

INDEX TO VOLUME XXXI

Abel, John J., Geiling, E. M. K., Rouiller, C. A., Bell, F. K., and Wintersteiner, O. Crystalline insulin.....	65
Acetone, diamino-, A note on the action of.....	481
Acids, trialkyl and dialkyl barbituric, The relative physiological properties of certain.....	455
Alpha lobelin and epinephrin, Electrocardiographic studies of the action of, on the mammalian heart.....	145
Alpha-lobeline. A pharmacological study.....	393
—, The pharmacological and therapeutic properties of. A comparison of its action on the respiratory center with that of other respiratory stimulants.....	43
American Society for Pharmacology and Experimental Therapeutics, Scientific proceedings of the.....	201
Anaesthesia, local, and pulmonary oedema, The action of certain quinine derivatives with special reference to.....	407
Anesthetic efficacy of isoamylethyl barbituric acid and diethyl barbituric acid, The comparative.....	1
— value of nitrous oxide under pressure, The.....	269
Animal body, On the fate of morphine which has been injected into the....	177
Auricles, excised terrapin, VI. Further studies on the effect of drugs upon the tonus waves in the.....	333
Bacterial infections, Chemotherapy of. II. The relation between chemical constitution and chemotherapeutic action in staphylococcic infections..	87
Barbituric acid, isoamylethyl, and diethyl barbituric acid, The comparative anesthetic efficacy of.....	1
— acid, The comparative anesthetic efficacy of isoamylethyl barbituric acid and.....	1
— acids, trialkyl and dialkyl, The relative physiological properties of certain.....	455
Bell, F. K., Wintersteiner, O., Abel, John J., Geiling, E. M. K., and Rouiller, C. A. Crystalline insulin.....	65
Beutner, R. The electromotive action of drugs as a cause of their toxicity. 1. The extension of Nernst's theory of excitation and the experimental demonstration of the sensitiveness of a certain phase boundary potential towards potent alkaloids.....	305
Biological oxidations, The comparative effect of ethyl cyanide and ethyl isocyanide on.....	387
Bischoff, Fritz, and Blatherwick, N. R. An improved method for the preparation of colloidal lead.....	27
—, and Blatherwick, N. R. Colloid lead phosphate. A substitute for colloidal metallic lead in cancer therapy.....	361

- Bismuth sodium citrate, soluble, The preparation and constitution of, and of the intermediate products..... 353
- Blatherwick, N. R., and Bischoff, Fritz. An improved method for the preparation of colloidal lead..... 27
- , and Bischoff, Fritz. Colloidal lead phosphate. A substitute for colloidal metallic lead in cancer therapy..... 361
- Blood, Effect of certain dyes upon, in vitro..... 473
- Brown, W. Easson, Lucas, G. H. W., and Henderson, V. E. The anesthetic value of nitrous oxide under pressure..... 269
- Buchanan, J. William, and Emerson, O. H. The comparative effect of ethyl cyanide and ethyl iso-cyanide on biological oxidations..... 387
- Campbell, D., Geiling, E. M. K., and Ishikawa, Y. The effect of insulin on hypophysectomized dogs..... 247
- Camp, W. J. R. Alpha-lobeline. A pharmacological study..... 393
- Carmicheal, Emmett B. Detoxification of rattlesnake venom by sodium ricinoleate..... 445
- Chemotherapy of bacterial infections. II. The relation between chemical constitution and chemotherapeutic action in staphylococcic infections.. 87
- , Studies in. II. Internal antiseptics by means of Sulphato compounds.. 433
- Citrate, soluble bismuth sodium, The preparation and constitution of, and of the intermediate products..... 353
- Colloidal lead, An improved method for the preparation of..... 27
- lead phosphate. A substitute for colloidal metallic lead in cancer therapy..... 361
- Coplans, Myer, and Green, Arthur G. Studies in chemotherapy. II. Internal antiseptics by means of Sulphato compounds..... 433
- Crystalline insulin..... 65
- Cyanide, ethyl, and ethyl iso-cyanide, The comparative effect of, on biological oxidations..... 387
- De, Premankur, and Dixon, W. E. The action of certain quinine derivatives with special reference to local anaesthesia and pulmonary oedema.... 407
- The pharmacological action of scillaren..... 35
- Dessementet, Emmeline. Action of essential oils and of some of their constituents upon the formation of methemoglobin in vitro..... 377
- Detoxification of rattlesnake venom by sodium ricinoleate..... 445
- Dialkyl barbituric acids, The relative physiological properties of certain trialkyl and..... 455
- Diamino-acetone, A note on the action of..... 481
- Diethyl barbituric acid, The comparative anesthetic efficacy of isoamylethyl barbituric acid and..... 1
- Digitalis, A clinical standardization of..... 229
- solutions, The effect of, on the growth of seedlings: Phytopharmacology 11
- , three preparations of, The clinical comparison of..... 319
- Dixon, W. E., and De, Premankur. The action of certain quinine derivatives with special reference to local anaesthesia and pulmonary oedema.... 407
- Dogs, hypophysectomized, The effect of insulin on..... 247

