CONTENTS

Altered Methadone Pharmacokinetics in Methadone-Maintained Pregnant Women. Susan M. Pond, Mary Jeanne Kreek, Theodore G. Tong, Jayanthi Raghunath and Neal L. Benowitz ......................................................... 1

Renal Tubular Excretory Transport of Oxalate in the Chicken. Larry M. Tremaine, J. E. Bird and A. J. Quebbemann ................................................................. 7

Comparative Effects of Nisoldipine, Nifedipine and Bepridil on Experimental Pulmonary Hypertension. Stephen L. Archer, Robert D. Yankovich, Elliot Chesler and E. Kenneth Weir ................................................................. 12

Metabolism, Distribution, Seminal Excretion and Pharmacokinetics of Caffeine in the Rabbit. Cynthia A. Beach, Dennis C. Maya, Bruce M. Sterman and Nicholas Gerber ................................................................. 18

Prostaglandin Synthesis and Renal Vasoconstriction Elicited by Adrenergic Stimuli are Linked to Activation of Alpha-1 Adrenergic Receptors in the Isolated Rat Kidney. Christy L. Cooper and Kafait U. Malik ................................................................. 24

Tyrosine Hydroxylase Activity and Catecholamine Biosynthesis in the Adrenal Medulla of Rats during Stress. Steven J. Fluharty, Gretchen L. Snyder, Michael J. Zigmond and Edward M. Stricker ................................................................. 32

Chlorphentermine-Induced Biochemical Alterations in Mitochondrial Membranes. Lech Zychlinski and Mark R. Montgomery ................................................................. 39

Effects of 6-Methoxy-2-Benzoxazolinone on the Pineal Melatonin Generating System. Arthur Yuwiler and Wallace D. Winters ................................................................. 45

Differential Effects of Xylamine on Extracellular Concentrations of Norepinephrine and Dopamine in Rat Central Nervous System: An in Vivo Electrochemical Study. Sherrel Howard-Butcher, Charles D. Blaha and Ross F. Lane ................................................................. 58

Effects of H2-Receptor Antagonists upon Physiological Acid Secretory States in Animals. Robert G. Pendleton, Patricia G. Cook, Alene Shepherd-Rose and Allen W. Mangel ................................................................. 64

Mechanisms of the Synergistic Combination of Metolazone and Bumetanide. D. Craig Brater, Russell H. Pressley and Shirley A. Anderson ................................................................. 70

Relationship between Serotonin and Tryptamine Receptors in the Rat Stomach Fundus. Marlene L. Cohen and Laura A. Wittenauer ................................................................. 75

Discriminative Stimulus Effects of Morphine Withdrawal in the Dependent Rat: Suppression by Opiate and Nonopiate Drugs. Stephen G. Holtzman ................................................................. 80

Comparison of the Cardiovascular Actions of Dopamine and Epinephrine in the Dog. Haruki Itoh, Dai I. Kohli, Sol I. Rajfer and Leon I. Goldberg ................................................................. 87

Effect of Halothane-Oxygen Anesthesia on the Pharmacokinetics of Diazepam and Its Metabolites in Rats. Larry E. Bell, John T. Slattery and Dianne F. Calkins ................................................................. 94

Effects of 2-Nicotinamidoethyl Nitrate on Agonist-Sensitive Ca** Release and Ca** Entry in Rabbit Aorta. R. Kelly Hester ................................................................. 100

Actions of Ba** on Ionic Currents of the Guinea-Pig Taenia Coli. H. Inomata and C. Y. Kao ................................................................. 112

Effects of Pentobarbital on (t-[3H]Butylbicyclophosphorothionate and (t-[3H]Flunitrazepam Binding to Membrane-Bound and Solubilized Preparations from Rat Forebrain. Judith A. Richter and Henry R. Yamamura ................................................................. 125

Regulation of Muscarinic Cholinergic Receptor Density in Neuroblastoma Cells by Brief Exposure to Agonist: Possible Involvement in Densensitization of Receptor Function. Pamela Feigenbaum and Esam A. El-Fakahany ................................................................. 134

