Pesticides Studied In Man
Wayland J. Hayes, MD, PhD
Companion volume to the author's Toxicology of Pesticides (1975). This brand new book focuses on compounds about which we have direct information concerning effects on man.
1982/686 pages/51 illustrations/#3896-6/$50.95

Manual of Clinical Pharmacology
Edited by David Robertson, MD and Craig R. Smith, MD
Highlights the 100 most commonly used drugs, pinpointing drugs that are especially practical...or difficult...or new.
1981/350 pages/#7300-1/$20.00

Drugs and Anesthesia
Pharmacology for Anesthesiologists
Edited by Margaret Wood, MB, ChB, FFARCS and Alastair J.J. Wood, MB, ChB, MRCP
Takes into account the complexity of current therapeutic medical management before and after surgery as it can complicate the administration of clinical anesthesia and analgesia.
1982/703 pages/173 illustrations/#9251-0/$60.00

Leading Pharmacology Journals

Publications of the American Society for Pharmacology and Experimental Therapeutics, Inc.

THE JOURNAL OF PHARMACOLOGY AND EXPERIMENTAL THERAPEUTICS

Editor: Eva King Killam, PhD

JPET is respected the world over as one of the leading research journals in the field of pharmacology. Readers find broad coverage of all aspects of the interactions of chemicals with biological systems, including autonomic, behavioral, cardiovascular, cellular, clinical, developmental, gastrointestinal, immunological, neuro, pulmonary, and renal pharmacology, as well as analgesics, drug abuse, metabolism and disposition, chemotherapy, and toxicology. Monthly

DRUG METABOLISM AND DISPOSITION

The Biological Fate of Chemicals

Editor: Vincent G. Zannoni, PhD

DRUG METABOLISM AND DISPOSITION publishes in vitro and in vivo experimental results that bring readers significant and original information on xenobiotic metabolism and disposition, including metabolism of all pharmacologic agents or drugs and environmental chemicals, reactants, and preservatives. The areas covered are: pharmacokinetics, pharmacodynamics, and mechanisms of genetic, nutritional, or hormonal factors affecting the biological fate of chemicals; toxicological consequences of xenobiotic metabolism. Bimonthly

PHARMACOLOGICAL REVIEWS

Editor: James A. Bain, PhD

PHARMACOLOGICAL REVIEWS is a showcase for important review articles on your field, featuring longer papers on topics of high current interest. The areas covered in review papers have included biochemical and cellular pharmacology, drug metabolism and disposition, renal pharmacology, neuropharmacology, behavioral pharmacology, clinical pharmacology, and toxicology. No library serving the pharmacologic community should be without a subscription. Quarterly

MOLECULAR PHARMACOLOGY

Editor: Joel G. Hardman, PhD

The papers published in MOLECULAR PHARMACOLOGY are on the cutting edge of research on drug action and selective toxicity at the molecular level. Original applications of biochemistry, biophysics, genetics, and molecular biology are juxtaposed with innovative pharmacologic research to elucidate basic problems in pharmacology and toxicology, including such areas as molecular mechanisms involved in drug receptor-effector coupling, xenobiotic metabolism, and antibiotic and anticancer drug action. Bimonthly
