

INDEX

Volume 140, April-June, 1963

- Aceves, J. and Machne, X., 138
 Adenine nucleotides, effect of drugs on brain levels, 111
 Adler, T. K., 155
 Adrenal glands, release of epinephrine from medullary particles, 93
 Adrenocorticotrophic hormone, antagonism of lipolytic action *in vitro*, 287
gamma-Aminobutyric acid (GABA), effects of intraventricular injection, 385
 comparison with *gamma*-aminobutyrylcholine and physostigmine, 385
 action of hydrazines on metabolism in brain, 133
gamma-Aminobutyrylcholine (GABCh), effects of intraventricular injection, 385
 comparison with *gamma*-aminobutyric acid and physostigmine, 385
 Ammann, A., *see* Anderson, E. G., 179
 Amphetamine, anorexigenic activity, 367
 depletion of cardiac H³-norepinephrine by, 199
 effects after guanethidine, 317
 impairment of behavioral thermoregulation by, 1
 Anderson, E. G. and Ammann, A., 179
 Anesthetics, depression of spinal synaptic potentials, 396
 Anorexigenic drugs, 367
 Artery strips, effect of bretylium, piperoxan and reserpine on response to electrical stimulation, 52
 effect of reserpine on catecholamine content, 52
 Ashmore, J., *see* Love, W. C., 287
 Atropine, antagonism of polypeptide-induced intestinal inhibition, 356
 effect on ganglia, 183
 Audiogenic seizures, compared with drug and electroshock seizures, 375
 Axelrod, J., *see* Potter, L. T., 199

 B₆ vitamins and hydrazine effects on brain metabolism, 133
 Bach-y-Rita, P., *see* Hance, A. J., 385
 Barbiturates, depression of spinal synaptic potentials, 396
 Benzothiadiazines (Ex 4877), inhibitor of chloruretic effect of chlorothiazide, 125
 Benzylhydrazines, inhibition of dopamine β -oxidase, 224
 Benzylxyamines, inhibition of dopamine β -oxidase, 224
 Berde, B., *see* Stürmer, E., 349
 Beres, J. A., *see* Way, J. L., 117

 Berger, L., *see* Dayton, P. G., 278
 Bevan, J. A., 193
 Bhagat, B. and Shideman, F. E., 317
 Blood pressure, hypotensive effect of diazoxide, 46
 Boyle, W. E., Jr., *see* Shuster, L., 149
 Bradykinin, compared with eledoisin, 349
 effect on intestinal motility, 356
 Brain, effect of drugs on adenine nucleotides, 111
 reduction in serotonin levels by medial forebrain bundle lesions, 103
 tyramine concentration, 229
 Braunwald, E., *see* Morrow, D. H., 236, 324
 Bretylium, effect on cardiac catecholamine depleting actions of drugs, 199
 effect on response of artery strips to electrical stimulation, 52
 Brodey, J. F., Steiner, W. G. and Himwich, H. E., 8
 Brody, T. M., *see* Hornbrook, K. R., 295

 Cafruny, E. J., *see* Ross, C. R., 125
 Calcium, effect on dorsal root ganglion cells of frog, 138
 interaction with local anesthetics, 138
 Cardiac arrhythmias, induced by intracoronary artery injections of isoproterenol, 67
 influence of arterial blood pressure on, 67
 influence of type of anesthesia on, 67
 Cardiac glycosides, effect on electrical and contractile properties of heart, 329
 effects on heart related to catecholamine stores, 236
 effects on heart related to innervation, 236
 influence of thyroid state on cardiac effects, 324
 Cardiac H³-norepinephrine, antagonism of depletion, 199
 depletion by sympathomimetic amines, 199
 Cardiovascular effects of dopamine, 60
 Carr, L., *see* Love, W. C., 287
 Castellion, A. W., *see* Swinyard, E. A., 375
 Catecholamines, content in heart related to action of ouabain, 236
 depletion of heart, 308
 effect of guanethidine on cardiac stores, 317
 effect on heart and muscle glycogenolysis, 295
 Catechol-O-methyl transferase, metabolism of norepinephrine by, 207
 Chen, W., *see* Dayton, P. G., 278
 Chidsey, C. A. and Harrison, D. C., 217
 4 - (*m* - Chlorophenylcarbamoxyloxy) - 2 - butynyl-trimethylammonium (McN-A-343), ganglion stimulation by, 183

