and Hospital

CONTENTS

NUMBER 1, JANUARY, 1937

I. Anesthesia and Liver Damage. I. The Protective Action of Oxygen against the Necrotizing Effect of Certain Anesthetics on the Liver. S. Goldschmidt, I. S. Ravdin and Balduin Lucké.....	1
II. Experiments on the Latency of Strophanthidin Emesis in Cats. M. Dresbach and A. P. Schafer.....	15
III. Effect of Regular Injections of Acetylcholine upon the Choline-Esterase Activity of Serum. G. E. Hall, and Ettinger, G. H....	29
IV. Choline-Esterase Activity of Normal and Pathological Human Sera. G. E. Hall and C. C. Lucas.....	34
V. Pharmacodynamic Reactions of Intracisternal Sodium Isoamyl-ethylbarbiturate (Sodium Amytal), Pyridine-Beta-Carbonic Acid Diethylamide (Coramine), Pentamethylenetetrazol (Me-trazol), and Picrotoxin During Morphine-Sodium Isoamylethyl-barbiturate Anesthesia. James C. Rice and Robert M. Isenberger.....	43
VI. The Estrogenic Activities of Some Synthetic Phenanthrene Com-pounds and Some Oxidation Products of Theelol. Sidney A. Thayer, D. W. MacCorquodale and Edward A. Doisy.....	48
VII. A Study of the Cobalt Color Reaction for the Detection of the Barbiturates. Frank L. Kozelka and Howard J. Tatum.....	54
VIII. A Quantitative Study of the Barbiturates in Cerebrospinal Fluid Frank L. Kozelka and Howard J. Tatum.....	63
IX. The Influence of Age and Sex on the Repeated Administration of Sodium Pentobarbital to Albino Rats. William M. Moir.....	68
X. On the Effects of Methylamino-Methyl Heptene (Octin) on the Animal Uterus. J. B. Mitchell, Jr.....	86
XI. The Effects of Temperature upon the Toxicity of Procaïn for White Mice. R. F. Sievers and A. R. McIntyre.....	90
XII. Studies on the Physiological Effect of Diethylene Glycol. II. Toxicity and Fate. H. B. Haag and A. M. Ambrose.....	93
XIII. Toxic Potentialities of Continued Administration of Chlorate for Blood and Tissues. A. P. Richardson.....	101
XIV. Dihydroxyphenyl Ethanolamine (Arterenol) as a Possible Sympa-thetic Hormone. R. L. Stehle and H. C. Ellsworth.....	114

NUMBER 2, FEBRUARY, 1937

XV. Studies on Chemotherapeutic Action. I. The Absorption of Arsenical Compounds and Tartar Emetic by Normal and Re-sistant Trypanosomes and Its Relation to Drug-Resistance. F. Hawking.....	123
---	-----

XVI. Trypanocidal Activity and Arsenic Content of the Cerebrospinal Fluid after Administration of Arsenic Compounds. F. Hawking, T. J. Hennelly and J. H. Quastel.....	157
XVII. Note on the Action of Dichloro-Difluoro-Methane on the Nervous System of the Cat. Charles Brenner.....	176
XVIII. The Preparation of Ferrous Gluconate and Its Use in the Treatment of Hypochromic Anemia in Rats. Paul Reznikoff and Walther F. Goebel.....	182
XIX. The Influence of Cold on the Calorigenic Action of Dinitrophenol. V. E. Hall, J. M. Crismon and P. E. Chamberlin.....	193
XX. The Solubility Coefficients of Cyclopropane for Water, Oils and Human Blood. F. S. Orcutt and M. H. Seevers.....	206
XXI. An Analysis of the Action of Posterior Pituitary Extracts on the Uterus. Thomas N. Morgan.....	211
XXII. Pyruvic Acid Cyanohydrin as a Respiratory Stimulant. A study of Cyanide Action. E. K. Marshall, Jr. and Morris Rosenfeld.....	222
NUMBER 3, MARCH, 1937	
XXIII. A Study of the Sodium Salt of 3-amino-4-beta-hydroxyethoxyphenylarsonic Acid in Experimental Trypanosomiasis and Syphilis and in Clinical Syphilis and Neurosyphilis. A. L. Tatum, C. C. Pfeiffer, M. L. Kuhs, W. F. Lorenz and J. T. Green, Jr.....	241
XXIV. Duration of Acquired Tolerance to Ethyl Alcohol. Henry Newman and John Card.....	249
XXV. Nystagmic Head Deviation, A Selective Action of an Aliphatic Bromine Compound. S. Loewe.....	253
XXVI. Nicotine Toxicity. III. Effect of Nicotine-Containing Diets on the Estrus Cycle. Robert H. Wilson and Floyd De Eds.....	260
XXVII. A Study of Choline Esterase. M. H. Roepke.....	264
XXVIII. The Effect of Small Doses of Potassium Iodide on the Thyroid Gland of the Guinea Pig. Ellis S. Margolin.....	277
XXIX. The Action of Potassium Chloride and of Calcium Chloride on the Adrenals of the Cat. Gerhard Katz and Gertrud Katz.....	284
XXX. The Analgesia Produced by Nitrous Oxide, Ethylene and Cyclopropane in the Normal Human Subject. M. H. Seevers, J. H. Bennett, H. W. Pohle and E. W. Reinardy.....	291
XXXI. The Effect of Decolin Sodium upon the Intact Intestine of the Non-Anesthetized Dog. Charles M. Gruber.....	301
XXXII. The Action of Strychnine and Ethyl Strychnine on Normal and Disturbed Respiratory Function. M. Aiazzi-Mancini and L. Donatelli.....	304
XXXIII. The Antisymphomimetic Action of Dioxane Compounds (F883 and F933), with Special Reference to the Vascular Responses to Dihydroxyphenyl Ethanolamine (Arterenol) and Nerve Stimulation K. I. MELVILLE.....	317
XXXIV. Sodium Bismuthate Soluble in Experimental Syphilis. P. J. Hanzlik.....	328
XXXV. The Elastic Limits of Plasma Gels. L. F. Shackell.....	333

