

INDEX TO VOLUME XX

Abel, John J., and Rouiller, Charles A. Evaluation of the hormone of the infundibulum of the pituitary gland in terms of histamine, with experiments on the action of repeated injections of the hormone on the blood pressure.....	65
Absorption, The, of histamine from the intestine.....	45
Acridine dyes in experimental tuberculosis, An investigation into the chemotherapy of the.....	419
Adrenal glands, Influence of arsphenamine and neoarsphenamine on the epinephrine content of the.....	153
— glands, The importance of, in the action of pilocarpine, physostigmine and strychnine.....	405
Adrenalin, Effect of, and extracts of pancreas and liver on blood dextrose..	121
Alcohol in human blood and urine, The comparative concentrations of, at intervals after ingestion.....	265
Alkaline solution, The ability of an, to influence the amount of stainable lipid material that appears in the kidney following the use of a general anesthetic.....	365
“Arsenic,” The so-called habituation to: variation in the toxicity of arsenious oxide.....	181
Arsenicals, Effect of ligation of the ureters or bile duct upon the toxicity and trypanocidal action of.....	129
—, Rate of excretion of, a factor governing toxicity and parasiticidal action.....	85
Arsenious oxide, toxicity of, The so-called habituation to “arsenic”: variation in the.....	181
Arsphenamine, A study of the colloidal properties of, and allied products..	163
—, Influence of, and neoarsphenamine on the epinephrine content of the adrenal glands.....	153
Barium, Studies on the action of.....	247
Basterfield, Steward. The pharmacological properties of some iso-urea derivatives.....	451
Bile duct, Effect of ligation of the ureters or, upon the toxicity and trypanocidal action of arsenicals.....	129
Biologic test, Straub, The mechanism of the, for morphine.....	107
Blackhead in turkeys, Ipecac in the treatment of.....	115
Blood and urine, human, The comparative concentrations of alcohol in, at intervals after ingestion.....	265
— dextrose, Effect of adrenalin and extracts of pancreas and liver on....	121
— pressure, Evaluation of the hormone of the (infundibulum of the pituitary gland in terms of histamine, with experiments on the action of repeated injections of the hormone on the.....	65
Butylamins, normal, Toxicity and actions of the.....	435

- Chemical method, A, of assaying the active principles of digitalis..... 205
- Chemotherapy of the acridine dyes in experimental tuberculosis, An investigation into the..... 419
- , Quantitative studies in..... 85,129
- Circulation, Respiration and, The influence of sodium citrate on..... 481
- Cobra venom, Cumulative action of..... 233
- Colloidal properties of arsphenamine and allied products, A study of the... 163
- Colloids, On the influence of, on the action of non-colloidal drugs..... 1
- Content, epinephrine, Influence of arsphenamine and neoarsphenamine on the, of the adrenal glands..... 153
- Cumulative action of cobra venom..... 233
- Cushny, Arthur R. Cumulative action of cobra venom..... 233
- Cutting, R. A., and Tatum, A. L. The action of quinine on sugar mobilization with its bearing on the question of glycogenolysis..... 393
- Davis, Lloyd H., and Ross, Ellison L. Effect of adrenalin and extracts of pancreas and liver on blood dextrose..... 121
- Dextrose, blood, Effect of adrenalin and extracts of pancreas and liver on.. 121
- Digestive tracts, frogs; the effect of epinephrine on excised strips..... 321
- Digitalis, A chemical method of assaying the active principles of..... 205
- Dog, The action of morphine on the vomiting center in the..... 359
- Dresbach, Melvin, and Knudson, Arthur. A chemical method of assaying the active principles of digitalis..... 205
- Drugs, non-colloidal, On the influence of colloids on the action of..... 1
- Dyer, Helen A., Voegtlin, Carl, and Miller, Dorothy Wright. Quantitative studies in chemotherapy. VII. Effect of ligation of the ureters or bile duct upon the toxicity and trypanocidal action of arsenicals..... 129
- Dyes, acridine, in experimental tuberculosis, An investigation into the chemotherapy of the..... 419
- Edmunds, Charles W. The importance of the adrenal glands in the action of pilocarpine, physostigmine and strychnine..... 405
- Epinephrine content, Influence of arsphenamine and neoarsphenamine on the, of the adrenal glands..... 153
- , The effect of, on excised strips of frogs' digestive tracts..... 321
- Excretion of arsenicals, Rate of, a factor governing toxicity and parasiticidal action..... 85
- Experimental tuberculosis, An investigation into the chemotherapy of the acridine dyes in..... 419
- Frogs' digestive tracts, The effect of epinephrine on excised strips of..... 321
- Gavron, Joseph L., and Raiziss, George W. A study of the colloidal properties of arsphenamine and allied products..... 163
- Gibbs, O. S. The œdema of para-phenylenediamine..... 221
- Gland, pituitary, Evaluation of the hormone of the infundibulum of the, in terms of histamine, with experiments on the action of repeated injections of the hormone on the blood pressure..... 65