- blockade of induced ganglion stimulation by atropine, 183
- Chlorothiazide, blockade of chloruretic effect by Ex 4877, 125
- Chlorphentermine, effect on glucose and fatty acids, 85
effect on tissue norepinephrine and serotonin, 85
fate, 85
interaction with reserpine, 85
- Chlorpromazine, effect on epinephrine-release from adrenal medullary granules, 93
impairment of behavioral thermoregulation by, 1
- Cocaine, effect on cardiac catecholamine depleting actions of drugs, 199
effect on ganglia, 183
- Codeine, comparison with morphine and norcodeine, 155
effects on intraventricular injection, 155
metabolism of, 155
- Convulsions produced by hydrazines and B₆ vitamins, 133
- Cotinine, metabolite of nicotine, 269
- Creveling, C. R., *see* Nikodijevic, B., 224
- Dayton, P. G., Yü, T. F., Chen, W., Berger, L., West, L. A. and Gutman, A. B., 278
- Demethylcotinine, metabolite of nicotine, 269
- Diazoxide, cardiovascular effects of, 46
compared with sodium nitrite, 46
- Dichloroisoproterenol (DCI), adrenergic blocking effect on sinoatrial node, 73
antagonism of cholinergic effects on sinoatrial node, 73
antagonism of catecholamine-induced glycolysis in heart, 295
comparison with analogues, 287
effect on lipolysis *in vitro*, 287
- Dichlorophenyl - 2 - t - butylaminoethanol (DCB), effect on lipolysis *in vitro*, 287
comparison with DCI, 287
- Diethylether, depression of spinal synaptic potentials, 396
effect on spinal monosynaptic reflex, 19
- Diethylpropion, anorexigenic activity, 367
- Digitalis, *see* cardiac glycosides, 324
- Dihydromorphine, development of tolerance in mice, 149
- Diphenhydramine, antagonism of polypeptide-induced intestinal inhibition, 356
antagonism of tryptamine effects in chicken, 243
- Diuretics, chlorothiazide, 249
hydrochlorothiazide, 249
selective blockade of chloruretic effect of benzothiadiazines by Ex 4877, 125
trichlormethiazide, 249
- Dopamine, cardiovascular effects, 60
reflex vasodepressor effect of, 60
- Dopamine β -oxidase, inhibition by benzyloxyamines and benzylhydrazines, 224
- Dresel, P. E., Hart, M. C. and Strömlad, B. C. R., 67
- Dubnick, B., Leeson, G. A., Leverett, R., Morgan, D. F. and Phillips, G. E., 85
- Eakins, K. E., 79
- Eble, J. N., 243
- Electroshock, reduction of seizure threshold by pilocarpine, 162
seizures compared with drug and audiogenic seizures, 375
seizures in two strains of mice, 375
- Eledoisin, compared with bradykinin, 349
- End-plate potentials, action of acetylcholine, *d*-tubocurarine and phenols on, 41
- Epinephrine, effect on heart and muscle glycolysis, 295
effect on intraocular pressure, 79
spontaneous and drug-induced release from adrenal gland particles, 93
- Esplin, D. W., *see* Zablocka, B., 162
- Ether, *see* diethylether, 396
- Eye, effect of sympathomimetic drugs on intraocular pressure, 79
- Fatty acids, plasma, effect of chlorphentermine, 85
- Fedor, E. J., *see* Margolin, S., 170
- Feeding, inhibition by drugs, 367
- Fink, G. B., *see* Swinyard, E. A., 375
- Free fatty acids, release from *in vitro* fat, 287
inhibition of activated release by DCI, 287
- Fuhrman, F. A., *see* Kao, C. Y., 31
- GABA—*see* gamma-aminobutyric acid, 133
- Gaffney, T. E., *see* Morrow, D. H., 236, 324
- Ganglion, blockade by tetraethylammonium chloride, 193
isolated innervated pulmonary artery preparation, 193
stimulation by 4-(*m*-chlorophenylcarbamoyloxy)-2-butynyltrimethylammonium chloride (MeN-A-343), 183
- Gill, M., *see* Somjen, G. G., 19
- Gillis, C. N., *see* Yates, C. M., 52
- Glucagon, antagonism of lipolytic action *in vitro*, 287
- Glucose, blood, effect of chlorphentermine, 85
- Goldberg, L. I., *see* McDonald, R. H., Jr., 60
- Goodman, L. S., *see* Swinyard, E. A., 375
- Gordon, E. K., *see* Kopin, I. J., 207
- Guanethidine, action on catecholamine stores, 317
depletion of cardiac H³-norepinephrine by, 199
depletion of heart norepinephrine, 308
- Gutman, A. B., *see* Dayton, P. G., 278
- Halmagyi, D. F. J., Starzecki, B. and Horner, G. J., 339

