

		SUBJECT INDEX	ACA-AME
1959			
ACACIA GUM	(1)	coronary artery ligation	8241
aortic pressure	8209	dibenamine	8225
femoral arterial pressure	8209	dibozane	8225
heart contractile force	8209	dichloroepinephrine	8226
hypotensive reactions	8209	dichloroisoproterenol	8225
intravascular clumping	8209	8226	
intravenous injection	8209	dichloronorepinephrine	8226
ACETALDEHYDE	(2)	intestinal motility	8225
cocaine potentiation	8207	8226	
ganglionic blockade	8207	phenoxybenzamine	8225
hexamethonium influence	8207	phenoxybenzamine pretreatment	8241
norepinephrine infusion	8207	<u>alpha</u> receptors	8225
reserpine pretreatment	8207	<u>beta</u> receptors	8225
sympathomimetic activity	8207	respiration	8226
ACETANILID	(3)	ADRENERGIC RECEPTOR MECHANISM	
CNS penetration	8238	adrenergic agents	(12) 8226
N-ACETYL-4-AMINOANTIPYRINE	(4)	atropinized dogs	8226
CNS penetration	8238	blood pressure	8226
intracisternal administration	8238	canine ileum	8225
intravenous administration	8238	dichloroepinephrine	8226
ACETYLCHOLINE	(5)	dichloroisoproterenol	8226
cholinesterase inhibitors	8205	dichloronorepinephrine	8226
hemicholinium	8205	intestinal motility	8225
inhibitor action	8206	8226	
isolated kitten auricles	8206	pentobarbital anesthesia	8226
neuromuscular transmission	8205	<u>alpha</u> receptors	8225
reversed carboxy analogue	8205	8226	
ryanodine susceptibility	8206	<u>beta</u> receptors	8226
TEPP pretreatment	8205	8226	
ACETYLCHOLINESTERASE	(6)	ALDEHYDES	(13)
HC-3-analog inhibition	8242	action mechanism	8207
ACETYLTHIOCHOLINE	(7)	adrenal vein ligation	8207
choline antagonism	8205	cat spinal preparation	8207
hemicholinium	8205	catecholamine depletion	8207
neuromuscular transmission	8205	cocaine potentiation	8207
ADRENAL GLANDS	(8)	ganglionic blockade	8207
catecholamine depletion	8241	hexamethonium influence	8207
coronary artery ligation	8241	norepinephrine infusion	8207
reserpine pretreatment	8241	reserpine pretreatment	8207
ADRENALECTOMY	(9)	sympathomimetic activity	8207
anaphylactoid edema		ALKYLTRIMETHYLAMMONIUM	
inhibition	8229	COMPOUNDS	(14)
2-dimethylaminoethanol	8229	atropine pretreatment	8240
ADRENERGIC AGENTS	(10)	ganglionic stimulant activity	8240
adrenergic blocking agents	8226	inotropic actions	8240
inhibitor responses	8226	muscarinic activity	8240
intestinal inhibition	8225	AMBONESTYL	(15)
intestinal motility	8226	antifibrillatory activity	8224
<u>alpha</u> receptors	8225	hypothermic ventricular	
<u>beta</u> receptors	8225	fibrillation	8224
ADRENERGIC BLOCKING AGENTS	(11)	AMETHOPTERIN	(16)
blood pressure	8226	action mechanism	8221

