

The Journal of PHARMACOLOGY

And Experimental Therapeutics

A Publication of the American Society for Pharmacology and Experimental Therapeutics

October 2015

Vol. 355, No. 1

Contents

| | |
|---|-----|
| ANNOUNCEMENT | 135 |
| HIGHLIGHTED PAPERS | 1 |
| BEHAVIORAL PHARMACOLOGY | |
| ☐ The Prodrug 4-Chlorokynurenine Causes Ketamine-Like Antidepressant Effects, but Not Side Effects, by NMDA/Glycine _B -Site Inhibition <i>Panos Zanos, Sean C. Piantadosi, Hui-Qiu Wu, Heather J. Pribut, Matthew J. Dell, Adem Can, H. Ralph Snodgrass, Carlos A. Zarate, Jr., Robert Schwarcz, and Todd D. Gould</i> | 76 |
| CARDIOVASCULAR | |
| Cooperative Role of Mineralocorticoid Receptor and Caveolin-1 in Regulating the Vascular Response to Low Nitric Oxide–High Angiotensin II–Induced Cardiovascular Injury <i>Luminita H. Pojoga, Tham M. Yao, Lauren A. Opsasnick, Waleed T. Siddiqui, Ossama M. Reslan, Gail K. Adler, Gordon H. Williams, and Raouf A. Khalil</i> | 32 |
| ☐ A Novel Arginase Inhibitor Derived from <i>Scutellaria indica</i> Restored Endothelial Function in ApoE-Null Mice Fed a High-Cholesterol Diet <i>Hye Mi Hwang, Jeong Hyung Lee, Byung Sun Min, Byeong Hwa Jeon, Kwang Lae Hoe, Young Myeong Kim, and Sungwoo Ryoo</i> | 57 |
| CELLULAR AND MOLECULAR | |
| Sphingosine Kinase 2 Inhibition and Blood Sphingosine 1-Phosphate Levels <i>Yugesh Kharel, Emily A. Morris, Molly D. Congdon, Steven B. Thorpe, Jose L. Tomsig, Webster L. Santos, and Kevin R. Lynch</i> | 23 |
| DRUG DISCOVERY AND TRANSLATIONAL MEDICINE | |
| ☐ Different 2-Aminothiazole Therapeutics Produce Distinct Patterns of Scrapie Prion Neuropathology in Mouse Brains <i>Kurt Giles, David B. Berry, Carlo Condello, Ronald C. Hawley, Alejandra Gallardo-Godoy, Clifford Bryant, Abby Oehler, Manuel Elepano, Sumita Bhardwaj, Smita Patel, B. Michael Silber, Shenheng Guan, Stephen J. DeArmond, Adam R. Renslo, and Stanley B. Prusiner</i> | 2 |
| GASTROINTESTINAL, HEPATIC, PULMONARY, AND RENAL | |
| Pharmacological In Vivo Inhibition of S-Nitrosoglutathione Reductase Attenuates Bleomycin-Induced Inflammation and Fibrosis <i>Irina G. Luzina, Virginia Lockett, Nevins W. Todd, Pavel Kopach, Helen S. Pentikis, and Sergei P. Atamas</i> | 13 |
| ☐ MRP4 Modulation of the Guanylate Cyclase-C/cGMP Pathway: Effects on Linaclotide-Induced Electrolyte Secretion and cGMP Efflux <i>Boris Tchernychev, Pei Ge, Marco M. Kessler, Robert M. Solinga, Derek Wachtel, Jenny V. Tobin, Sara R. Thomas, Craig E. Lunte, Angelika Fretzen, Gerhard Hannig, Alexander P. Bryant, Caroline B. Kurtz, Mark G. Currie, and Inmaculada Silos-Santiago</i> | 48 |
| The Impact of Spironolactone on the Severity of Portal-Systemic Collaterals and Hepatic Encephalopathy in Cirrhotic Rats <i>Shao-Jung Hsu, Sun-Sang Wang, Teh-Ia Huo, Fa-Yauh Lee, Hui-Chun Huang, Ching-Chih Chang, I-Fang Hsin, Hsin-Ling Ho, Han-Chieh Lin, and Shou-Dong Lee</i> | 117 |

INFLAMMATION, IMMUNOPHARMACOLOGY, AND ASTHMA

- HU-444, a Novel, Potent Anti-Inflammatory, Nonpsychotropic Cannabinoid 66
Christeene G. Haj, Percy F. Sumariwalla, Lumír Hanuš, Natalya M. Kogan, Zhana Yektin, Raphael Mechoulam, Mark Feldmann, and Ruth Gallily
- Biodistribution and Efficacy of Targeted Pulmonary Delivery of a Protein Kinase C- δ Inhibitory Peptide: Impact on Indirect Lung Injury 86
Mark J. Mondrinos, Linda C. Knight, Paul A. Kennedy, Jichuan Wu, Matthew Kauffman, Sandy T. Baker, Marla R. Wolfson, and Laurie E. Kilpatrick
- ☐ Tandem Benzophenone Amino Pyridines, Potent and Selective Inhibitors of Human Leukotriene C₄ Synthase 108
Thea K. Kleinschmidt, Martin Haraldsson, Devaraj Basavarajappa, Erik Lundeberg, Madhuranayaki Thulasingham, Maria Ekoff, Alexander Fauland, Christoph Lehmann, Astrid S. Kahnt, Lennart Lindbom, and Jesper Z. Haeggström

METABOLISM, TRANSPORT, AND PHARMACOGENOMICS

- P-Glycoprotein Transport of Neurotoxic Pesticides 99
Sarah E. Lacher, Kasse Skagen, Joachim Veit, Rachel Dalton, and Erica L. Woodahl
- The Drug-Drug Effects of Rhein on the Pharmacokinetics and Pharmacodynamics of Clozapine in Rat Brain Extracellular Fluid by In Vivo Microdialysis 125
Mei-Ling Hou, Chi-Hung Lin, Lie-Chwen Lin, and Tung-Hu Tsai

☐ Supplemental material is available at <http://jpet.aspetjournals.org>.

About the cover: Schematic diagram of potential interaction between vascular mineralocorticoid receptor and caveolin-1. See the article by Pojoga et al. ([dx.doi.org/10.1124/jpet.115.226043](https://doi.org/10.1124/jpet.115.226043)).
