N. P. E. Vermeulen, R. P. Joeres, T. Vlietstra and D. D. Breimer .....	459
<b>Inhibition of the Spontaneous Climbing Behavior Elicited in Mice by Opiates.</b> Helene Marcais-Collado, Pierre Chaillet and Jean Costentin .....	466
<b>Hypotensive and Diuretic Actions of Diltiazem in Spontaneously Hypertensive and Wistar Kyoto Rats.</b> Hiroshi Narita, Taku Nagao, Hideo Yabana and Isao Yamaguchi .....	472
<b>Effects of the Sympathetic Nervous System on Bethanechol-Induced Elevation of Gastric Acid Secretion and Mucosal Blood Flow in Rats.</b> Kunihiko Yokotani, Ikunobu Muramatsu and Motohatsu Fujiwara .....	478
<b>Central and Peripheral Cardiovascular Effects of <math>\alpha</math>-Methylepinephrine.</b> Che-Se Tung, Michael R. Goldberg, Alan S. Hollister, John A. Oates and David Robertson .....	484
<b>Estimation of the Styrene 7,8-Oxide-Detoxifying Potential of Epoxide Hydrolase in Glutathione-Depleted, Perfused Rat Livers.</b> Brian R. Smith, Jennifer Van Anda, James R. Fouts and John R. Bend .....	491
<b><math>\beta</math>-Endorphin and Its Metabolites Stimulate Motility of the Dog Small Intestine.</b> Thomas P. Davis, Alison J. Culling, Hans Schoemaker and James J. Galligan .....	499
<b>Respiratory and Cardiovascular Depressant Effects of Nabilone, N-Methyllevonantradol and <math>\Delta</math>-9-Tetrahydrocannabinol in Anesthetized Cats.</b> Patricia A. Doherty, Lawrence E. McCarthy and Herbert L. Borison .....	508
<b>Effects of Histamine, H<sub>1</sub>- and H<sub>2</sub>-Receptor Antagonists on the Activity of Serotonergic Neurons in the Dorsal Raphe Nucleus.</b> Joan M. Lakoski and George K. Aghajanian .....	517
<b>Amphetamine-Induced Hyperphagia and Obesity Caused by Intraventricular or Lateral Hypothalamic Injections in Rats.</b> Luis Hernandez, Marco Parada and Bartley G. Hoebel .....	524
<b>Drug-Induced Impairment of Pulmonary [<sup>3</sup>H]Prostaglandin E<sub>1</sub> Removal <i>in Vivo</i>.</b> Bruce R. Pitt, John R. Forder and C. Norman Gillis .....	531
<b>Surfactants Selectively Ablate Enteric Neurons of the Rat Jejunum.</b> Deborah A. Fox, Miles L. Epstein and Paul Bass ..	538