- Dox, A. W., and Hjort, A. M. The relative physiological properties of certain trialkyl and dialkyl barbituric acids..... 455
- Drugs, The electromotive action of, as a cause of their toxicity. 1. The extension of Nernst's theory of excitation and the experimental demonstration of the sensitiveness of a certain phase boundary potential towards potent alkaloids..... 305
- , toxicity of, On the, after hemorrhage..... 291
- Dyes, Effect of certain, upon blood in vitro..... 473
- Electrocardiographic studies of the action of alpha lobelin and epinephrin on the mammalian heart..... 145
- Electromotive action of drugs as a cause of their toxicity, The. 1. The extension of Nernst's theory of excitation and the experimental demonstration of the sensitiveness of a certain phase boundary potential towards potent alkaloids..... 305
- Elliott, David C., and Whitehead, Richard W. Electrocardiographic studies of the action of alpha lobelin and epinephrin on the mammalian heart.. 145
- Emerson, O. H., and Buchanan, J. William. The comparative effect of ethyl cyanide and ethyl iso-cyanide on biological oxidations..... 387
- Epinephrin, alpha lobelin and, Electrocardiographic studies of the action of, on the mammalian heart..... 145
- Essential oils, Action of, and of some of their constituents upon the formation of methemoglobin in vitro..... 377
- Ethyl cyanide and ethyl iso-cyanide, The comparative effect of, on biological oxidations..... 387
- iso-cyanide, The comparative effect of ethyl cyanide and, on biological oxidations..... 387
- Geiling, E. M. K., Campbell, D., and Ishikawa, Y. The effect of insulin on hypophysectomized dogs..... 247
- , Rouiller, C. A., Bell, F. K., Wintersteiner, O., and Abel, John J. Crystalline insulin..... 65
- Gilchrist, A. R., and Lyon, D. M. The clinical comparison of three preparations of digitalis..... 319
- Gold, Harry. On the toxicity of drugs after hemorrhage..... 291
- Green, Arthur G., and Coplans, Myer. Studies in chemotherapy. II. Internal antiseptics by means of Sulphato compounds..... 433
- Gruber, Charles M. VI. Further studies on the effect of drugs upon the tonus waves in the excised terrapin auricles..... 333
- Heart, mammalian, Electrocardiographic studies of the action of alpha lobelin and epinephrin on the..... 145
- Hemorrhage, On the toxicity of drugs after..... 291
- Henderson, V. E., Brown, W. Easson, and Lucas, G. H. W. The anesthetic value of nitrous oxide under pressure..... 269
- Hjort, A. M., and Dox, A. W. The relative physiological properties of certain trialkyl and dialkyl barbituric acids..... 455
- Hypophysectomized dogs, The effect of insulin on..... 247

