

# INDEX

Volume 222, July–September, 1982

- Abe, Y., *see* Miura, K., 246
- Abiko, Y., *see* Ichihara, K., 720
- Abraham, D. J., *see* Fisher, A., 140
- Abramson, F. P., *see* Bai, S. A., 589
- Acetaminophen, formation from phenacetin and acetanilide on sulfation kinetics in perfused liver (rats), 14
- Acetanilide, deuterated and non-deuterated, role in formation of acetaminophen in perfused liver (rats), 14
- Acetylcholine  
  antinociception, mediation by opiate receptors *via* the release of morphine-like materials (mice, guinea pigs), 612  
  effect on norepinephrine release in cerebral arteries (cats, rabbits), 562  
  effects on cyclic AMP levels in heart (chicks), 383  
  endothelium-dependent effects in femoral artery (dogs), 166  
  in brain, effect of clonidine on physostigmine-induced increases of (mice), 595  
  in brain, effect of ethylcholine mustard aziridinium ion on (mice), 140  
  metabolism, during hypoxia, effect of 3,4-diaminopyridine on (mice), 576  
  synthesis and release in term placenta, effect of choline acetyltransferase on (man), 301  
  turnover rate in brain, effects of adenosine analogs and theophylline on (rats), 550
- Acetylcholine release, influence of glycosidic conformation on activity of adenine nucleosides as presynaptic inhibitors of (guinea pigs), 241
- inhibition by streptomycin (frogs), 488
- Adenine nucleosides, presynaptic inhibitors of acetylcholine release, influence of glycosidic conformation and charge distribution on (guinea pigs), 241
- Adenosine  
  presynaptic inhibition of acetylcholine release by (guinea pigs), 241  
  -uptake blockade by benzodiazepines (guinea pigs), 752
- Adenosine triphosphate, endothelium-dependent effects in femoral artery (dogs), 166
- Na<sup>+</sup>,K<sup>+</sup>-Adenosine triphosphatase, inhibition by vanadate (dogs), 447
- Adenylate cyclase, development in heart (mice), 7
- Adrenergic receptor, *beta*, development in heart (mice), 7
- Adrenergic receptors, *alpha*-1 and *alpha*-2, interactions of imidazolines (guinea pigs), 29
- Adrenoceptors  
  *alpha* adrenergic, effects induced by clonidine-like imidazolidines (rats), 705, 712  
  *alpha*-1, antagonism of ketanserin by (rats), 227  
  *beta*, role in renin release (dogs), 606  
  *beta*, -stimulated renin release, effects of indomethacin (dogs), 414
- Aerice, M. T., *see* Talbot, P. A., 87
- Aflatoxin B<sub>1</sub>, effect on hepatic phase I and II transformation (rats), 471
- Aghajanian, G. K., *see* Marwaha, J., 287
- Agonists  
  *alpha* adrenoceptor, role in mediating sleep-like behavior (chicks, rats), 680  
  *delta* opiate, modulation of dopamine release in striatal slices by (rats), 435
- Agonists-antagonists, adrenergic, effects on phosphatidylinositol labeling and contraction in aorta (rabbits), 258
- Akera, T., *see* Takeda, K., 132
- Albuterol, stimulation of renin release by (dogs), 606
- Alcohol dehydrogenase-dependent metabolism of ethanol, role of testosterone (rats), 20
- Allyl alcohol, effect on hepatic phase I and II transformation (rats), 471
- Alpha*-1 glycoprotein, induction by phenobarbital (dogs), 589
- $\gamma$ -Aminobutyric acid, transmission in medullary depressor region (cats), 517
- Aminophylline, antagonism of 2-chloroadenosine renal effects by (rats), 319
- Aminoquinolines, interaction with presynaptically acting neurotoxins (mice, rats, guinea pigs, chicks), 43
- Aminoxyacetic acid  
  effect on dopamine metabolism in nigrostriatal pathway (rats), 674  
  role in elevation of  $\gamma$ -aminobutyric levels in brain (cats), 517
