The durations of action of thiopental and pentobarbital.
A. Goldstein, L. Aronow. 1

Some pharmacologic actions of beta-phenylisopropylhydrazine (PIH).
L. G. Eltherington, A. Horita. 7

Biochemical and pharmacological effects of the monoamine oxidase
inhibitors, iproniazid, 1-phenyl-2-hydrazinopropane (JB 516) and
1-phenyl-3-hydrazinobutane (JB 835). S. Spector, P. A. Shore,
B. B. Brodie. 15

Pharmacology of (2-[(octahydro-1-azocinyl)-ethyl]-guanidine
sulfate (SU-5864). R. A. Maxwell, A. J. Plummer, F. Schneider,
H. Povalski, A. I. Daniel. 22

Spectrum of action of muscarone and its derivatives. L. Gyermek,
K. R. Unna. 30

Pharmacological comparison of muscarine and muscarone with their
dehydro derivatives. L. Gyermek, K. R. Unna. 37

Disappearance of various drugs from the cerebrospinal fluid.
S. E. Mayer, R. P. Maickel, B. B. Brodie. 41

Nitrous oxide analgesia in relation to mental performance.
J. Parkhouse, J. R. Henrie, G. M. Duncan, H. P. Rome. 44

Steric configuration and the activity at the mammalian neuromuscular
junction of cyclic aminoalcohol derivatives.
F. G. Standaert, S. L. Friess. 55

Pharmacology of a series of new 2-substituted pyridine
derivatives with emphasis on their analgesic and interneuronal
blocking properties. T. B. O'Dell, L. R. Wilson, M. D. Napoli,
H. D. White, J. H. Mirsky. 65

Chlorpromazine tolerance and physical dependence. E. M. Boyd. ---

A comparison of three anticonvulsant testing methods.
C. L. Mitchell, H. H. Keasling. 79

The relation of drug-induced hypoglycemia to duodenal motility in
anesthetized dogs. R. D. Bunag, B. M. Rigor, L. G. Tan-Gatue,
W. R. Reotutar, R. Guevara. 85

Isolation of triethyllead ion from liver after inhalation of
tetraethyllead. C. D. Stevens, C. J. Feldhake, R. A. Kehoe. ---

Influence of acetylsalicylic acid and salicylamide on the
coagulation of blood. A. J. Quick, L. Clecsreri. 95

Methods for combining the results of two biological assays.
M. C. Sheps, E. A. Moore. ---

Studies on drug resistance in mammalian cells. II. 6-mercaptopurine resistance in mouse fibroblasts. S. Tomizawa, L. Aronow. -107

Active transport of some pyrimidines across the rat intestinal
epithelium. L. S. Schanker, D. J. Tocco. ---

The pharmacological activities of benzthiazide (3-benzylthio-
methyl-6-chloro-7-sulfamyl-1,2,4-benzothiadiazine-1,1-dioxide),
a nonmercurial diuretic. S. Y. P'an, A. Scriabine, D. E. McKersie,
W. M. McLamore. ---

8293-8310
128:3 Mar 60

8293  The acute effect of an organic mercurial on the rat kidney; a histochemical study. J. N. Bickers, E. H. Bresler, R. Weinberger. - 283
8294  Nikethamide, nicotinamide and some related compounds in anticholinesterase poisoning. P. Rosenberg, J. M. Coon. ------------ 289
8295  Mechanism of action of bivalent metal ions and of phenothiazine derivatives on serum cholinesterase. B. H. J. Hofstee. ------- 299
8297  The use of ion exchange resins in the treatment of phenobarbital intoxication in dogs. A. J. Pallotta, T. Koppanyi. ---------- 318

128:4 Apr 60

8298  The metabolism of acetyl digitoxin in the rat. J. F. Martin, S. E. Wright. --------------------------------------------- 329
8299  The metabolic fate of zoxazolamine (flexin) in man. A. H. Conney, N. Trousof, J. J. Burns. ------------------------ 333
8300  Physiological disposition and metabolic fate of chlorzoxazone (paraflex) in man. A. H. Conney, J. J. Burns. ------------ 340
8301  Xanthurenic acid excretion and possible pyridoxine deficiency produced by isonicotinic acid hydrazide and other convulsant hydrazides. H. L. Williams, R. G. Wiegand. ------------------- 344
8302  The inotropic and chronotropic actions of acetylcholine on rabbit atria suspended in sodium deficient media. W. J. Tibs, D. A. Berman. --------------------------------------------- 349
8303  The rate-increasing effect of epinephrine and norepinephrine and its modification by experimental time in the isolated heart of normal and reserpine-pretreated dogs. D. R. Waud, O. Krayer. - 352
8304  4-Substituted indoles as antagonists to 5-hydroxytryptamine and to the veratrine response. L. S. Harris, F. C. Uhle. -------- 358
8305  Resorcinol isomers and pentylenetetrazol; their centrally mediated sympathetic circulatory effects. J. Gatgounis, R. P. Walton. --------------------------------------------- 363
8306  Oxytocin-induced "cramping" in the rat. W. J. Murray, J. W. Miller. --------------------------------------------- 372
8307  Potency differences of morphine-type agents by radiant heat and "cramping" analgesic assays providing evidence for a potentiating substance from the posterior pituitary gland. W. J. Murray, J. W. Miller. --------------------------------------------- 380
8309  Electroencephalographic analysis of the effect of 2-dimethylaminoethanol, choline and atropine on the rabbit brain. L. Goldstein. --------------------------------------------- 392
8310  Effects of chlorpromazine, meprobamate, pentobarbital and morphine on self-stimulation. J. Olds, R. P. Travis. ---------- 397

8312 A sequential probability ratio method for detecting compounds with diuretic activity in rats. J. R. Cummings, J. D. Haynes, L. M. Lipchuck, M. A. Ronsberg. 414

8313 A method for the quantitative comparison of anticancer agents with special reference to a series of folic acid antagonists. A. E. Sloboda. 419

NOTICE
to Subscribers and Readers

Attention is directed to the current method (ACC) of using entry numbers opposite the unit terms and names comprising the Subject and Author sections of the Journal index. These entry numbers coincide with the appropriate accession numbers listed serially at the left of the titles in the Register of Articles. Their purpose is to condense and unify the three parts of the index, and to expedite its use.

The possibility has been considered that additional copies of the indexes for this and future volumes, bound separately, might be of value to libraries and to other subscribers and readers for use in reference work. Such a separate distribution would be justified only if the sale of a significant number of copies could be assured. It is suggested that anyone interested in such separate additional indexes write a letter to the Publisher who can then determine the feasibility of separate distribution.