Glands, adrenal, Influence of arsphenamine and neoarsphenamine on the epinephrine content of the.....	153
—, adrenal, The importance of, in the action of pilocarpine, physostigmine and strychnine.....	405
Glycogenolysis, The action of quinine on sugar mobilization with its bearing on the question of.....	393
Graybill, H. W. Ipecac in the treatment of blackhead in turkeys.....	115
Gruber, Charles M. The effect of epinephrine on excised strips of frogs' digestive tracts.....	321
Hanzlik, P. J. The comparative stimulant efficiency of some local and systemic agents on normal and depressed respiration, and irritant efficiency of some agents.....	463
—, Toxicity and actions of the normal butylamins.....	435
Hardikar, S. W. On rhododendron poisoning.....	17
Harington, Charles Robert, and Meakins, Jonathan. The relation of histamine to intestinal intoxication. II. The absorption of histamine from the intestine.....	45
Heinekamp, W. J. R. The mechanism of the Straub biologic test for morphine.....	107
Histamine, Evaluation of the hormone of the infundibulum of the pituitary gland in terms of, with experiments on the action of repeated injections of the hormone on the blood pressure.....	65
—, The relation of, to intestinal intoxication.....	45
Hormone, Evaluation of the, of the infundibulum of the pituitary gland in terms of histamine, with experiments on the action of repeated injections of the hormone on the blood pressure.....	65
Human blood and urine, The comparative concentrations of alcohol in, at intervals after ingestion.....	265
Hyperglycemia, Picrotoxin.....	385
Infundibulum, Evaluation of the hormone of the, of the pituitary gland in terms of histamine, with experiments on the action of repeated injections of the hormone on the blood pressure.....	65
Injections, Evaluation of the hormone of the infundibulum of the pituitary gland in terms of histamine, with experiments on the action of repeated, of the hormone on the blood pressure.....	65
Intestinal intoxication, The relation of histamine to.....	45
Intestine, The absorption of histamine from the.....	45
Intoxication, intestinal, The relation of histamine to.....	45
Ipecac in the treatment of blackhead in turkeys.....	115
Iso-urea derivatives, The pharmacological properties of some.....	451
Kidney following the use of a general anesthetic, The ability of an alkaline solution to influence the amount of stainable lipoid material that appears in the.....	365
Kleitman, Nathaniel, and Salant, William. Studies on the action of barium.....	247
—, and Salant, William. Studies on the pharmacology of sodium citrate. I. The influence of sodium citrate on respiration and circulation.....	481

- Knudson, Arthur, and Dresbach, Melvin. A chemical method of assaying the active principles of digitalis. 205
- Kolmer, John A., Lucke, Baldwin, and McCouch, Grayson P. Influence of arsphenamine and neoarsphenamine on the epinephrine content of the adrenal glands. 153
- Leake, Chauncey D. The action of morphine on the vomiting center in the dog. 359
- Lecithin, A further analysis of the augmentor effect of, on the action of pilocarpine. 13
- Lipoid material, stainable, The ability of an alkaline solution to influence the amount of, that appears in the kidney following the use of a general anesthetic. 365
- Liver, Effect of adrenalin and extracts of pancreas and, on blood dextrose. . 121
- Lucke, Baldwin, Kolmer, John A., and McCouch, Grayson P. Influence of arsphenamine and neoarsphenamine on the epinephrine content of the adrenal glands. 153
- MacNider, Wm. deB. Naturally nephropathic animals. The ability of an alkaline solution to influence the amount of stainable lipoid material that appears in the kidney following the use of a general anesthetic. . . . 365
- McCouch, Grayson P., Lucke, Baldwin, and Kolmer, John A. Influence of arsphenamine and neoarsphenamine on the epinephrine content of the adrenal glands. 153
- Meakins, Jonathan, and Harington, Charles Robert. The relation of histamine to intestinal intoxication. II. The absorption of histamine from the intestine. 45
- Miles, Walter R. The comparative concentrations of alcohol in human blood and urine at intervals after ingestion. 265
- Miller, Dorothy Wright, Dyer, Helen A., and Voegtlin, Carl. Quantitative studies in chemotherapy. VII. Effect of ligation of the ureters or bile duct upon the toxicity and trypanocidal action of arsenicals. 129
- Morphine, The action of, on the vomiting center in the dog. 359
- , The mechanism of the Straub biologic test for. 1
- Neoarsphenamine, Influence of arsphenamine and, on the epinephrine content of the adrenal glands. 153
- Nephropathic animals, Naturally. 365
- Edema, The, of para-phenylenediamine. 221
- Oxide, arsenious, toxicity of, The so-called habituation to "arsenic": variation in the. 181
- Pancreas, Effect of adrenalin and extracts of, and liver on blood dextrose. . . 121
- Para-phenylenediamine, The œdema of. 221
- Parasitocidal action, Rate of excretion of arsenicals, a factor governing toxicity and. 85
- Pharmacological properties of some iso-urea derivatives, The. 451