- Infections, bacterial, Chemotherapy of. II. The relation between chemical constitution and chemotherapeutic action in staphylococcic infections.. 87
- Insulin, Crystalline..... 65
- , The effect of, on hypophysectomized dogs..... 247
- Ishikawa, Y., Geiling, E. M. K., and Campbell, D. The effect of insulin on hypophysectomized dogs..... 247
- , Von Oettingen, W. F., and Sollmann, Torald. The preparation and constitution of soluble bismuth sodium citrate, and of the intermediate products..... 353
- Isoamylethyl barbituric acid and diethyl barbituric acid, The comparative anesthetic efficacy of..... 1
- Iso-cyanide, ethyl, The comparative effect of ethyl cyanide and, on biological oxidations..... 387
- Kai, Sotaro, and Teruuchi, Yutaka. On the fate of morphine which has been injected into the animal body..... 177
- Krantz, John C., Jr., and Macht, David I. Phytopharmacology. The effect of digitalis solutions on the growth of seedlings..... 11
- Lead, colloidal, An improved method for the preparation of..... 27
- phosphate, Colloidal. A substitute for colloidal metallic lead in cancer therapy..... 361
- Lobelin, alpha-, and epinephrin, Electrocardiographic studies of the action of, on the mammalian heart..... 145
- Lobeline, Alpha. A pharmacological study..... 393
- Local anaesthesia and pulmonary oedema, The action of certain quinine derivatives with special reference to..... 407
- Lucas, G. H. W., Brown, W. Easson, and Henderson, V. E. The anesthetic value of nitrous oxide under pressure..... 269
- Lyon, D. M., and Gilchrist, A. R. The clinical comparison of three preparations of digitalis..... 319
- Macht, David I., and Krantz, John C., Jr. Phytopharmacology: The effect of digitalis solutions on the growth of seedlings..... 11
- Mammalian heart, Electrocardiographic studies of the action of alpha lobelin and epinephrin on the..... 145
- Martin, Louis E. A clinical standardization of digitalis..... 229
- Methemoglobin, Action of essential oils and of some of their constituents upon the formation of, in vitro..... 377
- Morphine, On the fate of, which has been injected into the animal body.... 177
- Munch, J. C., Wales, H., and Schwartze, E. W. Effect of certain dyes upon blood in vitro..... 473
- Nitrous oxide, The anesthetic value of, under pressure..... 269
- Norris, Victor H., and Weiss, Soma. The pharmacological and therapeutic properties of alpha-lobelin. A comparison of its action on the respiratory center with that of other respiratory stimulants..... 43

Oedema, pulmonary, The action of certain quinine derivatives with special reference to local anaesthesia and.....	407
Oils, essential, Action of, and of some of their constituents upon the formation of methemoglobin in vitro.....	377
Oxidations, biological, The comparative effect of ethyl cyanide and ethyl isocyanide on.....	387
Page, Irvine H., and Swanson, Edward E. The comparative anesthetic efficacy of isoamylethyl barbituric acid and diethyl barbituric acid....	1
Pharmacological action of scillaren, The.....	35
— and therapeutic properties of alpha-lobelin, The. A comparison of its action on the respiratory center with that of other respiratory stimulants.....	43
Phosphate, Colloidal lead. A substitute for colloidal metallic lead in cancer therapy.....	361
Physiological properties, The relative, of certain trialkyl and dialkyl barbituric acids.....	455
Phytopharmacology: The effect of digitalis solutions on the growth of seedlings.....	11
Pressure, The anesthetic value of nitrous oxide under.....	269
Proceedings, Scientific, of the American Society for Pharmacology and Experimental Therapeutics.....	201
Relation of smooth muscle tone to oxidation-reduction processes. J. M. Johnson, W. T. McClosky and Carl Voegtlin.....	201
The peristaltic and antiperistaltic movements of segments of excised pigs' ureters as affected by drugs. Charles M. Gruber.....	202
Peristaltic movements of long pieces of excised intestine. W. F. von Oettingen and T. Sollmann.....	203
Spreading of injections of watery bismuth solutions and suspensions. W. F. von Oettingen, T. Sollmann and T. W. Todd.....	203
Studies of the respiratory reflex effects of ether. II. In relation to urinary secretion. M. S. Dooley and Charles J. Wells.....	204
Effect of potassium iodide on bronchoconstriction. Arthur D. Hirschfelder and George Wilkinson.....	205
The action of indol and skatol on the heart. J. A. Waddell.....	205
The influence of the Ch of the blood on the reaction of the heart to drugs. William Salant and J. Ernest Nadler.....	206
The effects of external and internal application of heat and cold on the muscular activity of the stomach in unanaesthetized dogs. (Preliminary report.) H. V. Atkinson and O. H. Plant.....	207
The presence of physiologically active substances in North American species of Ephedra. Guy W. Clark, G. W. Groff and W. Pate.....	208
Methemoglobinemia. T. K. Kruse, W. S. McEllroy and C. C. Guthrie..	208
The antagonism between quinine or quinidine and epinephrine. Erwin E. Nelson.....	209
Blood sugar in dogs during morphine tolerance and withdrawal. I. H. Pierce and O. H. Plant.....	210

