

INDEX

- Acetic acid, 3:5 diido-4-pyridone-N-, Clearance of diethylamine and diethanolamine salts of, 315
- Acetyl-beta-methylcholine chloride and certain furfuryl ammonium iosides, Circulatory action of, after atropine, 187
- N⁴-acylsulfanilhydroxamides, Chemotherapeutic activity of, 52
- Addiction characteristics of drugs of morphine, codeine series, Effects of certain chemical changes on, 42
- Adrenaline destruction in liver and methylene blue, 95
- Adrenergic effects, Potentiation and paralysis of, by ergotoxine and other substances, 87
- Alcohol, Absorption, distribution and elimination of, 349, 358
- Alcohol, Concentration of, in blood causing primary cardiac failure, 358
- Alcohol, Diuresis from, and its influence on Elimination of alcohol in urine, 349
- Alcoholism, experimental, Pharmacological studies in, 75
- Alkamine esters of p-fluorobenzoic acid, Local anesthetic activity and toxicity of, 59
- Amphetamine, Action of vitamin C and phenol oxidase in inactivation of, 394
- Amytal, Reliability of cobalt-isopropylamine color reaction for, 287
- Andrews, Howard L., and Oberst, Fred W. Electrolytic dissociation of morphine derivatives and certain synthetic analgetic compounds, 38
- Anemia and sulfanilamide cyanosis, Effect on, of sulfur compounds in diet, 203
- Anesthesia, Effect of histamine on pulmonary blood pressure of various animals with and without, 293
- Anesthesia. III. Pharmacology of methyl allyl ether, 126
