Attention:
Biomedical Researchers

**FUNDING HELP
OFFERED**

We represent major pharmaceutical companies willing, under certain circumstances, to provide three kinds of funding for promising biomedical innovations:

- 1) **Development funding.** Provided in return for an option to purchase or right of first refusal.
- 2) **Marketing funding.** Provided under a suitable licensing/royalty agreement.
- 3) **Venture capital.** Provided under highly selective, special conditions.

PRI serves as a clearing house for these companies, evaluating innovations on their behalf and recommending those we consider worthy of action. The companies pay our fees; *there are no fees charged to innovation sources.*

For full details, please write Marion A. Gold, Product Resources International, Inc., 800 Third Avenue, New York, New York 10022. Make no disclosures (except for issued patents) until you have read the material.

KEEPING CURRENT

... is it important to you?

Three journals that guarantee you'll be told what's happening NOW in pharmacology, physiology, and biochemistry.

PHARMACOLOGICAL REVIEWS

An Official Publication of the American Society for Pharmacology and Experimental Therapeutics, Inc.

Editor: Paul L. Munson, Ph.D., School of Medicine, University of North Carolina

Pharmacological Reviews is a showcase journal for ideas that would otherwise be buried in the mass of pharmacological literature. Important review papers on the current status of a given topic are allotted plenty of space (from 10 to 40 pages) to exhaustively cover that topic. A fine balance is achieved in these articles, which are written in a clear, simple and concise fashion so as to be intelligible to non-specialists, yet are precise and detailed enough to be of great interest to experts in the field.

At various times, *Pharmacological Reviews* has addressed such subjects as biochemical and cellular pharmacology, drug metabolism and disposition, renal pharmacology, neuropharmacology, behavioral pharmacology, clinical pharmacology, and toxicology. Designed specifically as a medium through which those interested in these topics can communicate directly, *Pharmacological Reviews* serves the entire pharmacological community and is vital reading for physiologists, pharmacologists, and biological chemists.

THE JOURNAL OF PHARMACOLOGY AND EXPERIMENTAL THERAPEUTICS

An Official Publication of the American Society for Pharmacology and Experimental Therapeutics, Inc.

Editor: Eva King Killam, Ph.D., School of Medicine, University of California at Davis

Founded by John J. Abel in 1909, this is one of the oldest and most prestigious journals in scientific research. Publishing original articles on all aspects of the interactions of chemical and biological systems by some of the best known authors in the field, *The Journal of Pharmacology and Experimental Therapeutics* is practically a necessity for the specialist in either research or applied physiology.

You'll find full coverage of the biochemical and cellular aspects of pharmacology; renal, pulmonary, gastrointestinal, and cardiovascular pharmacology; drug metabolism and disposition, analgesia and drug abuse, and toxicology; autonomic pharmacology; behavioral effects; and, finally, chemotherapy and immunopharmacology. Each issue of this monthly periodical averages over 200 pages and presents the very best in research for the physiologist and pharmacologist.

DRUG METABOLISM AND DISPOSITION: the biological fate of chemicals

An Official Publication of the American Society for Pharmacology and Experimental Therapeutics, Inc.

Editor: Kenneth C. Leibman, Ph.D., University of Florida Medical School

The clinical, academic, or research professional will find *Drug Metabolism and Disposition* an essential medium for the rapid communication of research findings in this field. The journal reports on the fate of drugs, toxicants, and environmental and industrial chemicals in vivo and in vitro. Specific areas of interest include pathways and mechanisms of absorption, distribution, metabolism, and excretion of foreign compounds; relationships between chemical and physical properties of compounds and their metabolism and disposition; biological and pharmacological control of these variables, and methodology for their study. Research reports and documentation, comments on current literature, and letters to the editor, previews, and announcements of interest to you round out this journal.

Please enter my new subscription to the journals checked below. (I understand that payment must be received before my subscription can begin.)

Pharmacological Reviews (quarterly)

- Personal: \$20.00/yr.
- Institutional: \$25.00/yr.
- In-training: \$14.00/yr.
- Foreign: add \$5.00/yr.

The Journal of Pharmacology and Experimental Therapeutics (monthly)

- Personal: \$100.00/yr.
- Institutional: \$120.00/yr.
- Foreign: add \$20.00/yr.

Drug Metabolism and Disposition: the biological fate of chemicals (bimonthly)

- Personal: \$40.00/yr.
- Institutional: \$58.00/yr.
- Foreign: add \$5.00/yr.

(In-training rates apply to residents, fellows, interns, and students. When requesting this rate, which is limited to three years, please give training status and name of institution.)

Members of the American Society for Pharmacology and Experimental Therapeutics should order subscriptions to the official society journals through the American Society for Pharmacology and Experimental Therapeutics, 9650 Rockville Pike, Bethesda, MD 20014