- XXXVI. The Action of Morphine on the Contractions of the Non-Pregnant Uterus in Unanesthetized Dogs and Rabbits. D. Slaughter and E. G. Gross. . . . . 350

## NUMBER 4, APRIL, 1937

- XXXVII. Adrenal Cortex Extract in Canine Anaphylactic Shock. Carl A. Dragstedt, Moore A. Mills and Franklin B. Mead. . . . . 359
- XXXVIII. Pharmacological Study of a New Drug: Diphenylacetyldiethylaminoethanol-esterhydrochloride. J. Raymond Johnson and Samuel R. M. Reynolds. . . . . 365
- XXXIX. Determination of Barbiturates in the Blood and the Urine by a New Method. John T. Brundage and Charles M. Gruber. . . . . 379
- XL. Study of the Acquired Resistance of Fixed Tissue Cells Morphologically Altered through Processes of Repair. IV. Concerning the Persistence of an Acquired Type of Atypical Liver Cell with Observations on the Resistance of Such Cells to the Toxic Action of Chloroform. Wm. De B. MacNider. . . . . 393
- XLI. Local Anaesthetics Derived from the Alkaloid Cytisine. H. Raymond Ing and R. P. Patel. . . . . 401
- XLII. The Absorption of Acetyl- $\beta$ -Methylcholine Chloride (Mecholyl) by the Nasal Mucous Membrane. Theodore R. Van Dellen, Maurice Bruger and Irving S. Wright. . . . . 413
- XLIII. Chronic Toxicity of Dinitrophenol: Functional and Morphological Changes in the Liver. T. L. Schulte. . . . . 419
- XLIV. Effects of Arsenicals on *Trypanosoma cruzi* in Tissue Culture. Charles A. Kofoid, Ethel McNeil and Fae D. Wood. . . . . 424
- XLV. Peptone Shock. Carl A. Dragstedt and Franklin B. Mead. . . . . 429
- XLVI. Chronic Acetanilid Poisoning in the Albino Rat. An Experimental Study of Addiction and Tolerance. E. J. Stanton and W. R. Agricola. . . . . 437
- XLVII. The Synergic Calorigenic Actions of Epinephrine and Dinitrophenol. V. E. Hall and P. E. Chamberlin. . . . . 451
- XLVIII. Some Effects of Bulbocapnine on the Peripheral Vascular System. Chester E. Leese and Alma Fogelberg. . . . . 458
- XLIX. Vitamin C and Diphtheria Toxin. Alex Sigal and C. G. King. . . . . 468

