INDEX TO VOLUME L

Absorption, The comparative, of certain salicylate esters by the human skin.. 373
Acetals, aliphatic acyclic, Narcotic potency of the..... 88
Acetylcholine, Circulatory responses to, in normal dogs and in dogs with experimental aortic regurgitation..... 354
Acid-base equilibrium of the blood, The influence of liver degeneration and recuperation on the..... 108
Acyclic acetals, aliphatic, Narcotic potency of the..... 88
Aliphatic acylic acetals, Narcotic potency of the..... 88
Alkaloids of fumaraceous plants, The pharmacological action of..... 100
β-alkyl choline derivatives, On the action of certain ethers of..... 1
Allantoin and uric acid excretion in dogs, The action of cinchophen on the, and its effect on the nitrogen and sulphur excretion..... 123
Allen, William F. Contributing factors to the pulse changes resulting from injection of epinephrin in rabbits..... 70
Alpha- and beta-nicotines and nornicotines, Toxicity of..... 93
Amylnitrite, The action of, in complete heart-block..... 286
Anesthetic efficiency, The toxicity and, of a new local anesthetic..... 323
——, new local, The toxicity and anesthetic efficiency of a..... 323
Aortic regurgitation, experimental, Circulatory responses to acetylcholine in normal dogs and in dogs with..... 354
Atropine and its optical isomers, levo- and dextro-hyoscyamine, Comparison of the pharmacologic action of..... 15

Barbital compounds and tribromethanol (avertin-crystals and fluid), Correlation of visceral and somatic activity following administration of hypnotics..... 425
Barbituric acid and urethane, The effect of some compounds of..... 328
—— acid compounds, Observations regarding the mechanism of gastro-intestinal inhibition by..... 420
Barbour, Henry G., and Gilman, Alfred. Heat regulation and water exchange. XVII. The relation of serum osmotic pressure to the onset of fever..... 277
Barlow, O. W., Quigley, J. P., and Himmelsbach, C. K. Correlation of visceral and somatic activity following administration of hypnotics (a) barbital compounds, and (b) tribromethanol (avertin-crystals and fluid)..... 425
Bellis, Carroll J. Effect of cyanide on primary muscle types..... 21
Benn, V. A., Tatum, A. L., Cooper, G. A., Kelly, H. M., and Pfeiffer, C. C. An experimental study of mapharsen (meta-amino para-hydroxy phenyl arsine oxide) as an antisyphilitic agent..... 198
Benzol poisoning, experimental acute, The mechanism of sudden death in..... 336

Benzyl-β-phenylethyl-, and di-(β-phenylethyl) amines and some of their derivatives, The comparative effects of: Some observations on the relationship between chemical constitution and physiological action.... 131
Bernheim, Frederick. Action of drugs on the isolated intestine of certain teleost fish.... 216
Beta- and alpha-nicotines and nornicotines, Toxicity of.... 93
Blood and milk, The action of the enzymes of the venom of Crotalus adamanteus on the proteins of.... 386
——, The influence of liver degeneration and recuperation on the acid-base equilibrium of the.... 108
Brewer, George, Brotman, Irving, and Hamilton, W. F. Circulatory responses to acetylcholine in normal dogs and in dogs with experimental aortic regurgitation.... 354
Brotman, Irving, Brewer, George, and Hamilton, W. F. Circulatory responses to acetylcholine in normal dogs and in dogs with experimental aortic regurgitation.... 354
Brown, Ernest W., and Scott, W. O. The absorption of methyl salicylate by the human skin.... 32
——, and Scott, W. O. The comparative absorption of certain salicylate esters by the human skin.... 373

Carr, Jelleff C., Schmidt, Jacob E., Harne, William and Krantz, John C., Jr. The influence of insulin-free pancreatic extract on the gaseous exchange of the white rat.... 151
C–C–cyclohexenyl methyl–N–methyl barbituric acid (evipan) anaesthesia, Sodium salt of, in laboratory animals.... 347
Chemopharmacodynamic relationships, An inquiry into.... 93
Chloride, urine, and urea, The comparative effect of various diuretics in dogs with special reference to the excretion of.... 223
Choline derivatives, β-alkyl, On the action of certain ethers of.... 1
Chorda tympani stimulation, The reversal effect of.... 79
Cinchophen, The action of, on the nitrogen metabolism.... 28
——, The action of, on the uric acid and allantoin excretion in dogs, and its effect on the nitrogen and sulphur excretion.... 123
Codeine isomers, Morphine and the.... 254
Cooper, G. A., Tatum, A. L., Kelly, H. M., Benn, V. A., and Pfeiffer, C. C. An experimental study of mapharsen (meta-amino para-hydroxy phenyl arsine oxide) as an antisyphilitic agent.... 198
Coronary flow in the dog, The action of certain nucleic acid derivatives on the.... 157
Cotui, Frank Wang. The effect of pathologic states on the minimum lethal dose of procaine intracisternally.... 51
Crotalus adamanteus, The action of the enzymes of the venom of, on the proteins of blood and milk.... 386
—— adamanteus, The separation of the enzymes and toxic principles of the venom of.... 393
Cyanide, Effect of, on primary muscle types.... 21

