

## INDEX

Volume 142, October-December, 1963

- Acetylcholine, action on intestinal vasculature, 185  
 effect on neuromuscular transmission, 21  
 influence of hemicholinium and vagus stimulation on content in rabbit auricles, 24  
 release at the neuromuscular junction, 200
- Acetylsalicylic acid, *see* aspirin, 1
- Adipose tissue, metabolism influenced by isoproterenol and a blocking drug, 137
- Adrenal medulla, content of catecholamines and ATP after reserpine, 71
- Adrenergic blocking drugs, effect on spleen, 99
- Adrenergic-cholinergic interaction on atria, 31
- Adrenergic receptors, inactivation of transmitter, 59
- Aggregation, effect on actions of amphetamine in mice, 6
- Alcantara, G. A., *see* Rogers, L. A., 242
- Alloxan diabetes, effect on drug metabolism, 312
- Amphetamine, comparison of *d* and *l* forms, 6  
 effect in isolated and aggregated mice, 6  
 toxicity and catecholamine releasing action, 6  
 influence of other drugs on CNS action, 343
- 6-Aminodopamine, reserpine-like actions, 147
- p*-Aminosalicylate, inhibition of microsome drug metabolism, 242
- Ashmore, J., *see* Love, W. C., 137
- Aspirin, effect on edema and hyperesthesia in experimental inflammation, 1
- ATP and catecholamines, content of adrenal medulla after reserpine, 71
- Atria, isolated, innervated, effects of drugs, 31
- Automaticity, effect of drugs on auricles, 171
- Axelrod, J., *see* Potter, L. T., 291, 299
- Baum, T. and Bennett, D. R., 83
- Beckett, S. B., *see* Ellis, S., 318
- Bennett, D. R., *see* Baum, T., 83
- Bickerton, R. K., 99
- Bielecki, K., *see* Lewartowski, B., 24
- Blood pressure, effect of oxytocin on, 206
- Boatman, D. L. and Brody, M. J., 185
- Borison, H. L., *see* Clark, W. G., 237
- Bradykinin hypotension, blocked by carboxypeptidase, 327
- Brain, distribution of H<sup>3</sup>-nalorphine, 248
- Brody, M. J., *see* Boatman, D. L., 185
- t*-Butylamine, vasodilator effect and sympathetic tone, 83
- Carboxypeptidase, block of bradykinin and kallidin action, 327
- Cardiac glycosides, dihydro-ouabain, 215  
 distribution and excretion of tritiated ouabain and dihydro-ouabain, 223
- Carr, L., *see* Love, W. C., 137
- Cassaine, comparison with dihydro-ouabain, 215  
 cardiovascular actions, 215
- Castles, T. R. and Williamson, H. E., 231
- Catecholamines and ATP, content of adrenal medulla after reserpine, 71
- Catecholamines, depleting effect of *d*- and *l*-amphetamine in isolated and aggregated mice, 6  
 effect of dopamine analogs on tissue levels, 147  
 effect on nictitating membrane, 13  
 effect on spleen, 99  
 induction of automaticity in auricles, 171  
 influence on adipose tissue metabolism, 137  
 output from spleen and adrenal medulla, 59  
 subcellular localization, 291
- Central nervous system, distribution of H<sup>3</sup>-nalorphine, 248  
 stimulation by amphetamine and other drugs, 343
- Cervoni, P., *see* Kirpekar, S. M., 59, 71
- Chavin, W., 275
- Chlorbenzoxamine, antiulcer activity, 358
- Chlorothiazide, effect on uric acid excretion in the chicken, 231
- Chlortetracycline, distribution and metabolism, 122
- Cholesterol, blood level, depression by 22,25-diazacholesterol (SC-11952), 132
- Cholinergic-adrenergic interaction on atria, 31
- Ciani, S. and Edwards, C., 21
- Clafin, E. F., *see* White, L. P., 265
- Clark, W. G. and Borison, H. L., 237
- Cocaine, depression of effect of tyramine, 39  
 effect on catecholamine output from spleen and adrenal medulla, 59  
 potentiation of effect of norepinephrine, 39
- Cook, D. L., *see* Ranney, R. E., 132
- Coronary arteries, obstructed, effect of di-pyridamole on retrograde pressure, 93
- Coronary blood flow, effect of oxytocin on, 206
