SENIOR SCIENTIST
OFFICE OF REVIEW MANAGEMENT

The Center for Drug Evaluation and Research (CDER) announces an opening for the position of Senior Scientist, Office of Review Management. Application must be received by April 30, 1996. The Senior Scientist (Pharmacology/Toxicology), a staff official unimpeded by responsibility for day-to-day line authority, advises center management on and participates in policy formulation, program planning and evaluation; insures that pharmacological/toxicological considerations as appropriate, are incorporated in all center regulatory and research decisions, policies and activities; chairs the Pharmacology/Toxicology Coordinating Committee; represents the Agency on International Conference on Harmonization committee; conducts research and resolves problems concerned with pharmacology/toxicology issues; provides expert advice and assistance on risk assessment throughout the center; serves on various task forces, committees and seminar groups concerned with his/her areas of expertise and develops and conducts seminars and training programs for center scientists and review staff. This opening is a civil service position in the Senior Biomedical Research Service (SBRS). The SBRS salary range is $67,941 to $148,400. Applicants employed by institutions of higher learning who are appointed to the SBRS have the option of participating in the Federal Employees Retirement System or, subject to certain limitations, continuing to participate in the retirement program of their institution. Applicants must have a doctorate in medicine, veterinary medicine, biomedicine, pharmacology, toxicology or a related field; mastery of scientific principles and methodology applicable to the design and interpretation of pharmacologic, toxicologic and pharmacokinetic studies; and mastery of the drug development/drug review processes, regulatory procedures/requirements and public health concerns.

New American drug on pharmacologic pharmacology, neuropharmacology. covered experimental toxicological gene disposition of pharmacologic metabolizing Drug and pharmacology, gastrointestinal.

Drug Metabolism and Disposition: The Biological Fate of Chemicals
Editor: Raymond F. Novak, Ph.D.

Drug Metabolism and Disposition publishes experimental results from in vitro and in vivo systems that bring you significant and original information on metabolism and disposition of endogenous and exogenous compounds, including pharmacologic agents and environmental chemicals. The areas covered are: xenobiotic metabolism, expression of drug metabolizing enzymes, regulation of drug metabolizing enzyme gene expression, pharmacokinetics, pharmacodynamics and toxicological consequences of xenobiotic metabolism. Monthly.

Pharmacological Reviews
Editor: David B. Bylund, Ph.D.

Pharmacological Reviews is a showcase for important review articles in your field, featuring longer papers on topics of high current interest. The areas covered in review papers have included biochemical and cellular pharmacology, drug metabolism and disposition, renal pharmacology, neuropharmacology, behavioral pharmacology, clinical pharmacology, and toxicology. No library serving the pharmacologic community should be without a subscription. Quarterly.
