

INDEX

Volume 177, April-June 1971

- Acetaldehyde-induced catecholamine secretion from cow adrenal medulla, 109
- Acetylcholine
 - blocking action of benzyltrimethylammonium bromide, 369
 - effects on reserpine-treated rabbit aortic strips, 127
 - release from ileum, effects of germin-3-monoacetate, 181
- Acetylstrophanthidin, effect on carotid sinus reflex mechanism, 650
- Adenosine monophosphate
 - dibutyl cyclic, effect on tryptophan concentration in rat brain, 475
 - dibutyl cyclic, -induced lipolysis in rat, effects of cardiac glycosides, 284
- Adrenal gland
 - medulla, cow, acetaldehyde-induced catecholamine secretion, 109
 - medulla, effect of colchicine, vinca alkaloids and deuterium oxide on role of microtubules in catecholamine release, 102
 - tyrosine hydroxylase, bovine, subcellular distribution and aggregation, 155
- Adrenergic neuron
 - blockers, reserpine and, antagonism of effects of cocaine, norepinephrine and ionic stimulants on rat vas deferens, 136
 - sodium-dependent, optically specific and reserpine-sensitive amine carrier mechanism at, 389
- Adrenergic responses, of aortic strips from young and old rabbits, cocaine-induced potentiation, 621
- Agonists
 - blocking action of benzyltrimethylammonium bromide, 369
 - pharmacological estimation of drug-receptor dissociation constants, 1
- Alkaloids, vinca, colchicine, deuterium oxide and, effect on role of microtubules in catecholamine release from adrenal medulla, 102
- Amine(s)
 - carrier mechanism, sodium-dependent, optically specific and reserpine-sensitive, at adrenergic neuron, 389
 - tricyclic, structure-activity relationship, 219
- Amino acids, transport and incorporation into rabbit atrial tissue *in vitro*, effects of ouabain, calcium and potassium, 398
- α -Aminoisobutyric acid, transport and incorporation into rabbit atrial tissue *in vitro*, 398
- Amphetamine, effects on dopamine synthesis in rat striatum, 196
- d*-Amphetamine, effect on tryptophan concentration in rat brain, 475
- Amyl nitrite, nitroglycerin and, hemodynamic effects in conscious dog, 426
- Analgesia
 - produced by optical isomers of pentazocine in rat, 500
 - running, tolerance, physical dependence and, opiate-induced, effects of *p*-chlorophenylalanine, 309
- Anesthetic agents, effect on calorogenic responses to 2,4-dinitrophenol and L-thyroxine in rats, 514
- Angiotensin
 - ganglionic stimulation, mechanism of positive inotropic and chronotropic effects of, 48
 - in dog hindpaw, effects of prostaglandins E₁, E₂, F_{1 α} and F_{2 α} on vasoconstrictor responses, 614
 - interaction with norepinephrine on cat nictitating membrane *in vivo*, 633
- Angiotensin I, conversion by kininase II, 291
- Antagonists, competitive, pharmacological estimation of drug-receptor dissociation constants, 13
- Aorta
 - rabbit, effects of lanthanum on ⁴⁵Ca movements and on contractions induced by norepinephrine, histamine and potassium, 415
 - rat, rabbit and guinea pig, norepinephrine concentrations, 119
 - strips, from young and old rabbits, adrenergic innervation and cocaine-induced potentiation of responses, 621
 - strips, rabbit, reserpine-induced supersensitivity, 127
 - thoracic, rabbit, entry, accumulation and distribution of ³H-norepinephrine, 613
- Apomorphine, effect on tryptophan concentration in rat brain, 475
- Artery, wall, entry of ³H-norepinephrine, 613
- Atria
 - guinea pig, electrically driven, propranolol-insensitive effects on action potential repolarization, 85
 - guinea pig, isolated, negative chronotropic effects of McN A-343 and nicotine, insensitivity to blockade by tetrodotoxin, 40
 - rabbit, effects of ouabain, calcium and potassium on *in vitro* transport and incorporation of amino acids, 398
- Atropine
 - effects on hypothermic responses in morphine-dependent rhesus monkey, 317