- Hance, A. J., Winters, W. D., Bach-y-Rita, P. and Killam, K. F., 385
- Hannam, R. V., *see* Shuster, L., 149
- Harrison, D. C., *see* Chidsey, C. A., 217
- Hart, M. C., *see* Dresel, P. E., 67
- Harvey, J. A., Heller, A. and Moore, R. Y., 103
- Hausler, L., *see* Rubin, A. A., 46
- Heart, depletion of norepinephrine by 6-hydroxy-dopamine and other compounds, 308
- effect of ouabain on, 236
- effect of strophanthin on electrical and contractile properties, 329
- glycogen and phosphorylase *a*, 295
- influence of thyroid state on action of cardiac glycosides, 324
- phosphorylase *a* and catecholamine content, 295
- rate of depletion of norepinephrine, 308
- Heller, A., *see* Harvey, J. A., 103
- Hexamethonium, effect on ganglia, 183
- Himwich, H. E., *see* Brodey, J. F., 8
- Hornbrook, K. R. and Brody, T. M., 295
- Horner, G. J., *see* Halmagyi, D. F. J., 339
- Hydrazines, action on *gamma*-aminobutyric acid metabolism in brain, 133
- 4-Hydroxy- α -methyl tryptamine, alerting effect on electroencephalogram, 8
- Indole amines, 4-hydroxy- α -methyl tryptamine, 8
- 4-methyl- α -methyl tryptamine, 8
- psilocin, 8
- psilocybin, 8
- sites of action of alerting effect on electroencephalogram of rabbits, 8
- Interneuronal arcs, action of mebutamate, 170
- Isoproterenol, cardiac arrhythmias from intracoronary artery injection of, 67
- effect on heart and muscle glycogenolysis, 295
- effect on intraocular pressure, 79
- James, T. N. and Nadeau, R. A., 73
- Kao, C. Y. and Fuhrman, F. A., 31
- Kassebaum, D. G., 329
- Kaul, C. L. and Lewis, J. J., 111
- Kelley, N. M., *see* Roszkowski, A. P., 367
- Killam, K. F., *see* Hance, A. J., 385
- Kinins, comparison of eledoisin and bradykinin, 349
- Kintzios, J. A., *see* Papadopoulos, N. M., 269
- Kopin, I. J. and Gordon, E. K., 207
- Laties, V. G., *see* Weiss, B., 1
- Leeson, G. A., *see* Dubnick, B., 85
- Leverett, R., *see* Dubnick, B., 85
- Levy, B., 356
- Lewis, J. J., *see* Kaul, C. L., 111
- Lidocaine, *see* local anesthetics
- Lipoid solubility of tetracyclines, 258
- Lipolysis, *in vitro*, inhibited by DCI, 287
- Liver, metabolism of 2-PAM, 117
- Local anesthetics, effect on dorsal root ganglion cells of frog, 138
- interaction with calcium, 138
- procaine, 138
- Love, W. C., Carr, L. and Ashmore, J., 287
- Lovenberg, W., *see* Spector, S., 229
- Lung, effect of pyrogallol on dynamics, 339
- McDonald, R. H., Jr. and Goldberg, L. I., 60
- Machne, X., *see* Aceves, J., 138
- Maren, T. H., *see* Taylor, R. M., 249
- Margolin, S., Plekss, O. J. and Fedor, E. J., 170
- Masterson, P. B., *see* Way, J. L., 117
- Mebutamate, effect on spinal vasomotor tracts, 170
- hemodynamic actions, 170
- Medina, M. A., 133
- Melmon, K., *see* Spector, S., 229
- Metabolism of nicotine, 269
- Metaraminol, depletion of heart norepinephrine, 308
- Methamphetamine, anorexigenic activity, 367
- 1-Methyl-2-cyanopyridinium ion, metabolite of 2-PAM, 117
- 1-Methyl-2-formyl pyridinium iodide oxime, metabolism in perfused rat liver, 117
- α -Methyl-*meta*-tyrosine, depletion of cardiac H³-norepinephrine by, 199
- 4-Methyl- α -methyl tryptamine, alerting effect on electroencephalogram, 8
- Methylphenidate, anorexigenic activity, 367
- Methysergide, antagonism of tryptamine effects in chicken, 243
- Monoamine oxidase inhibitors, block of release of cardiac H³-norepinephrine by, 199
- interaction with chlorphentermine, 85
- on neuromuscular transmission, 179
- potentiation of tryptamine effect in chicken, 243
- Monoamine oxidase, metabolism of norepinephrine by, 207
- Moore, R. Y., *see* Harvey, J. A., 103
- Morgan, D. F., *see* Dubnick, B., 85
- Morphine, comparison with codeine and norcodeine, 155
- effect on ganglia, 183
- effects on intraventricular injection, 155
- Morrow, D. H., Gaffney, T. E. and Braunwald, E., 236, 324
- Murayama, S. and Unna, K. R., 183
- Muscle, skeletal, glycogen and phosphorylase, 295
- Nadeau, R. A., *see* James, T. N., 73
- Nalorphine, antagonism of morphine, 155
- lack of antagonism of codeine, 155
- Neuromuscular junction, action of phenolic substances on, 41
- effect of monoamine oxidase inhibitors, 179

