

## INDEX

- Abstracts, Madison meeting, 371
- Acetylcholine, antidiuretic action of, 103  
separation and assay of in tissue extracts, 193
- Adenosine, and analogs, enzymatic deamination and vasodepressor effects of, 291
- Adrenal, cortical extract of, effect in experimental traumatic shock, 429
- Adrenal cortex, see Steroids
- Adrenergic blockade, produced by dibenzazepine derivative, 14  
see Dibenamine
- Adrenergic blocking drugs, Regitine, effects on cardiac irregularities during cyclopropane anesthesia, 49  
see Benzazoline  
specificity of, tested on guinea pig seminal vesicles, 226
- Alarm reaction, pharmacodynamic, as detected by eosinopenic response, 271
- Alcohol, ethyl, and Antabus, effects of on cerebral blood flow and cerebral metabolism, 253  
see Fluoroethanol
- Alloxan diabetes, effect on, of nitrogen mustard, 29
- Alpha tocopherol, influence of, on creatine synthesis by  $\text{CCl}_4$ -poisoned liver slices, 88
- Amphetamine, d, determination of in body fluids, 77
- Analgesics, effect of, on vibratory threshold, 1  
salicylamide, metabolism of, 433
- Anderson, R. C., see Chen, K. K., 314
- Anesthetics, general, potentiation of, by epinephrine, 219  
general, see Cyclopropane  
general, xenon, 468  
local, administered intravenously, effects on cardiovascular-respiratory system of the dog, 37  
local, see Butacaine, Dibucaine, Hexylcaine, Neohesin, Tetracaine
- Antabus, and alcohol, effects of, on cerebral blood flow and cerebral metabolism, 253
- Anticholinergic action, tested on guinea pig seminal vesicle, 226
- Anticonvulsants, assay of, comparison of techniques, 319  
Myavan, pharmacology of, 444  
see Phenacetylurea  
see Trimethadione
- Anticoagulants, see Heparin  
Tromexan, disposition in man, 453
- Antidiuresis, after cinchoninic acids, 103  
produced by epinephrine and norepinephrine, 122
- Antihistaminic action, tested on guinea pig seminal vesicle, 226
- Antispasmodics, basic esters and quaternary derivatives of b-hydroxy acids, 141
- Antitussives, studies on, 246
- Aronow, L., Axelrod, J., and Brodie, B. B. Fate of benzazoline hydrochloride (Priscoline) in dog and man and a method for its estimation in biological material, 200
- , Brodie, B. B., and Axelrod, J. Physiological disposition and biotransformation of Dibenamine and a method for its estimation in biological tissues, 166
- Arterenol, see norepinephrine, 65
- Aspirin, effect of, on vibratory threshold, 1
- Axelrod, J., Aronow, L., and Brodie, B. B. Physiological disposition and biotransformation of Dibenamine and a method for its estimation in biological tissues, 166
- , Brodie, B. B., and Aronow, L. Fate of benzazoline hydrochloride (Priscoline) in dog and man and a method for its estimation in biological material, 200
- BAL, failure of to reverse pentobarbital inhibition of brain metabolism, 24
- Barbiturates, anesthesia from, potentiation by epinephrine, 219  
see Mephobarbital  
see Pentobarbital  
see Phenobarbital
- Bartlett, G. Mechanism of action of monofluoroethanol, 464
- Bentley, G. A., and Shaw, F. H. Separation and assay of acetylcholine in tissue extracts, 193

