

# INDEX

Volume 219, October–December, 1981

- Abuchowski, A., Karp, D. and Davis, F. F.: Reduction of plasma urate levels in the cockerel with polyethylene glycol-uricase, 352
- Acetaminophen  
and its metabolites, tissue levels after toxic dose (mice), 281  
elimination, nonlinear kinetics (rats), 14  
internal standard for calibrating *in vivo* electrochemical electrodes in brain (rats), 49  
metabolism, prostaglandin endoperoxide synthetase renal cooxidation of (rabbits), 659  
*sn*-2-Acetylated choline phospholipids, hypotensive effect (rats), 219
- Acetylcholine  
brain, turnover rate, effect of pentobarbital (rats), 489  
effect on response and sensitivity of lung parenchymal strips (guinea pigs), 1  
release, involvement in inhibitory effect of morphine at choledochoduodenal junction (dogs), 274
- N-Acetylcysteine, effect on acetaminophen elimination kinetics (rats), 14
- N-Acetyltransferase rhythm, pineal, effect of lithium (rats), 121
- Acyclovir, disposition (mice, rats, dogs, monkeys), 309
- Adenosine  
receptors, evidence against presence in nictitating membrane (cats), 235  
regulation of cyclic AMP formation in spinal cord (rats), 370
- Na, K-Adenosine triphosphatase inhibition by HgCl<sub>2</sub> (fish), 428  
smooth muscle vas deferens, binding of [<sup>3</sup>H]ouabain to (guinea pigs), 163
- Na<sup>+</sup>, K<sup>+</sup>-Adenosine triphosphatase, troleandomycin induction (rats), 558
- Adenylate cyclase  
activity in atria, effect of dietary lipid on (rats), 625  
myocardial and soleus, effects of isoproterenol, prenalterol and procaterol (cats), 798
- Adrenergic blockade, *beta*, with propranolol, dosage requirements and effects on heart rate and left ventricular performance (calves), 394
- Adrenergic receptors (*see also* Adrenoceptors)  
*alpha*, in spinal cord, interaction with adenosine (rats), 370  
*alpha*, -mediated renin release is prostaglandin-dependent (dogs), 321  
*alpha* and *beta*, activities of stereoisomers of dobutamine (rats, cats), 447  
*alpha*-1 and *alpha*-2, in uterus, mediation of myometrial contraction and regulation by estrogen (rabbits), 290  
*beta*, myocardial, action of thyroid hormones (calves), 394  
pineal *beta*, effect of lithium (rats), 121  
renal *alpha*-1 and *alpha*-2, biochemical and pharmacological correlations (rats), 400
- Adrenoceptors (*see also* Adrenergic receptors)  
*alpha*-2, prejunctional function in vas deferens after ganglionic blockade (guinea pigs, rats), 21  
*alpha* and *beta* interconversion, effects of carbachol and hypothyroidism (rats), 231  
*alpha*-1 and *alpha*-2, pre- and postsynaptic, selectivity studies with yohimbine, rau-wolscine and corynanthine (dog), 540  
*beta*, interaction of full and partial agonists in heart and soleus muscle (cats), 798
- Adrenoceptor agonists, selectivity for peripheral *alpha*-1 and *alpha*-2 adrenoceptors (rats), 760
- Adrenochrome-induced coronary artery constriction in heart (rats), 225
- Agonist uptake effects, selective inhibition of (rats, guinea pigs), 112
- Aiken, J. W., Shebuski, R. J., Miller, O. V. and Gorman, R. R.: Endogenous prostacyclin contributes to the efficacy of a thromboxane synthetase inhibitor for preventing coronary artery thrombosis, 299
- $\beta$ -Alanine, inhibitory effects on cerebral cortical and Purkinje neurons (rats), 604
- Albuquerque, E. X., *see* Maleque, M. A., 638
- Aldehyde dehydrogenase, liver, inhibition by carbon tetrachloride (rats), 821
- Alkadhi, K. A., *see* Volle, R. L., 338
- Almeida, A. P., *see* Bayer, B. M., 752
- Amiloride  
inhibition and stimulation of sodium transport in skin (toads), 481  
