

INDEX TO VOLUME XXIX

Abel, John J., Titles of papers by.....	vii
Absorption spectra (infra-red) of the alkaloids, Studies of the. I. Tropan derivatives.....	533
Acid-base equilibrium of the blood in pregnant animals, Studies concerning the value of a solution of glucose in maintaining the. I. The effect of a period of ether anesthesia in pregnant animals. The protection conferred by a solution of glucose.....	381
Adrenalectomy, Blood studies in dogs after.....	373
Adstringierwirkung des Aluminium-Acetates, Ueber die.....	83
Alkaloids, Studies of the infra-red absorption spectra of the. I. Tropan derivatives.....	533
— and serum, The reaction between.....	95
Aluminium-Acetates, Ueber die Adstringierwirkung des.....	83
Amberg, Samuel, and Sawyer, Frances. The rate of filtration of protein solutions, particularly of mucin.....	339
Analgesic drugs, The mode of action of some, and a physico-chemical study of the antagonistic action of magnesium and calcium salts.....	441
Anemia, A phyto-pharmacological study of pernicious.....	461
Anesthesia, The theory of, and the problem of toxicity.....	269
— in pregnant animals, The effect of a period of ether. The protection conferred by a solution of glucose. Studies concerning the value of a solution of glucose in maintaining the acid-base equilibrium of the blood in pregnant animals. I.....	381
Antagonistic action of magnesium and calcium salts, A physico-chemical study of the, and the mode of action of some analgesic drugs.....	441
Anti-diuretic effects of the caffen group in the dog, The.....	397
Antipyresis (aspirin) and cocaine and B. coli fevers, Blood and plasma changes in. Heat regulation and water exchange. XI.....	427
Aspirin antipyresis and cocaine and B. coli fevers, Blood and plasma changes in. Heat regulation and water exchange. XI.....	427
Astringent action of aluminium acetate (in German).....	83
Atropine and carbon dioxide, The influence of, on the circulation of the un-anesthetized dog. Studies on the cardiac output of the dog. II.....	167
Autonomic nervous system, Some effects of betaine esters and analogous compounds on the.....	17
B(acillus) coli and cocaine fevers and aspirin antipyresis, Blood and plasma changes in. Heat regulation and water exchange. XI.....	427
Barbour, Henry G. Heat regulation and water exchange. XI. Blood and plasma changes in cocaine and B. coli fevers and aspirin antipyresis...	427

Barger, George, and Stewart, Corbet Page. β -Iminazolyl-4(or 5)-pyruvic acid.....	223
Barlow, O. W. See Sollmann, Torald.	
Bell, Frederick K. Studies of the infra-red absorption spectra of the alkaloids. I. Tropan derivatives.....	533
Betaine esters and analogous compounds, Some effects of, on the autonomic nervous system.....	17
Beutner, R. The reaction between serum and alkaloids.....	95
Blood, circulating, The pituitary (posterior lobe) principle in.....	177
— and plasma changes in cocaine and B. coli fevers and aspirin antipyresis. Heat regulation and water exchange. XI.....	427
— in pregnant animals, Studies concerning the value of a solution of glucose in maintaining the acid-base equilibrium of the. I. The effect of a period of ether anesthesia in pregnant animals. The protection conferred by a solution of glucose.....	381
— pressure, Variations in, induced by repeated injections of extracts of the posterior lobe of the pituitary gland.....	449
— studies in dogs after adrenalectomy.....	373
Bradycardie consécutive à l'injection de digitale, strophantine et cymarine, Sur le mécanisme de la.....	203
Brown, W. Easson. See Henderson, V. E.	
Caffein group, The anti-diuretic effects of the, in the dog.....	397
Calcium and magnesium salts, A physico-chemical study of the antagonistic action of, and the mode of action of some analgesic drugs.....	441
Campbell, David. See Geiling, E. M. K.	
Carbon dioxide and atropine, The influence of, on the circulation of the unanesthetized dog. Studies on the cardiac output of the dog. II.....	167
— tetrachloride, Early cirrhosis of the liver produced in dogs by.....	191
Cardiac output of the dog, Studies on the. II. The influence of atropine and carbon dioxide on the circulation of the unanesthetized dog.....	167
Central nervous system of mammals, Pyramidon, veramon and veronal, with special reference to the quantitative evaluation of stimulant and depressive actions upon the. Contributions to the pharmacology of posture and of labyrinthine reflexes. XIX.....	35
Chemotherapy of neurosyphilis and trypanosomiasis, On the.....	69
Circulating blood, The pituitary (posterior lobe) principle in.....	177
Circulation of the unanesthetized dog, The influence of atropine and carbon dioxide on the. Studies on the cardiac output of the dog. II.....	167
Circulatory system, The action of phenol on the.....	297
Cirrhosis of the liver, Early, produced in dogs by carbon tetrachloride.....	191
Clark, A. J. The mode of action of potassium chloride on muscles.....	311
Cocaine and B. coli fevers and aspirin antipyresis, Blood and plasma changes in. Heat regulation and water exchange. XI.....	427
Coli (B.) and cocaine fevers and aspirin antipyresis, Blood and plasma changes in. Heat regulation and water exchange. XI.....	427
Configuration, The influence of, on the activity of tropeines. On optical isomers. VIII.....	5

- Coronary vessels and heart, The action of histamine on the..... 325
- Curarin, Ueber..... 1
- Cushny, Arthur R. On optical isomers. VIII. The influence of configuration on the activity of tropeines..... 5
- Cymarine, digitale et strophantine, Sur le mécanisme de la bradycardie consécutive à l'injection de..... 203