- Benzazoline, fate of, and method for determination, 200
- Berke, H. L., see Gosselin, R. E., 180
- Bertcher, E. L., and Taylor, J. D. Determination and distribution of Tridione in animal tissues, 277
- Beyer, K. H., and Latven, A. R. Effect of Cyclaine (1-cyclohexylamino-2-propylbenzoate) and other local anesthetic agents administered intravenously on the cardiovascular-respiratory systems of the dog, 37
- $\beta$ -hydroxy acids, derivatives of, as antispasmodics, 141
- Blanchard, E. W., see Ehrenberg, M. H., 141
- Bone, gallium deposition in and clearance from, 129
- Bonner, J. F., Scott, J. K., and Neuman, W. F. Distribution and excretion of thorium sulphate, 286
- Brain excitability, effect on, of thyroxin, thyroidectomy and propyl thiouracil, 331
- Brain metabolism, effect on, of BAL and pentobarbital, 24
- Brodie, B. B., Aronow, L., and Axelrod, J. Fate of benzazoline hydrochloride (Priscoline) in dog and man and a method for its estimation in biological material, 200
- , Axelrod, J., and Aronow, L. Physiological disposition and biotransformation of Dibenamine and a method for its estimation in biological tissues, 166
- , Weiner, M., and Burns, J. J. Physiological disposition of Tromexan in man and a method for its estimation in biological material, 453
- Brown, G. B., see Clarke, D. A., 291
- Brown, W. C., Goodman, L. S., and Swinyard, E. A. Comparative assays of antiepileptic drugs in mice and rats, 319
- Burbridge, T. N., see Hine, C. H., 253
- Burns, J. J., Brodie, B., and Weiner, M. Physiological disposition of Tromexan in man and a method for its estimation in biological material, 453
- Butacaine, effect of, on cardiovascular-respiratory systems of dog, comparison with other local anesthetics, 37
- Butacaine-heparin, prolonged anticoagulant effect from, in man, 83
- Butler, T. C. Quantitative studies of the metabolic fate of mephobarbital (N-methyl phenobarbital), 235
- , Mahaffee, D., and Mahaffee, C. Role of the liver in the metabolic disposition of mephobarbital, 364
- Calvin, L. D., see Sturtevant, F. M., 29
- Carbon tetrachloride, influence of on creatine synthesis by liver slices, 88
- Cardiac pharmacology, action of serum protein fractions on myocardium, 346
- comparative study of epinephrine and congeners on heart, 65
- effect of cocaine on automaticity, 55
- effect of Regitine on arrhythmias, 49
- effects of cassaine and cassaidine on contractile force, 94
- effects of hexamethonium on cardiovascular and renal hemodynamics, 157
- effects of local anesthetics, administered intravenously, on the cardiovascular system of dog, 37
- 11-hydroxy cardiac steroids compared with cortisone and compound F, 314
- Cassaidine, effects of, on heart contractile force, 94
- Cassaine, effects of, on heart contractile force, 94
- Cerebral blood flow, and metabolism, effects on, of alcohol and Antabus, 253
- Chen, K. K., Anderson, R. C., and Rose, C. L. Comparison of 11-hydroxy cardiac steroids with compound F and cortisone, 314
- Chloral, anesthesia from, potentiation by epinephrine, 219
- Chloride excretion, effect of cinchoninic acids on, 103
- Cinchoninic acids, antidiuretic action of, 103
- Clarke, D. A., Davoll, J., Philips, F. S., and Brown, G. B. Enzymatic deamination and vasodepressor effects of adenosine analogs, 291
- Cocaine, effect of, on epinephrine-induced arrhythmias, 55
- Colchicine, general pharmacology of, 261
- Cortisone, comparison with 11-hydroxy cardiac steroids, 314
- effect of, in experimental traumatic shock, 429
- Cotten, M. deV., Goldberg, L. I., and Walton, R. P. Cassaine and cassaidine:

- quantitative measurements of heart contractile force *in situ*, 94
- Cough, depressants to, 246
- Coumarins, Tromexan, disposition in man, 453
- Creatine, synthesis by liver slices, as influenced by CCl<sub>4</sub> and vitamin E, 88
- Cyclohexylethylamines, vasopressor action and toxicity of, 341
- Cyclopropane, arrhythmias during anesthesia, effects of Regitine on, 49
- D'Amour, F. E., and Smith, D. L. Effects of ACTH, cortisone, and adrenal cortical extract in experimental traumatic shock, 429
- Davoll, J., see Clarke, D. A., 291
- Deaminase, of adenosine, 291
- Dearborn, E. H., and Lasagna, L. Antidiuretic action of epinephrine and norepinephrine, 122
- , Lasagna, L., and Marshall, E. K., Jr. On the mechanism of the antidiuretic action of cinchoninic acid derivatives, 103
- De Beer, E. J., see Ellis, C. H., 353
- Decamethonium, central depressant action of, 353
- Diabetes, alloxan, effect on, of nitrogen mustard, 29
- Dibenamine, disposition and biotransformation of, 166
- method for estimation of, 166
- Dibenzazepine, derivative of, as adrenergic blocking agent, 14
- Dibenzylamine, as transformation product of Dibenamine, 166
- Dibucaine, effect of, on cardiovascular-respiratory systems of dog, comparison with other local anesthetics, 37
- Dicumarol, comparison with Tromexan, 453
- Digitalis, see Ouabain, Digitoxin
- Digitoxin, mechanism of action, vagal effect, 208
- Dudley, H. C., and Marrer, H. H. Studies of the metabolism of gallium. III. Deposition in and clearance from bone, 129
- Ehrenberg, M. H., Ramp, J. A., Blanchard, E. W., and Treves, G. R. Antispasmodic activity of basic esters and quaternary derivatives of b-hydroxy acids, 141

- Ellis, C. H., Morgan, W. V., and de Beer, E. J. Central depressant actions of certain myoneural blocking agents, 353
- Eosinopenia, as test for alarm reaction to drugs, 271
- produced by corticoids and steroids, 135
- Epinephrine, arrhythmias from, effect on, of cocaine, 55
- arrhythmias produced by during cyclopropane anesthesia, effects of Regitine on, 49
- as antidiuretic agent, 122
- effects of, on the heart, comparison with congeners, 65
- eosinopenic response to, 271
- potentiation by, of anesthetic effect in chloral and barbiturate anesthesia, 219
- Erythrophleum alkaloids, see Cassaine, Cassaidine
- Ethanol, fluoro, see Fluoroethanol
- see Alcohol, ethyl