Davenport, Lowrey F., Fulton, Marshall N., Van Auken, Howard A., and Parsons, Robert J. The comparative effect of various diuretics in dogs with special reference to the excretion of urine, chloride, and urea..... 223
Davis, Mary E., and Macht, David I. Toxicity of alpha- and beta-nicotines and nornicotines. An inquiry into chemopharmacodynamic relationships..... 93
Death, sudden, The mechanism of, in experimental acute benzol poisoning.. 336
Denervated kidney, Studies on the..... 123
Dextro- and levo-hyoscyamine, Comparison of the pharmacologic action of atropine and its optical isomers..... 15
Di-(β-phenylethyl), and benzyl-β-phenylethyl-amines and some of their derivatives, The comparative effects of: Some observations on the relationship between chemical constitution and physiological action..... 131
Digitalis and quinidine on the heart, Further experimental observations on the combined effects of..... 180
Diuretic-antidiuretic activity of posterior pituitary extracts, the..... 241
Diuretics, various, in dogs, The comparative effect of, with special reference to the excretion of urine, chloride, and urea..... 223
Dog, The action of certain nucleic acid derivatives on the coronary flow in the..... 157
——, The actions of pituitary preparations (posterior lobe) upon the intestines of the..... 165
Dogs, normal, and dogs with experimental aortic regurgitation, Circulatory responses to acetylcholine in..... 354
——, The action of cinchophen on the uric acid and allantoin excretion in, and its effect on the nitrogen and sulphur excretion..... 123
——, The comparative effect of various diuretics in, with special reference to the excretion of urine, chloride, and urea..... 223
Drugs on the isolated intestine of certain teleost fish, Action of..... 216
Drury, Alan N., and Wedd, Alfred M. The action of certain nucleic acid derivatives on the coronary flow in the dog..... 157
DuBois, D., Rakieten, N., Nahum, L. H., Gildea, E. F., and Himwich, H. E. The effect of some compounds of barbituric acid and of urethane.... 328
Dunn, Edwin E. The action of the enzymes of the venom of Crotalus adamanteus on the proteins of blood and milk..... 386
——. The separation of the enzymes and toxic principles of the venom of Crotalus adamanteus..... 393

Enzymes, The action of the, of the venom of Crotalus adamanteus on the proteins of blood and milk..... 386
——, The separation of the, and toxic principles of the venom of Crotalus adamanteus..... 393
Epinephrin, injection of, in rabbits, Contributing factors to the pulse changes resulting from..... 70
Ethers, certain, of β-alkyl choline derivatives, On the action of..... 1
Excretion of urine, chloride, and urea, The comparative effect of various diuretics in dogs with special reference to the..... 223
Extracts, posterior pituitary, The diuretic-antidiuretic activity of..... 241

Fever, The relation of serum osmotic pressure to the onset of 277
Fosdick, Leonard S., and Hansen, Harold L. The toxicity and anesthetic efficiency of a new local anesthetic 323
Fulton, Marshall N., Van Auken, Howard A., Parsons, Robert J., and Davenport, Lowrey F. The comparative effect of various diuretics in dogs with special reference to the excretion of urine, chloride, and urea 223
Fumaraceous plants, The pharmacological action of the alkaloids of 100

Gaseous exchange of the white rat, The influence of insulin-free pancreatic extract on the 151
Gastro-intestinal inhibition, Observations regarding the mechanism of, by barbituric acid compounds 420
Gilchrist, A. Rae. The action of amyl nitrite in complete heart-block 286
Gildea, E. F., Rakieten, N., Nahum, L. H., DuBois, D., and Himwich, H. E. The effect of some compounds of barbituric acid and of urethane 328
Gilman, Alfred, and Barbour, Henry G. Heat regulation and water exchange. XVII. The relation of serum osmotic pressure to the onset of fever 277
Glycine-ethyl-ester hydrochloride, Some pharmacological actions of 61
Gold, Harry, and Kwit, Nathaniel T. Further experimental observations on the combined effects of digitalis and quinidine on the heart 180
Grabfield, G. P., and Gray, Mildred G. Studies on the denervated kidney. I. The action of cinchophen on the uric acid and allantoin excretion in dogs, and its effect on the nitrogen and sulphur excretion 123
——, and Gray, M. G. The action of cinchophen on the nitrogen metabolism 28
Grace, George S. The action of mescaline and some related compounds 359
Gray, Mildred G., and Grabfield, G. P. Studies on the denervated kidney. I. The action of cinchophen on the uric acid and allantoin excretion in dogs, and its effect on the nitrogen and sulphur excretion 123
——, and Grabfield, G. P. The action of cinchophen on the nitrogen metabolism 28