- influence on negative chronotropic effect of McN A-343, 40
- Axelrod, J., *see* Lemberger, L., 169
- Axons, giant, squid, active form of pentobarbital in, 25

- Bachur, N. R. and Gee, M.: Daunorubicin metabolism by rat tissue preparations, 567
- Barium
- hypokalemic and cardiovascular effects, 433
 - ion, effects on reserpine-treated rabbit aortic strips, 127
 - ion, responses of superfused rat vas deferens, 136
- Baur, E. W.: The structure-activity relationship of tricyclic amines, 219
- Becker, B. A., *see* Gibson, J. E., 256
- Beck, L., *see* DuCharme, D. W., 56
- 5-Benzoyloxy-2-imino-hexahydropyrimidine hydrochloride, interference with excitation, 34
- Benzyltrimethylammonium bromide, studies on nonspecific blocking action of, 369
- Berkowitz, B. A. and Way, E. L.: Analgesic activity and central nervous system distribution of the optical isomers of pentazocine in the rat, 500
- Berkowitz, B. A., Tarver, J. H. and Spector, S.: Norepinephrine in blood vessels: Concentration, binding, uptake and depletion, 119
- Berman, L. B., *see* Roza, O., 433
- Bernstein, J., *see* Poisner, A. M., 102
- Besson, M. J., Cheramy, A. and Glowinski, J.: Effects of some psychotropic drugs on dopamine synthesis in the rat striatum, 196
- Bevan, J. A., *see* Török, J., 613
- Bhagat, B. D., *see* Dhalla, N. S., 96
- Bilirubin, effects of dimethyl sulfoxide in rabbits, 520
- Bishop, V. S., *see* O'Rourke, R. A., 426
- Blickens, D. A. and Riggi, S. J.: Carbohydrate metabolism in normal and hyperglycemic animals treated with 1-methyl-4-(3-methyl-5-isoxazolyl)pyridinium chloride and phenformin, 536
- Blood
- flow, hepatic, effect on removal rate of oxyphenbutazone in dog, 246
 - man, reactions between hydroxylamine and hemoglobin derivatives, 440
 - rat, pentazocine levels in, 332
- Blood vessels, norepinephrine in, 119
- Bohn, D. L., *see* Fanelli, G. M., Jr., 591
- Borzelleca, J. F., *see* Putney, J. F., 263
- Brain
- cat, effects of α -methyl-*meta*-tyrosine on spontaneous and caudate-induced electroencephalogram activity and regional catecholamines, 481
 - monoamines, relation with anticonvulsant action of inhibitors of carbonic anhydrase, 206
 - mouse, effect of decaborane on histamine formation, 177
 - norepinephrine, sleep and, in cats, effects of α -methyltyrosine, 188
 - rat, effect of psychotropic drugs on tryptophan concentration, 475
 - rat, levels of optical isomers of pentazocine, 500
 - rat, pentazocine levels, 332
 - rat, subcellular distribution of 4-¹⁴C-diphenylhydantoin, 342
 - uptake of morphine, acute toxicity and, effect of dactinomycin, 326
- Bretylium, responses of superfused rat vas deferens, 136
- Brody, M. J., *see* Kadowitz, P. J., 641
- Buckley, J. P., *see* El Defrawy, S., 276
- Bulbocapnine, effect on tryptophan concentration in rat brain, 475
- Bush, M. T., *see* Gerber, N., 234
- Calcium
- association with positive inotropic effect of ouabain, 78
 - effects on lipolysis in rats, 284
 - ion, effect on cocaine-induced potentiation of adrenergic responses of aortic strips from young and old rabbits, 621
 - ion, responses of superfused rat vas deferens, 136
 - ouabain, potassium and, effects on transport and incorporation of amino acids into rabbit atrial tissue *in vitro*, 398
- Calcium-45, movements, in vascular smooth muscle, effects of lanthanum, 415
- Calorigenesis, responses to 2,4-dinitrophenol and L-thyroxine in rats, effect of sedating agents, 514
- Carbohydrate, metabolism in normal and hyperglycemic animals treated with 1-methyl-4-(3-methyl-5-isoxazolyl)pyridinium chloride and phenformin, 536
- Carbonic anhydrase, relation between monoamines in brain and anticonvulsant action of inhibitors of, 206
- Carbon tetrachloride, effects on hepatic drug metabolizing system, comparison with halothane, 556
- Cardiac glycosides, mechanism of antilipolytic effects, 284
- Cardiovascular system, effects of barium, 433
- Carinamide, renal effects in chimpanzee, 591

