8202 The effect of iproniazid on the metabolism of \textit{d1}-epinephrine-2-C\textsubscript{14} in the human. N. Kirshner, McC. Goodall, L. Rosen.  
8203 Substrate requirements for the positive inotropic action of arsenate on electrically-stimulated rat ventricle strips. J. M. Covin, D. A. Berman.  
8204 Oxidation of glucose-1-C\textsubscript{14}, glucose-6-C\textsubscript{14} and pyruvate-2-C\textsubscript{14} by contracting rat ventricle strips in the presence and absence of arsenate. L. I. Rice, D. A. Berman.  
8205 Hemicholinium antagonism by choline analogues. N. L. Reitzel, J. P. Long.  
8206 The effect of ryanodine on the contractile strength of mammalian cardiac (atrial) muscle. I. W. Hillyard, L. Procita.  
8207 Mechanism of sympathomimetic action of aldehydes. N. R. Eade.  
8208 Lethality of sarin in a warm environment. F. N. Craig, P. D. Bales, H. M. Frankel.  
8215 The effect of eight anticancer agents on the phagocytic properties of the reticuloendothelial system. R. Megirian, H. S. Walton, E. P. Laug.  

127:2 Oct 59

8217 Metabolism of nicotine in the human and excretion of pyridine compounds by smokers. E. R. Bowman, L. B. Turnbull, H. McKennis, Jr.  
8218 The mechanism of serotonin and catecholamine uptake by platelets. F. B. Hughes, B. B. Brodie.  
8219 Biochemical and pharmacological studies of Ro 1-9569 (tetrabenazine), a non-indole tranquilizing agent with reserpine-like effects. G. P. Quinn, P. A. Shore, B. B. Brodie.  

R-16
8221 Studies on drug resistance in mammalian cells. I. Amethopterin resistance in mouse fibroblasts. L. Aronow. 116
8222 The action of sympathomimetic amines on isometric contraction and phosphorylase activity of the isolated rat heart. W. R. Kukovetz, M. E. Hess, J. Shanfeld, N. Haugaard. 122
8223 Decelerator and antiarrhythmic properties of amotriphene. A. Farah, L. Birnbaum. 128
8224 Pharmacological agents for the control of spontaneous ventricular fibrillation under progressive hypothermia. E. T. Angelakos, A. H. Hegnauer. 137
8225 Adrenergic receptive mechanism of canine ileum. R. P. Ahlquist, B. Levy. 146
8226 Adrenergic blockade produced by the dichloro analogs of epinephrine, arterenol, and isoproterenol. B. Levy. 150
8229 The effect of 2-dimethylaminoethanol (deanol) on anaphylactoid edema in rats. G. E. Cronheim, I. M. Toekes. 167

8230 The metabolic fate of 5-ethyl-1-methyl-5-phenyl hydantoin (1-methylnirvanol) and that of 3,5-diethyl-5-phenyl hydantoin (3-ethylnirvanol). T. C. Butler, W. J. Waddell. 171
8231 A fluorometric procedure for the measurement of tryptamine in tissues. S. M. Hess, S. Udenfriend. 175
8232 The effect of monoamine oxidase inhibitors and tryptophan on the tryptamine content of animal tissues and urine. S. M. Hess, B. G. Redfield, S. Udenfriend. 178
8233 A method for the fluorometric assay of histamine in tissues. P. A. Shore, A. Burkhalter, V. H. Cohn, Jr. 182
8234 The effect of repeated administration of levorphan, dextromorphan and morphine on the capacity of rat liver preparations to demethylate morphine- and morphinan-type analgesics. G. J. Mannering, A. E. Takemori. 187
8235 The effect of various mitotic inhibitors on oxidative phosphorylation and amino acid incorporation. S. Spector, R. S. Lee. 191
8236 Inhibition of uptake of L-arginine-U-Cl4 into nuclear proteins by 5-bis (2-chloroethyl) aminouracil. H. Busch, S. M. Amer, W. L. Nyhan. 195
8237 Effects of atropine and carbachol on labeling of protein fractions of mouse pancreas in vitro. H. Busch, H. Allen, D. C. Anderson. 200
REGISTER OF ARTICLES

127:3 Nov 59

8238 Kinetics of penetration of drugs and other foreign compounds into cerebrospinal fluid and brain. S. Mayer, R. P. Maickel, B. B. Brodie. ------------------------------------------- 205

8239 Effects of several monoamine oxidase inhibitors on the cardiovascular actions of naturally occurring amines in the dog. L. I. Goldberg, A. Sjoerdsma. ------------------------------- 212

8240 The inotropic actions of quaternary ammonium compounds. W. C. Lee, F. E. Shideman. ------------------------------- 219

8241 The effects of coronary occlusion in dogs treated with reserpine and in dogs treated with phenoxybenzamine. H. M. Maling, V. H. Cohn, Jr., B. Highman. ----------------------------------------------- 229

8242 Pharmacologic studies on some compounds structurally related to the hemocholinium HC-3. F. N. Marshall, J. P. Long. ------------------------------- 236

8243 The pharmacology of 1-(1-phenylcyclohexyl) piperidine.HCl.G.Chen, C. R. Ensor, D. Russell, B. Bohner. ------------------------------- 241

127:4 Dec 59

8244 The physiological disposition of H3-epinephrine and its metabolite metanephrine. J. Axelrod, H. Weil-Malherbe, R. Tomchick. ------------------------------------------- 251

8245 Phosphorylase activity of heart muscle under various conditions affecting force of contraction. J. Belford, M. R. Feinleib. ---- 257

8246 The effect of acute and chronic administration of reserpine on the respiration of rat aorta. C. N. Gillis. ------------------------------- 265

8247 Studies concerning the presence of 5-hydroxytryptamine (serotonin) in the perfusate from the superior cervical ganglion. S. B. Gertner, M. K. Paasonen, N. J. Giarman. ---- 268

8248 Pharmacology of some stereoisomers of hydroxytropane derivatives of phenothiazine. D. W. Wylie. ------------------------------------------- 276

8249 Studies on behavior. V. Actions of 1-epinephrine and related compounds. R. J. Wurtman, M. M. Frank, W. H. Morse, P. B. Dews. -- 281

8250 Differential effects of general anesthetics on spontaneous electrical activity of neocortical and rhinencephalic brain systems of the dog. E. F. Domino, S. Ueki. ------------------------------- 288

8251 Observations on the pharmacological actions of the isomers of atropine. E. F. Domino, R. D. Hudson. ------------------------------------------- 305

8252 Differences between atropine-like and ganglionic blocking agents in their action on the mouse pupil. L. Gyermek. ------------------------------------------- 313

8253 Modification of maximal audiogenic and electroshock seizures in mice by psychopharmacologic drugs. G. B. Fink, E. A. Swinyard. - 318

NOTICE

Attention is directed to the current method (ACC) of using entry numbers opposite the unit terms and names comprising the Subject and Author sections of the Journal index. These entry numbers coincide with the appropriate accession numbers listed serially at the left of the titles in the Register of Articles. Their purpose is to condense and unify the three parts of the index, and to expedite its use.