- Amitriptyline  
  effect on fixed-interval responding (squirrel monkeys), 215  
  -induced toxicity, action of diazepam and sympathomimetic amines against (cats), 424  
  suppression of histamine-induced adrenocorticotrophic hormone release by (rats), 583
- 2'-AMP, effect on nitrofurantoin-mediated depletion of red cell reduced glutathione (man), 430
- Amphetamine, potentiation of ketamine-induced loss of righting reflex and sleeping time (mice), 122
- d*-Amphetamine  
  behavioral and cross-tolerance to (rats), 126  
  self administration, behavioral effects (dogs), 52
- Amygdala-kindled seizures, effect on [<sup>3</sup>H]quinuclidinyl benzilate binding sites (rats), 670
- Analgesia  
  morphine and enkephalins, effect of naloxone (rats), 190  
  tail-flick, effect of buprenorphine on opiate receptors during (rats), 198
- Analog  
  of prostaglandin, renal vasodilatory activities of (dogs, rats), 152  
  prostaglandin endoperoxide, effect on gastric emptying and secretion (monkeys), 379
- Analogs, of  $\beta$ -endorphine, role in modification of  $\beta$ -endorphin (rats), 262
- Anderson, W., Molina, E., Rentz, J. and Hirschowitz, B. I.: Analysis of the 2-deoxy-D-glucose-induced vagal stimulation of gastric secretion and gastrin release in dogs using methionine-enkephalin, morphine and naloxone, 617
- Antagonists  
  *alpha* adrenoceptor, inhibition of sleep time induced by *alpha* adrenoceptor agonists (chicks, rats), 680  
  *alpha*-1 and *alpha*-2, effects on locus ceruleus, dorsal raphe and dorsal lateral geniculate nuclei (rats), 287  
  calcium, effects on coronary collateral blood flow (dogs), 494  
  calcium, effects on inotropic action of vanadate in isolated heart (rats, guinea pigs), 132
- Antidepressant  
  -induced corneal lesions (rats), 282  
  -induced decline in *beta* adrenergic and serotonin<sub>2</sub> receptor binding in brain, effects of adrenocorticotrophic hormone and yohimbine (rats), 566
- Antonaccio, M. J., *see* Taylor, D. G., 517
- Aorta  
  effect of *alpha*-1 adrenergic receptor on phosphatidylinositol labeling and contraction in (rabbits), 258  
  evaluation of *alpha*-1 adrenergic effects of cirazoline in (guinea pigs), 29
- Aprotinin, inhibition of hypotensive action of SQ 14,225 by (dogs), 246
- 1- $\beta$ -D-Arabinofuranosylcytosine, liposome-encapsulated and free, distribution and metabolism of (dogs, mice), 324
- Arachidonate, toxicity, sexual differentiation of (mice), 315
- Arachidonic acid  
  endothelium-dependent effects in femoral artery (dogs), 166  
  mobilization, effects of diuretics on (rats), 306
- Argentieri, T. M., *see* D'Alonzo, A. J., 401
- Arteries, cerebral, effect of acetylcholine on norepinephrine release in (cats, rabbits), 562
- Artery  
  coronary, effect of propranolol on stenosis severity in (dogs), 635  
  ear, contractility induced by serotonin masks desensitization to norepinephrine in (rabbits), 338  
  femoral, endothelium-dependent effects of acetylcholine, adenosine triphosphate, thrombin and arachidonic acid (dogs), 166  
  mesenteric, role of nucleosides and nucleotides in neuromuscular transmission in (rats), 344  
  radial, termination of responses to sympathetic nerve stimulation and to noradrenaline, effects of cocaine and 17- $\beta$ -estradiol (cows), 731
- Artery constriction, renal, effect on prostaglandin I<sub>2</sub> biosynthesis and renin release

- (dogs), 410  
 Artery occlusion, coronary, effects of diltiazem and propranolol (dogs), 720  
