

INDEX

- Acetamidines, properties of, anticholinergic and antihistaminic, 353
- Acetylcholine, antagonism of, by curare alkaloids, 255
 quantitative study of blood pressure response to, and modification by atropine, 401
 structure-activity relationships of quaternary ammonium ions and, 334
- Adiphenine hydrochloride, action on biliary tract of man, 304
- Agene, convulsions produced by, effect of anticonvulsants on, 325
- Aglycones, helleborus, cardiac action of, 395
- Aminophylline, action on biliary tract of man, 304
 effect of, on coronary flow, 286, 343
- Aminopyrine, fate of, in man, 171
 methods for estimation of and its metabolites in biological materials, 171
- Amyl nitrate, action on biliary tract of man, 304
- Analgesics, action of 3-hydroxy-N-methyl morphinan hydrobromide (Dromoran), 163
 action on intestine and uterus, 317
 aminopyrine, fate of in man and methods for estimation of and its metabolites in biological materials, 171
 studies on aspirin, phenacetin and carbazole derivatives, 450
- Ananenko, E., Lands, A. M., Luduena, F. P., and Grant, J. I. Pharmacologic action of some analogs of 1-(3,4-dihydroxyphenyl)-2-amino-1-butanol (ethylnorepinephrine), 45
- Anderson, R. C., Chen, K. K., and Henderson, F. G. Cardiac action of helleborus glycosides and their aglycones, 395
- Androgens, myotrophic activity of, 38
- Anesthetics, general, effect of on metabolism and toxicity of procaine, 370
 local, comparison of procaine and tri-diurecaine, 421
 local, procaine, effect of general anesthetics on metabolism and toxicity of, 370
- Antibiotics, See Terramycin
- Anticoagulant drugs, See dicumarol
- Antihistaminic effects of acetamidines and propionamidines, 353
 effect of furans, 479
 experimental comparison of 26 different, 195
 mechanism of apnea following intravenous injection of, 425
- Antimalarials, potentiation of sulfadiazine by 2,4-diamino-5-aryloxyprymidines, 444
- Antipyretics, aminopyrine, fate of in man and methods for the estimation of and its metabolites in biological material, 171
 studies on aspirin, phenacetin and carbazole derivatives, 450
- Aspirin, antipyretic and analgesic action of, 450
- Autonomic ganglia, blockade of, by Bantnine, 245
 blockade of, by 2,6-dimethyl piperidinium bromide, 435
- Aviado, D. M., Jr., Pontius, R. G., and Li, T. H. Mechanism of apnea following intravenous injection of antihistaminic compounds; relation to chemical structure, 425
- Axelrod, J., and Brodie, B. B. Fate of aminopyrine in man and methods for the estimation of aminopyrine and its metabolites in biological material, 171
 —Cooper, J. R., Brodie, B. B., Weiner, M., and Shapiro, S. Physiological disposition of dicumarol in man, 409
- Barbiturates, effect of phenobarbital on agene-induced convulsions, 325
 thiopental, effect of on metabolism and toxicity of procaine, 370
 thiopental, metabolism of, affected by carinamide, 366
- Barker, S. B., Kiely, C. E., Jr., Dirks, H. B., Jr., Klitgaard, H. M., Wang, S. C., and Wawzonek, S. Evaluation of agents with thyroxine-inhibiting effects, 202
- Barrett, W., Craver, B. N., and Cameron, A. Pharmacological properties of a series of acetamidines and propionamidines, 353
- B-Diethylaminoethyl xanthene-9-carboxylate methobromide (Bantnine) and chloride, pharmacology of, 245
- Beach, V. L., Wescoe, W. C., and Riker, W.

- F., Jr. Studies on the interrelationships of certain cholinergic compounds. III. Reactions between 3-acetoxy phenyltrimethylammonium methylsulfate, 3-hydroxy phenyltrimethylammonium bromide and cholinesterases, 265
- Belford, J., and Bonnycastle, D. D. Effect of some anticonvulsant agents upon agene-induced convulsions in dogs, 325
- Bernstein, T. B., Hargis, B. J., Feinberg, S. M., and Malkiel, S. Histamine antagonists. XV. Comparative experimental studies of certain antihistaminic compounds, 195
- B-Erythroidine, antagonism between acetylcholine and, 255
- Bianchi, R. G., Cook, D. L., and Ham-bourger, W. E. Pharmacology of a new autonomic ganglion blocking agent, 2,6-dimethyl piperidinium bromide (SC 1950), 435
- Biliary tract, action of spasmolytics on human, 304
- Blanchet, H. J., Jr., Hyatt, R. E., Hodge, H. C., Maynard, E. A., and Wilt, W. G., Jr. Chronic oral toxicity of a high gel point methylcellulose (Methocel HG) in rats and dogs, 112