Beta-2 Adrenergic Control of Ornithine Decarboxylase Activity in Brain Regions of the Developing Rat. Geoffrey Morris and Theodore A. Slotkin ................................................................. 141

LY171883, 1-(2-Hydroxy-3-Propyl-4-<4-(1H-Tetrazol-5-yl)Butoxy>Phenyl)Ethanone, an Orally Active Leukotriene D4 Antagonist. Jerome H. Fleisch, Lynn E. Rinkema, Klaus D. Haisch, Dorothy Swanson-Bean, Theodore Goodson, Peter P. K. Ho and Winston S. Marshall ................................................................. 148

Contents Continued on iv
Endothelial Cells and the Electrical and Mechanical Responses of the Rabbit Coronary Artery to 5-Hydroxytryptamine. C. J. Garland ................................................................. 158

Physiological Approach of Beta-Receptor Coupling to Adenylate Cyclase in Rat Airways: Ontogenical Modification and Functional Antagonism. Nelly Frossard and Yves Landry ................................................................. 168

Lipoxygenase Inhibitors and Cyclic AMP-Mediated Insulin Secretion Caused by Forskolin, Theophylline and Dibutyril Cyclic AMP. Satoshi Yamamoto, Teruo Nakadate, Hiroya Uzumaki and Ryuichi Kato ................................................................. 176

H⁺ Gradient-Dependent Transport of Aminocephalosporins in Rat Renal Brush Border Membrane Vesicles: Role of H⁺/Organic Cation Antiport System. Ken-Ichi Inui, Mikihsa Takano, Tomonobu Okano and Ryoei Horii ................................................................. 181

Response and Sensitivity of Isolated Human Pulmonary Muscle Preparations to Pharmacological Agents. Bernadette Raffestin, Jacques Cerrina, Cécile Boullet, Carlos Labat, Jacques Benveniste and Charles Brink ................................................................. 186

Influence of Pharmacological Manipulation of Inhibitory and Excitatory Neurotransmitter Systems on Seizure Behavior in the Mongolian Gerbil. Wolfgang Löscher ................................................................. 204

Age-Related Alteration in the Activities of Drug Metabolizing Enzymes and Contents of Sex-Specific Forms of Cytochrome P-450 in Liver Microsomes from Male and Female Rats. Tetsuya Kamataki, Kaori Maeda, Miki Shimada, Kenichi Kitani, Tsuneji Nagai and Ryuichi Kato ................................................................. 222

Effects of Calcium Entry Blockers on Coronary Constriction and Myocardial Ischemia due to Leukotriene D₄. David Ezra, Lillie M. Boyd, Robert E. Goldstein and Giora Feuerstein ................................................................. 229

Muscarine Stimulates the Hydrolysis of Inositol-Containing Phospholipids in the Superior Cervical Ganglion. Joel Horwitz, Sofia Tsymbalov and Robert L. Perlman ................................................................. 235

Potentiation of the Hepatotoxic Effect of Acetaminophen by Prior Administration of Salicylate. S. M. Doudar, P. J. Boor and A. E. Ahmed ................................................................. 242

Evidence for a Central Site of Action for the Antitussive Effects of Caramiphen. Edward F. Domino, Halina Krutak-Krol and Jawahar Lal ................................................................. 249

Autoradiographic Characterization of N-Methyl-D-Aspartate-, Quisqualate- and Kainate-Sensitive Glutamate Binding Sites. J. Timothy Greenamyre, James M. M. Olson, John B. Penney, Jr. and Anne B. Young ................................................................. 254

Experimental Gentamicin Nephrotoxicity: Effect of Streptozotocin-Induced Diabetes. W. Clayton Elliott, Donald C. Houghton, David N. Gilbert, Joan Baines-Hunter and William M. Bennett ................................................................. 264

Type II Cell Response to Chronic Beta Adrenergic Agonist and Antagonist Infusions. Stephen L. Young and Robert A. Silbajoris ................................................................. 271
