CONTENTS

Adenosine Selectively Attenuates \( H^+ \) and \( \beta \)-Mediated Cardiac Responses to Histamine and Norepinephrine: An Unmasking of \( H^+ \) and \( \beta \)-Mediated Responses. Yuichi Hattori and Roberto Levi .................................................. 215

Pharmacological and Biochemical Evidence for Metabolism of Peptide Leukotrienes by Guinea-Pig Airway Smooth Muscle In Vitro. D. W. Snyder, D. Aharony, P. Dobson, B. S. Tsai and R. D. Krell .................................................. 224

Arachidonic Acid Metabolism By Rat Liver Cells (The C-9 Cell Line). Anastasia Rigs and Lawrence Levine .................................................. 230

Effects of Acetylcholine in the Pulmonary Circulation of Rabbits. John D. Catravas, Jerry L. Buccafuso and Hassan El Kashef .................................................. 236

Pharmacokinetics of the Poly-\( \gamma \)-Glutamyl Metabolites of Methotrexate in Skin and Other Tissues of Rats and Hairless Mice. Cheryl L. Zimmerman, Thomas J. Franz and John T. Slaterry .................................................. 242

Inhibition of Renal \( Na^+ \), \( K^+ \)-Adenosine Triphosphatase by Gentamicin. P. D. Williams, M. E. Trimble, L. Crespo, P. D. Holohan, J. C. Freedman and C. R. Ross .................................................. 248

Inhibition of Urinary Bladder Contractions by a Spinal Action of Morfine and Other Opioids. A. Dray and R. Metach .................................................. 254

A Comparison between Classes of Drugs Having Phencyclidine-Like Behavioral Properties on Dopamine Efflux In Vitro and Dopamine Metabolism In Vivo. Lawrence D. Snell, Zarena L. Mueller, Robert L. Gannon, Peter B. Silverman and Kenneth M. Johnson .................................................. 261

\( \kappa \) Opioid Analgesia is Dependent on Serotonergic Mechanisms. P. F. VonVoigtlander, R. A. Lewis and G. L. Neff .................................................. 270

Pharmacological Characterization of Dopamine Autoreceptors in the Rat Ventral Tegmental Area: Microiontophoretic Studies. Francis J. White and Rex Y. Wang .................................................. 275

Autoregulation of Cardiac Cycle Length: Role of Catecholamines. Jerod M. Loeb, John M. deTarnowsky, Sarah H. Doerschuk and Christopher C. Whitson .................................................. 281

The Application of Second Order Polynomial Equations to the Study of Pharmacodynamic Interactions: The Effect of Flecainide Acetate and Propranolol on Cardiac Output and Vascular Resistance. Jordan L. Holtzman, Donald A. Berry, Donald C. Kvar, Linda Mottonen and Gary Borrell .................................................. 286

Hepatic and Pulmonary Microsomal Metabolism of Naphthalene to Glutathione Adducts: Factors Affecting the Relative Rates of Conjugate Formation. Alan R. Buckpitt, Linda S. Bahnson and Ronald B. Franklin .................................................. 291

Genotype-Dependent Behavioral Sensitivity to \( \mu \) vs. \( \kappa \) Opiate Agonists. I. Acute and Chronic Effects on Mouse Locomotor Activity. Germaine J. Gwynn and Edward F. Domino .................................................. 306

Genotype-Dependent Behavioral Sensitivity to \( \mu \) vs. \( \kappa \) Opiate Agonists. II. Antinociceptive Tolerance and Physical Dependence. Germaine J. Gwynn and Edward F. Domino .................................................. 312

Kinetics of Ouabain Binding and Changes in Cellular Sodium Content, \( \delta K^+ \) Transport and Contractile State during Ouabain Exposure in Cultured Chick Heart Cells. Donghee Kim, William H. Barry and Thomas W. Smith .................................................. 326

