

INDEX

- 1-¹⁴C-Acetoxyhydroamic acid, absorption, distribution, metabolism and excretion in mouse, 173
- DL-1-(2-Acetyl-4-*n*-butyramidophenoxy)-2-hydroxy-3-isopropylaminopropane HCl, *see* M & B 17803-A
- Acetylcholine
- induced contraction of toad skeletal muscle, effect of verapamil, 52
 - sensitivity in ileal muscle, loss, 552
- Acetylsalicylic acid and combinations with codeine and caffeine, self-administration in rhesus monkeys, 266
- ³H-N-Acetylserotonin, synthesis in rat pineal gland, relationship to serotonin N-acetyltransferase activity, 516
- Active transport system, uptake of ¹⁴C-salicylic acid by rat kidney cortex slices as example of, 600
- Adenosine 3',5'-monophosphate
- accumulation in rat brain stimulated by electrical pulses and elevated levels of potassium ions, 241
 - adrenergic regulation of serotonin N-acetyltransferase activity in rat pineal gland, 516
 - inhibition of release of enzymes from rat liver lysosome fraction, 86
- Adrenergic blocking agents, *beta*, optical isomers, dromotropic effects on cross-circulated canine atrioventricular node preparation, 145
- Adrenergic receptor
- alpha*, protection, dissociation from inhibition of ³H-phenoxybenzamine binding in vascular tissue, 100
 - beta*, blocking properties of M & B 17803-A, 134
 - beta*, blocking properties of two analogs of dichloroisoproterenol, 123
 - beta*, regulation of pineal serotonin, 109
- Aghajanian, G. K.
- see* Iwasawa, Y., 498
 - see* Walters, J. R., 630
- Alcohol, withdrawal reactions in mice, effects of drugs that modify neurotransmission, 1
- Alkalosis, effect on ouabain toxicity in dog, 199
- Alprenolol, optical isomers, dromotropic effects on cross-circulated canine atrioventricular node preparation, 145
- 2-Aminobenzimidazole, guanidinium compound, interference with excitation by, 569
- γ -Aminobutyric acid
- brain, barbitol narcosis and, reduction during ethanol withdrawal, 625
 - pathways in mice, relationship with alcohol withdrawal reactions, 1
- Aminooxyacetic acid, effects on alcohol withdrawal reactions in mice, 1
- 2-Amino-4,4,6-trimethyl-3,4-dihydropyrimidine, *see* HM-207
- Amphetamine, xenobiotic accumulation and metabolism by isolated perfused rabbit lungs, 482
- d*-Amphetamine injection, food presentation, cocaine injection or, in squirrel monkey, comparable behavior maintained under fixed-ratio and second-order schedules of, 18
- Analgesic properties of Δ^9 -tetrahydrocannabinol, 646
- Analgesic receptor-antagonist interaction, morphine-induced alteration, 261
- Analog(s)
- chlorinated, of hycanthone, effects on hepatic microsomes, 416
 - chloroindazole, of hycanthone, antischistosomal activity in mice infected with *Schistosoma mansoni*, 402
 - indazole, of lucanthone and hycanthone, interaction with closed circular duplex deoxyribonucleic acid, 385
 - (15*S*)-15-methyl, of prostaglandins E₂ and F_{2 α} , biological activity, 67
 - of dichloroisoproterenol, *beta* receptor blocking properties, 123
 - of hycanthone, as frameshift mutagens, 390
 - of hycanthone, effect on levels and uptake of 5-hydroxytryptamine in *Schistosoma mansoni*, 408
 - of hycanthone (IA-4), cytogenetic evaluation in rat bone marrow, 399
- Anderson, M. W., *see* Orton, T. C., 482
- Anesthetics, local, effect on pharmacologic receptor systems of smooth muscle, 44
- Aniline
- metabolism in malnourished monkeys, 441
 - xenobiotic accumulation and metabolism by isolated perfused rabbit lungs, 482
- Anoxia, effect on removal of 5-hydroxytryptamine and norepinephrine by rabbit lung, 498
- Antagonist-analgesic receptor interaction, morphine-induced alteration, 261
- Anticonvulsant effects
- of diphenylbarbituric acid, phenobarbital and diphenylhydantoin in mouse, 315
 - metabolism and, of primidone in rat, 305
- Antidiarrheal agent (CI-750), 183

- Anti-edema properties of Δ^9 -tetrahydrocannabinol, 646
- Antischistosomal activity, of chloroindazole analog of hycanthone in mice infected with *Schistosoma mansoni*, 402
- Antischistosomal drugs
 comparison of hycanthone, some hycanthone analogs, myxin and 4-nitroquinoline-1-oxide as frameshift mutagens, 390
 cytogenetic evaluation of IA-4 and niridazole in rat bone marrow, 399
 effect of hycanthone and analogs on levels and uptake of 5-hydroxytryptamine in *Schistosoma mansoni*, 408
 effect of hycanthone and chlorinated analogs on hepatic microsomes, 416
 hycanthone-induced hepatic changes in mice infected with *Schistosoma mansoni*, 430
 interaction of indazole analogs of lucanthone and hycanthone with closed circular duplex deoxyribonucleic acid, 385
 transformation of Rauscher virus-infected cell cultures after treatment with hycanthone and lucanthone, 425
- Aorta
 rabbit, ^3H -phenoxybenzamine α adrenergic receptor protection and tissue binding in, 100
 rat, contractile responses, effects of tetracaine and lidocaine, 44
- Aspirin, anti-edema and analgesic properties, comparison with Δ^9 -tetrahydrocannabinol, 646
- Atkinson, A. J., Jr., *see* Blumer, J., 31
- Atria, rabbit, isolated, transmembrane potential and contractility, influence of cadmium ions, 60
- Atrioventricular node preparation, cross-circulated, canine, dromotropic effects of optical isomers of β blockers on, 145
- Axelrod, J.
see Brownstein, M., 109
see Saavedra, J. M., 508
- Bacteriophage PM2, deoxyribonucleic acid, effects of indazole analogs of lucanthone and hycanthone on, 385
- Barbital narcosis, brain γ -aminobutyric acid and, reduction during ethanol withdrawal, 625