- Counsell, R. E., *see* Ranney, R. E., 132
- Couri, D., *see* Kirpekar, S. M., 71
- Demethylchlortetracycline, distribution and metabolism, 122
- Desmethylimipramine, potentiation of amine effect on nictitating membrane, 13
- Diabetes, effect on drug metabolism, 312

- 4,7-Diamino-N-(2-morpholinoethyl)-2-phenyl-6-pteridinecarboxamide, 111  
 W-3654, diuretic properties, 111
- 22,25-Diazacholesterol dihydrochloride (SC-11952), 132  
 hypocholesterolemic effect, 132
- Dibozane, effect on rat uterus, 178
- Dichloroisoproterenol, effect on automaticity in auricles, 171  
 effect on nictitating membrane, 163  
 effect on rat uterus, 178
- Dihydro-ouabain, comparison with cassaine, 215  
 distribution and excretion in rats and sheep, 223
- 3,4-Dihydroxyphenethylamine, effect on norepinephrine synthesis and release, 157
- Dipyridamole, effect on retrograde pressure in obstructed coronary arteries, 93
- DiStefano, V., *see* Groblewski, G. E., 171
- Diuretics, Wy-3654, a pteridine, 111
- Dixon, R. L., Hart, L. G., Rogers, L. A. and Fouts, J. R., 312
- Dopamine, effect on norepinephrine synthesis and release, 157  
 reserpine-like effects of analogs, 147
- Drug metabolism, inhibition by *p*-aminosalicylate, 242
- Dutta, S., Marks, B. H. and Smith, C. R., 223
- Edwards, C., *see* Ciani, S., 21
- Eisner, H. J. and Wulf, R. J., 122
- Ellis, S. and Beckett, S. B., 318
- Endotoxin, pyrogenic effect, 237
- Enterotoxin, tolerance to pyrogenic effect, 237
- 4-Epichlortetracycline, distribution and metabolism, 122
- Epinephrine, effect on automaticity in auricles, 171  
 effect on nictitating membrane, 13  
 effect on rat microcirculation, 76  
 effect on rat uterus, 178  
 effect on spleen, 99  
 mobilization of potassium and glucose, 318  
 relaxant effect on nictitating membrane, 163  
 subcellular localization, 291
- Erdős, E. G., Wohler, J. R. and Levine, M. I., 327
- Ergotoin, effect on nictitating membrane, 163
- Erythrophleum alkaloids, *see* cassaine, 215
- Fatty acids, release from adipose tissue, 137
- FD&C Red No. 1, metabolism, 257
- Fetal abnormalities, induced by salicylate, 351
- Fever, produced by enterotoxin, 237
- Fisher, R. D., *see* Nakano, J., 206
- Fitzhugh, O. G., *see* Lindstrom, H. V., 257
- Fouts, J. R., *see* Dixon, R. L., 312
- Fouts, J. R., *see* Rogers, L. A., 242
- Furchgott, R. F., Kirpekar, S. M., Rieker, M. and Schwab, A., 39
- Ganglia, non-nicotinic stimulant action of muscarine, 192
- Gastric ulcers, antagonism by chlorbenzoxamine, 358
- Gilfoil, T. M., Klavins, I. and Grumbach, L., 1
- Gitlow, S., *see* Kaplan, M., 306
- Glucagon, mobilization of potassium and glucose, 318
- Glucose, metabolism in adipose tissue, 137  
 mobilization by epinephrine and glucagon, 318
- Glycogen, hepatic, correlated with rate of drug metabolism, 242  
 relationship to drug metabolism, 312
- Goldfish, effect of hydroquinone and hypophysectomy upon pigmentation, 275
- Goldman, A. S. and Yakovac, W. C., 351
- Grandy, R. P., *see* Hillyard, I. W., 358
- Groblewski, G. E. and DiStefano, V., 171
- Grumbach, L., *see* Gilfoil, T. M., 1
- Guanethidine, comparison with dopamine analogs, 147  
 sensitization of rat microcirculation to epinephrine, 76
- Gyermek, L., *see* Sigg, E. B., 13
- Hambourger, W. E., *see* Ranney, R. E., 132
- Hansen, W. H., *see* Lindstrom, H. V., 257
- Harris, L. S., *see* Zimmerman, A. M., 76
- Harrison, W. H., Levitt, M. and Udenfriend, S., 157
- Hart, L. G., *see* Dixon, R. L., 312
- Hayes, A. H., Jr. and Riker, W. F., Jr., 200
- Heart, acetylcholine in rabbit atria, 24  
 automaticity of auricles, 171  
 effect of drugs on isolated innervated atria, 31  
 effect of oxytocin on rate and contractile force, 206  
