"Already required reading for anybody who seriously considers [himself] to be a neuroscientist."

Nature

THE JOURNAL OF NEUROSCIENCE
The Official Journal of the Society for Neuroscience

Editor-in-Chief:
W. Maxwell Cowan, MD, PhD

Neuroscience is the most rapidly growing branch of biological science. And you'll find this dynamic energy reflected in The Journal of Neuroscience... a dependable source for the latest trends and discoveries within your field.

The Journal is interdisciplinary, bringing together findings in all areas of neuroscience, molecular to clinical. So it mirrors the objectives and scope of the Society for Neuroscience and the societies in Europe and Japan. The five areas covered by The Journal are molecular neuroscience, cellular neuroscience, developmental neuroscience, behavioral neuroscience, and neural systems.

Published monthly

In Japan, please contact USACO to start your subscription: USACO; 13-12, Shimbashi 1-chome, Minato-ku, Tokyo, 105, JAPAN.

Williams & Wilkins P.O. Box 1496 Baltimore, Maryland 21203 USA 266 Fulham Road London SW10 9EL England

Start your subscription to The Journal of Neuroscience

1985 subscriptions are available at the following rates:

☐ Institutional: $265.00/yr
☐ Individual: $115.00/yr
(Add $25.00 for subscriptions outside the U.S.)

I want to ensure uninterrupted service and avoid planned rate increases. Please enter my subscription for:

☐ 3 years  ☐ 2 years  ☐ 1 year at the current rate.
☐ new subscription ☐ renewal

Residents of Maryland, please add 5% state sales tax. Orders outside the U.S. must be prepaid in U.S. dollars only. Rates valid through Oct. 31, 1985. Please allow 10 weeks for delivery of your first issue. Surface mail delivery to countries outside the U.S. may take up to 16 weeks. Airmail rates available upon request.

Members of the Society for Neuroscience: Please contact the Society to begin your subscription at special member rate.

Nature gave The Journal of Neuroscience high marks for its quality and stature in the field:

"Although the number of new journals one encounters in the library each year seems staggering, it is fair to say that many of these never amount to much. JN is an exception. It has rapidly become a major publication in neurobiology, one to rival the established Brain Research and Neuroscience..."

"High scientific standards have been ensured by having an editorial advisory board that reads like a Who's Who in neurobiology."

"It is quite clear from an examination of the journal over the past year that major workers in each of these fields are using the journal for the publication of their best work."

"JN is highly recommended; I am sure it will flourish."

ORDER FREE BY PHONE... Just call 1-800-638-6423 from anywhere in the US except AK and HI. In MD call 528-4105 collect.

An important resource for everyone involved in research on the metabolism of drugs and chemicals

DRUG METABOLISM AND DISPOSITION
The Biological Fate of Chemicals

Editor: Vincent G. Zannoni, PhD, University of Michigan, Ann Arbor, Michigan

DRUG METABOLISM AND DISPOSITION publishes in vitro and in vivo experimental results that bring readers significant and original information on xenobiotic metabolism and disposition, including metabolism of all pharmacologic agents or drugs and environmental chemicals, reactants, and preservatives. All papers are referred to ensure a high standard of publication. The areas covered are:

- pharmacokinetics
- pharmacodynamics
- genetic, nutritional, and hormonal factors affecting the biological fate of chemicals
- toxicological consequences of xenobiotic metabolism

This journal should be a standard reference in all pharmacology and toxicology departments. It is also a valuable resource for all medicinal chemists involved in designing drugs and all biochemists involved with drug metabolism.

Bimonthly