SUBJECT INDEX

AME-ANT

VOL. 127

antifolic activity	8221	dog brain	8250
cell permeability	8221	neocortical system	8250
<u>N</u> 5-formyl-THFA utilization	8221	rhinencephalic system	8250
mammalian cell growth	8221	spontaneous EEG activity	8250
mammalian cell resistance	8221	ANESTHESIA, LOCAL	(26)
mouse fibroblasts	8221	cocaine comparison	8243
AMINES, ENDOGENOUS	(17)	1-(1-phenylcyclohexyl)	
cardiovascular system	8239	piperidine	8243
MAO inhibitors	8239	procaine comparison	8243
response variation	8239	ANESTHETICS, LOCAL	(27)
AMINO ACIDS	(18)	progressive hypothermia	8224
aminouracil-mustard		ventricular fibrillation	
inhibition	8236	incidence	8224
antimitotic agents	8235	ANILINE	(28)
<u>L</u> -arginine-U-C ¹⁴	8237	CNS penetration	8238
ascitic tumor cells	8235	ANOXIA	(29)
cell penetration	8235	contractile force	8245
intrapancreatic metabolism	8237	isolated rat auricle	8245
methionine-2-C ¹⁴	8235	phosphorylase <u>a</u> level	8245
nuclear-protein incorporation	8236	ANTAZOLINE	(30)
protein incorporation	8235	antifibrillatory activity	8224
8237		hypothermic ventricular	
spleen	8236	fibrillation	8224
Walker tumor	8236	ANTERGAN	(31)
whole mouse pancreas	8237	antifibrillatory activity	8224
4-AMINOANTIPYRINE	(19)	hypothermic ventricular	
CNS penetration	8238	fibrillation	8224
4-AMINOPYRAZOLO-(3,4d)		ANTIARRHYTHMIA AGENTS	(32)
PYRIMIDINE (4APP)	(20)	amotriphene	8223
phagocytic activity	8215	antifibrillatory potency	8224
RE system	8215	decelerator activity	8223
AMINOPYRINE	(21)	experimental auricular	
CNS penetration	8238	flutter	8223
AMOTRIPHENE	(22)	hypothermia	8224
antiaccelerator action	8223	ventricular fibrillation	8224
antiarrhythmic properties	8223	ANTICONVULSANTS	(33)
decelerator activity	8223	hydantoins	8230
ECG	8223	MAS latency	8253
experimental arrhythmia	8223	maximal audiogenic seizures	8253
isolated rabbit auricle	8223	maximal electroshock seizures	8253
<u>d</u>-AMPHETAMINE	(23)	MES latency	8253
human subjects	8210	metabolic fate	8230
performance facilitation	8210	mouse tests	8253
sleep deprivation	8210	neurotoxicity	8253
ANALGESICS	(24)	nirvanol derivatives	8230
aspirin	8213	1-(1-phenylcyclohexyl)	
carisoprodol	8213	piperidine	8243
muscle relaxants	8213	psychotropic agents	8253
ANESTHESIA, GENERAL	(25)	ANTIEMETIC AGENTS	(34)
clinical planes	8250	apomorphine-induced emesis	8212
clinical stages	8250	chlorpromazine	8212
differential effects	8250	triflupromazine	8212