 norepinephrine changes due to dopamine, 157
- Hemicholinium, effect on acetylcholine content of rabbit auricles, 24  
 effect on isolated innervated atria, 31
- Hillyard, I. W. and Grandy, R. P., 358
- Horita, A., 141
- Hug, C. C., Jr. and Woods, L. A., 248
- Hydroquinone, on pigmentation in black goldfish, 275
- 6-Hydroxydopamine, reserpine-like actions, 147
- 5-Hydroxytryptamine, effect on nictitating membrane, 13
- Hypophysectomy, on pigmentation in black goldfish, 275
- Imipramine, comparison with analogues, 13  
 potentiation of amine effect on nictitating membrane, 13
- Inflammation, effect of aspirin on, 1
- Intestinal vasculature, effect of acetylcholine, 185

- Iproniazid, inhibition of monoamine oxidase, 141  
 Isoproterenol, effect on adipose tissue metabolism, 137  
   effect on automaticity in auricles, 171  
   effect on rat uterus, 178  
   effect on spleen, 99  
   relaxant effect on nictitating membrane, 163
- James, T. N. and Nadeau, R. A., 93  
 Johnson, G. L., *see* Kahn, J. B., Jr., 215
- Kahn, J. B., Van Atta, R. A., Jr. and Johnson, G. L., 215  
 Kallidin, hypotension blocked by carboxypeptidase, 327  
 Kaplan, M., Gitlow, S. and Smith, A. A., 306  
 Kidney, interaction of chlorothiazide and uric acid, 231  
 Kirpekar, S. M. and Cervoni, P., 59  
 Kirpekar, S. M., Cervoni, P. and Couri, D., 71  
 Kirpekar, S. M., *see* Furchgott, R. F., 39  
 Klavins, I., *see* Gilfoil, T. M., 1
- Leaders, F. E., 31  
 Levine, M. I., *see* Erdős, E. G., 327  
 Levitt, M., *see* Harrison, W. H., 157  
 Levy, B. and Tozzi, S., 178  
 Lewartowski, B. and Bielecki, K., 24  
 Lindstrom, H. V., Hansen, W. H., Nelson, A. A. and Fitzhugh, O. G., 257  
 Love, W. C., Carr, L. and Ashmore, J., 137  
 Ludden, C. T., *see* Stone, C. A., 147
- Marks, B. H., *see* Dutta, S., 223  
 Maternal immobilization and salicylate teratogenicity, 351  
 Melanin, destruction in goldfish by hydroquinone and hypophysectomy, 275  
 Metabolism of drugs, affected by diabetes in rats, 312  
   of drugs altered by *p*-aminosalicylate, 242  
   of H<sup>3</sup>-nalorphine, 248  
 $\alpha$ -Methyl-dopa, enhancement of CNS effect of amphetamine, 343  
 $\alpha$ -Methyl-6-hydroxydopamine, reserpine-like actions, 147  
 Microcirculation, effects of drugs on, 76  
 Microsomes, localization of endogenous and exogenous catecholamines, 291  
   norepinephrine in heart, stability and release, 299  
 Monoamine oxidase, inhibition by pheniprazine and iproniazid, 141  
 Moore, K. E., 6  
 Murayama, S., *see* Sanghvi, I., 192  
 Muscarine, non-nicotinic ganglion stimulant action, 192  
 Muscle, release of acetylcholine, 200
- Nadeau, R. A., *see* James, T. N., 93  
 Nakano, J. and Fisher, R. D., 206  
 Nalorphine, fate of tritiated compound in dogs, 248  
 Narcotic antagonist, fate of H<sup>3</sup>-nalorphine, 248  
 Nelson, A. A., *see* Lindstrom, H. V., 257  
 Nethalide, effect on rat uterus, 178  
 Neuroeffector junction, adrenergic, hypothetical scheme for relationships, 39  
 Neuromuscular junction, release of acetylcholine, 200  
 Neuromuscular transmission, effect of acetylcholine, 21  
 Nictitating membrane, *beta* adrenotropic receptors, 163  
   denervation sensitivity, 335  
 Nitrogen mustard, effect of pH on delayed toxicity and antitumor effect, 265  
 Norepinephrine, depleting effect of *d*- and *l*-amphetamine in isolated and aggregated mice, 6  
   effect on automaticity in auricles, 171  
   effect on nictitating membrane, 13  
   effect on spleen, 99  
   influence of cocaine and reserpine on actions, 39  
   storage particles in heart, 299  
   subcellular localization, 291, 299  
   supersensitivity by nictitating membrane, 335  
