p-Aminopropiophenone (PAPP), Antidotal action of, with or without sodium thiosulfate in cyanide poisoning, 109
Amphetamine, Excretion of, 92
Arsenic, sulfates, effect of, on performance of normal and fatigued subjects, 106
Antalgic potency and toxicity of salicylamide and certain of its derivatives as compared with established analgetic-antipyretic drugs, 205
Anaphylactic shock in dog, Effect on, of thorotrast, 379
Antihistamine drugs, benadryl, pyribenazine and neoantergan, Pharmacological properties of, 247
Antimony poisoning, experimental, Protective action in, of BAL, 196
Arylamines and ethers, related series of, Activity in vitro in chemotherapy of tuberculosis, 158
BAL and BAL-glucoside therapy, Effect of, on excretion and tissue distribution of injected cadmium, 343
and related dithiols, Tests of, for decontamination of lewisite on human skin, 1 and sodium arsenite, combined administration of, Central and autonomic effects following, 350
Protective action of, in experimental antimony poisoning, 196
Baljet reaction and pharmacodynamics of diginin, 143
Barbituric acids, 5-phenyl-5-alkyl, Comparative central depressant actions of, 356

Benadryl, Bronchodilator activity of, 214
Effect of, upon permeability of meningeal capillaries, 101
Pharmacological properties of, 247
Benzhydryl alkamine ether group, two histamine antagonists of, Toxicologic study of, 227
Beta-diethylaminomethyl-phenylthioacetate, a synthetic antispasmodic, Pharmacology of, 131
Blood from normal and dicumarol treated rats, prothrombin activity of, effect of perfusion through isolated liver on, 306
hemoglobin and hematocrit results on rats ingesting sodium fluoride, 77
Bronchodilator activity of benadryl, 214
Cadmium, injected, excretion and tissue distribution of, Effect on of BAL and BAL-glucoside therapy, 343
Capillary permeability, increased, effect of antihistamine drugs on, following intradermal injections of histamine, horse serum, etc., in rabbits, 81
Carbital and some other glycols, glucuronic acid excretion after, 210
Carbohydrate metabolism, effect on, of acute thiourea poisoning, 186
Cardiac output of isolated frog heart, effect of sodium caprylate on, 14
