

INDEX

- Abreu, B. E., see Ehrenford, F. A., 381
- Absorption, from intestine of quaternary and tertiary amines, 78
- Acacia, anaphylactoid reaction in dogs, 368
- Acetylcholinesterase, histochemical localization in neurons, 167
- Acidosis, respiratory, effect of, on arrhythmias induced by cyclopropane-epinephrine, 148
- Adenosine, cardiac action of, potentiation by ouabain, 119
- Adler, T. K., Fujimoto, J. M., Way, E. L., and Baker, E. M. Metabolic fate of codeine in man, 251
- Adrenal, ascorbic acid and cholesterol in, effect on, of salicylates and related compounds, 299
- Adrenal medulla, discharge by decaborane, KCl, nicotine, 368
influence of, on morphine analgesia, 43
- Aerosols, silicone, treatment of pulmonary edema, 138
- Alkalosis, respiratory, effect of, on arrhythmias induced by cyclopropane-epinephrine, 148
- Aminophylline, effect of, on respiratory response to CO₂, 461
- Analgesia, morphine, influence on, of adrenal medulla, 43
- Analgetic drugs, studies on desoxymorphines, 100
- Anesthesia, effect of, on adrenal responsiveness, 445
plasma epinephrine levels during, 203
- Anesthetics, general, effect of, on ganglionic transmission, 231
general, see Cyclopropane
- Angiotonin, assay of, using oxytocic activity on rat uterus, 418
- Antabuse, and thiopental action, 240
- Antemetic action, of chlorpromazine, 359
- Anthelmintic activity, 3 - methyl - 1 - pentyn-3-yl acid phthalate (phthalofyne), methylparafynol, and phthalates, 381
- Anticholinergic activity of benzomethamine, 54
- Anticholinesterases, effect of, on synaptic conduction, 211
see DFP, HETP, Phosphine oxides
- Anticonvulsant drug, see Carbinol, Pentyl-enetetrazole
- Antidiuresis, produced by protoveratrine, 87
- Antifoaming agents, silicones, 138
- Antihistamine drugs, properties of tropine 4-chlorobenzhydryl ether hydrochloride (SL-6057), 192
- Antrenyl, biliary excretion, 63
intestinal absorption, 78
tissue distribution, 63
- Arterenol, effect of, on blood pressure in heart-lung, 271
inotropic effects, comparison with epinephrine, 110
isopropyl, arrhythmia production by, 1
- Ascorbic acid, in adrenal, effect on, of salicylates and related compounds, 299
- Atropine, control of epinephrine arrhythmia by, 1
- Axelrod, J. Enzymatic demethylation of ephedrine, 430
- Azide, sodium, production by, of heart failure, and effects on, of ouabain and epinephrine, 335
- Baker, E. M., see Adler, T. K., 251
- Banthine, comparison with benzomethamine, 54
urinary excretion, 63
- Barbiturate, 5-ethyl, 5-(1,3-dimethylbutyl), sodium, effects of, stimulant and depressant, 473
hexobarbital, enzymatic metabolism of, 409
thiopental, *in vitro* metabolism of, identification of pentobarbital as a metabolite, 344
see Thiopental
- Barrett, W. E., see Schneider, J. A., 10
- Bavley, A., see P'an, S. Y., 327
- Benzomethamine, correlation of pharmacology with physiological disposition, 54
intestinal absorption, 78
pharmacology of, 54
physiological disposition, 63
- Berger, B. L., see Burns, J. J., 289
- Bicarbonate reabsorption as affected by an organic mercurial, 453

- Bile, excretion of quaternary amines in, 63
recovery of FD&C triphenylmethane colors from, 38
- Bioassay, for histamine, 151
of angiotonin, using oxytocic activity on rat uterus, 418
- Blackmore, W. P. Antidiuretic action of protoveratrine and its mechanism in dogs, 87
- Blair, M. R., see Levine, R. M., 78
- Blarina brevicauda, toxin from, properties of, 127
- Blood, clumping with decaborane, 368
- Blood sugar, effect on, of narcotics and antagonists, 439
- Bockstahler, E. R., see Ehrenford, F. A., 381
- Boron, tolerance to, in human, 484
- Boron hydrides, cardiovascular action, 368
- Brodie, B. B., see Burns, J. J., 289
see Cooper, J. R., 409
- Brodie, O. J., see Walton, R. P., 368
- Brody, T. M., see Domino, E. F., 473
- Bunde, C. A., see Ehrenford, F. A., 381