## ILLUSTRATIONS

Experiments on latency of strophanthidin emesis in cats (fig. 1).....	16
— on latency of strophanthidin emesis in cats (figs. 2 and 3).....	17
— on latency of strophanthidin emesis in cats (fig. 4).....	18
— on latency of strophanthidin emesis in cats (fig. 5).....	19
— on latency of strophanthidin emesis in cats (fig. 6).....	20
— on latency of strophanthidin emesis in cats (fig. 7).....	21
— on latency of strophanthidin emesis in cats (fig. 8).....	22
Enzymic hydrolysis of acetyl choline by serum esterase (fig. 1).....	35
Results of 25 experiments showing effects of intracisternal picrotoxin, coramine and metrazol (cardiazol) on duration of respiratory paralysis produced by intracisternal sodium amytal (fig. 1).....	44
Color intensity produced by definite amount of di-imide with increasing amounts of cobalt and sodium ethylate (fig. 1).....	59
Curve showing relationship between intensity of color produced by a monoimide and concentration of sodium ethylate (fig. 2).....	60
Effect of methylamino-methyl heptene (Octin) on animal uterus (fig. 1).....	87
— of methylamino-methyl heptene (Octin) on animal uterus (figs. 2, 3 and 4).....	88
— of temperature upon toxicity of procain for white mice (fig. 1).....	91
— on growth of white rats of adding various concentrations of diethylene glycol and glycerin to drinking water (fig. 1).....	97
Effects of chlorates of potassium and sodium and of chloride of sodium on cilia of frog's esophagus (fig. 1).....	105
Dihydroxyphenyl ethanolamine (arterenol) as possible sympathetic hormone (figs. 1 and 2).....	117
— ethanolamine (arterenol) as possible sympathetic hormone (figs. 3 and 4).....	119
Trypanocidal activity and arsenic content of cerebrospinal fluid after administration of arsenic compounds (figs. 1 and 2).....	164
Effect of ferrous gluconate in treatment of anemia; experiment on untreated animal (chart 1).....	198
— of ferrous gluconate in treatment of anemia; experiment on fed animal (chart 2).....	187
— of ferrous gluconate in treatment of anemia; experiment on injected animal (chart 3).....	188
Calorigenic action of dinitrophenol (fig. 1).....	195
Effect of body temperature on metabolic rate before and at peak of dinitrophenol action (fig. 2).....	200
Action of pituitrin on uterine contractions of unanesthetized rabbit (fig. 1)...	213
— of pitocin on uterine movement of unanesthetized rabbit (fig. 2).....	214
— of pitressin on uterine contractions of rabbit with active uterus (fig. 3)...	215
Effect of calcium chloride in restoring activity of uterus after it had been diminished by pitressin (fig. 4).....	216

Simultaneous record of uterine contractions and uterine volume (fig. 5) . . . . .	21
Uterine volume and uterine contractions before and after injection of pitocin (fig. 6) . . . . .	219
Effect on respiratory minute volume and tidal air of injections of pyruvic acid cyanohydrin, coramine, and pycyan (fig. 1) . . . . .	224
— on respiratory minute volume and tidal air of caffeine sodium benzoate and pycyan (fig. 2) . . . . .	225
— on respiratory minute volume of caffeine sodium benzoate, pyruvic acid cyanohydrin, and $\alpha$ -lobeline (fig. 3) . . . . .	226
— on respiratory minute volume of pyruvic acid cyanohydrin (fig. 4) . . . . .	227
Comparison of effect of metrazol and pyruvic acid cyanohydrin on respiratory minute volume and tidal air (fig. 5) . . . . .	228
— of effect of coramine and pyruvic acid cyanohydrin (fig. 6) . . . . .	229
Effect on respiratory minute volume of inhalation of carbon dioxide in oxygen and injection of pyruvic acid cyanohydrin (fig. 7) . . . . .	230
— on blood pressure of injection of pyruvic acid cyanohydrin (fig. 8) . . . . .	234
— on injection of pyruvic acid cyanohydrin on oxygen consumption (fig. 9) . . . . .	236
Degrees of drunkenness at various concentrations of blood alcohol in 3 dogs after 13 months' habituation to alcohol and after subsequent period of abstinence of 7 months (fig. 1) . . . . .	251
— of drunkenness at various concentrations of blood alcohol in group of total abstainers, group habituated to alcohol for 13 months, and same group after period of abstinence of 7 months (fig. 2) . . . . .	251
Two albino mice in extreme tonic head deviation and tonic scoliosis (fig. 1) . . . . .	254
Study of choline esterase (fig. 1) . . . . .	268
Effect of intravenous injection of KCl on blood pressure and nictitating membrane in viscerated cat with restricted circulation (fig. 1) . . . . .	287
— of intravenous injection of CaCl <sub>2</sub> on blood pressure and nictitating membrane in cat (fig. 2) . . . . .	288
Algesimeter (fig. 1) . . . . .	292
Average curves of analgesia obtained from 5 subjects following 10-minute inhalation of various concentrations of nitrous oxide, ethylene and cyclopropane diluted with air or oxygen (fig. 2) . . . . .	293
Non-anesthetized dog with Thiry-Vella loop of jejunum (fig. 1) . . . . .	302
Effect of strychnine on respiration of normal rabbit (fig. 1) . . . . .	307
— of ethyl strychnine on respiration of normal rabbit (fig. 2) . . . . .	309
— of ethyl strychnine on respiratory volume of normal rabbits (fig. 3) . . . . .	311
— of ethyl strychnine on respiration of rabbit poisoned with dial (fig. 4) . . . . .	312
— of ethyl strychnine on respiration of rabbit poisoned with illuminating gas (fig. 5) . . . . .	312
— of ethyl strychnine on respiration of rabbit poisoned with chloroform (fig. 6) . . . . .	313
— of ethyl strychnine on respiratory volume of rabbit poisoned with morphine (fig. 7) . . . . .	314
Antisymphathomimetic action of dioxane compounds (fig. 1) . . . . .	319
— action of dioxane compounds (fig. 2) . . . . .	320
— action of dioxane compounds (fig. 3) . . . . .	321
— action of dioxane compounds (fig. 4) . . . . .	322

