

## INDEX

- Absorption of single doses of iron, 158
- Acute toxicity of thiourea to rats in relation to age, diet, strain and species variation, 195
- Adenine; formoguanamine and melamine; Mode of action of, 235
- Alkaloids, hepatotoxic, Effect of, on prothrombin time of rats, 265
- Alkylamines, phenyl-, cyclohexyl- and cyclopentyl-, Comparative pharmacological action of, 253
- Amino acid oxidation, Inhibition of, in shock induced by hemorrhage, 220
- Analgesic agents, Effects of, on sensations other than pain, 294
- Anesthesia. XVIII. Comparative study of propethylene and cyclopropane on cardiac automaticity, 40
- Antagonists for circulatory depression of quinine injected intravenously and implied cholinergic action, and nature and importance of vasodilatation, in depression, 167
- Antitoxin therapy and chemotherapy of experimental *Cl. welchii* infection in mice, 71
- Arthritis, treatment of, Metabolism, toxicity and manner of action of gold compounds in, 275
- Asthma, Synthetic benzhydryl alkamine ethers effective in preventing fatal experimental, in guinea pigs exposed to atomized histamine, 120
- Atabrine, Distribution of, in tissues of fowl and rabbit, 288
- Aull, J. C., and Kinard, F. W. Distribution of tungsten in rat following ingestion of tungsten compounds, 53
- Barbiturate depression, Antagonism to, of sodium succinate, 45
- Bell, Frederick K., and Krantz, John C., Jr. Chemical evaluation of digitalis, 213
- Bernheim, Frederick, and Bernheim, Mary L. C. *In vitro* inactivation of morphine by liver, 85
- Bernheim, Mary L. C., and Bernheim, Frederick. *In vitro* inactivation of morphine by liver, 85
- Bing, R. J., and Thomas, C. B. Effect of two dioxane derivatives, 883 and 933F, on normal dogs and on animals with neurogenic and renal hypertension, 21
- Block, Walter D., and Knapp, Elizabeth L. Metabolism, toxicity and manner of action of gold compounds in treatment of arthritis. VII. Effect of various gold compounds on oxygen consumption of rat tissues, 275
- Blood pressure, Method for accurate control of, 250  
substitutes, Hemoglobin solutions as, in shock induced by hemorrhage, 225
- Blumenfeld, S., and Loewi, O. Digitalis and calcium, 96
- Bufo arenarum* Hensel, Relation in, between body weight and caffeine toxicity, 1
- Caffeine toxicity and body weight, Relation between, in *Bufo arenarum* Hensel, 1
- Calcium and digitalis, 96
- Cantarow, A., Rakoff, A. E., Tillson, E. K., and Paschkis, K. E. Thiouracil levels in serum and urine, 270
- Cardiac automaticity, Comparative study of propethylene and cyclopropane on, 40
- Cardio-active glycosides, Combination of, with serum proteins, 143
- Chemotherapy and antitoxin therapy of experimental *Cl. welchii* infection in mice, 71
- Chen, K. K., Rose, Charles D., Fink, Robert D., and Harris, Paul N. Effect of hepatotoxic alkaloids on prothrombin time of rats, 265
- Chow, Bacon F., Walker, H. A., van Dyke, H. B., and Tupikova, Natalia A. Pharmacological behavior of some derivatives of sulfadiazine, 203
- Cinchonine, cinchonidine, quinine and quinidine, Distribution of, in fluids and tissues of dogs, 101
- Circulatory depression of quinine injected intravenously and implied cholinergic action, and nature and importance of vasodilatation, in depression, Antagonists for, 167
- Cl. welchii* infection, experimental, in mice, Chemotherapy and antitoxin therapy of, 71
- Cranston, Elizabeth M. Effect of Litho-

- spermum ruderales on estrous cycle of mice, 130
- Curare and curare-like substances, Effect of, on central nervous system, 59
- Cyclopropane and propethylene, Comparative study of, on cardiac automaticity, 40
- Desoxycorticosterone acetate, Effect of  $\text{NH}_4\text{Cl}$  on life-maintaining action of, adrenalectomized rats, 56
- deTurk, Wm. E., and Greig, Margaret E. Studies on shock induced by hemorrhage. IX. Inhibition of amino acid oxidation in shock induced by hemorrhage, 220