Hamilton, W. F., Brewer, George, and Brotman, Irving. Circulatory responses to acetylcholine in normal dogs and in dogs with experimental aortic regurgitation 354
Hansen, Harold L., and Fosdick, Leonard S. The toxicity and anesthetic efficiency of a new local anesthetic 323
Harne, William, Carr, Jelleff, C., Schmidt, Jacob E., and Krantz, John C., Jr. The influence of insulin-free pancreatic extract on the gaseous exchange of the white rat 151
Heart, Further experimental observations on the combined effects of digitalis and quinidine on the 180
Heart-block, complete, The action of amyl nitrite in 286
Heat regulation and water exchange 277
Himmelsbach, C. K., Barlow, O. W., and Quigley, J. P. Correlation of visceral and somatic activity following administration of hypnotics (a) barbital compounds, and (b) tribromethanol (avertin-crystals and fluid) 425

Himwich, H. E., Rakieten, N., Nahum, L. H., DuBois, D., and Gildea, E. F. The effect of some compounds of barbituric acid and of urethane..... 328
Hjort, Axel M. Some observations on the relationship between chemical constitution and physiological action: The comparative effects of benzyl-β-phenylethyl-, and di-(β-phenylethyl) amines and some of their derivatives..... 131
Hoff, H. E., and Nahum, L. H. The mechanism of sudden death in experimental acute benzol poisoning..... 336
Horsley, C. H. Investigation into the action of St. Johns wort..... 310
Hulpieu, H. R., and Weatherby, J. H. Some pharmacological actions of glycine-ethyl-ester hydrochloride..... 61
Hydrochloride, glycine-ethyl-ester, Some pharmacological actions of..... 61
Hypnotics, Correlation of visceral and somatic activity following administration of, (a) barbital compounds, and (b) tribromethanol (avertin-crystals and fluid)..... 425

Insulin-free pancreatic extract, The influence of, on the gaseous exchange of the white rat..... 151
Intestinal movements, The effects of morphine and its derivatives on..... 254
Intestine, isolated, of certain teleost fish, Action of drugs on the..... 216
Intestines of the dog, The actions of pituitary preparations (posterior lobe) upon the..... 165
—— of the rabbit, The actions of pituitary preparations (posterior lobe) on the..... 174
Isocorydine..... 108
Isolated intestine of certain teleost fish, Action of drugs on the..... 216

Jaundice, experimental, The physiologic action of toluylendiamin—and its relation to..... 407

Kelly, H. M., Tatum, A. L., Cooper, G. A., Benn, V. A., and Pfeiffer, C. C. An experimental study of mapharsen (meta-amino para-hydroxy phenyl arsine oxide) as an antisyphilitic agent..... 198
Kennedy, Walter P. Sodium salt of C–C–cyclohexenylmethyl–N–methyl barbituric acid (evipan) anaesthesia in laboratory animals..... 347
Kidney, denervated, Studies on the..... 123
Knoefel, P. K. Narcotic potency of the aliphatic acyclic acetals..... 88
Krantz, John C., Jr., Carr, Jelleff C., Schmidt, Jacob E., and Harne, William. The influence of insulin-free pancreatic extract on the gaseous exchange of the white rat..... 151
Krueger, H. M. The effects of morphine and its derivatives on intestinal movements. I. Morphine and the codeine isomers..... 254
Kwit, Nathaniel T., and Gold, Harry. Further experimental observations on the combined effects of digitalis and quinidine on the heart..... 180

Lerman, J., and Salter, W. T. The maintenance requirements of myxedema patients. Clinical and chemical assay of commercial thyroid preparations..... 298

Lethal dose, minimum, of procaine intracisternally, The effect of pathologic states on the. 51
Levo- and dextro-hyoscyamine, Comparison of the pharmacologic action of atropine and its optical isomers. 15
Liver degeneration and recuperation, The influence of, on the acid-base equilibrium of the blood. 108
—— recuperation and degeneration, The influence of, on the acid-base equilibrium of the blood. 108