 Ashizawa, H., *see* Takahashi, H., 726  
 Aspirin, effect on carbon tetrachloride-induced elevation of angiotensin converting enzyme levels (mice), 641  
 Astroglia, cerebral cortical, identification of  $\beta$  adrenergic receptor subtype on (rats), 600  
 Atropine  
   antagonism of gastrointestinal activity (rabbits), 66  
   effect on fixed-interval responding (squirrel monkeys), 215  
   effect on histamine-induced arousal (rats), 37  
 13-Azaprostanic acid-induced platelet shape change (man), 276  
 Bai, S. A. and Abramson, F. P.: Interactions of phenobarbital with propranolol in the dog. I. Plasma protein binding, 589  
 Barnes, G. A., *see* Slotkin, T. A., 741, 746  
 Bartolome, J., *see* Slotkin, T. A., 741, 746  
 Behavior  
   comparison of morphine and enkephalins, use of tail-flick test in (rats), 190  
   effect of buprenorphine on opiate receptors in tail-flick test (rats), 198  
   effect of *dl*-cathinone and *d*-amphetamine on milk intake (rats), 126  
   effect of 3,4-diaminopyridine on tight rope test scores during hypoxia (mice), 576  
   fixed-interval responding, effects of tricyclic antidepressant and anticholinergic drugs on (squirrel monkeys), 215  
   histamine-induced arousal (rats), 37  
   phencyclidine-like discriminative stimulus properties of narcotic derivatives (rats), 146  
   postnatal maternal, effects of ethanol and *t*-butanol diet on (mice), 294  
   self-administration of  $\beta$ -phenylethylamine, N-methylphenylethylamine, *d*-amphetamine and phenylethanolamine (dogs), 52  
 Benabe, J. E., *see* Nova, J. M. L., 447  
 Benzalkonium chloride, inhibition of histamine release (rats), 652  
 Benzodiazepines, potentiation of cardiac responses to adenosine by (guinea-pigs), 752  
 Benzyldimethyltetradecylammonium Cl, inhibition of histamine release (rats), 652  
 Bepridil, effect on  $\text{Ca}^{++}$ -dependent slow action potentials in skeletal muscle (frogs), 80  
 Best, K. L., *see* Wong, D. T., 61  
 Bevan, J. A., *see* Rapoport, R. M., 338  
 Bicuculline, effect on  $\gamma$ -aminobutyric acid transmission (cats), 517  
 Billingsley, M. L. and Mandel, H. G.: Effects of DNA synthesis inhibitors on post-traumatic glial cell proliferation, 765  
 Binding  
   of gallamine to plasma proteins (dogs), 389  
   of propranolol, induction by phenobarbital (dogs), 589  
 Binding site  
   of aminoglycosides (rats), 350  
   opiate, on dopamine neurons (molluscs), 759  
 Binding sites  
   of opiates (rats, cows, man, chickens, toads), 629  
   quinuclidinyl benzilate, in dentate gyrus, effect of kindled seizures on (rats), 670  
 Biotransformation pathways, phase II, resistance to hepatotoxins (rats), 471  
 Blaine, E. H., Russo, H. F., Schorn, T. W. and Snyder, C.: An orally active prostaglandin analog with renal vasodilatory activity in the dog, 152  
 Blaker, W. D., *see* Murray, T. F., 550  
 Block, E. M., *see* Vonvoigtlander, P. F., 282  
 Blood cells, red, thiopurine methyltransferase activity in (man), 174  
 Blood flow  
   coronary, collateral, effects of calcium antagonists on (dogs), 494  
   myocardial, effect of propranolol on (dogs), 635  
   pancreatic, effect of prostaglandins on (dogs), 623  
   regional, effect of diltiazem on (rats), 359  
   renal, effect of prostaglandin analog (dogs, rats), 152  
 Blood pressure  
   effect of conjugated estrogens (rats), 726  
   effect of ketanserine on (rats), 227  
   effect of labile hydrazones (rats, rabbits), 159  
   involvement of serotonin in control of (cats), 94  
