8664-8683

8664	Monoamine oxidase inhibition by isocarboxazid. M. A. Schwartz.	1
8665	A sensitive assay of monoamine oxidase activity <u>in vitro</u> : Application to heart and sympathetic ganglia. W. Lovenberg, R. J. Levine, A. Sjoerdsma.-----	7
8666	The effects of reserpine on uptake of epinephrine in brain and certain areas outside the blood-brain barrier. C. W. M. Wilson, A. W. Murray, E. Titus.-----	11
8667	The effect of a number of central depressant drugs upon brain 5-hydroxytryptamine levels in the rat. D. D. Bonnycastle, M. F. Bonnycastle, E. G. Anderson.-----	17
8668	Central inhibition of vasomotor activity by guanethidine. Y. Kaneko, J. W. McCubbin, I. H. Page.-----	21
8669	Some pharmacological effects of two tetrahydrocannabinols. R. Dagirmanjian, E. S. Boyd.-----	25
8670	The sensitivity of the isolated rabbit ileum to sympathomi- metic amines following reserpine pretreatment. W. W. Flem- ing, J. L. Schmidt.-----	34
8671	The action of acetylcholine on the nictitating membrane of the spinal cat. U. Trendelenburg.-----	39
8672	The actions of several ganglion blocking agents on the post- ganglionic discharge induced by diisopropyl phosphorofluor- idate (DFP) in sympathetic ganglia. R. L. Volle.-----	45
8673	The responses to ganglionic stimulating and blocking drugs of cell groups within a sympathetic ganglion. R. L. Volle.---	54
8674	Sites of action of the autonomic effects of 1,4-dipyrrolidino- 2-butyne, tremorine. A. H. Friedman, C. M. Smith.-----	62
8675	Studies on the inotropic action of aldosterone on isolated cardiac tissue preparations; including the effects of pH, ouabain and SC-8109. R. D. Tanz.-----	71
8676	The cardiovascular actions of retama. M. J. Dunn, J. G. Hil- ton.-----	79
8677	The release of posterior pituitary hormone in the rat by nico- tine and lobeline. R. S. Grewal, F. C. Lu, M. G. Allmark.-	84
8678	Studies on cellular adaptation to morphine and its reversal by nalorphine in cerebral cortical slices of rats. A. E. Takemori.-----	89
8679	Effect of serotonin on glycolysis in homogenates from the liver fluke <u>fasciola hepatica</u> . T. E. Mansour.-----	94
8680	Inhibition of mercurial diuresis by nondiuretic mercurials. T. B. Miller, A. E. Farah.-----	102
8681	Effects of mercurial compounds on renal perfusion pressure. R. Vargas, E. J. Cafruny.-----	112
8682	Physicochemical properties of drugs that control absorption rate after subcutaneous implantation. B. E. Ballard, E. Nelson.-----	120
8683	The N-demethylation of butynamine. R. E. McMahon, N. R. Easton.-----	128