Antisymphathomimetic action of dioxane compounds (fig. 5).....	323
— action of dioxane compounds (fig. 6).....	324
— action of dioxane compounds (fig. 7).....	326
Sodium bismuthate soluble in experimental syphilis of rabbits (fig. 1).....	329
Effects of horse serum, normal saline and distilled water, as diluents, upon elastic-limit values of aleuronat horse plasma (fig. 1).....	337
Elastic-limit values of normal horse plasma when treated with various quantities of nearsphenamine (fig. 2).....	338
— values of normal horse plasma when treated with fixed quantity of nearsphenamine after Berkefeld-candle oxygenation for various times (fig. 3).....	340
— values of normal horse plasma when treated with fixed quantity of nearsphenamine after oxidation to various levels with hydrogen peroxide (fig. 4).....	341
— values of aleuronat horse plasma when treated with fixed quantity of nearsphenamine after beaker aeration for various times (fig. 5).....	342
Action of morphine on non-pregnant uterus (fig. 1).....	352
— of morphine on non-pregnant uterus (fig. 2).....	353
— of morphine on non-pregnant uterus (fig. 3).....	354
Effect of intravenous administration of Trasentin on blood pressure and respiration (fig. 1).....	370
— of intravenous administration of Trasentin on blood pressure and kidney volume (fig. 2).....	371
— of epinephrine on blood pressure and kidney volume after intravenous injection of Trasentin (fig. 3).....	372
— of Trasentin on uterine spasms induced by pituitrin (fig. 4).....	374
— of Trasentin on uterine response to pilocarpine (fig. 5).....	374
Non-effect of Trasentin on epinephrine response in quiescent uterus (fig. 6)...	376
Effect of Trasentin on uterine responses to nerve stimulation (fig. 7).....	376
Camera lucida drawing of liver of dog (plate 1).....	400
— lucida drawing of liver of dog (plate 2).....	400
Effect of frog's sciatic-gastrocnemius preparation with nerve only exposed to anesthetic (fig. 1).....	406
— of frog's sciatic-gastrocnemius preparation with muscle only exposed to anesthetic (fig. 2).....	407
Frog's rectus abdominis in bath of acetylcholine (fig. 3).....	408
— rectus abdominis in bath of acetylcholine (fig. 4).....	409
— rectus abdominis in bath of cytisine (fig. 5).....	409
— rectus abdominis in bath of methyl-cytisine (fig. 6).....	410
Blood pressure responses in spinal cat to doses of adrenaline (fig. 7).....	410
Effect of intranasal application of acetyl- $\beta$ -methylcholine chloride (mecholy) on blood pressure in patient with essential hypertension (fig. 1).....	416
Blood plasma of dogs during course of peptone shock (fig. 1).....	432
— plasma of dogs during course of peptone shock (fig. 2).....	434

Responses of rats during daily administration of acetanilid and after permanent withdrawal (fig. 1)..... 440  
— of rats during administration of massive doses of acetanilid (fig. 2)..... 441  
Weight changes of rats administered rapidly increasing doses of acetanilid (fig. 3)..... 448  
Effect of epinephrine, dinitrophenol and of both given simultaneously upon metabolic rate of anesthetized cat (fig. 1)..... 453