SUBJECT INDEX

ANT-AZA

ANTIPILEPTIC DRUGS	(35)	inotropic effect	8204
N-alkyl nirvanol derivatives	8230	metabolic inhibitor activity	8203
metabolic fate	8230	oxygen consumption	8204
ANTIFIBRILLATORY AGENTS	(36)	positive inotropic action	8203
hypothermic ventricular fibrillation	8224	pyruvate oxidation	8204
relative potencies	8224	rat-ventricle strips	8203
ANTIHISTAMINICS	(37)	substrate requirements	8203
antiarrhythmia activity	8224	ARTERIES, CORONARY	(47)
antifibrillatory activity	8224	anterior-descending ligation	8241
hypothermic ventricular fibrillation	8224	phenoxybenzamine pretreatment	8241
ANTI-INFLAMMATORY AGENTS	(38)	reserpine pretreatment	8241
anaphylactoid edema	8229	ATROPINE	(48)
choline	8229	amino-acid utilization	8237
2-dimethylaminoethanol	8229	Cch pretreatment	8252
ethanolamine	8229	inotropic actions	8240
ANTIMALARIALS	(39)	intrapancratic metabolism	8237
antiarrhythmia activity	8224	muscarinic activity	8240
hypothermic ventricular fibrillation	8224	mydriatic effect	8252
ANTIMITOTIC AGENTS	(40)	quaternary ammonium compounds	8240
amino-acid incorporation	8235	ATROPINE, ISOMERS	(49)
colchicine	8235	blood pressure	8251
nitrogen mustard	8235	CNS effects	8251
oxidative phosphorylation	8235	EEG	8251
urethan	8235	heart rate	8251
ANTI-NEOPLASTIC AGENTS	(41)	d-hyoscyamine	8251
phagocytic activity	8215	l-hyoscyamine	8251
reticulo-endothelial system	8215	pharmacological actions	8251
ANTIPYRETICS	(42)	ATROPINE-LIKE AGENTS	(50)
aspirin	8213	Cch pretreatment	8252
carisoprodol	8213	mouse pupil	8252
vaccine-induced hyperthermia	8213	mydriatic effects	8252
ANTIPYRINE	(43)	AUDIOGENIC SEIZURES	(51)
CNS penetration	8238	anticonvulsants	8253
AORTA, ISOLATED	(44)	maximal-seizure components	8253
oxygen consumption	8246	mouse tests	8253
reserpine administration	8246	psychotropic agents	8253
<i>in vivo</i>	8246	seizure patterns	8253
L-ARGININE-U-¹⁴C	(45)	AUTONOMIC NERVOUS SYSTEM	(52)
aminouracil-mustard inhibition	8236	atropine	8213
cytoplasmic-protein incorporation	8236	blood pressure	8213
nuclear-protein incorporation	8236	carisoprodol	8213
spleen	8236	heart rate	8213
Walker tumor	8236	meprobamate	8213
ARSENATE, SODIUM	(46)	salivary secretion	8213
glucose metabolism	8203	smooth muscle	8213
glucose oxidation	8204	AVOIDANCE BEHAVIOR	(53)
heart muscle	8204	atropine isomers	8251

VOL. 127

AZIDE	(55)		BLOOD PRESSURE	(67)
glucose medium		8203	acetylcholine response	8212
inotropic action		8203	8213 8243	
rat-ventricle strips		8203	adrenergic agents	8226
AZOMETHONIUM (PENDIOMIDE)	(56)		adrenergic blocking agents	8226
blood pressure		8227	amotriphene	8223
cross-circulation		8227	atropine	8213
peripheral action		8227	atropine isomers	8251
			azomethonium	8227
			caffeine	8243
BARBITAL	(57)		carisoprodol	8213
CNS penetration		8238	carotid sinus pressor reflex	8213
BARBITURATES	(58)		carotid-occlusion response	8212
chlorpromazine comparison		8211	central sciatic stimulation	8243
"hangover" effects		8211	central vagus stimulation	8243
residual psychological			chlorisondamine	8227
effects		8211	chlorpromazine	8212
secobarbital		8211	cocaine potentiation	8207
BENACTYZINE	(59)		coronary artery ligation	8241
Cch pretreatment		8252	cross-circulation	8227
mydriatic effect		8252	depressor response	8209
BENZOQUINOLIZINES	(60)		8226	
reserpine-like effects		8219	DMPD response	8243
tetrabenazine		8219	endogenous amines	8239
BENZOYLCHOLINE	(61)		epinephrine response	8213
hemicholinium		8205	8223 8243	
neuromuscular transmission		8205	l-epinephrine response	8212
tetraethylpyrophosphate		8205	hexamethonium	8227
4-BENZYLAMINOPYRAZOLO-(3,4d)			8243	
PYRIMIDINE (4BAPP)	(62)		hexamethonium influence	8207
phagocytic activity		8215	histamine response	8212
RE system		8215	8243	
BETAMETHYLCHOLINE IODIDE	(63)		intravenous injection	8209
hemicholinium		8205	MAO inhibitors	8239
neuromuscular transmission		8205	mecamylamine	8227
BIOASSAY	(64)		meprobamate	8213
CNS drug specificity		8214	methacholine depressor	
drug classification		8214	response	8251
mouse intravenous technique		8214	nicotine response	8207
pentylene-tetrazol test		8214	norepinephrine response	8241
5-BIS (2-CHLOROETHYL)			PCP pretreatment	8243
AMINOURACIL	(65)		peripheral action	8227
L-arginine incorporation		8236	plasma substitutes	8209
inhibitor activity		8236	pressor response	8207
nuclear proteins		8236	8226 8243	
spleen		8236	reserpine pretreatment	8207
tumor-bearing rats		8236	8241	
Walker tumor		8236	sciatic nerve stimulation	8251
BLOOD	(66)		SY-28	8243
anti-neoplastic agents		8215	sympathomimetic aldehydes	8207
chromic phosphate colloid		8215	tachyphylaxis	8209
clearance rate		8215	tetraethylammonium	8227