- General symptoms and behavior of dogs during morphine tolerance and withdrawal. O. H. Plant and I. H. Pierce..... 210
- Excretion of morphine during gradually produced and prolonged tolerance to morphine in dogs. (Preliminary report.) I. H. Pierce and O. H. Plant..... 212
- Effect of ephedrine on intestinal contractions in unanesthetized dogs. J. H. Kinnaman and O. H. Plant..... 212
- Further observations in experimental chronic morphinism. A. L. Tatum, K. H. Collins and M. H. Seevers..... 213
- The effects of ouabain on the heart in the presence of hypercalcemia. Harry Gold, Dayton J. Edwards and R. A. Hatchey..... 214
- The pharmacology of alpha-lobeline. W. J. R. Camp..... 215
- Effect of salicylates on the nitrogen metabolism. G. P. Grabfield and Emily Knapp..... 215
- Effects of prolonged administration of desiccated spleen and red bone marrow on the blood forming centers of rabbits. Chauncey D. Leake..... 216
- The effect of sodium thiosulphate on arsenic elimination. A. G. Young.. 217
- The toxicity and trypanocidal activity in rats of a group of new unsymmetrical arseno compounds. W. K. Stratman-Thomas and A. S. Loevenhart..... 217
- The gaseous metabolism of the brain as influenced by various procedures, including certain drugs. Carl F. Schmidt and H. B. Haag..... 219
- An application of the thermal conductivity method for the analysis of gases to pharmacological problems. Benj. H. Robbins and Paul D. Lamson..... 220
- The pharmacology of certain vasomotor reactions. D. E. Jackson.... 220
- Excretion studies in experimental nephritis. Adolph Bolliger and E. D. Plass..... 221
- Action of some expectorants. W. L. Mendenhall and Mildred Cate.... 222
- The fate of colloidal lead compounds after intravenous injection. Fritz Bischoff, N. R. Blatherwick and Elsie Hill..... 222
- Action of barium chloride. H. A. McGuigan and H. N. Ets..... 223
- Some observations upon the pharmacology of tin. E. W. Schwartz and W. F. Clarke..... 224
- Bromine excretion following bromoform anesthesia. G. H. W. Lucas, W. Easson Brown and V. E. Henderson..... 225
- The effect of insulin on hypophysectomized dogs. E. M. K. Geiling, D. Campbell and Y. Ishikawa..... 225
- Electrical changes in living tissue, as the cause of drug action. R. Beutner..... 226
- Myographic studies of picrotoxin convulsions. McKeen Cattell..... 227
- Action of some drugs on the relative position of the haustral sacs in the rabbit's colon. John Auer..... 228
- The spreading of injections of watery bismuth solutions and suspensions. W. F. von Oettingen, T. Sollmann and T. W. Todd..... 228
- Observations on the action of pituitary extract in experimental shock. Maurice I. Smith..... 228

