

CONTENTS

Renal Tubular Effects of Sodium Fluoride. G. F. Rush and L. R. Willis	275
Both Nicotinic and Muscarinic Agonists Acutely Increase Tyrosine 3-Monooxygenase Activity in the Superior Cervical Ganglion. Nancy Y. Ip, Robert L. Perlman and Richard E. Zigmond	280
Evidence for <i>Sigma</i>-Opioid Receptor: Binding of [³H]SKF-10047 to Etorphine-Inaccessible Sites in Guinea-Pig Brain. Tsung-ping Su	284
Baclofen Selectively Inhibits Transmission at Synapses Made by Axons of CA3 Pyramidal Cells in the Hippocampal Slice. Brian Ault and J. Victor Nadler	291
A Pharmacological Comparison of 6,7-Dihydroxy-2-Dimethylaminotetralin (TL-99) and N-n-Propyl-3-(3-Hydroxyphenyl)Piperidine (3-PPP) with Selected Dopamine Agonists. Gregory E. Martin, Michael Williams and Dean R. Haubrich	298
Characterization of the Peripheral and Central Effects of SK&F 82526, a Novel Dopamine Receptor Agonist. Richard A. Hahn, Joe R. Wardell, Jr., Henry M. Sarau and Peter T. Ridley	305
Inhibition of Gentamicin Uptake in Rat Renal Cortex <i>in Vivo</i> by Aminoglycosides and Organic Polycations. Christine Josepovitz, Enrique Pastoriza-Munoz, Daniel Timmerman, Mary Scott, Stuart Feldman and George J. Kaloyanides	314
Effects of Phenoxybenzamine or N-Methyl-Chlorpromazine on Regional Cerebral Blood Flow: Comparison of Central and Peripheral <i>Alpha</i> Adrenergic Receptor Antagonism. Ellen Buchweitz and Harvey R. Weiss	322
Desensitization of Adenylate Cyclase and Down Regulation of <i>Beta</i> Adrenergic Receptors after <i>in Vivo</i> Administration of <i>Beta</i> Agonist. Philip J. Scarpace and Itamar B. Abrass	327
Effect of Reserpine Pretreatment on Mechanical Responsiveness and [¹²⁵I]Iodohydroxybenzylpindolol Binding Sites in the Guinea-Pig Right Atrium. Theodore J. Torphy, David P. Westfall and William W. Fleming	332
Effect of Albumin Binding on the Hepatic Transport of Rose Bengal: Surface-Mediated Dissociation of Limited Capacity. E. L. Forker, B. A. Luxon, M. Snell and W. O. Shurmantine	342
Effects of Acute Ethanol on Plasma and Brain Catecholamine Levels in Stressed and Unstressed Rats: Evidence for an Ethanol-Stress Interaction. Kathryn H. DeTurck and Wolfgang H. Vogel	348
Opiate Modulation of Pancreatic Polypeptide Release by a Meal in the Dog. A. Materia, I. M. Modlin, A. C. Sank, D. Albert and B. M. Jaffe	355
Bronchodilator Mechanisms in Bullfrog Lung: Differences in Response to Isoproterenol, Theophylline and Papaverine. Stephen M. Taylor and Hall Downes	359
Comparison of the Transplacental Pharmacokinetics of Cortisol and Triamcinolone Acetonide in the Rhesus Monkey. William Slikker, Jr., Zelda R. Althaus, Jon M. Rowland, Donald E. Hill and Andrew G. Hendrickx	368
Inhibitors of Phenylethanolamine N-Methyltransferase. 1. Effects of 2-Cyclooctyl-2-Hydroxyethylamine on Rat Brain and Adrenal Catecholamine Content and Blood Pressure. Nina Y. Liang, Richard E. Tessel, Gary L. Grunewald and Ronald T. Borchardt	375
Inhibitors of Phenylethanolamine-N-Methyltransferase. 2. Comparison of Nonaromatic Analogs of Phenylethanolamines, 7,8-Dichloro-1,2,3,4-Tetrahydroisoquinoline (SKF-64139) and 2,3-Dichloro-α-Methylbenzylamine: Effects on Rat Brain and Adrenal Catecholamine Content and Blood Pressure. Nina Y. Liang, Richard E. Tessel, Gary L. Grunewald and Ronald T. Borchardt	382
Role of the Central Adrenergic System in Mediating Amitriptyline-Induced Alteration in the Mammalian Blood-Brain Barrier <i>in Vivo</i>. Sheldon H. Preskorn, Boyd K. Hartman, George H. Irwin and Carroll W. Hughes	388
Properties of Pentazocine as a Discriminative Stimulus in the Squirrel Monkey. Jason M. White and Stephen G. Holtzman	396
Maintenance of Schedule-Controlled Behavior by Intravenous Injections of Nicotine in Squirrel Monkeys. Roger D. Spealman and Steven R. Goldberg	402
Effect of Calcium Concentration on Collateral Arteries from the Hind Limb of the Dog. Patricia B. Williams	409
Theoretical and Practical Problems with the Assessment of Intrinsic Efficacy of Agonists: Efficacy of Reputed <i>Beta-1</i> Selective Adrenoceptor Agonists for <i>Beta-2</i> Adrenoceptors. Terry P. Kenakin	416

