

CONTENTS

Neuropharmacology of 3-Isobutylmethylxanthine: Effects on Central Noradrenergic Systems <i>in Vivo</i>. Matthew P. Galloway and Robert H. Roth	1
Effects of Nephrectomy on the Pharmacokinetics of Various Cloned Human Interferons in the Rat. Sharon A. Tokazewski-Chen, Benedict J. Marafino, Jr. and Nowell Stebbing	9
Synaptic Transmission in Low Extracellular Calcium is Preserved by 3,4-Diaminopyridine. Mitsuhiro Matsumoto and William K. Riker	16
The Spinal Cord as a Site of Opioid Effects on Gastrointestinal Transit in the Mouse. Frank Porreca and Thomas F. Burks	22
Oral <i>d</i>-Amphetamine and Ketamine Self-Administration by Rhesus Monkeys: Effects of Food Deprivation. Marilyn E. Carroll and Dana C. Stotz	28
Further Study of <i>Kappa</i> Opioids on Increased Urination. J. David Leander	35
A Comparison of Antinociception Induced by Foot Shock and Morphine. Anne E. Snow and William L. Dewey	42
Effect of Probenecid on the Dose-Response Relationship of Bumetanide at Steady State. Henry S. H. Lau, Ling-Jar Shih and David E. Smith	51
Dissociation of Renal Organic Anion Transport from Renal Lipid Metabolism. I. Endogenous Nonesterified Fatty Acids (NEFA) as Determinants of Transport. William E. Stroo and Jerry B. Hook	55
<i>Alpha</i> Adrenergic Receptor Subtype Associated with Receptor Binding, Ca⁺⁺ Influx, Ca⁺⁺ Release and Contractile Events in the Rabbit Aorta. Raymond Awad, Roderick Payne and Richard C. Deth	60
Narcotic Effects on Hepatic Disposition of Sulfobromophthalein in Rats. Aryeh Hurwitz and Holly R. Fischer	68
Central <i>Beta</i> Adrenoceptor Mediation of the Antinatriuretic Response to Behavioral Stress in Conscious Dogs. John P. Koepke, Alberto Grignolo, Kathleen C. Light and Paul A. Obrist	73
Effect of Ethanol Administration on the Metabolism of Ethanol in Baboons. F. Nomura, P. H. Pikkarainen, P. Jauhonen, M. Arai, E. R. Gordon, E. Baraona and C. S. Lieber	78
Prostaglandin-Independent Inhibition of Calcium Transport by Nonsteroidal Anti-Inflammatory Drugs: Differential Effects of Carboxylic Acids and Piroxicam. Ronald M. Burch, W. Curtis Wise and Perry V. Halushka	84
Pharmacodynamics of the Diuretic Effects of Aminophylline and Acetazolamide Alone and Combined with Furosemide in Normal Subjects. D. Craig Brater, Sming Kaojarern and Polavat Chennavasin	92
<i>In Vitro</i> Correlates of Benzodiazepine Cerebrospinal Fluid Uptake, Pharmacodynamic Action and Peripheral Distribution. Rainer M. Arendt, David J. Greenblatt, Rudolph H. deJong, John D. Bonin, Darrell R. Abernethy, Bruce L. Ehrenberg, H. Gwynne Giles, Edward M. Sellers and Richard I. Shader	98
Desensitization of <i>Beta</i> Adrenergic Receptors Linked to Adrenocorticotropin Secretion. Terry Reisine and Seymour Heisler	107
Evidence for Histamine H₁ and H₂ Receptors in Guinea-Pig Oxyntic Cells. A. I. Vinik, A. A. Heldsinger and M. L. Skoglund	115
Na⁺ Gradient-Dependent <i>p</i>-Aminohippurate (PAH) Transport in Rat Basolateral Membranes Vesicles. Jeffrey S. Kasher, Peter D. Holohan and Charles R. Ross	122
Suppression of Cell-Mediated Immunocompetence after Subchronic Exposure to Diethylstilbestrol in Female B₆C₃F₁ Mice. Michael P. Holsapple, Albert E. Munson, J. Ann Munson and Peter H. Bick	130
Comparative Effects of Prostaglandin H Synthase-Catalyzed Binding of Two 5-Nitrofuranyl Urinary Bladder Carcinogens. Terry V. Zenser, Mark O. Palmier, Michael B. Mattammal, Robert I. Bolla and Bernard B. Davis	139
Role of Calcium in the Interaction of <i>Alpha</i> and <i>Beta</i> Adrenoceptor-Mediated Renin Release in Isolated, Constant Pressure Perfused Rabbit Kidneys. Terry J. Opgenorth and John E. Zehr	144
Time Course of Functional Tolerance Produced in Mice by Inhalation of Ethanol. Dora B. Goldstein and Rainer Zaechelein	150
Maintenance of Behavior by Postponement of Scheduled Injections of Nicotine in Squirrel Monkeys. Roger D. Spealman	154