Mescaline, The action of, and some related compounds. 359
Milk and blood, The action of the enzymes of the venom of Crotalus adamanteus on the proteins of. 386
Macht, David I., and Davis, Mary E. Toxicity of alpha- and beta-nicotines and nornicotines. An inquiry into chemopharmacodynamic relationships. 93
MacNider, Wm., deB. The influence of liver degeneration and recuperation on the acid-base equilibrium of the blood 108
Mapharsen (meta-amino para-hydroxy phenyl arsine oxide) as an antisyphilitic agent, An experimental study of. 198
Marshall, I. H., and Von Oettingen, W. F. Comparison of the pharmacologic action of atropine and its optical isomers, levo- and dextro-hyoscyamine. 15
Melville, K. I., and Stehle, R. L. The actions of pituitary preparations (posterior lobe) upon the intestines of the dog. 165
——, and Stehle, R. L. The actions of pituitary preparations (posterior lobe) upon the intestines of the rabbit. 174
Meta-amino para-hydroxy phenyl arsine oxide (mapharsen) as an antisyphilitic agent, An experimental study of. 198
Metabolism, nitrogen, The action of cinchophen on the. 28
Methyl salicylate, The absorption of, by the human skin. 32
Morphine and its derivatives, The effects of, on intestinal movements. 254
—— and the codeine isomers. 254
Muscle types, primary, Effect of cyanide on. 21
Myxedema patients, The maintenance requirements of. 298

Nahum, L. H., and Hoff, H. E. The mechanism of sudden death in experimental acute benzol poisoning. 336
——, Rakieten, N., DuBois, D., Gildea, E. F., and Himwich, H. E. The effect of some compounds of barbituric acid and of urethrane. 328
Narcotic potency of the aliphatic acyclic acetals. 88
Nelson, Erwin E., and Woods, G. G. The diuretic-antidiuretic activity of posterior pituitary extracts. 241
Nitrogen and sulphur excretion, The action of cinchophen on the uric acid and allantoin excretion in dogs, and its effect on the. 123
—— metabolism, The action of cinchophen on the. 28
Nornicotines, Toxicity of alpha- and beta-nicotines and. 93
Nucleic acid derivatives, certain, The action of, on the coronary flow in the dog. 157

Osmotic pressure, serum, The relation of, to the onset of fever. 277

Pancreatic extract, insulin-free, The influence of, on the gaseous exchange of the white rat 151
Parsons, Robert J., Fulton, Marshall N., Van Auken, Howard A., and Davenport, Lowrey F. The comparative effect of various diuretics in dogs with special reference to the excretion of urine, chloride, and urea 223
Pfeiffer, C. C., Tatum, A. L., Cooper, G. A., Kelly, H. M., and Benn, V. A. An experimental study of mapharsen (meta-amino para-hydroxy phenyl arsine oxide) as an antisyphilitic agent 198
Phelps, K. R., and Quigley, J. P. Observations regarding the mechanism of gastro-intestinal inhibition by barbituric acid compounds 420
Pituitary extracts, posterior, The diuretic-antidiuretic activity of 241
—— preparations (posterior lobe) upon the intestines of the dog, The actions of 165
—— preparations (posterior lobe) upon the intestines of the rabbit, The actions of 174
Plants, fumaraceous, The pharmacological action of the alkaloids of 100
Poisoning, experimental acute benzol, The mechanism of sudden death in 336
Posterior lobe (pituitary preparations) upon the intestines of the dog, The actions of 165
—— lobe (pituitary preparations) upon the intestines of the rabbit, The actions of 174
Potency, Narcotic, of the aliphatic acyclic acetals 88
Procaine, minimum lethal dose of, intracisternally, The effect of pathologic states on the 51
Proteins of blood and milk, The action of the enzymes of the venom of Crotalus adamanteus on the 386
Pulse changes resulting from injection of epinephrin in rabbits, Contributing factors to the 70

Quigley, J. P., and Phelps, K. R. Observations regarding the mechanism of gastro-intestinal inhibition by barbituric acid compounds 420
——, Barlow, O. W., and Himmelsbach, C. K. Correlation of visceral and somatic activity following administration of hypnotics (a) barbital compounds, and (b) tribromethanol (avertin-crystals and fluid) 425
Quinidine and digitalis on the heart, Further experimental observations on the combined effects of 180