Pharmacology of sodium citrate, Studies on the.....	481
Physostigmine, pilocarpine and strychnine, The importance of the adrenal glands in the action of.....	405
Picrotoxin hyperglycemia.....	385
Pilocarpine, A further analysis of the augmentor effect of lecithin on the action of.....	1
—, physostigmine and strychnine, The importance of the adrenal glands in the action of.....	405
Pituitary gland, Evaluation of the hormone of the infundibulum of the, in terms of histamine, with experiments on the action of repeated injections of the hormone on the blood pressure.....	65
Poisoning, rhododendron, On.....	17
Pressure, blood, Evaluation of the hormone of the infundibulum of the pituitary gland in terms of histamine, with experiments on the action of repeated injections of the hormone on the.....	65
Quinine, The action of, on sugar mobilization with its bearing on the question of glycogenolysis.....	393
Raiziss, George W., and Gavron, Joseph L. A study of the colloidal properties of arsphenamine and allied products.....	163
Respiration and circulation, The influence of sodium citrate on.....	481
—, normal and depressed, The comparative stimulant efficiency of some local and systemic agents on, and irritant efficiency of some agents.....	463
Rhododendron poisoning, On.....	17
Ross, Ellison L., and Davis, Lloyd H. Effect of adrenalin and extracts of pancreas and liver on blood dextrose.....	121
Rouiller, Charles A., and Abel, John J. Evaluation of the hormone of the infundibulum of the pituitary gland in terms of histamine, with experiments on the action of repeated injections of the hormone on the blood pressure.....	65
Salant, William, and Kleitman, Nathaniel. Studies on the action of barium.....	247
—, and Kleitman, Nathaniel. Studies on the pharmacology of sodium citrate. I. The influence of sodium citrate on respiration and circulation.....	481
Schwartz, Erich W. The so-called habituation to "arsenic": variation in the toxicity of arsenious oxide.....	181
Smith, Maurice I. An investigation into the chemotherapy of the acridine dyes in experimental tuberculosis.....	419
Sodium citrate, Studies on the pharmacology of.....	481
— citrate, The influence of, on respiration and circulation.....	481
Storm van Leeuwen, W., and v. Szent Györgyi, A. On the further influence of colloids on the action of non-colloidal drugs. V. A further analysis of the augmentor effect of lecithin on the action of pilocarpine.....	1
Straub biologic test, The mechanism of the, for morphine.....	107
Strychnine, pilocarpine and physostigmine, The importance of the adrenal glands in the action of.....	405
Studies on the action of barium.....	247

Studies on the pharmacology of sodium citrate.....	481
Sugar mobilization, The action of quinine on, with its bearing on the question of glycogenolysis.....	393
Tatum, Arthur L. Pierotoxin hyperglycemia.....	385
—, and Cutting, R. A. The action of quinine on sugar mobilization with its bearing on the question of glycogenolysis.....	393
Thompson, J. W., and Voegtlin, Carl. Quantitative studies in chemotherapy. VI. Rate of excretion of arsenicals, a factor governing toxicity and parasiticial action.....	85
Toxicity and actions of the normal butylamins.....	435
—, Effect of ligation of the ureters or bile duct upon the, and trypanocidal, action of arsenicals.....	129
—, of arsenious oxide, The so-called habituation to "arsenic": variation in the.....	181
—, Rate of excretion of arsenicals, a factor governing, and parasiticial action.....	85
Trypanocidal action, Effect of ligation of the ureters or bile duct upon the toxicity and, of arsenicals.....	129
Tuberculosis, experimental, An investigation into the chemotherapy of the acridine dyes in.....	419
Turkeys, Ipecac in the treatment of blackhead in.....	115
Ureters, Effect of ligation of the, or bile duct upon the toxicity and trypanocidal action of arsenicals.....	129
Urine, human blood and, The comparative concentrations of alcohol in, at intervals after ingestion.....	265
Voegtlin, Carl, and Thompson, J. W. Quantitative studies in chemotherapy. VI. Rate of excretion of arsenicals, a factor governing toxicity and parasiticial action.....	85
—, Dyer, Helen A., and Miller, Dorothy Wright. Quantitative studies in chemotherapy. VII. Effect of ligation of the ureters or bile duct upon the toxicity and trypanocidal action of arsenicals.....	129
Vomiting center in the dog, The action of morphine on the.....	359
v. Szent Györgyi, A., and Storm van Leeuwen, W. On the influence of colloids on the action of non-colloidal drugs. V. A further analysis of the augmentor effect of lecithin on the action of pilocarpine.....	1