renal tubule transport and electrolyte effects (chickens), 435
- Amino acid uptake, effect of anti-inflammatory drugs (rats), 752
- p*-Aminohippurate, transport in renal tissue, heavy metal inhibition (fish), 428
- 6-Aminomethyl-3-methyl-4H-1,2,4-benzothiadiazine - 1,1-dioxide hydrochloride, taurine antagonist, neuropharmacological characterization (rats), 604
- 4-Aminopyridine  
effects on adrenergic nerve terminals in thoracic aorta and pulmonary arteries (rabbits), 792  
effect on cyclic GMP accumulation in ganglion (rats), 338  
effects on nerve terminal action potentials (frogs), 268
- Amitriptylene, inhibitor of agonist uptake effects (rats, guinea pigs), 112
- Amphetamine, effect on release of catecholamines in brain (rats), 49
- d*-Amphetamine  
behavioral effects (monkeys), 199  
behavioral effects, comparison with *l*- and *dl*-cathinone (monkeys), 355
- Analgesia  
morphine- and  $\beta$ -endorphin-induced, possible regulatory role of dynorphin on (mice), 296  
nantradol hydrochloride (mice, rats, dogs), 363  
SKF 10,047 and morphine, effect of naloxone (rats, mice), 192
- Anesthesia, pentobarbital, role of septal-hippocampal cholinergic pathway in antagonism of (rats), 489
- Angiotensin II  
blockade, role in renal vasodilator effect of captopril (dogs), 646  
-elicited renal vasoconstrictor response, effect of arachidonic acid on (dogs), 377  
role in furosemide-induced decrease in mesenteric blood flow (dogs), 407
- Angiotensin converting enzyme, inhibition by captopril (dogs), 646
- Angus, J. A., *see* Kenakin, T. P., 474
- Antagonist, taurine, neuropharmacological characterization (rats), 604
- Antidiuretic hormone  
fluoride inhibition of hydro-osmotic response of urinary bladder to (toads), 459  
role in furosemide-induced decrease in mesenteric blood flow (dogs), 407
- Antimycin, effect on strophanthidin-induced arrhythmias and contracture in cardiac Purkinje fibers (dogs), 75
- Aorta, *alpha* and *beta* adrenergic activities of dobutamine stereoisomers (rats, cats), 447
- Apomorphine  
effect on conditioned taste aversion and schedule-controlled behavior (rats), 60  
effect on stimulation-evoked release of [<sup>3</sup>H]dopamine in retina (rabbits), 701  
-induced stereotypic behavior (mice), 695
- Arachidonic acid, actions on renal vascular reactivity (dogs), 377
- Arrhythmias, strophanthidin-induced in cardiac Purkinje fibers, effect of metabolic inhibitors (dogs), 75
- Arteries  
and veins, pulmonary, sensitized, pharmacological studies (dogs), 551  
coronary, large and small, dilating effects of trapidil, nitroglycerin and dipyridamole (dogs), 809  
pulmonary and thoracic aorta, effects of 4-aminopyridine on adrenergic nerve terminals of (rabbits), 792  
pulmonary, intralobar, effect of prostacyclin and 9a,11a-epoxymethanoprostaglandin H<sub>2</sub> on calcium and magnesium fluxes and tension development in (dogs), 326
- Artery  
cardiac smooth muscle, effect of methylene blue and methemoglobin on relationship between cyclic GMP formation and relaxation of (cows), 181

- coronary, adrenochrome-induced constriction in heart (rats), 225
- coronary, thrombosis, platelet-dependent, contribution of prostacyclin to preventive effect of thromboxane synthetase inhibitor (dogs), 299
- mesenteric, circulation, differential effects of ibuprofen and indomethacin (dogs), 679
- Arthritis, adjuvant, effect of oxonate-induced hyperuricemia on (rats), 731
- Aspirin, comparative effect on endothelial and platelet prostaglandin synthesis (man), 415
- Asthma, allergic, effects of histamine, norepinephrine and serotonin (dogs), 551