- Neurones, effects of calcium and local anesthetics on dorsal root ganglia of frog, 138
- Neurotoxin, tarichatoxin, 31
- Nicotine, metabolism of, 269
- Nikodijevic, B., Creveling, C. R. and Udenfriend, S., 224
- Nonomura, Y., *see* Otsuka, M., 41
- Norcodeine, comparison with codeine and morphine, 155
- effects in intraventricular injection, 155
- Norepinephrine, depletion of by reserpine, guanethidine and α -methyl dopa, 207
- depletion of heart by 6-hydroxydopamine and other compounds, 308
- distribution of exogenous, 217
- effect of dopamine β -oxidase inhibitors on level, 224
- effect on heart and muscle glycogenolysis, 295
- effect on intraocular pressure, 79
- metabolism of, 207
- rate of repletion in heart, 308
- release from heart, 217
- release by tyramine, DMPP and acetylcholine, 207
- Nornicotine, metabolite of nicotine, 269
- Otsuka, M. and Nonomura, Y., 41
- Ouabain, effect on electrical and contractile properties of heart, 329
- effects on heart related to catecholamine stores, 236
- effects on heart related to innervation, 236
- see* cardiac glycosides, 324
- Oxazolazines, anorexigenic activity, 367
- Oxytocin, inhibition of intestinal motility, 356
- PAM (1-methyl-2-formylpyridinium iodide oxime) metabolism in perfused rat liver, 117
- Papadopoulos, N. M. and Kintzios, J. A., 269
- Pentobarbital, effect on behavioral thermoregulation, 1
- Pentylentetrazol, compared with electroshock and audiogenic seizures, 375
- effect of pilocarpine on convulsant threshold, 162
- seizures in two strains of mice, 375
- Peptides, comparison of eledoisin and bradykinin, 349
- Phendimetrazine, anorexigenic activity, 367
- Phenmetrazine, anorexigenic activity, 367
- Phenols, effect on end-plate potentials, 41
- Phenothiazines, effect on epinephrine-release from adrenal medullary granules, 93
- Phenoxybenzamine, influence on muscle and heart glycogenolysis, 295
- Phenylisopropylhydrazine on neuromuscular transmission, 179
- Phillips, G. E., *see* Dubnick, B., 85
- Phosphorylase, activation and glycogen content on muscle, 295
- activation by catecholamines, 295
- Physostigmine, effects of intraventricular injection, 385
- comparison with GABA and GABA_B, 385
- Pilocarpine, anticonvulsant effect on electroshock reduction of convulsant threshold for, 162
- pentylentetrazol and strychnine, 162
- Piperoxan, effect on response of artery strips to electrical stimulation, 52
- Plekss, O. J., *see* Margolin, S., 170
- Polypeptides, effect on intestinal motility, 356
- Porter, C. C., Totaro, J. A. and Stone, C. A., 308
- Posner, H. S., *see* Weil-Malherbe, H., 93
- Potter, L. T. and Axelrod, J., 199
- Probenecid, physiological disposition and renal clearance, 278
- Procaine, *see* local anesthetics
- Psilocin, alerting effect on electroencephalogram, 8
- Psilocybin, alerting effect on electroencephalogram, 8
- Pyridoxal, pyridoxal phosphate and pyridoxine on brain metabolism and convulsions, 133
- Pyridylacetic acid, metabolite of nicotine, 269
- Pyrogallol, effect on lung dynamics, 339
- Renal clearance of probenecid, 278
- Reserpine, depletion of cardiac H³-norepinephrine by, 199
- depletion of heart norepinephrine, 308
- effect of related compounds on brain adenine nucleotides, 111
- effect on brain adenine nucleotides, 111
- effect on catecholamines of artery strip, 52
- effect on epinephrine-release from adrenal medullary granules, 93
- effect on response of artery strips to electrical stimulation, 52
- Ross, C. R. and Cafruny, E. J., 125