 Blumberg, A., *see* Lukacsko, P., 344  
 Botulinum toxin, effect of chloroquine (mice, rats, guinea pigs, chicks), 43  
 Brady, L. S. and Holtzman, S. G.: Analgesic effects of intraventricular morphine and enkephalins in nondependent and morphine-dependent rats, 190  
 Brain (*see also* specific part)  
    $\alpha$ -1 and  $\alpha$ -2 adrenoceptors, electrophysiological study (rats), 287  
   cerebral cortex mince, propranolol effect on lipids (rats), 109  
   development of norepinephrine and dopamine in (rats), 746  
   development of ornithine decarboxylase and polyamines in (rats), 741  
   effect of citalopram on inhibition by lysergic acid diethylamide of serotonin release from (rats), 220  
   effect of clonidine on physostigmine-induced increases of acetylcholine in (mice), 595  
   effect of conjugated estrogens on renin-angiotensin system in (rats), 726  
   effect of ethanol on opiate receptors in (mice), 182  
   effect of ethylcholine mustard aziridinium ion on acetylcholine, choline acetyltransferase and choline transport in (mice), 140  
   effects of adenosine analogs and theophylline on acetylcholine turnover rate in (rats), 550  
   frontal cortex, influence of adrenocorticotrophic hormone and yohimbine on antidepressant-induced decline in neurotransmitter receptor binding in (rats), 566  
   identification of  $\beta$  adrenergic receptor subtype on astroglia purified from (rats), 600  
   inhibition by pentobarbital of choline uptake in (rats), 778  
   inhibition of norepinephrine uptake by LY135252 in (rats), 61  
   involvement of  $\alpha$  noradrenergic receptors in mediation of polyphosphoinositide metabolism in (rats), 209  
   mesencephalic reticular formation, effects of phentolamine and propranolol on norepinephrine-evoked neuronal firing in (rats), 555  
   solubilization and characterization of opiate binding sites from (rats, cows, man, chickens, toads), 629  
   striatum, modulation of dopamine release by  $\delta$  opiate agonists in (rats), 435  
   transmission of  $\gamma$ -aminobutyric acid in (cats), 517  
   transplant of cerebellum, sensitivity of Purkinje cells to depressant effects of ethanol in (mice), 480  
 Branch, R. A., *see* Jackson, E. K., 410, 414  
 Bromobenzene, effect on hepatic phase I and II transformation (rats), 471  
 Bronchoconstriction, leukotriene-induced *in vitro* and *in vivo*, effects of indomethacin and meclofenamic acid (guinea pigs), 202  
 Brooks, H. L., *see* Zyvoloski, M. G., 494  
 Brunswick, D. J., *see* Heydorn, W. E., 534  
 Brusilow, S., *see* Mitch, W. E., 572

 Buck, J. D., *see* Gross, G. J., 635  
 Buprenorphine, effect on opiate binding (rats), 198  
*t*-Butanol, maternal diet, comparison with maternal ethanol diet on postnatal development (mice), 294  
 Bymaster, F. P., *see* Wong, D. T., 61  
 $\text{Ca}^{++}$ -dependent slow action potentials in skeletal muscle, effects of bepridil and verapamil on (frogs), 80  
 Cadmium, chelation from metallothionein after injection of cadmium chloride (rats), 699  
 Cadmium chloride, effect on hepatic phase I and II transformation (rats), 471  
 Caillé, G., *see* Lambert, C., 232  
 Calcium channel blockers  
   effects on cardiac output distribution (rats), 359  
   effects on renal renin secretion (dogs), 447  
 Calcium pools, involvement in contractile activation in isolated heart, effect of vanadate (rats, guinea pigs), 132  
 Calmodulin, inhibition by phenothiazines (rats), 509  
 Carbon, C., *see* Nivoche, Y., 237  