Studies on the pharmacology of ergotamine. William Salant and J. Ernest Nadler.....	228
The influence of drugs on the number of peripheral circulating white cells. W. J. R. Camp.....	228
The influence of morphine on the respiratory center. W. J. R. Camp...	228
Some observations on pancreatic flow. W. L. Mendenhall and Mildred Cate.....	228
Pulmonary oedema, The action of certain quinine derivatives with special reference to local anaesthesia and.....	407
Quinine derivatives, certain, The action of, with special reference to local anaesthesia and pulmonary oedema.....	407
Rat-poisoning substance in red squills, The.....	123
Rattlesnake venom, Detoxification of, by sodium ricinoleate.....	445
Red and white squills, A contrast between the actions of.....	137
— squills, The rat-poisoning substance in.....	123
Ricinoleate, sodium, Detoxification of rattlesnake venom by.....	445
Rouiller, C. A., Bell, F. K., Wintersteiner, O., Abel, John J., and Geiling, E. M. K. Crystalline insulin.....	65
Schwartz, E. W., Wales, H., and Munch, J. C. Effect of certain dyes upon blood in vitro.....	473
Scillaren, The pharmacological action of.....	35
Seedlings, The effect of digitalis solutions on the growth of: Phytopharmacology.....	11
Sodium citrate, soluble bismuth, The preparation and constitution of, and of the intermediate products.....	353
— ricinoleate, Detoxification of rattlesnake venom by.....	445
Sollmann, Torald, Von Oettingen, W. F., and Ishikawa, Y. The preparation and constitution of soluble bismuth sodium citrate, and of the intermediate products.....	353
Squills, red and white, A contrast between the actions of.....	137
—, red, The rat-poisoning substance in.....	123
Standardization, A clinical, of digitalis.....	229
Swanson, Edward E., and Page, Irvine H. The comparative anesthetic efficacy of isoamylethyl barbituric acid and diethyl barbituric acid....	1
Sweeney, Marion A., and Walker, Ernest Linwood. Chemotherapy of bacterial infections. II. The relation between chemical constitution and chemotherapeutic action in staphylococcic infections.....	87
Terrapin auricles, excised, VI. Further studies on the effect of drugs upon the tonus waves in the.....	333
Teruuchi, Yutaka, and Kai, Sotaro. On the fate of morphine which has been injected into the animal body.....	177
Therapeutic properties of alpha-lobelin, The pharmacological and. A comparison of its action on the respiratory center with that of other respiratory stimulants.....	43

Tonus waves, VI. Further studies on the effect of drugs upon the, in the excised terrapin auricles.....	333
Toxicity of drugs after hemorrhage, On the.....	291
—, The electromotive action of drugs as a cause of their. 1. The extension of Nernst's theory of excitation and the experimental demonstration of the sensitiveness of a certain phase boundary potential towards potent alkaloids.....	305
Trialkyl and dialkyl barbituric acids, The relative physiological properties of certain.....	455
Venom, rattlesnake, Detoxification of, by sodium ricinoleate.....	445
Von Oettingen, W. F., Ishikawa, Y., and Sollmann, Torald. The preparation and constitution of soluble bismuth sodium citrate, and of the intermediate products.....	353
Wadia, J. H. A note on the action of diamino-acetone.....	481
Wales, H., Munch, J. C., and Schwartze, E. W. Effect of certain dyes upon blood in vitro.....	473
Walker, Ernest Linwood, and Sweeney, Marion A. Chemotherapy of bacterial infections. II. The relation between chemical constitution and chemotherapeutic action in staphylococcic infections.....	87
Waves, tonus, VI. Further studies on the effect of drugs upon the, in the excised terrapin auricles.....	333
Weiss, Soma, and Norris, Victor H. The pharmacological and therapeutic properties of alpha-lobelin. A comparison of its action on the respiratory center with that of other respiratory stimulants.....	43
White and red squills, A contrast between the actions of.....	137
Whitehead, Richard W., and Elliott, David C. Electrocardiographic studies of the action of alpha lobelin and epinephrin on the mammalian heart...	145
Wintersteiner, O., Abel, John J., Geiling, E. M. K., Rouiller, C. A., and Bell, F. K. Crystalline insulin.....	65
Winton, F. R. A contrast between the actions of red and white squills....	137
Winton, F. R. The rat-poisoning substance in red squills.....	123