Contents Continued on *iv*

Effects of Barbiturates and Ethanol on the Physical Properties of Brain Membranes. R. Adron Harris and Friedhelm Schroeder	424
Selective Effects of Phenylethylamine on Central Catecholamines: A Comparative Study with Amphetamine. Farouk Karoum, Samuel G. Speciale, Jr., Lin-Whei Chuang and Richard Jed Wyatt	432
Presence of Histamine and Histamine-Metabolizing Enzyme in Rat and Guinea-Pig Microvascular Endothelial Cells. Audrey Robinson-White and Michael A. Beaven	440
Nisoldipine: A New, More Selective Calcium Current Blocker in Cardiac Purkinje Fibers. Robert S. Kass	446
Effect of Melphalan on δ-Aminolevulinic Acid Synthetase in the Spleen, Bone Marrow and Liver of Rats. Rokea A. el-Azhary and Ahmed E. Ahmed	457
Facilitation of Ganglionic Transmission by Sulpiride: Evidence for an Inhibitory Role of Dopamine in the Canine Sympathetic Ganglion. Patrick T. Horn, Jai D. Kohli and Leon I. Goldberg	462
Effect of Altered Disopyramide Binding on Its Pharmacologic Response in Rabbits. Jin-ding Huang and Svein Øie	469
Rapidly Developing Functional Tolerance to Ethanol is Accompanied by Increased Erythrocyte Cholesterol in Mice. Linda M. Parsons, Edward J. Gallaher and Dora B. Goldstein	472
The Importance of Calcium in the Amphetamine-Induced Stimulation of Dopamine Synthesis in Mouse Striata <i>in Vivo</i>. Yiu K. Fung and Norman J. Uretsky	477
Placental Transfer and Metabolism of 17α-Ethinylestradiol-17β and Estradiol-17β in the Rhesus Monkey. William Slikker, Jr., John R. Bailey, Glenn D. Newport, George W. Lipe and Donald E. Hill	483
Enhancement of Cardiac Actions of Ouabain and Its Binding to Na^+, K^+-Adenosine Triphosphatase by Increased Sodium Influx in Isolated Guinea-Pig Heart. Kyosuke Temma and Tai Akera	490
Operational Characteristics of the Inhibitory Feedback Mechanism for Regulation of Dopamine Release <i>via</i> Presynaptic Receptors. L. X. Cubeddu and I. S. Hoffmann	497
Pharmacological Characterization of Opioid Effects in the Rat Hippocampal Slice. Rita J. Valentino and Raymond Dingledine	502
Evidence for a Sodium-Induced Activation of Central Neurogenic Mechanisms in One-Kidney, One-Clip Renal Hypertensive Rats. Bernard Waeber, Haralambos Gavras, Irene Gavras, Pauline Chao, Oswaldo Kohlman, Margaret R. Bresnahan, Hans R. Brunner and Deborah Vaughan	510
Cannabimimetic Activity from CP-47,497, a Derivative of 3-Phenylcyclohexanol. Albert Weissman, George M. Milne and Lawrence S. Melvin, Jr.	516
Urethane Inhibits Cardiovascular Responses Mediated by the Stimulation of <i>Alpha</i>-2 Adrenoceptors in the Rat. J. Michael Armstrong, Françoise Lefèvre-Borg, Bernard Scatton and Icilio Cavero	524
Effect of Chronic Ethanol Treatment on Temperature Dependence and on Norepinephrine Sensitization of Rat Brain ($Na^+ + K^+$)-Adenosine Triphosphatase. N. Rangaraj and H. Kalant	536
Apparent Frequency-Dependent Effect of Clonidine on Cardiac Sympathetic Transmission: The Role of Neuronal Uptake. Michael J. Lew and James A. Angus	540
Arrhythmogenic Effects of Toxic Concentrations of the Antiarrhythmic Drug Lorcaïnide on the Isolated Canine Ventricle. Jochen Senges, Ioannis Rizos, Johannes Brachmann, Tian-li Gao, Wolfgang Lengfelder and Wolfgang Kübler	547
Different Patterns of Respiratory Responses to Chemical Stimulation of Muscle Receptors in the Rabbit. G. Tallarida, F. Baldoni, G. Peruzzi, G. Raimondi, M. Massaro, A. Abate and M. Sangiorgi	552
Effects of 3,4 Dihydro-8-(2-Hydroxy-3-Isopropylaminopropoxy)-3-Nitroxy-2H-1-Benzopyran, (K-351) on Smooth Muscle Cells and Neuromuscular Transmission in Guinea-Pig Vascular Tissues. H. Asada, T. Nanjo, T. Itoh, H. Suzuki and H. Kuriyama	560
Effects of Epinephrine on Automaticity and the Incidence of Arrhythmias in Purkinje Fibers Surviving Myocardial Infarction. John S. Cameron and Jaok Han	573
Pirmenol Hydrochloride (CI-845) and Reference Antiarrhythmic Agents: Effects on Early Ventricular Arrhythmias after Acute Coronary Artery Ligation in Anesthetized Rats. T. E. Mertz and H. R. Kaplan	580
