CONTENTS OF VOLUME 172
NO. 1, MARCH 1970

The Effects of pH Gradients on the Action of Procaine and Lidocaine in Intact and
Desheathed Sciatic Nerves. GEORGE E. STROBEL AND C. PAUL BIANCHI........... 1

The Effects of pH Gradients on the Uptake and Distribution of C\textsuperscript{14}-Procaine and Lido-
caine in Intact and Desheathed Sciatic Nerve Trunks. GEORGE E. STROBEL AND
C. PAUL BIANCHI.................................................................................. 18

Sites of Action of SKF 525-A in Nerve and Muscle. G. SUAREZ-KURTS AND C. PAUL
BIANCHI.................................................................................................. 33

The Neuromuscular Blocking Properties of the Antimalarial Agent, Bis[[(Chloro-
7\textsuperscript{-}Quinolyl-4\textsuperscript{-}Amino-2\textsuperscript{-}Propyl]-1,4-Piperazine. T. R. CASTLES, E. LOTH,
C. R. CRAWFORD AND C. C. LEE......................................................... 44

Pharmacologic Blockade of Reflex Vasodilatation: Effects on Postulated Neuro-
humoral Mechanisms. ROBERT C. BOERTH, MICHAEL J. RYAN AND MICHAEL
J. BRODY.................................................................................................. 52

The Release of H\textsuperscript{+}-Norepinephrine in Arterial Strips Studied by the Technique of
Superfusion and Transmural Stimulation. CHE SU AND JOHN A. BEVAN............ 62

Comparison of Differential Secretion of Adrenal Catecholamines by Splanchnic Nerve
Stimulation and Cholinergic Agents. LARRY R. KLEVANS AND GERARD L. GEBNER.... 69

The Effect of 5-TM 10 on the Pharmacological, Biochemical and Morphological Changes
Induced by Denervation of the Nictitating Membrane of the Cat. S. FUCHINO,
L. S. VAN ORDEN, III, P. R. DRESKO\textsuperscript{C}E\textsuperscript{T}, S. Z. LANGER AND U. TRENDLEK\textsuperscript{N}BURG.... 77

Guanethidine and Related Agents. I. Mechanism of the Selective Blockade of Adre-
nergic Neurons and Its Antagonism by Drugs. J. R. MITCHELL AND J. A. OATES.... 100

Guanethidine and Related Agents. II. Metabolism by Hepatic Microsomes and Its
Inhibition by Drugs. J. R. MITCHELL, J. H. CAVANAUGH, J. V. DINGELL AND
J. A. OATES.......................................................................................... 108

The Metabolism of C\textsuperscript{14}-ICI 54,450 (Myalex) in Various Species—An in Vivo NIH
Shift. DAVID M. FOUKES........................................................................ 115

The Influence of Morphine on Magnesium Metabolism in Rats. MARC VACHON AND
CLAUDIE MARCHANT.............................................................................. 122

Studies on the Distribution and Metabolism of Thiopental in Cattle, Sheep, Goats
and Swine. R. P. SHARMA, C. M. STOWE AND A. L. GOOD....................... 128

Dioxoisoquinoline-4-Carboxanilides, Novel Nonsteroidal Anti-Inflammatory Agents
with a Species-Specific Effect on Basal Metabolism. EDWARD H. WISEMAN,
EDWARD J. GRALLA, JOSEPHINE CHIAINI, JOSEPH R. MIGLIARDI AND YI-HAN
CHANG....................................................................................................... 138

Measurement of the Analgesic Efficacy and Potency of Pentazocine by the D'Amour
and Smith Method. WILLIAM D. GRAY, ARNOLD C. OSTERBERG AND THOMAS J.
SCUTO ......................................................................................................... 154

Development of Tolerance to and Physical Dependence on Barbiturates in Rhesus
Monkeys. TOMOJI YANAGITA AND SABURO TAKARASHI......................... 163

Jumping Activity Induced by Sodium 5-(1,3-Dimethylbutyl)-5-Ethyl Barbiturate.
I. The Role of the Sympathetic Nervous System. T. KOPPANYI, H. M. MAING,
W. SALT AND B. B. BRODIE..................................................................... 170

Effect of Cardiac Glycosides on Interaction of Ca\textsuperscript{**} with Mitochondria. KWANG S.
LEE, SA A. HONG AND D. H. KANG......................................................... 180

The Effects of Six Cardiac Glycosides on the Transmembrane Potential and Con-
tractile Characteristics of the Right Ventricle of Guinea Figs. M. ITO, P. B.
HOLLANDER, B. H. MARKS and S. DUTTA............................................... 188

Letters to the Editor.................................................................................. Cover 2
CONTENTS

