

The Journal of PHARMACOLOGY AND EXPERIMENTAL THERAPEUTICS

VOLUME 221
JUNE 1982
NUMBER 3

CONTENTS

Effects of Inducers and Inhibitors of Cytochrome P-450-Linked Monooxygenases on the Toxicity, <i>in Vitro</i> Metabolism and <i>in Vivo</i> Irreversible Binding of 2-Methylnaphthalene in Mice. Kathryn A. Griffin, Collin B. Johnson, Robert K. Breger and Ronald B. Franklin	517
Vascular Tolerance to Nitroglycerin and Cyclic GMP Generation in Rat Aortic Smooth Muscle. R. A. Keith, A. M. Burkman, T. D. Sokoloski and R. H. Fertel	525
Independent Mechanisms for Bradykinin-Mediated Prostaglandin E₂ and Cyclic GMP Syntheses in Rabbit Renal Inner Medulla Slices. Terry V. Zenser, Neville S. Rapp and Bernard B. Davis	532
Monensin Inhibits Catecholamine Synthesis in Pheochromocytoma Cells. Karen K. Vaccaro, Bruce T. Liang, Beth E. Sheard and Robert L. Perlman	536
Noradrenergic Modulation of Serotonin Synthesis and Metabolism. I. Inhibition by Clonidine <i>in Vivo</i>. John F. Reinhard, Jr. and Robert H. Roth	541
Comparison of the Effects of Trimethadione and Its Primary Metabolite Dimethadione on Neuromuscular Function and the Effects of Altered pH on the Actions of Dimethadione. Marc T. Alderdice and June E. McMillan	547
Antiarrhythmic Activity of the O-Demethyl Metabolite of Encainide. Dan M. Roden, Henry J. Duff, Douglas Altenbern and Raymond L. Woosley	552
Hepatorenal Failure Induced by Tetracycline in Dogs with Portacaval Shunt. Bahjat A. Faraj, Farouk M. Ali, J. T. Fulenwider, Eugene J. Malveaux and Wayne M. Stacciarini	558
Effects of Chronic Treatment with Thyroxine and Estradiol on Estrogen Concentration in Serum and on Hepatic Microsomal Catechol Estrogen Formation in Female Rats. K. T. Shiverick, A. M. Delorme, J. G. Scammell and M. J. Fregly	564
Ketamine and Ditran Block End-Plate Ion Conductance and [³H]Phencyclidine Binding to Electric Organ Membrane. Robert L. Volle, Karim A. Alkadhi, Dimitrie D. Branisteanu, Linda S. Reynolds, Paul M. Epstein, Henry Smilowitz, Jeremy J. Lambert and Edward G. Henderson	570
Effects of Chemical Sympathectomy on the Increases in Plasma Catecholamines and Dopamine-β-Hydroxylase Induced by Forced-Immobilization and Insulin-Induced Hypoglycemia: Origin and Fate of Plasma Dopamine-β-Hydroxylase. A. S. Israel, Y. R. Barbella and L. X. Cubeddu	577
Correlation between the Disposition of [¹⁴C]Clofilium and Its Cardiac Electrophysiological Effect. T. D. Lindstrom, P. J. Murphy, J. K. Smallwood, S. A. Wiest and M. I. Steinberg	584
Stereoselective Metabolism and Disposition of the Enantiomers of Mephentyoin during Chronic Oral Administration of the Racemic Drug in Man. A. K�pfer, P. V. Desmond, S. Schenker and R. A. Branch	590
Spare Cholinergic Receptors in the Urinary Bladder. Gordon F. Anderson and Bernard H. Marks	598
Effects of Theophylline on Behavioral State Development in the Newborn Rabbit. Victor H. Denenberg, Lewis P. Zeidner, Evelyn B. Thoman, Paul Kramer, Jonelle C. Rowe, Anthony F. Philipps and John R. Raye	604
Inotropic and Chronotropic Effects of Vasodilators. Julio E. P�rez, Leonor Borda, Rafael Schuchleib and Philip D. Henry	609
Mechanism of Arachidonic Acid-Induced Vasoconstriction in the Intact Rat Kidney: Possible Involvement of Thromboxane A₂. Hassan M. Sakr and Earl W. Dunham	614
Acute Effects of Alkylating Agents on Canine Renal Function: N-Ethylmaleimide and Some of Its Potential Biotransformation Products. Daniel A. Koechel and Gary O. Rankin	623
Enhancement of the Responsiveness of the Rat Diaphragm by L-Methionine and Phospholipid Methylation and Their Relationships to Aging. B. V. Rama Sastry, L. K. Owens and V. E. Janson	629
Intravenous Self-Administration of Phencyclidine and Related Compounds in the Dog. Marcus E. Risner	637