   synthesis and release from dopamine, 157  
   tolerance and metabolism, 306
- Ouabain, distribution and excretion in rats and sheep, 223  
 Oxytocin, effects on circulation, 206
- Pheniprazine, inhibition of monoamine oxidase, 141  
 Phenoxybenzamine, effect on catecholamine output from spleen and adrenal medulla, 59  
   effect on nictitating membrane, 163  
   effect on rat uterus, 178  
 Phentolamine, effect on catecholamine output from spleen and adrenal medulla, 59  
   effect on rat uterus, 178  
 Phenylephrine, effect on rat uterus, 178  
 Pigment, destruction by hydroquinone and hypophysectomy in the goldfish, 275  
 Polypeptide hypotension, blocked by carboxypeptidase, 327  
 Porter, C. C., *see* Stone, C. A., 147  
 Potassium, mobilization by epinephrine and glucagon, 318  
 Potter, L. T. and Axelrod, J., 291, 299
- Ranney, R. E., Cook, D. L., Hambourger, W. E. and Counsell, R. E., 132  
 Receptors, adrenotropic, in rat uterus, 178  
   adrenotropic, spleen, 99

- alpha* adrenotropic as inactivators of transmitter, 59
- beta* adrenotropic in nictitating membrane, 163
- Reserpine, comparison with dopamine analogs, 147
- effect on catecholamines and ATP content of adrenal medulla, 71
- effect on isolated innervated atria, 31
- enhancement of CNS effect of amphetamine, 343
- influence on effect of norepinephrine, tyramine and cocaine, 39
- sensitization of rat microcirculation to epinephrine, 76
- Rieker, M., *see* Furchgott, R. F., 39
- Riker, W. F., Jr., *see* Hayes, A. H., Jr., 200
- Rogers, L. A., Alcantara, G. A. and Fouts, J. R., 242
- Rogers, L. A., *see* Dixon, R. L., 312
- Rosenthale, M. E. and van Arman, C. G., 111
- Ross, C. A., *see* Stone, C. A., 147
- Salicylate, teratogenicity and maternal immobilization, 571
- Sanghvi, I., Murayama, S., Smith, C. M. and Unna, K. R., 192
- Schwab, A., *see* Furchgott, R. F., 39
- Serotonin, *see* 5-hydroxytryptamine, 13
- Sigg, E. B., Soffer, L. and Gyermek, L., 13
- Smith, A. A., *see* Kaplan, M., 306
- Smith, C. B., 163, 343
- Smith, C. M., *see* Sanghvi, I., 192
- Smith, C. R., *see* Dutta, S., 223
- Soffer, L., *see* Sigg, E. B., 13
- Spleen, effect of sympathomimetic and blocking drugs, 99
- Stavorski, J. M., *see* Stone, C. A., 147
- Stone, C. A., Stavorski, J. M., Ludden, C. T., Wenger, H. C., Ross, C. A., Totaro, J. A. and Porter, C. C., 147
- Sympathetic blocking drugs, effects on rat uterus, 178
- Sympathetic vasoconstrictor tone, effect of *t*-butylamine, 83
- Sympathomimetic drugs, effects on rat uterus, 178
- Teratogenicity of salicylate, 351
- Tetracyclines, distribution and metabolism, 122
- Tolazoline, effect on rat uterus, 178
- Tolerance to norepinephrine, effect on metabolism, 306
- Totaro, J. A., *see* Stone, C. A., 147
- Toxicity, of nitrogen mustard, 265
- Tozzi, S., *see* Levy, B., 178
- Trendelenburg, U., 335
- Tyramine, supersensitivity by nictitating membrane, 335
- Udenfriend, S., *see* Harrison, W. H., 157
- Unna, K. R., *see* Sanghvi, I., 192
- Uric acid, effect on chlorothiazide excretion in the chicken, 231
- Uterus, *beta* inhibitory receptors, 178
- van Arman, C. G., *see* Rosenthale, M. E., 111
- Van Atta, R. A., Jr., *see* Kahn, J. B., Jr., 215
- Wenger, H. C., *see* Stone, C. A., 147
- White, L. P. and Claffin, E. F., 265
- Williamson, H. E., *see* Castles, T. R., 231
- Wohler, J. R., *see* Erdős, E. G., 327
- Woods, L. A., *see* Hug, C. C., Jr., 248
- Wulf, R. J., *see* Eisner, H. J., 122
- Xylidine, fate and toxicity of isomers, 257
- 2,5-*m*-Xylidine, fate and toxicity, 257
- 2,6-*m*-Xylidine, fate and toxicity, 257
- Yakovac, W. C., *see* Goldman, A. S., 351
- Zimmerman, A. M. and Harris, L. S., 76