No. 2, APRIL 1970

The Role of Carbonic Anhydrase in Anion Secretion into Cerebrospinal Fluid. THOMAS H. MAREN AND LAWRENCE E. BRODER ................................................................. 197

Studies of the Effect of Bendrofluamethiazide on Sodium Transport and Metabolism in the Toad Bladder. BARBARA MCDONALD AND LAWRENCE P. SULLIVAN 203

Drugs Affecting Sodium Transport in Human Erythrocyte Ghosts. A. ASKARI AND S. N. RAO ................................................................. 211

Mechanism of the Renal Tubular Transport of Morphine and Morphine Ethereal Sulfate in the Chicken. WILLIAM M. WATROUS, DAVID G. MAY AND JAMES M. FUJIMOTO .................................................. 224

The Actions of Tetraethylammonium Ions on Potassium Fluxes in Frog Sartorius Muscle. ROBERT L. VOLLE ................................................................. 230

Effect of Lidocaine on Conduction in Canine Purkinje Fibers and at the Ventricular Muscle-Purkinje Fiber Junction. J. THOMAS BIGGER AND WILLIAM J. MANDEL ................................................................. 239

Biphasic Effect of Nicotine on Action Potential Repolarization in Electrically Driven Guinea-Fig Atria. ACHILLES J. PAPPANO ................................................................. 255

The Sympathomimetic Effect of Gallamine on the Heart. BURNELL R. BROWN, JR. AND J. RICHARD COUT ................................................................. 266

Blockade of the Cardiac Action of Phenylephrine by Bretylium or Cocaine. C. S. YOO AND W. C. LEE ................................................................. 274

The Effect of Bretylium on Amine Retention in Rat Heart. KENNETH R. KRAUSS, IRWIN J. KOPIN AND VIRGINIA K. WEISE ................................................................. 282

The Effects of Acidosis on Chronotropic Responses, Norepinephrine Storage and Release in Isolated Guinea-Pig Atria. M. J. PEACH, G. D. FORD, A. J. AZZARO AND W. W. FLEMING ................................................................. 289

An Evaluation of the Vasodilation Produced by Mephenetermine and Certain Other Sympathomimetic Amines. R. WILLIAM CALDWELL AND LEON I. GOLDBERG ................................................................. 297

The Antagonism of Phentolamine against Exogenously Administered and Endogenously Released Norepinephrine in Rabbit Aortic Strips. PEDRO R. URQUILLA, ROBERT E. STITZEL AND WILLIAM W. FLEMING ................................................................. 304

Interactions between Potentiating Agents of Adrenergic Amines in Rabbit Aortic Strips. JEROME A. LEVIN AND ROBERT F. FURCHGOTT ................................................................. 320

Release of Norepinephrine from Isolated Rat Iris by Field Stimulation. LARS-OVE FARNEBO AND BERTIL HAMBERGER ................................................................. 332

Effects of Metabolic Inhibitors on Norepinephrine Release from the Perfused Spleen of the Cat. S. M. KIRPEKAR, J. C. PRAT AND H. YAMAMOTO ................................................................. 342

Cholinergic Activities of Halogeno-Acetylcholines. C. Y. CHOU AND B. V. RAMA SAstry ................................................................. 351

Effects of Nicotine on Gastric Antral and Duodenal Contractile Activity in the Dog. G. M. CARLSON, R. W. RUDDON, C. C. HUG, JR. AND PAUL BASS ................................................................. 367

Analysis of the Site of Nicotine Action on Gastric Antral and Duodenal Contractile Activity. G. M. CARLSON, R. W. RUDDON, C. C. HUG, JR., S. K. SCHMIEGIE AND PAUL BASS ................................................................. 377

The Actions of γ-Aminobutyric Acid and Related Amino Acids on Mammalian Autonomic Ganglia. WILLIAM C. DE GROAT ................................................................. 384

Effects of Some Benzodiazepines on Punished and Unpunished Behavior in the Fidgion. W. WUTZKE AND R. T. KELBER ................................................................. 397

Potentiation and Inhibition of Some Central Actions of L(-)-Dopa by Decarboxylase Inhibitors. VICTOR J. LOTTI AND CURT C. PORTER ................................................................. 406

Daily Rhythm in the Accumulation of Brain Catecholamines Synthesized from Circulating H2-Tyrosine. MICHAEL J. ZIGMOND AND RICHARD J. WURTZMAN ................................................................. 416

Interactions of Anti-Inflammatory Drugs in Carrageenan-Induced Foot Edema of the Rat. KARL F. SWINGLE, THOMAS J. GRANT, LOWELL W. JAQUES AND DONALD C. KYAM ................................................................. 423

Index, Volume 172, March-April 1970 ................................................................. 427

Letters to the Editor Cover 2