- Carotid sinus, reflex changes produced by digitalis, 650
- Cat(s)
- brain, effects of α -methyl-*meta*-tyrosine on spontaneous and caudate-induced electroencephalogram activity and regional catecholamines, 481
 - carotid sinus reflex changes produced by digitalis, 650
 - dissociation of cardiac inotropic and transmembrane action potential effects of ouabain, 78
 - effects of α -methyltyrosine on sleep and brain norepinephrine, 188
 - nictitating membrane, interaction between angiotensin and norepinephrine *in vivo*, 633
 - spinal excitatory and depressant effects of sodium diphenylthiohydantoinate, 350
- Catabolism, synthesis, binding and, of ^3H -histamine in nonmast cells *in vivo*, 579
- Catecholamine(s)
- biosynthesis, implications of subcellular distribution of tyrosine hydroxylase, 155
 - effects on action potential repolarization in electrically driven guinea-pig atria, 85
 - levels, brain, cat, effects of α -methyltyrosine, 188
 - positive inotropic effects, comparison with ouabain, 78
 - regional, in cat brain, effects of α -methyl-*meta*-tyrosine, 481
 - release from adrenal medulla, effect of colchicine, vinca alkaloids and deuterium oxide on role of microtubules, 102
 - secretion from cow adrenal medulla, acetaldehyde-induced, 109
 - stores of isolated rat heart perfused with substrate-free medium, 96
- Cell, nonmast, histamine kinetics, 579
- Central nervous system, rat, distribution of optical isomers of pentazocine, 500
- Cervoni, P. and Reit, E.: Interaction between angiotensin and bloodborne exogenous norepinephrine on the cat nictitating membrane *in vivo*, 633
- Cheney, D. L. and Goldstein, A.: The effects of *p*-chlorophenylalanine on opiate-induced running, analgesia, tolerance and physical dependence in mice, 309
- Cheramy, A., *see* Besson, M. J., 196
- Chimpanzee, renal effects of uricosuric agents, 591
- p*-Chlorophenylalanine
- effect on opiate-induced running, analgesia, tolerance and physical dependence in mice, 309
 - effect on tryptophan concentration in rat brain, 475
- Chlorothiazide, renal effects in chimpanzee, 591
- Chlorpromazine
- effect on tryptophan concentration in rat brain, 475
 - inhibition of norepinephrine biosynthesis in guinea-pig vas deferens, 146
- Cinanserin, influence on experimental allergic encephalomyelitis, 454
- Cleaves, C. A., *see* Narahashi, T., 25
- Cocaine
- induced potentiation of adrenergic responses of aortic strips from young and old rabbits, adrenergic innervation and, 621
 - inhibition of norepinephrine synthesis in guinea-pig vas deferens, 146
 - norepinephrine, ionic stimulants and, effects on rat vas deferens, antagonism by adrenergic neuron blockers and reserpine, 136
- Colasanti, B., *see* Khazan, N., 491
- Colchicine, vinca alkaloids, deuterium oxide and, effect on role of microtubules in catecholamine release from adrenal medulla, 102
- Cook, C. E., *see* Freudenthal, R. I., 468
- Cooper, T., *see* Dempsey, P. J., 78
- Cortex, cerebral, rat, subcellular distribution of 4- ^{14}C -diphenylhydantoin, 342
- Corticosterone, somatotropin and, role in stress-mediated decrease in liver hexobarbital metabolism, 227
- Cow
- adrenal medulla, acetaldehyde-induced catecholamine secretion, 109
 - adrenal medulla, effect of colchicine, vinca alkaloids and deuterium oxide on role of microtubules in catecholamine release, 102
 - adrenal tyrosine hydroxylase, subcellular distribution and aggregation, 155
- Cranston, R. D. and Smith, R. P.: Some aspects of the reactions between hydroxylamine and hemoglobin derivatives, 440
- Creatine phosphokinase, effects of dimethyl sulfoxide in rabbits, 520
- Cyclophosphamide, placental transfer in mice, effect of phenobarbital and SKF 525A, 256
- Cytoplasm, cell, localization of tyrosine hydroxylase, 155
- Dactinomycin, effect on acute toxicity and brain uptake of morphine, 326
- Daunorubicin
- metabolism by rat tissue preparations, 567
 - metabolite (daunorubicinol), isolation from human urine and enzymatic reactions, 573
- Daunorubicinol, metabolite of daunorubicin, isolation from human urine and enzymatic reactions, 573
- Davis, D. C., Schroeder, D. H., Gram, T. E., Reagan, R. I. and Gillette, J. R.: A comparison of the effects of halothane and CCl_4 on the hepatic drug metabolizing system, 556

