CONTENTS

Number 1, September, 1932

 Local, Irritant and Toxic Actions of Sodium Iodobismuthite and Iodobismitol. By P. J. Hanzlik, M. A. Seidenfeld and C. C. Johnson. The Influence of Cocainization and Ergotaminization on the Pressor Responses to Musculotropic Agents. By M. L. Tainter. The Effect of Metaphen on the Kidney. By P. J. Crittenden. Hormones in Cancer. V. The Effect of Glandular Extirpation upon the Growth of Transplantable Tumors. By Fritz Bischoff and L. C. 	27 39
Maxwell V. Hormones in Cancer. VI. The Effect of Glandular Extirpation upon Resistance to Tumor Tissue Grafts. By L. C. Maxwell and Fritz Bischoff VI. The Pharmacological Action of "Mussel Poison." By M. Prinzmetal, H.	51 59
Sommer and C. D. Leake VII. The Action of Tyramine and Ephedrine. By J. H. Burn. VIII. Studies on Vomiting. By Robert A. Hatcher and Bernard S. French. IX. Chronic Nicotinism in Young Rats and Rabbits. Effect on Growth and Estrus. By Allen Behrend and C. H. Thienes. X. The Use of Sodium Amytal in the Production of Anesthesia in the Rat. By J. S. Nicholas and D. H. Barron.	63 75 97 113
Number 2, October, 1932	
 XI. The Pre-anesthetic Value of Scopolamine and Mixtures of Scopolamine and Morphine in Relation to Nitrous Oxide Anesthesia in the Rat. By O. W. Barlow. XII. The Premedication Values of Morphine, Codeine, Papaverine, Narcotine and Pantopon in Relation to Nitrous Oxide Anesthesia. By O. W. 	
Barlow and M. F. Stormont. XIII. On the Action of Certain Derivatives of Choline. By Andre Simonart. XIV. The Effect of Repeated Doses of Cocaine on the Dog. By Ardrey W. Downs and Nathan B. Eddy.	157
XV. The Effect of Repeated Doses of Cocaine on the Rat. By Ardrey W. Downs and Nathan B. Eddy	
XVII. On the Biological Assay of Digitalis and Strophanthus. By C. W. Chapman and C. A. Morrell.	
Number 3, November, 1932	
XVIII. Observations on the Pharmacology of Mitragynine. By Khem Singh Grewal.	251
XIX. The Problem of Intestinal Antisepsis—Experimental Observations on Mice. By J. Gibson Graham.	

Downloaded from jpet.aspetjournals.org at ASPET Journals on February 23, 2019

XX. A Method for the Determination of Small Amounts of Parathyroid Hormone. By Bengt Hamilton and Charles Schwartz XXI. The Effects of Combinations of KI with Acid Anterior Pituitary Extracts, KI with Armour's Anterior Pituitary, and KI with Thyroid Substance upon Basal Metabolism in Guinea Pigs. By Walter J. Siebert and Eric W. Thurston.	
XXII. The Action of Physostigmine on Different Regions of the Heart Tested on Isolated Strips from Chrysemys belli. By Charles W. Greene and Karl E. Maneval.	
XXIII. The Effect of Caffeine on the Melanophores of Fundulus. By Floyd J. Brinley	
XXIV. Vasodilator Action of Sodium Ethyl-(l-Methyl-butyl)-Barbiturate (Nembutal "844"), as Measured by Thermic Changes. By H. G. Richter and A. W. Oughterson	335
XXV. Therapeutic Results with Bismuth Subnitrate in Hypertensive Arterial Disease. By Edward J. Stieghtz XXVI. The Action of Quinidine on the Heart in the Normal Unanesthetized	
Dog. By Harry Gold and Walter Modell	357
Number 4, December, 1932	
XXVII. The Pharmacological Action of Eseridine. By Reginald St. A. Heathcote	37 5
XXVIII. Concerning the Relative Pre-anesthetic Values of the Sodium Salts of Iso-amyl-ethyl-barbituric Acid (Amytal), Pentobarbital, Phenobarbital and Barbital. By Edward E. Swanson	387
XXIX. Studies on the Synergism and Antagonism of Drugs. I. The Non-parasympathetic Antagonism between Atropine and the Miotic Alkaloids.	207
By Theodore Koppanyi XXX. Vagus Control of Pancreatic Function. Experimental Insulin Resistance. By Ephraim B. Boldyreff and Jean F. Stewart.	
XXXI. A Study of Gastric Secretion Caused by Insulin. By Ephraim B.	
XXXII. The Use of Basic Sodium Phosphate as an Antidote for Hypercalcemia in Dogs. By Irvine H. Page and Jasper P. Scott	
XXXIII. The Response of the Isolated Intestine to Cocaine and Novocaine at Different pH Levels. By William Salant and William M. Parkins	435
XXXIV. The Cardiovascular and Metabolic Reactions of Man to the Intra- muscular Injection of Posterior Pituitary Liquid (Pituitrin), Pitressin and Pitocin. By Arthur Grollman and E. M. K. Geiling	447
XXXV. On the Action of Various Uric Acid Eliminants upon Experimental Uric Acid Storage in the Kidney. By Hermann O. Schroeder	461
Series of Cardiac Cycles, or for Determining Inflow Rates Generally. By R. L. Stehle	471
XXXVII. The Influence of the Heart Beat upon the Flow of Blood into the Coronary Arteries. By R. L. Stehle and K. I. Melville	477
VVVIII I.J	AOE