- Atrium, *alpha* and *beta* adrenergic activities of dobutamine stereoisomers (rats, cats), 447
- Atropine, stimulatory effect on morphine at choledochoduodenal junction by (dogs), 274
- Autonomic innervation, of urinary bladder, development of (rabbits), 250
- Axelsson, J. E., *see* Tam, Y. K., 141
- Azepexole, continuous infusion and sudden withdrawal, influence on blood pressure and heart rate (rats), 786
- Bacopoulos, N. G.: Antipsychotic drug effects on dopamine and serotonin receptors: *In vitro* binding and *in vivo* turnover studies, 708
- Bagwell, E. E., *see* Cordova, M. A., 187
- Bandura, J. P., *see* Iansmith, D. H. S., 651
- Barium chloride, effect on response and sensitivity of lung parenchymal strips (guinea pigs), 1
- Barker, L. A., *see* Hough, L. B., 453
- Barrett, J. E., Valentine, J. O. and Katz, J. L.: Effects of chloridazepoxide and *d*-amphetamine on responding of squirrel monkeys maintained under concurrent or second-order schedules of response-produced food or electric shock presentation, 199
- Bayer, B. M., Almeida, A. P. and Beaven, M. A.: Inhibition of the expression of the "A" system of amino acid transport by anti-inflammatory drugs during cell culture growth and mitogenic stimulation of thymus lymphocytes, 752
- Beamish, R. E., *see* Karmazyn, M., 225
- Beaven, M. A., *see* Bayer, B. M., 752
- Beckett, W., *see* Feigen, L. P., 679
- Beek, D., *see* Kenakin, T. P., 112
- Beer, D. G., *see* Hjelle, J. J., 821
- Behavior
- conditioned taste aversion and operant, effects of cocaine, apomorphine, diisobutyl-apomorphine and Win 35,428 (rats), 60
  - effects of indolealkylamine and phenethylamine hallucinogens, antagonism by metergoline (rats), 170
  - effects of nantadol hydrochloride (mice, rats, dogs), 363
  - schedule-controlled and operant, effects of chlordiazepoxide and *d*-amphetamine on (monkeys), 199
  - schedule-controlled drug-maintained responding, comparison of *l*- and *dl*-cathinone and *d*-amphetamine (monkeys), 355
  - schedule-controlled, effects of morphine and enkephalins (rats), 344
  - stereotypic, apomorphine-induced (mice), 695
  - use of tail-flick method to measure morphine- and  $\beta$ -endorphin analgesia (mice), 296
- Bellville, J. W., *see* Kaufman, R. D., 156
- Bend, J. R., *see* Elmamlouk, T. H., 27
- Bend, J. R., *see* Steele, J. W., 35
- Benos, D. J. and Watthey, J. W. H.: Inferences on the nature of the apical sodium entry site in frog skin epithelium, 481
- Bessegghir, K. and Rennick, B.: Renal tubule transport and electrolyte effects of amiloride in the chicken, 435
- Bethanechol, effect on cyclic GMP accumulation in ganglion (rats), 338
- B-HT 920, selectivity for peripheral *alpha*-1 and *alpha*-2 adrenoceptors (rats), 760
- B-HT 933, selectivity for peripheral *alpha*-1 and *alpha*-2 adrenoceptors (rats), 760
- Bhattacharyya, M. L. and Vassalle, M.: The effect of metabolic inhibitors on strophanthidin-induced arrhythmias and contracture in cardiac Purkinje fibers, 75
- Bianchi, R. G., *see* Gullikson, E. Z., 591
- Bicarbonate, reabsorption in renal tubule, effect of ethacrynic acid (dogs), 505
- Bicuculline
- effect on metabolism of acetylcholine (rats), 489
  - effect on taurine-induced hypothermia (rabbits), 778
- Bile
- excretion of [2,4-<sup>14</sup>C]dinitrotoluene in isolated perfused liver (rats), 598
  - excretion of retinamide (rats), 632
  - secretion, effect of troleandomycin (rats), 558
- Bile salt synthesis, troleandomycin inhibition (rats), 558
- Biotransformation, of acyclovir (mice, rats, dogs, monkeys), 309
- Benzimidazole, effect on sodium transport in skin (toads), 481