- Dayton, P. G., *see* Whitsett, T. L., 246
- Decaborane, effect on histamine formation in mice, 177
- Deguchi, T., *see* Narahashi, T., 25
- Dempsey, P. J., McCallum, Z. T., Kent, K. M. and Cooper, T.: Dissociation of cardiac inotropic and transmembrane action potential effects of ouabain, 78
- 2-Deoxyglucose, uptake mechanisms in guinea-pig seminal vesicles, 447
- Deuterium oxide, colchicine, vinca alkaloids and, effect on role of microtubules in catecholamine release from adrenal medulla, 102
- Dhalla, N. S., Bhagat, B. D., Sulakhe, P. V. and Olson, R. E.: Catecholamine stores of the isolated rat heart perfused with substrate-free medium, 96
- 4,4'-Diacetamidodiphenylsulfone, action on *Plasmodium berghei*, 301
- 4,4'-Diaminodiphenylsulfone, action on *Plasmodium berghei*, 301
- Diaphragm, rat, glycogen content, effects of phenformin at simulated high altitude, 276
- Diazepam, calorogenic responses to 2,4-dinitrophenol and L-thyroxine in rats, 514
- Diecke, F. P. J., *see* Dretchen, K., 369
- 4,4'-Diformamidodiphenylsulfone, action on *Plasmodium berghei*, 301
- Digitalis, carotid sinus reflex changes produced by, 650
- Digitoxin, effects on lipolysis in rats, 284
- Dihydroergotamine, antagonism of effects of epinephrine in electrically driven guinea-pig atria, 85
- Dimethyl sulfoxide
-lenticular changes in rabbits, 528
toxicology, 520
- 2,4-Dinitrophenol, L-thyroxine and, calorogenic responses in rats, effect of sedating agents, 514
- Dipeptide hydrolase, characterization, 291
- Diphenoxylate, biotransformation in rat and dog, 546
- Diphenylhydantoin, effects in cat spinal cord, comparison with diphenylthiohydantoinate, 350
- 4-¹⁴C-Diphenylhydantoin, subcellular distribution in rat brain, 342
- Diphenylthiohydantoinate, spinal excitatory and depressant effects, 350
- Dog(s)
biotransformation of diphenoxylate, 546
conscious, hemodynamic effects of nitroglycerin and amyl nitrite, 426
direct and systemic effects of guanethidine on renal function, 69
effect of L-dopa on chronotropic responses to cardioaccelerator nerve stimulation, 409
effect of hepatic blood flow on removal rate of oxyphenbutazone, 246
effect of renal pressor and sympathetic nervous systems on vascular capacity during hypotension, 56
heart, mechanism of positive inotropic and chronotropic effects of angiotensin, 48
hindpaw, effects of prostaglandins E₁, E₂, F_{1α} and F_{2α} on adrenergic vasoconstriction, 641
hypokalemic and cardiovascular effects of barium, 433
L-Dopa, effect on chronotropic responses to cardioaccelerator nerve stimulation in dogs, 409
- Dopamine
in brain, relation with anticonvulsant action of inhibitors of carbonic anhydrase, 206
in cat brain, effects of α-methyl-*meta*-tyrosine, 481
synthesis, in rat striatum, effects of some psychotropic drugs, 196