Effects of Thioridazine and Its Metabolites on Dopaminergic Function: Drug Metabolism as a Determinant of the Antidopaminergic Actions of Thioridazine. Clinton D. Kilts, David L. Knight, Richard B. Mailman, Erik Widerlow and George R. Breese .................................................. 334

Behavioral Differences between Neonatal and Adult 6-Hydroxydopamine-Treated Rats to Dopamine Agonists: Relevance to Neurological Symptoms in Clinical Syndromes with Reduced Brain Dopamine. George R. Breese, Alan A. Baumeister, Thomas J. McCown, Susan G. Emerick, Gerald D. Frye, Karen Crotty and Robert A. Mueller .................................................. 343

Dopamine Receptor Stimulating and \( \alpha \) Adrenergic Receptor Blocking Actions of \( \delta \) (CS-263) and \( \epsilon \) (CS-263) Isomers of Nonhydroxylated N-Propyl Octahydrobenzo[F]Quinoline. M. Ilhan, J. P. Long and J. G. Cannon .................................................. 361

Effect of Age on Adrenergic Neuronal Uptake in Rat Heart. Margaret Szpila Kreider, Paula Brustyn Goldberg and Jay Roberts .................................................. 367

Contents Continued on iv
Disposition and Anticoagulant Activity of Biologically Active Heparin Fragments in the Rat. Annette K. Larsen, Stella Hetelekidas and Robert Langer ................................................................. 373
Effects of Adrenoceptor Antagonists and Neuronal Uptake Inhibitors on Dimethylylphenylpiperazinium-Induced Release of Catecholamines from the Rabbit Isolated Adrenal Gland and Guinea-Pig Atria. Anthony R. Collett and David F. Story ................................................................. 379
Mechanism of Reversal of Toxic Effects of Amitriptyline on Cardiac Purkinje Fibers by Sodium Bicarbonate. Betty I. Sasyniuk and Vija Jhamandas ................................................................. 387
Inhibitory Presynaptic Effect of Noradrenaline on the Hypogastric Ganglion of the Guinea Pig. Fujio Abe ................................................................. 395
Pharmacological Characterization of Alpha Adrenoceptors in the Rat Gastric Fundus. Peter A. Verplanken, Romain A. Lefebvre and Marc G. Bogaert ................................................................. 404
Individual and Combined Antiepileptic and Neurotoxic Activity of Carbamazepine and Carbamazepine-10,11-Epoxide in Mice. B. F. D. Bourgeois and N. Wad ................................................................. 411
Effect of Ethanol Tolerance on Norepinephrine-Ethanol Inhibition of (Na+ + K+)-Adenosine Triphosphatase in Various Regions of Rat Brain. N. I. Rangaraj and H. Kalant ................................................................. 416
Is Acute Morphine Hyperthermia of Unrestrained Rats Due to Selective Activation of Brown Adipose Tissue Thermogenesis? J. A. Thornhill and M. Desautels ................................................................. 422
Treatment of Ventricular Tachyarrhythmias Resulting from Amitriptyline Toxicity in Dogs. Stanley Nattel and Murray Mittleman ................................................................. 430
Serotonin Regulation of the Canine Migrating Motor Complex. Herbert S. Ormsbee, III, David A. Silber and Franklin E. Hardy, Jr. ................................................................. 436
Arachidonic Acid Metabolism in a Cell Suspension Isolated from Rabbit Renal Outer Medulla. N. R. Ferreri, M. Schwartzman, N. G. Ibrahim, P. N. Chander and J. C. McGiff ................................................................. 441
Renal Metabolism of Sulindac: Functional Implications. Mark J. S. Miller, Martin M. Bednar and John C. McGiff ................................................................. 449
Cardiovascular Control by Cholinergic Mechanisms in the Rostral Ventrolateral Medulla. Robert N. Willette, Susan Punnen, Abbott J. Krieger and Hreday N. Sapru ................................................................. 457
Erratum ................................................................. 472