Rabbit, The actions of pituitary preparations (posterior lobe) upon the intestines of the 174
Rabbits, Contributing factors to the pulse changes resulting from injection of epinephrin in 70
Rakieten, N., Nahum, L. H., DuBois, D., Gildea, E. F., and Himwich, H. E. The effect of some compounds of barbituric acid and of urethrane 328
Rat, white, The influence of insulin-free pancreatic extract on the gaseous exchange of the 151

St. Johns wort, Investigation into the action of 310

Salicylate esters, certain, The comparative absorption of, by the human skin 373
Salter, W. T., and Lerman, J. The maintenance requirements of myxedema patients. Clinical and chemical assay of commercial thyroid preparations 298
Schmidt, Jacob E., Carr, Jelleff C., Harne, William, and Krantz, John C., Jr. The influence of insulin-free pancreatic extract on the gaseous exchange of the white rat 151
Scott, W. O., and Brown, Ernest W. The absorption of methyl salicylate by the human skin 32
——, and Brown, E. W. The comparative absorption of certain salicylate esters by the human skin 373
Serum osmotic pressure, The relation of, to the onset of fever 277
Simonart, André. On the action of certain ethers of β-alkyl choline derivatives 1
Skin, human, The absorption of methyl salicylate by the 32
——, human, The comparative absorption of certain salicylate esters by the .. 373
Sodium salt of C–C–cyclohexenylmethyl–N–methyl barbituric acid (evipan) anaesthesia in laboratory animals 347
Somatic and visceral activity, Correlation of, following administration of hypnotics (a) barbital compounds, and (b) tribromethanol (avertin-crystals and fluid) 425
Stavraky, George W. The reversal effect of chorda tympani stimulation .. 79
Stehle, R. L., and Melville, K. I. The actions of pituitary preparations (posterior lobe) upon the intestines of the dog 165
——, and Melville, K. I. The actions of pituitary preparations (posterior lobe) upon the intestines of the rabbit 174
Stimulation, chorda tympani, The reversal effect of 79
Sulphur and nitrogen excretion, The action of cinchophen on the uric acid and allantoin excretion in dogs and its effect on the 123

Tatum, A. L., Cooper, G. A., Kelly, H. M., Benn, V. A., and Pfeiffer, C. C. An experimental study of mapharsen (meta-amino para-hydroxy phenyl arsine oxide) as an antisyphilitic agent 198
Teleost fish, certain, Action of drugs on the isolated intestine of 216
Thyroid preparations, commercial, Clinical and chemical assay of 298
Toluylendiamin, The physiologic action of—and its relation to experimental jaundice 407
Toxicity and anesthetic efficiency of a new local anesthetic, The 323
—— of alpha-and beta-nicotines and nornicotines 93
Tribromethanol (avertin-crystals and fluid) and barbital compounds, Correlation of visceral and somatic activity following administration of hypnotics 425

Urea, chloride, and urine, The comparative effect of various diuretics in dogs with special reference to the excretion of 223
Urethane and barbituric acid, The effect of some compounds of 328

Uric acid and allantoin excretion in dogs, The action of cinchophen on the, and its effect on the nitrogen and sulphur excretion..... 123
Urine, chloride, and urea, The comparative effect of various diuretics in dogs with special reference to the excretion of..... 223

Van Auken, Howard A., Fulton, Marshall N., Parsons, Robert J., and Davenport, Lowrey F. The comparative effect of various diuretics in dogs with special reference to the excretion of urine, chloride, and urea..... 223
Venom of Crotalus adamanteus, The action of the enzymes of the, on the proteins of blood and milk..... 386
—— of Crotalus adamanteus, The separation of the enzymes and toxic principles of the..... 393
Visceral and somatic activity, Correlation of, following administration of hypnotics (a) barbital compounds, and (b) tribromethanol (avertin-crystals and fluid)..... 425
Von Oettingen, W. F., and Marshall, I. H. Comparison of the pharmacologic action of atropine and its optical isomers, levo- and dextro-hyoscyamine..... 15

Water exchange, Heat regulation and..... 277
Waud, R. A. The pharmacological action of the alkaloids of fumaraceous plants. I. Isocorydine..... 100
Weatherby, J. H., and Hulpieu, H. R. Some pharmacological actions of glycine-ethyl-ester hydrochloride..... 61
Wedd, Alfred M., and Drury, Alan N. The action of certain nucleic acid derivatives on the coronary flow in the dog..... 157
Wolff, Herman J. The physiologic action of toluylendiamin—and its relation to experimental jaundice..... 407
Woods, G. G., and Nelson, Erwin E. The diuretic-antidiuretic activity of posterior pituitary extracts..... 241
Wort, St. Johns, Investigation into the action of..... 310