Contents Continued on *iv*

Discriminative Stimulus Effects of Diazepam in Rats: Evidence for a Maximal Effect. Harlan E. Shannon and Seymore Herling	160
Interactions in the Behavioral Effects of Methylxanthines and Adenosine Derivatives. Jefferson J. Katims, Zoltan Annau and Solomon H. Snyder	167
Pharmacokinetic Studies of 5-Fluorouracil and 5'-Deoxy-5-Fluorouridine in Rats. J. Lai-Sim Au, Judy S. Walker and Youcef Rustum	174
Ontogeny of Rat Hepatic Adrenoceptors. Michael K. McMillian, Saul M. Schanberg and Cynthia M. Kuhn	181
Norepinephrine Release and Vascular Response Elicited by Nerve Stimulation in Rats with Chronic Neurogenic Hypertension. Antonio R. Granata, Maria A. Enero, Eduardo M. Krieger and Salomon Z. Langer	187
Selective <i>Alpha</i>-2 Blocking Action of DG-5128 in the Dog Mesenteric Artery and Rat Vas Deferens. Ikunobu Muramatsu, Masafumi Oshita and Kyozo Yamanaka	194
Excitatory Effect of the Most Potent Marine Toxin, Maitotoxin on the Guinea-Pig Vas Deferens. Y. Ohizumi, A. Kajiwara and T. Yasumoto	199
Comparison of the Effects of β-Phenylethylamine and <i>d</i>-Amphetamine on Rat Isolated Atria. G. Pesce and E. Adler-Graschinsky	205
Acute Effects of Antidiuretic Hormone on Urinary Prostaglandin Excretion. Geza Fejes-Toth, Aniko Naray-Fejes-Toth and Jürgen C. Frölich	215
Effects of a New Antianginal Agent, Nicorandil, on the Cardiovascular System of the Miniature Pig: With Special Reference to Coronary Vasospasm. Kazushige Sakai, Michitaka Akima, Yasuyuki Shiraki and Eiichi Hoshino	220
Enkephalin Action on the Mesolimbic System: A Dopamine-Dependent and a Dopamine-Independent Increase in Locomotor Activity. Peter W. Kalivas, Erik Widerlöv, Donald Stanley, George Breese and Arthur J. Prange, Jr.	229
Bromoacetylalprenololmenthane: A Potent Irreversible Antagonist of <i>Beta</i> Adrenergic Elicited Protein Exocytosis in Rat Parotid Cells. Eleni E. Kousvelari, John W. Kusiak, Arthur R. Hand, Josef Pitha and Bruce J. Baum	238
Cardiovascular Responses to Leukotriene C₄ in the Rat. Vincent J. Iacopino, Thomas M. Fitzpatrick, Peter W. Ramwell, John C. Rose and Peter A. Kot	244
Effects of β-Naphthoflavone Administration to Pregnant Rats on Steroid Hormone Biosynthesis and Metabolism in Ovarian Microsomes. Carolyn Fuhrman-Lane, Elsa Ortiz and Kathleen T. Shiverick	248
Paradoxical Elevation of Sympathetic Activity during Catecholamine Infusion in Rats. Mark D. Johnson, Peter G. Smith, Elliott Mills and Saul M. Schanberg	254
Effects of 4-Aminopyridine and 3,4-Diaminopyridine on Transmitter Release at the Neuromuscular Junction. Robert H. Thomsen and David F. Wilson	260
