FROM STANDARD EUROPEAN MAKERS

THE FIRM OF

CARL ZEISS, JENA

Publish catalogues and pamphlets of unusual scientific interest and value. Scientists in the United States may secure these publications from us promptly at all times with additional information as to the various products of the Zeiss works. The latest and most important of these publications are as follows:

**MICROSCOPES AND ACCESSORIES**

- Mikro 184. Catalogue of Microscopes and Accessories.  
Mikro 221. Pamphlet on Crystallization Microscope after Lehmann.  
Mikro 227-231. Pamphlets on Ultra-microscopy and Dark-ground Illumination Apparatus.  
Mikro 236. Pamphlet on Large Microscope Stand IS.  
Mikro 259. Pamphlet on New Laboratory Microscope Stand V.  
Mikro 263. Pamphlet on Microscopic Apparatus for Examination of Lamp Filaments.  
Mikro 306. Pamphlet on Siedentopf's Cardioid-Ultramicroscope.  
Mikro 308. Pamphlet on Notes on Choice of Ultra-microscopic Apparatus.  
Mikro 270. Large Dissecting Microscope after Prof. P. Mayer.

**PROJECTION AND PHOTO-MICROGRAPHIC.**

- Mikro 264. Catalogue of Photo-micrographic Apparatus.  
Mikro 239. Catalogue of Large Projection Apparatus.  
Mikro 59. Pamphlet on Outfits for Photo-micrography of Metals.  
Mikro 170. Pamphlet on Photo-micrographic Outfit for Ultra-violet Light.  
Mikro 182. Pamphlet on Double Projection Apparatus.  
Mikro 189. Pamphlet on Projection Microscope for Low Magnifications.  
Mikro 265. Pamphlet on Apparatus for the Projection of Spectra.  
Mikro 234. Supplement to Mikro 170.  
Mikro 235. Pamphlet on Apparatus for the Projection of Experiments with Polarized Light.  
Mikro 237. Pamphlet on Bibliography of Microscopic Experiments with Ultra-violet Light.

- Mikro 238. Pamphlet on Horizontal Vertical Camera.  
Mikro 242. Pamphlet on Projection Polariscope.  
Mikro 243. Pamphlet on Epidiascope for Projection of Opaque Objects, Microscopic Objects and Lantern Slides.  
Mikro 255. Pamphlet on Projection Drawing Apparatus after Grell.  
Mikro 257. Pamphlet on Drüner's Stereoscopic Camera.  
Mikro 265. Pamphlet on Projection Screens with Metallic Surface.  
Mikro 267. Apparatus for the Projection of Interference and Diffraction.  
Mikro 268. Apparatus for the Observation and Projection of Liquid Crystals.

**OPTICAL MEASURING INSTRUMENTS.**

- Mess. 160. Catalogue of Optical Measuring Instruments.  
Mess. 83. Pamphlet on Pulfrich Stereo-Comparator.  
Mess. 106. Pamphlet on Ackerman's Calculating Disc for Use with Dipping Refractometer.  
Mess. 121, 143 and 178. Pamphlets on Bibliography of Refractometrical Literature.  
Mess. 140. Pamphlet on Model "D" Stereo-Comparator.  
Mess. 146. Pamphlet on Stereometer after Pulfrich.  
Mess. 148. Pamphlet on Comparison and Hand Spectroscopes.  
Mess. 152. Pamphlet on Micrometer Microscopes.  
Mess. 153. Pamphlet on Autocollimation Spectroscope for Visible and Ultra-violet Light.  
Mess. 165. Pamphlet on Dipping Refractometer.  
Mess. 172. Pamphlet on Abbe Refractometer.  
Mess. 173. Pamphlet on Butter Refractometer.  
Mess. 174. Pamphlet on Zeiss Stereoscope.  
Mess. 188. Pamphlet on Pulfrich Refractometer.  
Mess. 191. Pamphlet on Pulfrich Photo Theodolite.

All prices in Marks are net at Zeiss works, Jena. Prices in U. S. currency, F. O. B. Philadelphia, boxing and all charges included, are obtained by applying the rate of 25 cents per Mark for duty free importation and 36 cents per Mark for duty paid importation.

Importation through our medium saves time, trouble and expense