 Carbon tetrachloride  
   effect on angiotensin converting enzyme levels in lung (mice), 641  
   effect on hepatic phase I and II transformation (rats), 471  
 Cardiovascular dynamics, effect of diltiazem on (rats), 359  
 Carino, M. A., *see* Horita, A., 367  
 Casey, L. C., Fletcher, J. R., Zmudka, M. I. and Ramwell, P. W.: Prevention of endotoxin-induced pulmonary hypertension in primates by the use of a selective thromboxane synthetase inhibitor, OXY 1581, 441  
 Castration, effect on alcohol dehydrogenase-dependent metabolism of ethanol (rats), 20  
 Catecholamines, developmental effects of  $\alpha$ -difluoromethylnornithine on (rats), 746  
*dl*-Cathinone, behavioral and cross-tolerance to (rats), 126  
 Caturay, E. M., *see* Huidobro-Toro, J. P., 262  
 Cavero, I., *see* Roach, A. G., 680  
 Cell, glial, effects of DNA synthesis inhibitors on post-traumatic proliferation of (rats),

- 765  
Cells  
  endothelial, in lung, injury after carbon tetrachloride administration (mice), 641  
  Purkinje, sensitivity to ethanol (mice), 480  
  red, studies on nitrofurantoin-mediated depletion of reduced glutathione in (man), 430  
Cerebellar grafts, ethanol sensitivity of (mice), 480  
Cerebellum, transplant, sensitivity of Purkinje cells to depressant effects of ethanol in (mice), 480  
Chan, C.-C. and Kalsner, S.: Termination of responses to sympathetic nerve stimulation and to noradrenaline in a perfused arterial preparation: The role of neuronal and extraneuronal uptake, 731  
Chan, K. K., *see* Pang, K. S., 14  
Chandra, A., *see* Lin, M. T., 251

Cheney, D. L., *see* Murray, T. F., 550  
Chloramphenicol, effect on diuretic response to furosemide (rats), 232  
Chlorimipramine, effect on fixed-interval responding (squirrel monkeys), 215  
2-Chloroadenosine  
  antagonism by aminoadenosine on renal effects of (rats), 319  
  effect on adenosine turnover rate in brain (rats), 550  
2-Chloropropionate, metabolic and toxic effects, comparison with dichloroacetate (rats, mice), 501  
Chloroquine, effects on botulinum and tetanus toxin (mice, rats, guinea pigs, chicks), 43  
Chlorpheniramine, effect on histamine-induced adrenocorticotrophic hormone release (rats), 583  
Choline acetyltransferase  
  in brain, effects of ethylcholine mustard aziridinium ion on (mice), 140  
  inhibition, effect on acetylcholine synthesis and release in term placenta (man), 301  
Cherian, M. G. and Rodgers, K.: Chelation of cadmium from metallothionein *in vivo* and its excretion in rats repeatedly injected with cadmium chloride, 699  
Chesselet, M. F., *see* Lubetzi, C., 435  
Chromonar, maximal vasodilation by (dogs), 635  
Churchill, P. C.: Renal effects of 2-chloroadenosine and their antagonism by aminophylline in anesthetized rats, 319  
Cicero, T. J., Newman, K. S., Schmoeker, P. F. and Meyer, E. R.: Role of testosterone in ethanol and morphine-induced increases in the alcohol dehydrogenase-dependent metabolism of ethanol in the male rat, 20  
Cimetidine, effect on histamine-induced arousal (rats), 37  
Cinanserin, inhibition of sympathetic nervous discharge (cats), 94  
Cirazoline,  $\alpha$ -1 and  $\alpha$ -2 adrenergic effects of (guinea pigs), 29  
Citalopram, effect on inhibition of serotonin release by lysergic acid diethylamide (rats), 220  
Claeys, M., *see* De Mey, J. G., 166  
Clark, M. J., *see* Leventer, S. M., 301  
Clearance, renal, of digoxin, effect of quinidine (dogs), 49  