8684-8702

135:2 Feb 62

	Announcement concerning page charges to authors.-----	135
8684	Direct effects of pentylenetetrazol on cardiac tissue. B. G. Covino, H. W. Gillen.-----	136
8685	The effect of ouabain on the frequency-force relation and on post-stimulation potentiation in isolated atrial and ventricular muscle. R. S. Tuttle, A. Farah.-----	142
8686	The mechanism of serotonin and tryptamine induced vasodpression in the chicken. R. D. Bunag, E. J. Walaszek.-----	151
8687	Influence of bretylium on responses of the heart-lung preparation: DMPP and partial occlusion of the pulmonary artery. R. Castro de la Mata, P. Aramendia, J. Martinez L. de Letona, D. M. Aviado.-----	156
8688	Action of guanethidine and reserpine upon the isolated mammalian heart. O. Kraymer, M. H. Alper, M. K. Paasonen.-----	164
8689	Spinal cord site of action of resorcinol isomers that produce sympathetic circulatory stimulation. J. Gatgounis, R. P. Walton.-----	174
8690	Catecholamine content of the cat nictitating membrane following procedures sensitizing it to norepinephrine. S. M. Kirpekar, P. Cervoni, R. F. Furchgott.-----	180
8691	The role of the autonomic nervous system in the regulation of heart phosphorylase in the open-chest rat. M. E. Hess, J. Shanfeld, N. Haugaard.-----	191
8692	Reversal of sympathomimetic bronchodilation by dichloroisoproterenol. R. Castro de la Mata, M. Penna, D. M. Aviado.-----	197
8693	The physiological disposition of H ³ -dichloroisoproterenol. S. E. Mayer.-----	204
8694	Effect of temperature on toxicity and distribution of pentobarbital and barbital in rats and dogs. I. Setnikar, O. Temelcou.-----	213
8695	Studies on the mechanism of meprobamate tolerance in the rat. B. M. Phillips, T. S. Miya, G. K. W. Yim.-----	223
8696	The influence of pentobarbital and ether narcosis on the brain concentration of various esters with acetylcholine activity. E. A. Hosein, R. Ara.-----	230
8697	Actions of cyclopropane on carotid sinus baroreceptors and carotid body chemoreceptors. H. L. Price, J. Widdicombe.-----	233
8698	Strain difference in response of mice to <u>d</u> -amphetamine. L. C. Weaver, T. L. Kerley.-----	240
8699	The effect of acute ethanol intoxication on chloroform-induced liver damage. S. D. Kutob, G. L. Plaa.-----	245
8700	Cross-cellular adaptation to methadone and meperidine in cerebral cortical slices from morphinized rats. A. E. Takemori.-----	252
8701	The effect of heparin on the arginine (BAEE) esterase activity of blood. M. H. Floch, V. W. Groisser.-----	256
8702	Effects of drugs on gastric hemorrhages produced by the administration of polymyxin B. O. M. Moreno, D. A. Brodie.-----	259

8703-8720

	Announcement concerning page charges to authors.-----	265
8703	Passage of lipid-insoluble substances from cerebrospinal fluid to blood. L. D. Prockop, L. S. Schanker, B. B. Brodie.-	266
8704	A study on the hypnotic activity of chloral hydrate. F. J. Mackay, J. R. Cooper.-----	271
8705	Some effects of sodium <u>gamma</u> -hydroxybutyrate on the central nervous system. A. B. Drakontides, J. A. Schneider, W. H. Funderburk.-----	275
8706	Tolerance to morphine. I. Effects on catecholamines in the brain and adrenal glands. E. W. Maynert, G. I. Klingman.--	285
8707	Tolerance to morphine. II. Lack of effects on brain 5-hydroxytryptamine and <u>gamma</u> -aminobutyric acid. E. W. Maynert, G. I. Klingman, H. K. Kaji.-----	296
8708	Tolerance to morphine. III. Effects on catecholamines in the heart, intestine and spleen. G. I. Klingman, E. W. Maynert.-----	300
8709	Studies on the metabolism of (—)-cotinine in the human. E. R. Bowman, H. McKennis, Jr.-----	306
8710	A fluorimetric method for the determination of a major spiro-lactone (aldactone) metabolite in human plasma. N. Gochman, C. L. Gantt.-----	312
8711	The hyperglycemic activity of 2,2'-bipyridine. A. D. Kenny, E. R. Morey.-----	317
8712	The effect of nerve stimulation and of drugs on nucleic acid fragments in N,N-dimethylformamide extracts of dog hearts. J. S. Robb.-----	323
8713	The relationship between distribution and pharmacological activity of hexamethonium-N-methyl C ¹⁴ . R. J. McIsaac.-----	335
8714	Blockade of the ganglionic stimulant action of 5-hydroxytryptamine. L. Gyermek, E. Bindler.-----	344
8715	Dilator and constrictor effects of acetylcholine on isolated rabbit aortic chains. R. W. Jelliffe.-----	349
8716	Circulatory and sympathoadrenal responses to cyclopropane in the dog. S. Deutsch, H. W. Linde, H. L. Price.-----	354
8717	The cardiac effects of certain pyridine derivatives and their corresponding N-oxides. H. G. Schoepke, F. E. Shideman.---	358
8718	The effect of reserpine and mecamylamine on experimental atheromatosis in the normotensive and hypertensive rat. T. H. F. Smith, G. V. Rossi.-----	367
8719	The effect of ryanodine on relaxation of frog sartorius. M. W. Seraydarian, D. J. Jenden, B. C. Abbott.-----	374
8720	Relations between pharmacologic activity and molecular structure of certain saluretic sulfonamides. J. D. Crawford, L. Frost, M. Welsh, M. L. Terry.-----	382
INDEX	(8664-8720) Volume 135. January-March 1962.-----	395