- Bladder
- microsomal nitroreductase activity (rabbits), 735
  - urinary, development of autonomic innervation and contractile response of (rabbits), 250
  - urinary, hydro-osmotic response to antidiuretic hormone, fluoride inhibition (toads), 459
- Blanford, M., *see* Lima, J. J., 741
- Bleomycin-induced pulmonary fibrosis, increased lysyl oxidase activity in lung during (rats), 675
- Bloch, R., *see* Bousquet, P., 213
- Blood flow
- mesenteric, role of volume depletion, antidiuretic hormone and angiotensin II in furosemide-induced decrease in (dogs), 407
  - renal, effect of captopril (dogs), 646
  - renal, effects of ibuprofen and indomethacin (dogs), 679
- Blood pressure
- aortic, effects of ibuprofen and indomethacin (dogs), 679
  - effect of azepexole (rats), 786
  - effects of taurine, homotaurine and muscimol (cats), 213
- Blood vessels, pulmonary, sensitized, pharmacological studies (dogs), 551
- Bluestone, R., *see* Chang, Y.-H., 731
- Bond, J. A., Medinsky, M. A., Dent, J. G. and Rickert, D. E.: Sex-dependent metabolism and biliary excretion of [2,4-<sup>14</sup>C]dinitrotoluene in isolated perfused rat livers, 598
- Boudoulas, H., *see* Lima, J. J., 741
- Bousquet, P., Feldman, J., Bloch, R. and Schwartz, J.: Central cardiovascular effects of taurine: Comparison with homotaurine and muscimol, 213
- Boyd, J. A. and Eling, T. E.: Prostaglandin endoperoxide synthetase-dependent cooxidation of acetaminophen to intermediates which covalently bind *in vitro* to rabbit renal medullary microsomes, 659
- Brady, L. S. and Holtzman, S. G.: Effects of intraventricular morphine and enkephalins on schedule-controlled behavior in nondependent, morphine-dependent and postdependent rats, 344
- Bradycardia, effects of N,N-di-n-propyl-dopamine (rats, dogs), 510
- Brain
- N-acetyltransferase rhythm, effect of lithium (rats), 121
  - effects of haloperidol and butaclamol on [<sup>3</sup>H]spiroperidol binding and dopamine and serotonin turnover in (rats), 708
  - effect of heparin or salicylate acid on phenytoin in (rats), 42
  - electrochemical electrodes, calibration by acetaminophen (rats), 49
  - histamine H<sub>2</sub>-receptors, antagonism by propantheline and derivatives (guinea pigs), 453
  - interaction between impulse-flow and  $\Delta^3$ -tetrahydrocannabinol within septal-hippocampal cholinergic pathway of (rats), 580
  - mesencephalic reticular formation, effects of cyclic AMP, morphine and methionine-enkephalin on neuronal firing in (rats), 496
  - Purkinje neurons, electrophysiological response to leukotriene D<sub>4</sub> and B<sub>4</sub> (guinea pigs, rats), 91
  - serotonin, role in maintenance of plasma renin activity (rats), 85
  - serotonin system and taurine-induced hypothermia (rabbits), 778
- Breast milk levels, effect of valproic acid (man), 768
- Bretylium, inhibition of release of norepinephrine in spleen (cats), 748
- Brink, C., Duncan, P. G. and Douglas, J. S.: The lung parenchymal strip: A reappraisal, 1
- Bromobenzene, epoxidation leading to binding on macromolecular protein sites (rats), 563
- Bromocriptine, effect on aging and regulation of striatal dopaminergic mechanisms (mice), 695
- 2-Bromooctanoate, effect on *p*-nitroanisole O-demethylation in isolated perfused liver (rats), 383
- Brunello, N. and Cheney, D. L.: The septal-hippocampal cholinergic pathway: Role in antagonism of pentobarbital anesthesia and regulation by various afferents, 489
- Burley, E. S. and Jacobs, R. S.: Effects of 4-aminopyridine on nerve terminal action potentials, 268