Clementi, W. A., McNay, J. L., Talseth, T., Haegele, K. D., Ludden, T. M. and Musgrave, G. E.: Endogenous generation of hydralazine from labile hydralazine hydrazones, 159  
Clohisey, D. R., Quintanilla, A. P. and Gibson, T. P.: Effect of quinidine on the renal clearance of digoxin in the presence of low and high serum digoxin concentrations, 49  
Clonidine  
  bradycardic activities (rats), 712  
  central and peripheral hypotensive activity (rats), 705  
  -induced sleep time, inhibition by  $\alpha$ -2 adrenoceptor antagonists (chicks, rats), 680  
  inhibition of phrenic nerve activity by (cats), 771  
  protective effects on physostigmine-induced toxicity (mice), 595  
Cocaine  
  effect on sympathetic nerve stimulation and noradrenaline concentration in radial artery (cows), 731  
  potentiation of ketamine-induced loss of righting reflex and sleeping time (mice), 122  
Conanan, L. B., *see* Crutchley, D. J., 544  
Conformation, glycoside, influence on activity of adenine nucleosides as presynaptic inhibitors of acetylcholine release (guinea pigs), 241  
Contractile activation, in isolated heart, involvement of calcium pools, effects of vanadate (rats, guinea pigs), 132  
Contractility  
  in ear artery, masks desensitization to norepinephrine (rabbits), 338  
  myocardial, effects of streptozotocin diabetes and insulin treatment on (rats), 395  
Contractions, of aortic strips, effect of  $\alpha$ -1 adrenergic receptor on (rabbits), 258  
Contrepois, A., *see* Nivoche, Y., 237  
Cook, M. A., *see* Paul, M. L., 241  
Corynanthine, effect on clonidine-induced sleeping time (chicks, rats), 680

DeRubertis, F. R., *see* Craven, P. A., 306  
Desensitization  
  of *d*-nicotine (rats), 463  
  to norepinephrine, role of contractility in ear artery on (rabbits), 338  
Desipramine, suppression of histamine-induced adrenocorticotrophic hormone release by (rats), 583  
Desmethylinipramine  
  effect on fixed-interval responding (squirrel monkeys), 215  
  effect on melatonin concentration in pineal gland (rats), 534  
Dewey, W. L., *see* Chau, T. T., 612  
Diabetes, streptozotocin, effect on myocardial sodium pump and contractility of heart (rats), 395  
3,4-Diaminopyridine, effect on behavior and acetylcholine metabolism (mice), 576  
20,25-Diazacholesterol-induced myotonia of skeletal muscle, effects of ouabain and tetrodotoxin (rats), 401  
Diazepam  
  effect on dopamine metabolism in nigrostriatal pathway (rats), 674  
  -induced sensitization of atria to adenosine (guinea pigs), 752  
  protective action against amitriptyline-induced toxicity (cats), 424  
  suppression of histamine-induced adrenocorticotrophic

- hormone release by (rats), 583
- Dichloroacetate, metabolic and toxic effects, comparison with 2-chloropropionate (rats, mice), 501
- 1,1-Dichloroethylene, effect on hepatic phase I and II transformation (rats), 471
- Diet, maternal ethanol and maternal *t*-butanol, comparison on postnatal development (mice), 294
- Diethyldithiocarbamate, effect on seizure intensity (rats), 662
- Diethylnitramine pentaacetic acid, effect on chelation of cadmium (rats), 699
- $\alpha$ -Difluoromethylornithine effects on development (rats), 741
- effects on nervous system development (rats), 746
- Digoxin, renal clearance, effect of quinidine (dogs), 49
- L-Dihydroxyphenylalanine, effect on seizure intensity (rats), 662
- Diltiazem effect on cardiac output distribution (rats), 359
- effect on ischemic myocardial pH (dogs), 720
- effect on normal and ischemic myocardium (dogs), 494
- 2,3-Dimercaptopropranol, effect on chelation of cadmium (rats), 699