Contents Continued on iv

Prostaglandin E₂ Derived from Phosphatidylinositol Breakdown in the Exocrine Pancreas Facilitates Secretion by an Action on the Ducts. Paul J. Marshall, John F. Dixon and Lowell E. Hokin	645
Role of Striatal Dopaminergic Receptors in Amphetamine-Induced Behavioral Facilitation. Paul G. Conway and Norman J. Uretsky	650
Adsorbent and Cathartic Inhibition of Enteral Drug Absorption. William B. Van de Graaff, W. Leigh Thompson, Irving Sunshine, David Fretthold, Fredrich Leickly and Harry Dayton	656
Functional Evidence for the Presence of Cholinergic Nerve Endings in the Colonic Mucosa of the Rat. Ze-Ai C. Wu, Scott D. Kisslinger and Timothy S. Gaginella	664
Binding of a Radiolabeled Triazolopyridazine to a Subtype of Benzodiazepine Receptor in the Rat Cerebellum. Debra L. Niehoff, Robert D. Mashal, W. Dale Horst, Robert A. O'Brien, Jose M. Palacios and Michael J. Kuhar	670
Relationship between Bupropion Disposition and Dopamine Uptake Inhibition in Rats and Mice. Robert F. Butz, Richard M. Welch and John W. A. Findlay	676
Development of Polyamine and Biogenic Amine Systems in Brains and Hearts of Neonatal Rats Given Dexamethasone: Role of Biochemical Alterations in Cellular Maturation for Producing Deficits in Ontogeny of Neurotransmitter Levels, Uptake, Storage and Turnover. T. A. Slotkin, G. Barnes, C. Lau, F. J. Seidler, P. Trepanier, S. J. Weigel and W. L. Whitmore	686
Nicotinic Acetylcholine Receptor Desensitization Studied by [³H]Perhydrohistrionicotoxin Binding. Esam F. El-Fakahany, Amira T. Eldefrawi and Mohyee E. Eldefrawi	694
Relationship between Adherence, Chemotaxis and the Accumulation of Rat Polymorphonuclear Leukocytes at an Inflammatory Site. N. Ackerman, S. Martinez, T. Thieme and A. Mirkovich	701
Hepatic Glutathione and Hepatotoxicity: Changes Induced by Selected Narcotics. Robert C. James, Daniel R. Goodman and Raymond D. Harbison	708
Effects of MK-196 and Furosemide on Rat Medullary Thick Ascending Limbs of Henle <i>in Vitro</i>. Larry C. Stoner and Mary Ellen Trimble	715
Effect of Reserpine Pretreatment on Guinea Pig Ventricular Performance and Responsiveness to Inotropic Agents. Robert L. Rodgers and John H. McNeill	721
Cholestatic Effect of Harmol Glucuronide in the Rat. Prevention of Harmol-Induced Cholestasis by Increased Formation of Harmol Sulfate. Klaas R. Krijgheld, Henk J. Koster, Egbert Scholtens and Gerald J. Mulder	731
Evidence That the Discriminative Stimulus Properties of Fentanyl and Ethylketocyclazocine are Mediated by an Interaction with Different Opiate Receptors. Gary T. Shearman and Albert Herz	735
Pharmacological Analysis of <i>Beta</i> Adrenoceptor Blockade-Induced Coronary Blood Flow Redistribution in Dogs Using <i>l</i>-Penbutolol. Alain Berdeaux, Paul Duhazé and Jean-Francois Giudicelli	740
Mode of the Ciguatoxin-Induced Supersensitivity in the Guinea-Pig Vas Deferens. Y. Ohizumi, Y. Ishida and S. Shibata	748
Differential Blocking Effects of Several Dopamine Receptor Antagonists for Peripheral Pre- and Postsynaptic Dopamine Receptors in the Anesthetized Dog. N. B. Shepperson, N. Duval, R. Massingham and S. Z. Langer	753
Extrasynaptic Location of <i>Alpha</i>-2 and Noninnervated <i>Beta</i>-2 Adrenoceptors in the Vascular System of the Pithed Normotensive Rat. B. Willfert, P. B. M. W. M. Timmermans and P. A. van Zwieten	762
Choleretic and Diuretic Properties of Dihydroxydibutyl Ether in the Rat. Michèle Corbic, Micheline Dumont, Ghislaine De Couët and Serge Erlinger	769
Positive Inotropic Effect of Amrinone in Relation to Cyclic Nucleotide Metabolism in the Canine Ventricular Muscle. Masao Endoh, Shuji Yamashita and Norio Taira	775
Selective Desensitization of Cardiac <i>Beta</i> Adrenoceptors by Prolonged <i>in Vivo</i> Infusion of Catecholamines in Rats. Hui Yun Chang, Robert M. Klein and George Kunos	784
Acceleration of 7-[<i>Methoxy</i>-¹⁴C]Coumarin-Derived Carbon Dioxide Exhalation by Cobalt Pretreatment in Mice. W. Legrum and J. Frahscek	790
Induction of Hepatic γ-Glutamyl Transpeptidase in Rats by Repeated Administration of Aminopyrine. Tetsuo Satoh, Takashi Igarash, Takashi Hirota and Haruo Kitagawa	795
The Direct Negative Chronotropic Action of Prazosin on the Canine Sinus Node. Kerry M. Schwartz, Ferdinand Urthaler and Thomas N. James	801
Variable Effects of Isoproterenol on Action Potential Duration in Guinea-Pig Papillary Muscle: Differences between Nonsteady and Steady State; Role of Extracellular Calcium Concentration. Kazuo Munakata, Jerome A. Dominic and Borys Surawicz	806
Inhibition of Calcium Absorption in the Cortical Thick Ascending Limb of Henle's Loop by Furosemide. James E. Bourdeau, Susan L. Buss and Gerald G. Vurek	815
Epinephrine as a Tool to Investigate the Question of Recycling of Sympathetic Storage Vesicles in the Heart: Chemical and Morphological Studies. Arun R. Wakade, Taruna D. Wakade, Christiene Müller and Martin Schwab	820
Guest Editors	828
Index, Volume 221, April-June, 1982	829
