

Combined Analysis of Pharmacokinetic and Efficacy Data of Preclinical Studies with Statins Markedly Improves Translation of Drug Efficacy to Human Trials

E. van de Steeg, R. Kleemann, H.T. Jansen, W. van Duyvenvoorde, E.H. Offerman, H.M. Wortelboer and J. DeGroot

SUPPLEMENTAL DATA 2

Determining ED₃₀ values (i.e. effective dose to reduce plasma TC with 30%) for the different statins in patients with hypercholesterolemia.