- Butaclamol, effect on [<sup>3</sup>H]spiroperidol binding and dopamine and serotonin turnover in brain (rats), 708
- <sup>45</sup>Ca, uptake and cyclic GMP accumulation in ganglion, effect of preganglionic nerve stimulation (rats), 338
- Ca<sup>++</sup>-dependent action potentials in potassium-depolarized ac-

- tion potentials, effects of paverine (guinea pig), 715
- Ca<sup>++</sup> release, from sarcoplasmic reticulum, prilocaine-induced (frogs), 815
- Cadmium, inhibition of *p*-aminohippurate transport in renal tissue (fish), 428
- Calcium
- fluxes, in intralobar pulmonary arteries and veins, effect of prostacyclin and 9 $\alpha$ ,11 $\alpha$ -epoxymethanoprostaglandin H<sub>2</sub> on (dogs), 326
  - mediated phosphodiesterase activity, relationship to hydro-osmotic actions of antidiuretic hormone, effects of fluoride (toads), 459
  - metabolism, role in responses of malignant hyperthermia (pigs), 107
- Calcium channels, in skeletal muscle, effects of ryanodine (crabs), 526
- Calmodulin-mediated phosphodiesterase activity, relationship to hydro-osmotic actions of antidiuretic hormone, effects of fluoride (toads), 459
- Captopril
- long-term effects on cellular sodium content and mechanical properties of aortic smooth muscle (rats), 520
  - pharmacological evaluation of factors involved in renal vasodilator effects of (dogs), 646
- Carbachol, effect on cardiac responsiveness to  $\alpha$  and  $\beta$  adrenergic amines (rats), 231
- Carbon tetrachloride, inhibition of liver aldehyde dehydrogenase by (rats), 821
- Carbonic anhydrase activity, renal, effect of ethacrynic acid (dogs), 505
- Cardiovascular effects, central, of taurine, comparison with homotaurine and muscimol (cats), 213
- l*- and *dl*-Cathinone, behavioral effects, comparison with *d*-amphetamine (monkeys), 355
- Carla, V., *see* Sgaragli, G., 778
- Carroll-Buatti, M., *see* Pasternak, G. W., 192
- Catecholamines (*see also* specific name)
- in brain, effect of amphetamine on release (rats), 49
- Cathepsin D, percentage bound in myocardial ischemia, effect of ZK 36 374 (cats), 243
- Cavero, I., Lefèvre-Borg, F. and Gomeni, R.: Heart rate lowering effects of N,N-di-*n*-propyl-dopamine in rats: Evidence for stimulation of central dopamine receptors leading to inhibition of sympathetic tone and enhancement of parasympathetic outflow, 510
- Cell culture growth, inhibition of
- amino acid transport by anti-inflammatory drugs during (rats), 752
- Cerebrospinal fluid, effect of heparin or salicylate acid on phenytoin in (rats), 42
- CGS 4270, effect on sodium transport in skin (toads), 481
- Chang, J.-K., *see* Tulunay, F. C., 296
- Chang, Y.-H. and Bluestone, R.: Adjuvant polyarthritis. VI. Effect of oxonate-induced hyperuricemia on the development of acute inflammation, immune response and adjuvant arthritis, 731
- Chausmer, A. B., *see* Nelson, T. E., 107
- Cheney, D. L., *see* Brunello, N., 489
- Chloramphenicol succinate, pharmacokinetics (monkeys), 316
- Chlordiazepoxide, behavioral effects (monkeys), 199
- Chloride, reabsorption in renal tubule, effect of ethacrynic acid (dogs), 505
- Chlorisondamine, effect on prejunctional adrenoceptor function (guinea pigs, rats), 21
- p*-Chloroamphetamine, effect on corticosterone secretion (rats), 85
- p*-Chlorophenylalanine, effect on serotonin contents in brain and taurine-induced hypothermia (rabbits), 778
- Chlorpromazine, inhibition of deoxycholate-induced secretion of intestinal fluid (dogs), 591
- Choledochoduodenal junction, dual effect of morphine at (dogs), 274
- Cholesterol 7 $\alpha$ -hydroxylase, troleandomycin inhibition (rats), 558