SUBJECT INDEX

1959		BLO-CAT
triflupromazine	8212	inotropic actions 8245
vagal stimulation	8212	isolated guinea pig auricle 8245
8213		phosphorylase <u>a</u> levels 8245
vagotomized dogs	8223	ryanodine depression 8206
BODY FLUIDS	(68)	CARBACHOL (76)
fluorometric assay	8231	amino-acid utilization 8237
tryptamine content	8231	ganglionic blocking agents 8252
BRAIN	(69)	intrapancratic metabolism 8237
animal tissue	8232	mouse pupil 8252
chronic electrode implants	8250	parasympathetic effector
dog brain	8250	stimulation 8252
drug penetration	8238	postganglionic para-
EEG	8250	sympathetic blocking agents 8252
fluorometric assay	8233	pupillary size 8252
general anesthetics	8250	CARBON TETRACHLORIDE (77)
histamine distribution	8233	phagocytic activity 8215
intravenous administration	8238	reticulo-endothelial system 8215
MAO inhibitors	8232	CARDIAC GLYCOSIDES (78)
neocortical structures	8250	contractile force 8245
norepinephrine levels	8219	isolated heart muscle 8245
reserpine pretreatment	8219	phosphorylase activity 8245
rhinencephalic structures	8250	CARDIOVASCULAR SYSTEM (79)
segment distribution	8238	blood pressure 8239
serotonin levels	8219	8241
tetrabenazine levels	8219	cardiac arrhythmia 8241
tetrabenazine pretreatment	8219	cardiac-norepinephrine
tissue/plasma ratios	8238	depletion 8241
tryptamine formation	8232	coronary artery ligation 8241
tryptophan pretreatment	8232	endogenous amines 8239
BUFOTENINE	(70)	heart contractile force 8239
platelet uptake	8218	MAO inhibitors 8239
reserpine-treated guinea pigs	8218	myocardial infarction 8241
BUSULFAN	(71)	reserpine pretreatment 8241
phagocytic activity	8215	CARISOPRODOL (80)
RE system	8215	acute toxicity 8213
BUTANEPHRINE	(72)	analgesic effect 8213
blood pressure	8226	anticonvulsant activity 8213
dibozane	8226	autonomic nervous system 8213
dichloroisoproterenol	8226	central nervous system 8213
intestinal inhibition	8226	chronic toxicity 8213
n-BUTYL-SCOPOLAMINIUM BROMIDE		EEG 8213
Cch pretreatment	(73) 8252	EEG 8213
mydriatic effect	8252	EMG 8213

catechol-O-methyl transferase	8244	human subjects	8202
cell fractions	8216	iproniazid influence	8202
chronic morphine administration	8234	isolated auricle	8245
cofactor requirements	8216	isolated kitten auricles	8206
coronary artery ligation	8241	isolated rabbit auricle	8223
differential centrifugation	8216	<u>o</u> -methylation	8202
dihydrofolic acid reductase	8221	oxidative deamination	8202
drug inhibitors	8216	passive diffusion	8218
<u>H</u> ³ -epinephrine inactivation	8244	phosphorylase <u>a</u> levels	8245
		platelet uptake	8218
		reserpine pretreatment	8241
		reserpine-blocking action	8218