- Chou, R. C. and Levy, G.: Effect of heparin or salicylate infusion on serum protein binding and on concentrations of phenytoin in serum, brain and cerebrospinal fluid of rats, 42
- Chu, B. C. F. and Howell, S. B.: Pharmacological and therapeutic properties of carrier bound methotrexate against tumor confined to a third space body compartment, 389
- Chymotrypsin, effect on SKF 10,047 binding (rats, mice), 192
- Cirazoline, selectivity for peripheral  $\alpha$ -1 and  $\alpha$ -2 adrenoceptors (rats), 760
- Circadian rhythm, pineal N-acetyltransferase, effect of lithium (rats), 121
- Clearance
- renal, of digoxin, effect of volume expansion and furosemide diuresis (dogs), 54
  - renal, of zomepirac (monkeys), 665
- Clonidine, histamine-like effects (guinea pigs, rabbits), 474
- Cocaine, effect on conditioned taste aversion and schedule-controlled behavior (rats), 60
- Colasanti, B. K., *see* Lindamood, C., III, 580
- Collins, J. M., *see* McManus, M. E., 669
- Colon, isolated, morphine-like action of FK 33-824 on motility of (rats), 534
- Collagen, lung, effect of lysyl oxidase activity (rats), 675
- Commissaris, R. L., Lyness, W. H., Moore, K. E. and Rech, R. H.: Differential antagonism by metergoline of the behavioral effects of indole-alkylamine and phenethylamine hallucinogens in the rat, 170
- Contractile force, effect of strophanthidin and antimycin (dogs), 75
- Contractile responses
- of intralobar pulmonary arteries and veins to 9 $\alpha$ ,11 $\alpha$ -epoxymethanoprostaglandin H<sub>2</sub> (dogs), 326
  - of urinary bladder, development of (rabbits), 250
- Contractility, in isolated muscle of malignant hyperthermia (pigs), 107
- Contraction
- myometrial, mediation by  $\alpha$ -*pha* receptor subtypes in uterus (rabbits), 290
  - vascular, relationship to cellular sodium content, effect of captopril (rats), 520
  - ventricle, effect of rubidium (guinea pigs), 573
- Contractions
- in heart and soleus muscle, effects of isoproterenol, prenalterol and procaterol on (cats), 798
  - of isolated colon, effect of FK 33-824 (rats), 534
- Convulsions, insulin hypoglycemic, effect of gold thioglucose on sensitivity to (mice), 258
- Cooxidation, renal, of acetaminophen, prostaglandin endoperoxide synthetase-dependent (rabbits), 659
- Cordova, M. A., Bagwell, E. E. and Lindenmayer, G. E.: Studies on the interaction of propranolol and tetrodotoxin on *dV/dt*<sub>max</sub> of canine Purkinje fiber action potentials, 187

- Creatine kinase, specific activity in myocardial ischemia, effect of ZK 36 374 (cats), 243
- Cyclic AMP
- effect on activation of tyrosine hydroxylase in portal vein (rabbits), 97
  - effect on neuronal firing in brain (rats), 496
  - formation in spinal cord, adenosine regulation of (rats), 370
  - production, relationship to hydro-osmotic actions of phosphodiesterase activity of antidiuretic hormone, effect of fluoride (toads), 459
- Cyclic GMP
- accumulation and <sup>45</sup>Ca-uptake in ganglion, effect of preganglionic nerve stimulation (rats), 338
  - formation, relationship to relaxation of coronary arterial smooth muscle by glycyl trinitrate, nitroprusside, nitrite and nitric oxide (cows), 181
- Cyclooxygenase, inhibition, effects on preventing coronary arterial thrombosis (dogs), 299
- Cyclooxygenase activity, inhibition, role in stimulation of ventilation and oxygen consumption (dogs), 723
- Cytochrome P-450
- destruction by allylisopropylacetamide (dog), 125
  - inhibition by phenelzine through heme destruction (rats), 147
- Czervionke, R. L., *see* Parks, W. M., 415
- D-600, effect on adrenochrome-induced coronary artery constriction in heart (rats), 225
